**PART 3: INITIAL BASELINE DATA FOR EDUCATION REFORM ASSURANCES**

**SPECIAL NOTES:**

- In completing this portion of the application, please refer to Appendix B – Instructions for Part 3: Initial Baseline Data for Education Reform Assurances.
- The data described in Appendix B for two of the education reform assurances in Part 2 of the application – the Improving Assessments Assurance and the Improving Standards Assurance – are the most current available baseline data for these areas. Thus, the Department is not inviting States to submit additional information with respect to these two assurances.
- The Governor or his/her authorized representative should confirm whether the initial baseline data sources described in Appendix B for the four assurances referenced below – Achieving Equity in Teacher Distribution; Improving Collection and Use of Data; Improving State Academic Content and Student Achievement Standards; and Supporting Struggling Schools – reflect the State’s current status with respect to these assurances. A State that confirms the use of these initial baseline data sources does not have to submit additional baseline data with this application. If a State elects not to use the identified data sources for one or more of these four assurances, it must submit other initial baseline data for that assurance.

The Governor or his/her authorized representative confirms that the data sources that are currently available to the Department and described in Appendix B are a reasonable reflection of the current status of the State with respect to the following education reform assurances that he/she provided in Part 2 of the Application (*check only those assurances for which the State accepts the data described in Appendix B*):

- XXX Achieving Equity in Teacher Distribution Assurance.
- XXX Improving Collection and Use of Data Assurance.
- XXX Improving Standards Assurance.
- XXX Supporting Struggling Schools Assurance.

If the Governor or his/her authorized representative anticipates that the State will be unable to meet one or more of the requirements, he or she must sign the additional waiver assurance in Part 4, Section B.
- For the purpose of determining MOE, State support for public institutions of higher education (IHEs) must not include support for capital projects or for research and development or tuition and fees paid by students.

The Governor or his/her authorized representative assures the following (*check appropriate assurances that apply*):

XXX In FY 2009, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.

XXX In FY 2010, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.

\_\_\_\_\_ In FY 2011, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.

The criterion for a waiver of the MOE requirements is provided in Appendix C.
- The Department will be providing additional guidance to States regarding the process for applying for waivers of the Stabilization program MOE requirements.

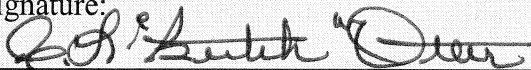

The Governor or his/her authorized representative assures the following:

To the best of his/her knowledge and based on the best available data, the State meets or will meet the eligibility criterion for a MOE waiver for each of the Stabilization program MOE requirements that the Governor or his/her authorized representative anticipates the State will be unable to meet.

**PART 4, SECTION C: MAINTENANCE-OF-EFFORT BASELINE DATA**

**SPECIAL NOTES:**

- A State has some flexibility in determining the “levels of State support” for MOE purposes. For example, for the purpose of the elementary and secondary education MOE requirements, a State may use the level of support that the State provides through its primary elementary and secondary funding formulae, or it may use other relevant data. *See* Appendix C – Instructions for Part 4: Maintenance of Effort.

**1. Levels of State support for elementary and secondary education** *(the amounts may reflect the levels of State support on either an aggregate basis or a per-student basis):*

<b>FY 2010*</b>	<b>\$ <u>316,480,700</u></b>
<b>FY 2011*</b>	<b>\$ <u>unknown at this time</u></b>

(\* Provide data to the extent that data are currently available.)

**3. Additional Submission Requirements:** In an attachment to the application –

- (a) Identify and describe the data sources used in determining the levels of State support for elementary and secondary education; - and -

**PART 5, SECTION A: STATE USES OF THE EDUCATION STABILIZATION FUND**

SPECIAL NOTES:

- Section A of Part 5 requests data on the Education Stabilization Fund (CFDA No. 84.394). In completing this portion of the application, please refer to Appendix D – Instructions for Part 5: State Uses of Funds.
- At a later date, the Department will collect data on the levels of State support for elementary, secondary, and postsecondary education in FY 2011.
- These data may differ from the data in the levels of support for maintenance-of-effort purposes. See instructions in Appendix D.
- The term “postsecondary education” refers to public IHEs.

**1. Levels of State Support for Elementary, Secondary, and Postsecondary Education**

Provide the following data on the levels of State support for elementary, secondary, and postsecondary education:

- |   |                                   |
|---|-----------------------------------|
| (a) Level of State support for elementary and secondary education in FY 2008 provided through the State’s primary elementary and secondary education funding formulae | \$ <u>1,441,254,600</u>           |
| (b) Level of State support for public IHEs in FY 2008   | \$ <u>332,585,400</u>             |
| (c) Level of State support for elementary and secondary education in FY 2009 provided through the State’s primary elementary and secondary education funding formulae | \$ <u>1,407,551,500 (reduced)</u> |
| (d) Level of State support for public IHEs in FY 2009   | \$ <u>340,778,600 (reduced)</u>   |
| (e) Level of State support for elementary and secondary education in FY 2010 provided through the State’s primary elementary and secondary education funding formulae | \$ <u>1,383,750,900</u>           |
| (f) Level of State support for public IHEs in FY 2010   | \$ <u>316,480,700</u>             |

**Additional Information:** Did the State, prior to October 1, 2008, approve formula increases to support elementary and secondary education in FY 2010 or 2011, or to phase in State equity and adequacy adjustments?\*

- Yes                       No

\* See Appendix D Worksheets for further guidance on how such increases affect a State’s “use of funds” calculations.

## 2. State's Primary Education Funding Formulae

**Additional Submission Requirement:** In an attachment to the application, identify and describe each of the State's primary elementary and secondary education funding formulae that were used in determining the calculations provided above for the levels of State support for elementary and secondary education.

## 3. Data on State Support for Postsecondary Education

**Additional Submission Requirement:** In an attachment to the application, identify and describe the specific State data sources that were used in determining the calculations provided above for the levels of State support for public IHEs.

## 4. Restoration Amounts

Based on the Worksheets included in Appendix D, calculate and provide the amount of Education Stabilization funds that the State will use to restore the levels of State support for elementary, secondary, and postsecondary education in FYs 2009 and 2010. As explained in the Instructions in Appendix D, a State must determine the amount of funds needed to restore fully the levels of State support for elementary, secondary, and postsecondary education in FY 2009 before determining the amount of funds available to restore the levels of such support in FY 2010.

### SPECIAL NOTES:

- At a later date, the Department will collect data on the amount of funds, if any, that remain available to (1) restore the levels of State support for elementary, secondary, and postsecondary education in FY 2011, and (2) award subgrants to local educational agencies (LEAs) based on their proportionate shares of funding under Part A of Title I of the ESEA.
- The calculations for these data must be based on the State's total Education Stabilization Fund allocation as reflected in Appendix A and not on the State's initial Education Stabilization Fund award.
- Although the State must follow the Instructions in Appendix D, in order to determine the amount of funds that LEAs and IHEs will receive under the program (i.e., the "restoration amounts"), the Governor has discretion in determining when to release these funds to LEAs and IHEs.

- (a) Amount of the State's total Education Stabilization Fund allocation to be used to restore the level of State support for elementary and secondary education in FY 2009 \$85,097,600 \_\_\_\_\_
- (b) Amount of the State's total Education Stabilization Fund allocation to be used to restore the level of State support for public IHEs in FY 2009 \$0 \_\_\_\_\_

**Part 5, Section A, #3**

Data sources used in determining levels of state support:

Idaho Division of Financial Management Budget Development System database (includes information on legislation currently pending before state legislature)

**Restoration Amounts (continued)**

- (c) Amount of the State’s total Education Stabilization Fund allocation to be used to restore the level of State support for elementary and secondary education in FY 2010 \$61,077,600 \_\_\_\_\_
  
- (d) Amount of the State’s total Education Stabilization Fund allocation to be used to restore the level of State support for public IHEs in FY 2010 \$17,683,900 \_\_\_\_\_
  
- (e) Amount of funds, if any, remaining after restoring State support for elementary, secondary, and postsecondary education in FY 2009 and FY 2010 \$37,840,582 \_\_\_\_\_

**5. Process for Awarding Funds to Public IHEs**

**Additional Submission Requirement:** In an attachment to the application, describe the process that the State will use to determine the amount of funding that individual public IHEs will receive from the funds that the State sets aside to restore the levels of State support for these institutions.

Public School Funds come primarily from state general funds, and are supplemented by federal funds and state dedicated funds. For FY 2009, the following amounts were appropriated by the 2008 Legislature:

General Account	\$1,418,542,700
Dedicated Accounts	55,405,700
Cigarette and Lottery Taxes	7,000,000
Federal Funds	<u>215,000,000</u>
 TOTAL REVENUES	 \$1,695,948,400

The state funds are distributed to public schools according to statute (Title 33, Chapter 10, Idaho Code) and appropriation intent language (special distributions).

Average Daily Attendance (ADA) is calculated from data provided by public schools. There are three reporting periods that end on the first Friday in November, the first Friday in March, and the last day of school. A day of attendance is defined in State Board of Education rules and is basically a minimum of 2 ½ hours for kindergarten students and a minimum of 4 hours for grades 1-12.

ADA is converted to Support Units, per §33-1002 (6), Idaho Code. The divisors take the size of the School District or Charter School into consideration. That is, the larger the ADA, the larger the divisor; the smaller the ADA, the smaller the divisor. In other words, smaller programs will require less ADA to generate a support unit, and larger programs will require more ADA to generate a support unit. This results in more funding per student for smaller programs, taking into consideration smaller class sizes that still require full-time staffing costs.

The Divisors also are a factor in how much is distributed by grade category. For example, a Support Unit (estimated at \$90,000) equals approximately:

- \$2,250 per Kindergarten student ADA (divisor of 40)
- \$3,900 to \$7,500 per Elementary (grades 1-6) ADA (divisors from 12 to 23)
- \$4,800 to \$7,500 per Secondary (grades 7-12) ADA (divisors from 12 to 18.5)
- \$6,200 per Exceptional ADA (divisor of 14.5)
- \$7,500 per Alternative Secondary (grades 7-12) ADA (divisor of 12)

Support Units are used to calculate Salary & Benefit apportionment, and discretionary funds. Support Units based on the first reporting period are used to calculate Salary & Benefit apportionment. Best-28 week Support Units are used to calculate discretionary funds.

Staff hired are categorized into three areas:

- Instructional
- Administrative
- Classified

For Instructional and Administrative staff, an Experience and Education Multiplier (index) per §33-1004A, Idaho Code, will be generated and used to calculate Salary & Benefit apportionment. The higher the index, the higher the Salary Apportionment. The lower the index, the lower the Salary Apportionment.

For each Support Unit, the following Staff Allowance ratios per §33-1004, Idaho Code will be used to calculate Staff Allowance:

- Instructional = 1.1
- Administrative = 0.075
- Classified = 0.375

For example, 50 support units will provide 55 Instructional Staff Allowance (50 x 1.1), 3.75 Administrative Staff Allowance (50 x 0.075), and 18.75 Classified Staff Allowance (50 x 0.375).

Base salaries for each category, as well as the minimum Instructional salary are reviewed and set by the Legislature each session.

A School District's or Charter School's Salary Apportionment is basically:

Support Units x Staff Allowance Ratio x Index (except Classified) x Base Salary

A School District must employ at least the number of Instructional staff in order to receive its Instructional Staff Allowance [§33-1004 (2), Idaho Code]. This is commonly referred to as the "use it or lose it" provision. Charter Schools are exempt from this statutory requirement.

Benefit apportionment is basically 18.04% of Salary Apportionment and is based on the Public Employee Retirement System of Idaho (PERSI) and FICA. It is limited to the smaller of the Staff Allowance or Actual Salaries.

In summary, the amount per ADA that a School District or Charter School receives is generally based on:

- Size (in terms of ADA)
- Student Mix (grades served)
- Staff hired (Experience & Education Multiplier)

Other Statutory distributions such as Pupil Transportation, Border Contracts, Exceptional Contracts / Tuition Equivalents, Early Retirement Incentive, Bond Levy Equalization Support Program, and Lottery are calculated according to statute and rule.

Special Distributions such as Classroom Supplies, Textbook Allowance, Remediation, Technology, Idaho Reading Initiative, and Gifted / Talented are calculated according to appropriation bill intent language.
