Addition to MTMC Freight Traffic Rules Publication No. 1A

AGENCY: Military Traffic Management Command, DOD.

ACTION: Notice.

SUMMARY: The Military Traffic Management Command (MTMC), as the Department of Defense (DOD) Traffic Manager for surface and surface intermodal traffic management services (DTR vol. 1, pg. 101-113), hereby adds a new rule, entitled "Electronic Spot Bid Application," as a new item (Item 6) to MFTRP No. 1A. The purpose of the change is to establish a rule for a new process (Electronic Spot Bid) of soliciting and awarding freight shipments. Information about this new process was published in the **Federal Register**, vol. 64, no. 14, pages 3488-3490, Friday, January 22, 1999.

DATES: This change is effective July 1, 1999.

ADDRESSES: Points of Contact: Headquarters, Military Traffic Management Command, ATTN: MTOP-JF, Room 608, 5611 Columbia Pike, Falls Church, VA 22041-5050, fax: 703-681-9871 atn: Jerome Colton, e-mail: coltonj@mtmc.army.mil.

FOR FURTHER INFORMATION CONTACT: For additional information contact Mr. Jerome Colton at (703) 681-1417.

SUPPLEMENTARY INFORMATION: Effective July 1, 1999, MFTRP 1A will contain a new item (Item 6), entitled "Electronic Spot Bid Application," with the following text:

1. The single-factor rate for Spot Bid shipments includes both the line haul and all required accessorial/protective services identified by the shipper at the time of solicitation. This single-factor rate does not alternate with any other rates or tenders. This non-alternation for Spot Bid takes precedence over any alternation rule found elsewhere in this publication.

2. If a requirement for any additional accessorial/protective service(s) is identified:

a. after solicitation but before pickup: the solicitation (and award, if applicable) will be canceled, and the shipment resolicited to include the additional services.

b. during/after pickup: the charges for the additional requirements will be negotiated with the carrier by MTMC and/or the TO. A basis for comparison for such negotiations may be rates on file for accessorial/protective services shown in current approved carrier voluntary tenders.

3. If the need for fewer accessorial/protective services is identified after solicitation but before pickup, DOD reserves the right to cancel the award and resolicit the shipment based on the new requirements.

4. The rules in this publication will apply to shipments awarded via the Electronic Spot Bid process.

5. Spot Bids will be processed through the Deployment Support Command (DSC) on behalf of those TOs who are unable to do so electronically.

Chief, Freight Services Division, Joint Traffic Management Office.

Abstract: The Early Childhood Longitudinal Study—Birth Cohort 2000 (ECLS-B) is a component of the Early Childhood Longitudinal Studies Program. Studies also include the Kindergarten Class of 1998-1999, currently under way. The ECLS program responds to increased policy interest in a critical period in the development of children, the years from zero to three. The principal purposes of the study are to assess children's health status and their growth and development in a variety of key domains that are critical for later school readiness and academic achievement. The key domains include physical health and growth, motor development, and social and emotional maturation. The data set will provide a comprehensive and reliable longitudinal data set describing the growth of children from birth through first grade. The data can also be used by a wide range of federal agencies on topics such as maternal and child health; childhood illnesses and disabilities; nonparental child care and early childhood education; health intervention; family economics and composition; welfare dependency; cultural diversity; and food and nutrition.
