NH will receive reimbursement for 80% of new costs due to 2009 and 2010 caseload increases. We are unable to determine how much we might receive. NH can show a modest increase in the 1st quarter of '09 but only if solely state funded programs are included in the calculation. It is unclear whether we will have caseload increases in other quarters; the amount of money we can draw down is unclear. However, any extra money would already be being spent on assistance to this caseload increase. Federal guidance has not yet been issued.

Also, this new legislation provides a one-time payment of \$250 to Social Security and Supplemental Security Income beneficiaries.

Program Title: **Child Support Enforcement**

Short Description: The Stimulus Bill temporarily restores funding to the Child Support program for the duration of the bill. The Federal Government pays States an incentive payment for performance achieved in five specific areas. Prior to the Deficit Reduction Act of 2005, States had been allowed to use incentives as a 34% match to draw additional 66% Federal funds. The ARRA reinstates this matching ability. For NH, the temporary restoration of the "matching" capability will result in an additional \$6.9 million dollars in federal funds.
