Filling Out an Application for NIH Grants

How applicant institutions submit a grant application to the National Institutes of Health (NIH) is changing from mailing in a paper PHS 398 application to submitting the application electronically through Grants.gov using the new SF424 (R&R) application. For information about the timetable for each mechanism's conversion to electronic submission and other information, go to http://era.nih.gov/ElectronicReceipt/.

For electronic submission, applicant institutions can submit applications on PureEdge™ forms downloaded from Grants.gov, build a system-to-system interface with Grants.gov or work with a commercial service provider. Regardless of submission method, Grants.gov electronically performs a simple validation against the application. If it passes inspection, the application is put in a queue, which the National Institutes of Health (NIH) then pulls into its system.

The NIH performs a more specific and detailed electronic check of the application against the instructions in the application guide and funding opportunity announcements. If the application passes the validation check without errors, the NIH sends an email to the Authorized Organization Representative (AOR)/ Signing Official (SO) and Project Director (PD)/Principal Investigator (PI). The email includes the NIH application tracking number and notification that both the SO and PI have two days to view the application image on the eRA Commons before the application automatically moves to Receipt and Referral.

If the application doesn't pass the validation check—usually because NIH instructions are not being followed—NIH sends the AOR/SO and PD/PI an email saying there are error messages and/or warnings:

- **Error message:** All errors must be fixed to complete the submission process. Once all errors are addressed, the applicant organization must submit the entire corrected application through Grants.gov as a changed/corrected application.
- **Warning:** Warnings do not stop the application from being accepted by the eRA System; however, each warning should be looked at carefully to avoid delays or issues later on in the peer review process.

The AOR/SO and PD/PI can log onto the eRA Commons to view the error codes and warnings. **Note:** since email can be unreliable, it is the applicant's responsibility to periodically check the eRA Commons for the status of the application after notification is received that NIH has pulled it from the Grants.gov queue.

So how can one be sure that the application passes all validation checks and results in no error messages or warnings? Carefully read and follow the application guide and announcement-specific instructions. Be sure that you fill out all sections to the best of your ability and that you include all attachments. NIH requires that all text attachments be in PDF format. Be clear about what is required for the type of application you are submitting. Make sure you observe the page limits for the different attachments as defined in the application and announcement. Confirm that you haven't exceeded direct cost limitations. Don't take shortcuts.

Here are some tips for filling out each section of the application. The NIH requires that applications be submitted using the SF424 (R&R) package, as well as supplemental, agency-specific forms identified as Public Health Service (PHS) application forms. Note that included in each funding opportunity announcement is the complete application forms package and guide.

After the application package is submitted, the eRA system will assemble the grant image, generate a table of contents and include headers (PI's name) and footers (page numbers) on all pages.

The following notes, tips, validations and errors/warnings address SF424 Research & Related (R&R) and PHS 398 specific components of an NIH application package.

Revision Summary

Version Number	Summary of Changes
3.5	Requirements for 200810 • Warning if indirect cost rate is not equal to 8 for a K application • Change of PI not allowed for K application (Traing K exempt form validation) • Error if cover letter not attached for mentored K • Added New Career Development Supplemental Form Fields elements, rules, and validations
	Updated numbering of Career Development Supplemental Form Fields elements Updated error/warning messages for the following: • Cover letter required (for K application with reference letter) • Error message if mentoring plan provided for mentored K • Citizenship message for K applications Added missing validation and error for The Statements by Mentor, Co-Mentors, Consultants, Contributors attachment Career Development Supplemental Form
	Revision to Citizenship validation and message for K application
	Revision to page limits warning messages for candidate information and research plan attachment on Career Development Supplemental Form

Key

NEW!	To comply with Section 508, all changes will be indicated with a **NEW!** Icon in the Notes & Tips column
(Minimum Validations)	Other Agency mechanisms that have not transitioned for NIH will be subject to a set of minimum validations and are identified as Minimum Validations in this document.

Truncated Items--Note: where items are truncated, grant image should display value as submitted through grants.gov, unless otherwise indicated. (Minimum Validations)

Validations at Schema Level—The implementation of some validation requirements may be done at the schema level rather than at the application validation level. The validation requirement does not change; however, in some cases, the error message may be different. The error messages in this table apply only in those cases where the validation is done at the application validation level. (Minimum Validations)

Attachment Validations—A validation needs to be done on all attachments (including appendices) to make sure they are in .pdf format. If an attachment is not in .pdf format, the following error should be returned: "The <attachment> attachment is not in PDF format, or the filename is invalid. All attachments must be provided to the agency in PDF format; filenames must be included with no spaces or special characters (including brackets), and a .pdf extension must be used." (Minimum Validations)

If an attachment is empty (0 bytes), the following error should be returned: "The <attachment> attachment was empty. PDF attachments cannot be empty attachments. Please submit a changed/corrected application with the correct PDF attachment." (Minimum Validations)

If editable PDFs are included, the Exchange software should 'flatten' the PDF so that it can be processed. If Exchange Services detects that the flattening process did not work, the following error should be returned: "The <attachment> attachment contained formatting or features not currently supported by NIH. Help with PDF attachments can be found at http://era.nih.gov/ElectronicReceipt/pdf_guidelines.htm ." (Minimum Validations)

If a PDF with password protection has been included, the following error should be returned: "The <attachment> attachment has password protection. PDF attachments must not include password protection. Help with PDF attachments can be found at http://era.nih.gov/ElectronicReceipt/pdf_guidelines.htm. (Minimum Validations)

If there is a processing error on an attachment (other than errors listed here), the following error should be returned: "There was a processing error on page <page number> of the <attachment> attachment. This prevented successful processing of the application. Please contact the eRA Help Desk for assistance." (Minimum Validations)

For attachments, the software should detect the page width and height. If the page size is greater than 11 x 11 inches or less than 8.5 x 8.5 inches, the software should change the page size from the actual size to 8.5 x 11 inches. (Minimum Validations)

Trimming Spaces—For all validations where a comparison is being made on text entry (or dropdown) fields against the eRA database, trim spaces at the end before making the comparison. (Minimum Validations)

Limited Validations and Opting Out—For some mechanisms, there is a set of limited validations that will apply to all PAs and PASs, and to any PARs and RFAs that don't 'opt out'. Limited validations have been indicated where applicable below by 'LV'.

The 'opt out' indicator will need to be added for each announcement stored in the database, defaulting to 'opt in'. For now, data will be updated manually to set the indicator for specific records to 'opt out'; eventually, this will become part of the Receipt and Referral RFA/PA Maintenance screen.

If an announcement is 'opt out', *none* of the limited validations for the corresponding mechanism will be performed for applications submitted in response to that announcement. However, PARs and RFAs that opt out of the limited validations will get a generic warning message if they exceed the threshold for the corresponding validation. In each case, the specific generic message is included in the table below.

PARs and RFAs that opt out of the limited validations are still subject to the validations that have not been identified as limited validations.

Identifying a Combined Mechanism—A Combined Mechanism identifier needs to be added to the information for each announcement stored in the database. This will be used to identify any allowable pairs of mechanisms for an announcement. The identifier can be used in conjunction with the activity code to indicate which combined mechanism is being represented. For now, the only allowable pair that will be identified with the identifier is R21/R33; an activity code of R21 plus this indicator will indicate a combined R21/R33.

Identifying Small Business Type—An indicator for whether an announcement is an SBIR or an STTR needs to be added to the information for each small business announcement stored in the database.

Minimum Validations for Specific-Mechanisms—Other Agency mechanisms that have not transitioned for NIH will be subject to a set of minimum validations, identified as Minimum Validations in the validations listed below and in the processing sections above. This set of minimum validations may also apply to NIH mechanisms for which applications are being submitted through Grants.Gov but that have not gone through a full transition. The affected mechanisms are to be found in a property file.

Identifying Types of Career Awards

Career Awards (Ks) fall into three main groups: mentored, independent, and training. An indicator needs to be added to the information stored for each activity code to identify which type of Career Award is represented by the activity.

The following notes, tips, validations and errors/warnings address SF424 Research & Related (R&R) and PHS 398 specific components of an NIH application package.

SF424 (R&R)

Component	Field	Rule	Validation	Error Message	Notes & Tips
SF424 (R&R)	**Type of Submission (Pre-App, App, Changed App)**	1.1.1	For non-X02 submissions, do not accept 'Pre-application' as submission type (Minimum Validations)	'Pre-application' (SF 424 RR cover page, Type of Submission) is not a recognized submission type for these applications.	
		1.1.2	For X02 submissions, do not accept 'Application' as submission type	'Application' is not a recognized submission type for X02 applications. Please select 'pre-Application' as the type of submission on the SF 424 RR Cover page.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
		1.1.3	Do not accept 'Application' submission type if there is an associated prior submission. Find associated prior submission by matching on PI Commons account, institution, and project title for the same council round. (Minimum Validations)	This application is a duplicate of a previous submission for the same council round. Please submit again using the 'Changed/Corrected Application' Type of Submission on the SF 424 RR cover page.	
		1.1.4	Do not accept X02 pre-application submission type if there is an associated prior submission. Find associated prior submission by matching on PI Commons account, institution, and project title for the same council round.	This application is a duplicate of a previous submission for the same council round. Please resubmit using the 'Changed/Corrected Application' Type of Submission on the SF 424 RR cover page.	
		1.1.5	Do not accept changed/corrected application if the original application has been verified. (Minimum Validations)	Your application has already been submitted for processing by NIH staff. Please contact the Scientific Review Administrator (SRA) for permission to submit corrections.	
		1.1.6	Do not accept changed/corrected application if the PI, DUNS, Project Title, and council round are a duplicate of another application and the opportunity ID is not the same as that of the other application. (Minimum Validations)	This application is a duplicate of a previous submission for the same council round, but in response to a different announcement.	
SF424 (R&R)	Date Submitted	1.2.1	If Phase II SBIR/STTR, and Phase I identified as NIH grant, provide warning if date submitted is more than 2 years after Phase I project period end date	Phase II SBIR/STTR applications should be submitted within 6 receipt dates after the expiration of the Phase I budget.	
SF424 (R&R)	Date Received by State				
SF424 (R&R)	State Application Identifier				
SF424 (R&R)	Date Received by Grants.gov				

Component	Field	Rule	Validation	Error Message	Notes & Tips
SF424 (R&R)	**Federal Identifier**	1.7.1a	If a resubmission or renewal, this component is mandatory (Minimum Validations)	For resubmissions (amended applications) and renewals (competing continuations), the Federal Identifier must be included. Please include the only IC and serial number of the prior grant number in the Federal Identifier field on the SF 424 RR Cover page (e.g., CA123456).	
		1.7.1b	If a revision, this component is mandatory (Minimum Validations)	For revisions, the Federal Identifier must be included. Please include the IC and serial number of the parent grant number in the Federal Identifier field on the SF242 (R&R) Cover page (e.g., CA123456).	
		1.7.2	If a new Phase II SBIR/STTR, this component is mandatory	For Phase II SBIR/STTR submissions, the Federal Identifier must be included. Please include the IC and serial number of the prior grant number in the Federal Identifier field on the SF424 RR Cover page (e.g., CA123456).	
		1.7.3	If a renewal Phase II SBIR/STTR, this component is mandatory	For Phase II SBIR/STTR submissions, the Federal Identifier must be included. Please include the IC and serial number of the prior grant number in the Federal Identifier field on the SF424 RR Cover page (e.g., CA123456).	
		1.7.4	If Phase II SBIR/STTR, and Phase I grant number is found in NIH database, provide warning if Phase I grant has not been awarded.	Phase II SBIR/STTR applications may be submitted only if the Phase I grant has been awarded.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
		1.7.5	If a resubmission, revision, or renewal, or a new Phase II SBIR/STTR, components of grant number must be 'parsable'. Components are <application_type> <mechanism> <institute> <serial number>-<support year><suffix code) (example: 1R01GM072828-01A1) −Application Type is a one-digit number. −Mechanism is a letter followed by a two-digit number. −Institute (IC) consists of two characters. −Serial number is a number that has been assigned sequentially within an IC (must be followed by a dash). −Support year is anywhere from 1 to 99. −Suffix code will start with an 'A' or an 'S'. −At least the IC and serial number must be included. (Minimum Validations)	Federal Identifier format (SF 424 RR Cover page) is not valid. Please include only the IC and serial number of the prior grant (e.g., CA123456).	
		1.7.6	If a resubmission, revision, or renewal, or a new Phase II SBIR/STTR, the prior grant number must exist in the NIH system. Matching is performed against Major Activity Code, Institute/ Center and Serial Number. In cases where the major activity code of the prior is 'U', matching is performed only on IC and serial number. (Minimum Validations)	The Federal Identifier that you have entered (SF 424 RR Cover page) is not a grant number that has been previously assigned.	
		1.7.7	If a resubmission, revision, or renewal, or a new Phase II SBIR/STTR, mandatory components are IC and serial number. (Minimum Validations)	You must include the <missing component> of the prior grant in the Federal Identifier field on the SF 424 RR Cover Page.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
		1.7.8	If PIChangeIndicator not set, check if PI on this submission has same Commons Account as PI assigned to the prior grant. If not, provide warning if last name of PI on prior grant matches last name for PI on current application. Provide error if Commons Account doesn't match and last name of PI on prior grant doesn't match last name for PI on current application. Ignore case, spaces, and punctuation on match.	The prior grant entered as the Federal Identifier (SF 424 RR Cover page) is not associated with the eRA Commons account for this PI. If this application involves a change of PI, please indicate 'Change of PI' on the PHS 398 Checklist page. If this is not a change of PI, this application will be received by the agency, but may be returned after internal processing. The prior grant that has been entered as the Federal Identifier (SF 424 RR Cover page) is not associated with this PI. If this application involves a change of PI, please indicate 'Change of PI' on the PHS 398 Checklist page.	
		1.7.9	For a resubmission, a summary statement must have been mailed for the prior grant, unless the prior grant has been withdrawn without a summary statement. (Minimum Validations)	A resubmission (an amended application) cannot be submitted until the Summary Statement for the previous application has been released by the agency.	
		1.7.10	For a resubmission, the prior grant must not have been awarded, unless it has been identified as interim funding. (Minimum Validations)	A resubmission (an amended application) cannot be submitted if a prior version in the same support year has been awarded.	
		1.7.11	For a resubmission, if the prior grant suffix code = 'A2', display a warning (default for mechanisms not otherwise defined).	The number of resubmissions for an application is normally limited to two. This application will be received by the agency, but may be returned after internal processing.	
		1.7.12	For a resubmission, of an R36 application (activity code on funding opportunity = 'R36'), prior grant suffix code must not = 'A2'.	This application has exceeded the number of resubmissions permitted and cannot be accepted.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
		1.7.13	For a resubmission, prior grant suffix code must not = 'A3'.	This application has exceeded the number of resubmissions permitted and cannot be accepted.	
		1.7.14	For a revision, the parent grant must be awarded. (Minimum Validations)	The parent grant for a revision must be awarded. The parent grant for this submission is not a funded grant.	
		1.7.15	Ignore entries in this field for a DP1 or DP2 application.		
		1.7.16	For resubmissions, renewals, and revisions, provide a warning if the activity code of the prior grant doesn't match the activity code of the announcement. SBIR/STTR, R21/R33, and R33 are exempted from this validation.	The mechanism (activity code) of the prior submission (referenced by the Federal Identifier on the SF 424 RR Cover page) does not match the mechanism of the Funding Opportunity Announcement (FOA), <activity code>. Please check the Federal Identifier provided for your application to ensure you are including the correct prior information and the FOA to ensure you are submitting to the correct opportunity. This application will be processed but there may be a delay in referral.	
		1.7.17	For a 'Phase II' SBIR/STTR, validations on parsing Federal Identifier, requiring IC and serial number, and identifying the number as existing in the NIH system are *warnings* only.	Error message text is the same as the items above.	These need to be warnings, since it is possible to submit a phase II application where the phase I was funded externally (or funded as an NIH contract, not a grant).

Component	Field	Rule	Validation	Error Message	Notes & Tips
SF424 (R&R)	**Applicant Information, Organizational DUNS**	1.8.1	Must match DUNS recorded for IPF in Commons. Validate the leftmost 9 characters only, discarding any characters submitted in places 10-13. For comparison purposes, treat trailing zeroes after leftmost 9 characters as blanks. (Minimum Validations)	The DUNS number you have provided in the SF 424 RR Cover page (item 5), Applicant Information) does not match the number in the eRA Commons profile for your organization. The SO/AOR should make sure the correct DUNS number has been entered in the eRA Commons. Instructions on editing institutional profiles are available at https://commons.era.nih.gov/commons-help/189.htm.	If application is from domestic institution of higher education, set appls_t.external_org_WIP_flag= 'Y'; if not, set appls_t.external_org_WIP_flag= 'N'. Domestic institution is country_seq_num in external_org_addresses_t =231 (for the external_org_id where addr_type_code='MLG'). Higher education is external_orgs_t.org_type_code= 10.
		1.8.2	For a revision, provide a warning if it doesn't represent the same organization as the parent grant.	The parent grant may be associated with a different organization (based on the Organization DUNS provided on the SF 424 RR Cover page). Revisions should only be submitted for the same organization as the parent grant. This application will be accepted by the agency, but may be delayed in the peer review process.	
		1.8.3	Organization must not be 'closed' in IMPAC II database.	The DUNS number you have provided in the SF 424 RR Cover page (item 5, Applicant Information) matches an organization in the eRA Commons that has been marked as 'closed'— i.e., it is no longer recognized as an active organization. Please resubmit using a DUNS number for an active organization.	Find closed records in external_orgs_t with a record_status_code of 'C'.
SF424 (R&R)	**Applicant Information, Legal Name**		None		Display in grant image as submitted; store in database as reflected in IPF associated with PI Commons account and org. DUNS. Long-term, change length in eRA db to 120 characters.

Component	Field	Rule	Validation	Error Message	Notes & Tips
SF424 (R&R)	**Applicant Information, Department**		None		
SF424 (R&R)	**Applicant Information, Division**		None		
SF424 (R&R)	**Applicant Information, Street 1 and 2**	1.12.1	If either line>50 characters, truncate (Minimum Validations)		Long-term, change eRA db to 55 chars.
SF424 (R&R)	**Applicant Information, City**		None		
SF424 (R&R)	**Applicant Information, County**		None		
SF424 (R&R)	**Applicant Information, State**	1.15.1	Required if country is US. (Minimum Validations)	The Applicant Information State on the SF 424 RR Cover page must be supplied for US addresses.	
		1.15.2	If country not US must be blank. (Minimum Validations)	The Applicant Information State on the SF 424 RR Cover page should be blank for all countries other than the United States.	
		1.15.3	Transform to 2-char abbreviation before validating and storing. If state name can't be transformed, give error. (Minimum Validations)	The Applicant Information State on the SF 424 RR Cover page is not a valid state name.	
SF424 (R&R)	**Applicant Information, Province**	1.16.1	Required if country is Canada. (Minimum Validations)	The Applicant Information province on the SF 424 RR Cover page must be supplied for Canadian addresses	Province should be mapped into the same database location as state.
		1.16.2	If country not Canada, must be blank. (Minimum Validations)	The Applicant Information Province on the SF 424 RR Cover page should be blank for all countries other than Canada	
		1.16.3	Transform to 2-char abbreviation before validating and storing. If province name can't be transformed, give error. (Minimum Validations)	The Applicant Information Province on the SF 424 RR Cover page is not a valid province name.	
SF424 (R&R)	**Applicant Information, Zip Code**	1.17.1	Required if country is US. (Minimum Validations)	The Applicant Information Zip Code on the SF 424 RR Cover page was not entered.	Long-term, change in eRA db to 13 characters.

Component	Field	Rule	Validation	Error Message	Notes & Tips
		1.17.2	Must be 5 or 9 numeric digits if country is US. (Minimum Validations)	The Applicant Information Zip Code on the SF 424 RR Cover page must be entered in 5-digit or 9-digit format.	
		1.17.3	For country other than US, if >9 characters, truncate (remove any dashes before truncating). (Minimum Validations)		
SF424 (R&R)	**Applicant Information, Country**	1.18.1	For an R13 application (activity code on funding opportunity = 'R13' or 'U13'), provide a warning if country is not US	The Applicant Organization for a Conference Grant should be located in the US. This application will be accepted by the agency, but may be delayed in the peer review process.	
		1.18.2	For an R15 application (activity code on funding opportunity = 'R15') return an error if country is not US	The Applicant Organization for an AREA Grant must be located in the US.	
		1.18.3	For an SC1, SC2, SC3, S10, S11, S21, S22, DP2, C06, G08, UC6, G20, or K application, or for an application in response to a VA announcement, return an error if country is not US	The Applicant Organization for this application must be located in the US.	
		1.18.3.1	For an application in response to a VA announcement, return an error if country is not US	The Applicant Organization for this application must be located in the US.	
		1.18.4	For an R25 (LV) application, return a warning if country is not US	The Applicant Organization for this application is usually located in the US. This application will be accepted by the agency, but may be delayed in the peer review process to determine the eligibility of a foreign Applicant Organization.	
		1.18.5	For an R18 (LV) or U18 (LV) application, return a warning if country is not US	The Applicant Organization for this application should be located in the US. This application will be accepted by the agency, but may be delayed in the peer review process.	
		1.18.6	Must be a valid ISO 3166-1 alpha-3 country code.	The Applicant Information country code provided (<Country>) on the SF 424 RR Cover page is not a valid ISO 3166-1 alpha-3 country code.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
SF424 (R&R)	**Person to be Contacted**	1.19.1	If the combination of all items in this component is more than 30 characters, truncate. Display in grant image as submitted. (Minimum Validations)		Long-term, change in eRA db for Contact Name to accommodate the way it is submitted through Grants.gov.
SF424 (R&R)	**Person to be Contacted, Phone Number**		None		
SF424 (R&R)	**Person to be Contacted, Fax Number**		None		
SF424 (R&R)	**Person to be Contacted, e-mail**	1.22.1	e-mail is required	The e-mail address for the Person to Be Contacted, listed on the SF 424 RR Cover page, is required.	
		1.22.2	Must contain a '@', with at least 1 and at most 64 chars preceding and following the '@'. Control characters (ASCII 0 through 31 and 127), spaces and special chars < > ( ) [ ] \ , ; : are not valid.	The submitted e-mail address for the Person to Be Contacted, (listed on the SF 424 RR Cover page,) <Email>, is invalid. Please enter email addresses in the format username@domainname.com	
SF424 (R&R)	**Employer Identification**	1.23.1	If >12 characters, truncate (no warning). (Minimum Validations)		
		1.23.2	If <13 characters, provide a warning if it is not either 9 characters or 12 characters (after dashes are removed).	The Employer Identification Number on the SF 424 RR Cover page should be a length of 9 characters or 12 characters. The application will be accepted by the agency.	
		1.23.3	If 12 characters, don't map to database if EIN number doesn't exist in eRA database. Strip off dashes before doing comparison.		
		1.23.4	If 9 characters, add a '1' to the beginning of the number and 'A1' to the end (for a total of 12 characters), don't map to database if resulting EIN number doesn't exist in eRA database. Strip off dashes before doing comparison.		

Component	Field	Rule	Validation	Error Message	Notes & Tips
SF424 (R&R)	**Type of Applicant (other, woman owned, disadvantaged)**	1.24.1	For an SBIR/STTR application, must be 'Small Business'.	For an SBIR/STTR application, the Type of Applicant (SF 424 RR Cover page, item 7) must be 'Small Business'.	Design/mapping note: when the applicant type is "O - Small Business", set small_business_code to 'N', but do not supersede any value that is the result of mapping the women-owned or socially-economically-disadvantaged qualifiers. In other words, default when applicant type is "O" should be 'N'' instead of "null". This should be overwritten if the women-owned and socially-economically-disadvantaged indicators need to record either a W, M, or B in this field.
SF424 (R&R)	**Type of Application (New, Resub, Renewal, Contin, Revision)**	1.25.1	Must be either New, Revision, Resubmission, or Renewal (Minimum Validations)	<Type of Application> (SF 424 RR Cover page, item 8) is an invalid Type. The Type must be New, Revision (for supplements), Resubmission (for amended applications), or Renewal (for competing continuations).	For a revision, define parent grant by finding the most recent type 1, type 2, or type 9 that matches on the major activity code, IC and serial number provided in the Federal Identifier, where the Project Start Date on the parent is earlier than or equal to the revision's Project Start Date, and the Project End Date on the parent is later than or equal to the revision's Project End Date. Subprojects and other revisions should be excluded from consideration as parent grants.

In cases where the major activity code of the prior is 'U', matching is performed only on IC and serial number.

Map type of application to database. |
		1.25.2	Renewal is not a valid type for a Phase I SBIR/STTR, SC2, S11 X01, X02, R03, R21, R34, U34, C06, UC6, G08, G13, G20, or mentored K application.	A renewal (competing continuation) cannot be submitted for this application.	
		1.25.3	Provide warning if renewal is submitted for an R21/R33 combination or for a UH2/UH3 combination.	Renewal (competing continuation) applications are accepted if specifically allowed in the Funding Opportunity Announcement (FOA). If the FOA does not explicitly allow renewals, this application may be delayed in the review process or rejected.	
		1.25.4	Revision is not a valid type for an S10, X01, or an X02 application.	A revision (supplement) cannot be submitted for this application.	
		1.25.5	For a DP1 or DP2 application, must be New.	Resubmissions, renewals, and revisions cannot be submitted for this application. This is indicated in the Type of Application on the SF 424 RR Cover page.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
		1.25.6	For an SC1 application, provide error for a renewal if there has already been an awarded renewal for this grant.	SC1 applications may not be submitted if a renewal (a competing continuation) has been awarded in the past.	
		1.25.7	For an SC1 application, provide error for a renewal if the PI has been awarded any R01 grants, whether as a single PI or as a multiple PI.	The PI, <first name last name) has been awarded R01 grants in the past. SC1 applications may not be submitted if the PI has been awarded any R01 grants.

Senior/Key Person (R&R)	**PD/PI Profile Information**	4.1.1	Pulled from SF 424 RR Cover component		Note: identify this Senior/Key Person as the contact PI if multiple PI roles are defined.
Senior/Key Person (R&R)	**PD/PI Profile, credential**	4.2.1	Must be specified for the PD/PI ((Minimum Validations)	The eRA Commons Username must be submitted for the PD/PI in the PD/PI Credential field on the Senior/Key Person page.	
		4.2.2	Truncate if greater than 30 characters, before comparing to account stored in database. No warning message is needed to the submitter. (Minimum Validations)		
		4.2.3	*If specified*, must be a valid Commons account. (Minimum Validations)	The eRA Commons Username <Credential> in the PD/PI Credential field on the Senior/Key Person page is not a recognized eRA Commons account.	
		4.2.4	For the PD/PI, this account must be affiliated with the organization submitting the application and have the PI role (Minimum Validations)	The eRA Commons account indicated for the PD/PI in the Credential field on the Senior/Key Person page, is not affiliated with the applicant organization. Check with your eRA Commons Account Administrator to make sure you have been affiliated with the applicant organization.	
		4.2.5	For a revision, the PI should be assigned to the parent grant. If the person profile for this Commons account is not the same person profile assigned as the PI to the parent grant, and the last name of the PI assigned to the parent grant matches the last name that is submitted for the PI on the current application, provide the indicated warning. This match must not be case-sensitive, and should compare only the non-blank, non-punctuation characters that appear in the last name. If neither the profile nor the last name match, provide the indicated error.	Warning: The eRA Commons account for the PI in the Credential field on the Senior/Key Person page does not include the parent grant of this submission in its support history. Error: The parent grant that has been entered is not associated with this PI.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
		4.2.6	Provide a warning if there is both an SO and a PI role associated with the Commons account.	The eRA Commons account has 'SO' and 'PI' roles. Please create a separate eRA Commons account for the SO/AOR, then delete the 'SO' role from the account included in the submission. You do not need to send a changed/corrected application.	
		4.2.7	Provide a warning if the single role associated with the Commons account is an SO role.	The eRA Commons account included for the PD/PI is for an SO/AOR. Please add a PI role to this account, create a separate 'SO' eRA Commons account for the SO/AOR, and delete the 'SO' role from the original account. You do not need to send a changed/corrected application: however, you will need to change the roles on the Commons account as instructed, or the PD/PI will not be able to view the review outcome or the Summary Statement.	
		4.2.8	For a DP2, provide a warning if the PD/PI has been a PD/PI on a previous awarded DP1, DP2, R01, U01, P (any P), R23, R29, R33, R37, K99/R00, K02, K04, K05, K24, or K26.	A DP2 application should not be submitted for a PD/PI who has ever been a PI or a multiple PI on an R01 or equivalent NIH grant (e.g., R23, R29, R33, R37, DP1, DP2, U01, P01 or center grant); who has been a leader of a P01 or center grant peer-reviewed project; or who has been the recipient of a K99/R00, K02, K04, K05, K24, or K26 award. A PI who replaced another PI on an awarded grant is allowed to submit a DP2 application. This application will continue processing, but may be returned if it is determined that eligibility criteria are not met.	
		4.2.10	For a DP1 application, the PD/PI must not have been a PD/PI on a previously awarded DP1.	A DP1application cannot be submitted for a PD/PI who has previously received a DP1 award.

Senior/Key Person (R&R)	**PD/PI Profile, other project role category**				
Senior/Key Person (R&R)	**Biosketch**	4.4.1	Limited to four pages	The Senior/Key Person Biosketch for the PD/PID, <first name last name>, is longer than four pages.	
		4.4.2	Limited to two pages for a DP1 or DP2 application.	The Senior/Key Person Biosketch for the PD/PI is limited to two pages for this application.	
Senior/Key Person (R&R)	**Current and Pending Support**	4.5.1	Attachment is required for a DP1 or DP2 application.	For this application, a Current and Pending Support attachment must be included for the PD/PI on the Senior/Key Person page	
Senior/Key Person (R&R)	**Profile, senior & key person *x*, name**	4.6.1	Truncate if first or last name>30 chars, or suffix>5 chars. (Minimum Validations)		Long-term, change in eRA db to 60 chars for last name, 35 for first name, 10 for suffix (all names in db) *("nth" indicates the relative order of this KeyPerson element)*
		4.6.2	If this *and* Commons Account provided (and Commons account is recognized), provide warning if last name *and* first name on account don't match provided name. Comparison to ignore case and embedded spaces, but not embedded punctuation.	The name provided for Key Person <submitted first name last name > on the Senior/Key Person page does not match the eRA Commons account name (<Commons profile first name last name>). The application- image will display the name as submitted.	If the Commons account was not recognized, store data in eappl_personnel record without the person ID.
		4.6.3	For S10 applications, provide warning if there are not at least two senior/key persons (other than the PD/PI), with project role of 'Other (specify)'.	Less than 2 senior/key person entries have been included with a project role of 'Other (specify)' on the Senior/Key Person page to represent the major user group cohort. The application will be processed, but a concern may be raised during review.	
		4.6.4	For DP1 and DP2 applications, provide error if any senior/key persons included (other than the PD/PI on the SF 424 RR Cover)	For this application, the only Senior/Key Person who should be included is the PD/PI who is listed on the SF 424 RR Cover page.

Senior/Key Person (R&R)	**Profile, senior & key person *x*, credential**	4.21.1	If specified for a key person with a PD/PI role, must be a valid Commons account. (Minimum Validations)	The eRA Commons Username <Credential>, specified on the Senior/Key Person page, for PD/PI <First Name Last Name>, is not a recognized eRA Commons account.	
		4.21.2	Truncate if greater than 30 characters, before comparing to account stored in database. No warning message is needed to the submitter. (Minimum Validations)		
		4.21.3	If specified for a key person with a PD/PI role, the Commons account must have a PI role associated with it (may have other roles as well).	The Commons account associated with <Credential> does not have a PI role. Please add a PI role to this account before submitting a changed/corrected application.	
		4.21.4	Must be specified if project role is 'PD/PI'. (Minimum Validations)	The eRA Commons Username has not been specified in the 'Credential' field on the Senior/Key Person page for PD/PI <First Name Last Name>	
Senior/Key Person (R&R)	**Profile, senior & key person *x*, project role**	4.22.1	For an R36 application (activity code on funding opportunity = 'R36'), there must be at least one key person included in addition to the PD/PI identified in the PD/PI component.	A mentor must be identified for an R36 application. List the mentor as a key person on the Senior Key Person page.	
		4.22.2	For a C06, UC6, or G20 application, there must be at least one key person identified with a project role of 'Other' or 'Other Professional'.	A Facilities Person must be identified for this application. Please provide the information for this person after the PD/PI on the Senior/Key Person page. Specify a project role of 'Other' or 'Other Professional', and an Other Project Role Category of 'Facilities Person'.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
		4.22.3	For an S11 application, there must be at least one key person identified with a project role of 'Other' or 'Other Professional'.	A Collaborator must be identified for this application. Please provide the information for this person after the PD/PI on the Senior/Key Person page. Specify a project role of 'Other' or 'Other Professional', and an Other Project Role Category of 'Collaborator'.	
		4.22.41	For an SC2 application, there must be at least one key person identified with a project role of 'Other' or 'Other Professional' and a project role category of 'Mentor'.	A Mentor must be identified for this application. Please provide the information for this person after the PD/PI on the Senior/Key Person page. Specify a project role of 'Other' or 'Other Professional', and an Other Project Role Category of 'Mentor'.	
		4.22.5	Provide an error if project role is 'PD/PI' and credential is the same as the PD/PI credential.	PD/PI <First Name Last Name> has been identified in both the PD/PI portion and in the Senior/Key Person Profile portion of the Senior/Key Person page.	
		4.22.6	For NIH applications only, provide a warning if the 'Co-PI' role has been indicated	The role of 'Co-PI' has been indicated for Senior/Key Person <First Name Last Name> on the Senior/Key Person page is not used by NIH. For multiple Principal Investigators, use the PD/PI role. Otherwise, select another role.	
		4.22.61	For SC1, SC2, or SC3 applications, provide an error if the 'Co-PI' role has been indicated	The role of 'Co-PD/PI', indicated for Senior/Key Person <First Name Last Name> on the Senior/Key Person page, is not applicable to this mechanism.	
		4.22.7	If project role is 'PD/PI', identify in database as Multiple PI.		Need to create role record for multiple PIs. Also need to set multi_pi_indicator_code in appls_t. Populate affiliation data in person_involvements_t.external_org_id with the org identified as the default account affiliation. Should be indicated in mapping document.

Component	Field	Rule	Validation	Error Message	Notes & Tips
		4.22.8	For an SC1, SC2, or SC3 application, or for a K application, provide an error if the project role is 'PD/PI.' K12 applications are exempt from this validation.	For this mechanism, applications that include multiple PIs cannot be submitted.	
Senior/Key Person (R&R)	**Profile, senior & key person *x*, other project role category**	4.23.1	Accept "Other Project Role Category" only when "Project Role" is "Other" or "Other Professional"	For key person <First Name Last Name> on the Senior/Key Person page, an 'Other Project Role Category' was submitted for a project role of <project role>. This can be used only when Project Role is "Other" or "Other Professional".	
Senior/Key Person (R&R)	**Senior & key person *x*, Biosketch**	4.24.1	Limited to four pages	The Biosketch for Senior/Key Person <first name last name> on the Senior/Key Person page is longer than four pages.	
Senior/Key Person (R&R)	**Senior & key person x, Current and Pending Support**	4.25.1	For S10 applications, provide warning if no attachment is provided for any three senior/key persons with project role of 'Other (specify)' or with project role of 'PD/PI'.	Less than 3 Current and Pending Support attachments have been included for the major user group cohort on the Senior/Key Person page. The application will be processed, but a concern may be raised during review.	This attachment can be received for a PD/PI, or for a senior/key person with a role of 'Other (specify)'. We need to make sure that at least 3 of these attachments are submitted, whether 1 is submitted for the PD/PI and 2 for the senior/key person (with role of 'Other (specify)'), or 3 are submitted for the senior key person (with role of 'Other (specify)').
Senior/Key Person (R&R)	**Additional Senior/Key Person Profiles**	4.26.1	For version 1.0 of Key Person component, accept only if eight key personnel have been submitted on the Senior/Key Person page.	An Additional Senior/Key Person Profiles attachment may be submitted only if eight senior/key person profiles have been submitted on the Senior/Key Person page.	
		4.26.2	For the Research & Related Senior/Key Person Expanded version of Key Person component, accept only if 40 key personnel have been submitted on the Senior/Key Person page.	An Additional Senior/Key Person Profiles attachment may be submitted only if 40 senior/key person profiles have been submitted on the Senior/Key Person page.	
		4.26.3	Provide error if included for a DP1 or DP2 application.	The Additional Senior/Key Person Profiles attachment cannot be submitted for this application.

		4.27.2	Provide error if included for a DP1 or DP2 application.	The Additional Senior/Key Person Biosketch attachment cannot be submitted for this application.	
Senior/Key Person (R&R)	**Additional Senior/Key Person Current and Pending Support**	4.28.1	Accept only if an Additional Senior/Key Person Profiles attachment has been submitted and accepted.	An Additional Senior/Key Person Current and Pending Support attachment may be submitted on the Senior/Key Person page only if an Additional Senior/Key Person Profiles attachment has been submitted and accepted.	
		4.28.2	Provide error if included for a DP1 or DP2 application.	The Additional Senior/Key Person Current and Pending Support attachment cannot be submitted for this application.	

Research & Related Budget: Section A & B, Budget Period 1

Component	Field	Rule	Validation	Error Message	Notes & Tips
Budget, A&B, Year x (R&R)			Unless specifically stated, all project budget validations also apply to the subaward budget.		In mapping, assign a budget period ID based on the year of the budget.
		5.0.1	Accept submission of modular budget or detailed budget, but not both (Minimum Validations)	Both a modular and a detailed budget have been included with this submission. One or the other may be submitted.	
		5.0.2	Require a submission of either a modular budget or a detailed budget component. The following mechanisms are exempt from this validation: S10, X01, X02, C06, UC6, G20, DP1, DP2 (Minimum Validations)	You must include a budget component with this application.	
		5.0.3	A subaward budget should not be accepted if a modular budget has been included	A subaward budget may not be included if a modular budget has been submitted.	
		5.0.4	An application in response to an R03, R15, R21, R34 or U34 opportunity (but not R21/R33) must be submitted with a modular budget. Non-NIH applications and 'opt out' announcements are exempt from this validation. Applications where the applicant organization is foreign also are exempt from this validation.	R03, R15, R21, R34 and U34 applications submitted by domestic institutions (U.S.) must use the PHS 398 Modular Budget Form and not the SF 424 R&R Budget Form.	
		5.0.41	An application in response to an SC1, SC2, or SC3 opportunity must be submitted with a modular budget.	SC1, SC2, and SC3 applications must use the PHS 398 Modular Budget Form and not the SF 424 R&R Budget Form.	
		5.0.5	For a revision, if the parent grant budget is modular, only a modular budget component may be submitted.	The parent grant for this revision uses the modular format; therefore, this application may include a modular budget only.	
		5.0.6	For an STTR submission, there must be at least one budget included with budget type of subaward/ consortium for each year of the STTR (project) budget.	A Research Institution Budget page must be included for each year of an STTR submission	
		5.0.7	For an S11 application, there must be at least one budget included with budget type of subaward/consortium for each year of the project budget.	A subaward budget must be included with this submission for the Collaborator, for each year included on the project budget.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
		5.0.8	For an S21/S22 application, provide a warning if a fourth budget period is included.	No more than three budget years should be included on the 424 RR Budget. The application will be processed, but a concern may be raised during review.	
Budget, A&B, Year x (R&R)	**Organizational DUNS**	5.1.1	Required for budget type 'Subaward/Consortium'	The Organizational DUNS has not been included for Sections A&B for <name of organization> on the 424 RR Budget page.	
		5.1.2	One and only one budget should contain the DUNS of the applicant organization.	The project budget must contain the DUNS number for the applicant organization on the 424 RR Budget Page. This number should not appear on a Subaward budget; i.e., a Subaward budget must have a different DUNS number entered.	
		5.1.3	This must be a budget that has been identified as 'Project'	A Subaward budget has been identified for the applicant organization. All budget requirements for the applicant organization must be included in the project budget.	
Budget, A&B, Year x (R&R)	**Budget type (project, subaward/ consortium)**	5.2.1	If a detailed budget is included, there must be one and only one occurrence with a value of 'Project'.	Only one budget with a budget type of 'Project' for Sections A&B may be submitted on the 424 RR Budget page.	
Budget, A&B, Year x (R&R)	**Name of organization (for subaward/ consortium)**	5.3.1	If multiple detailed budgets have been included in the submission, all budget and warning messages should include the name of the organization for which the budget validation has failed.		Since there is a limit of 250 characters for the error message, put the organization name at the end of the message, and truncate if necessary.
Budget, A&B, Year x (R&R)	**Start Date**	5.4.1	For budget year 1, for Budget Type 'Project', for new applications and resubmissions, must be the same as the Proposed Project Start Date listed on the SF 424 RR Face Page.	For new applications and resubmissions, the start date for the first budget year on the 424 RR Budget pages must be the same as the proposed project start date listed on the SF424 RR Cover page.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
		5.4.2	For budget years after budget year 1, must be greater than or equal to the Proposed Project Start Date listed on the SF 424 RR Face Page.	The start date for budget year <budget year> must be equal to or later than the proposed project start date listed on the SF 424 RR Cover page.	
Budget, A&B, Year x (R&R)	**End Date**	5.5.1	Must be greater than the budget start date and less than or equal to the Project Period End Date, both listed on the SF 424 RR Face Page.	The end date for budget year <budget year> must be later than the budget start date and less than or equal to the proposed project end date listed on the SF 424 RR Cover page.	
Budget, A&B, Year x (R&R)	**Senior/Key Person Name (prefix, first name, middle name, last name, suffix)**	5.6.1	Truncate if first or last name>30 chars, or if suffix>5 chars ((Minimum Validations)		Long-term, change in eRA db to 60 chars for last name, 35 for first name, 10 for suffix (all names in db)
		5.6.2	For Project Role of PD/PI (for the PI listed on the SF 424 RR Cover only), must match Senior/Key Person form last name and first name.	The < name> given for the PD/PI for budget year <budget year> on the 424 RR Budget page (section A&B) does not match the name given for the PD/PI on the SF 424 RR Cover.	
Budget, A&B, Year x (R&R)	**Senior/Key Person Project Role**	5.7.1	For budgets of type 'Project', there must be at least one record for the budget year with a project role of PD/PI. Validation does not apply to STTR submissions.	There must be a Personnel entry (with a role of PD/PI) listed for the PI or PD on the 424 RR Detailed Budget Page (Section A&B) for budget year <budget year>.	For an STTR submission, the PI/PD could be on the Research Institution Budget.
Budget, A&B, Year x (R&R)	**Senior/Key Person Base Salary**	5.8.1	Cannot be greater than 99,999,999.99.	The Base Salary for <Senior/Key Person First Name Last Name> on the 424 RR Budget page (section A&B) for Budget Year < Budget Year> exceeds the allowable amount for the agency ($99,999,999).	

Component	Field	Rule	Validation	Error Message	Notes & Tips
Budget, A&B, Year x (R&R)	**Senior/Key Person Cal. Mos**	5.9.1	For non-R13 submissions (except for PD/PIs on STTR submissions), a non-zero value for calendar months, academic months, or summer months is required for each senior/key person.	Senior/Key Person <First name Last name>, listed on the 424 RR Detailed Budget Page for budget year <budget year>, must include effort of a value greater than zero in calendar months, academic months, or summer months. **Note:** use either calendar months or a combination of academic and summer months. For information about calculating person months, see http://grants1.nih.gov/grants/policy/person_months_faqs.htm.	
		5.9.2	For an R13 submission, a value for calendar months, academic months, or summer months is required for each senior/key person. The value may be zero.	Senior/Key Person <First name Last name>, listed on the 424 RR Detailed Budget Page for budget year <budget year>, must include effort (zero or greater) in calendar months, academic months, or summer months. **Note:** use either calendar months or a combination of academic and summer months. For information about calculating person months, see http://grants1.nih.gov/grants/policy/person_months_faqs.htm	Need to confirm that a zero is treated differently from a null value, also that a system to system submission with an empty tag will not result in a zero value being inserted in that element
		5.9.3	For PD/PIs on STTR submissions, a non-zero value for calendar months, academic months, *or* summer months is required on either the project budget or the subaward budget. It is not required on both.	PD/PI <First name Last name>, listed on the 424 RR Detailed Budget Page for budget year <budget year>, must include effort of a value greater than zero in calendar months, academic months, or summer months. **Note**: use either calendar months or a combination of academic and summer months. Budget, F-K, Year x (R&R)	**(other3 funds requested)**				
Budget, F-K, Year x (R&R)	**Other Direct Costs, Total Other Direct Costs**	7.14.1	Must be equal to the sum of other direct costs for the budget year.	The Total Other Direct Costs for Budget Year <Budget Year> on the 424 RR Budget page (section F-K) does not equal the sum of other direct costs for all categories for the corresponding budget year.	
Budget, F-K, Year x (R&R)	**Total Direct Costs (A-F)**	7.15.1	Required.	The Total Direct Costs Funds Requested for Year *x* is required on the 424 RR Budget page (section F-K).	
		7.15.2	Must be equal to the sum of total salary, wages and fringe benefits, total funds requested for equipment, total travel cost, total participant/trainee support costs, and total other direct costs	The Total Direct Costs for A-F for Budget Year <Budget Year> on the 424 RR Budget page (section F-K) does not equal the sum of direct costs for Sections A-F.	
		7.15.3	For R01, R03, R15, R21, R34 and U34 submissions that are for NIH, provide warning if subtotal direct costs for *every* budget year is < = $250K. Applications where the applicant organization is foreign are exempt from this validation. Calculate subtotal direct costs as follows: Total Direct Costs (A-F) *minus* the sum of Total Indirect Costs for all budgets for the corresponding year with budget type 'subaward/consortium'.	R01, R03, R15, R21,R34 and U34 direct cost requests of $250K or less each year on the 424 RR Budget page (section F-K) must be in modules of $25K, using the PHS 398 Modular Budget Form and not the R&R Budget Form. Incorrect applications may be delayed in the peer review process or rejected.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
		7.15.4	For an S11 submission, provide a warning on a subaward budget if this is greater than $75K.	The total cost per year for a subaward budget should not be greater than $75K. The application will be processed, but a concern may be raised during review.	
		7.15.5	For a G11 submission, provide a warning if subtotal direct costs for budget year 1 is greater than $60K. Calculate subtotal direct costs as follows: Total Direct Costs (A-F) *minus* the sum of Total Indirect Costs for all budgets for the corresponding year with budget type 'subaward/consortium'.	Direct cost requests (on the 424 RR Budget page section F-K) for the first budget year should not be greater than $60K. The application will be processed, but concerns may be raised during review.	
		7.15.6	For a G13 submission, subtotal direct costs on the project budget cannot be greater than 50k. Calculate subtotal direct costs as follows: Total Direct Costs (A-F) *minus* the sum of Total Indirect Costs for all budgets for the corresponding year with budget type 'subaward/consortium'.	Direct cost requests (on the 424 RR Budget page section F-K) can not be greater than $50K.	
		7.15.7	For non-SBIR/STTR submissions, non-S21 or S22 submissions, and ~~for~~ submissions that are not in response to an RFA, provide warning if subtotal direct costs for *any* budget year is >= 500K (LV for R01, R18, U18, R25). Calculate subtotal direct costs as follows: Total Direct Costs (A-F) *minus* the sum of Total Indirect Costs for all budgets for the corresponding year with budget type 'subaward/consortium'.	Direct cost requests (on the 424 RR Budget page section F-K) >=$500k a year need agreement from ICs, except for RFAs or PAs with budgetary limits. Applications without such approval may be delayed in the peer review process or rejected.	Design note: RFA announcements have rfa_pa_notices_t.notice_type_code='R'
				Warning message for 'opt out' announcements: Be sure that you have complied with the allowable direct cost limitations for this FOA. Otherwise, your application may be delayed and rejected in the review process.	
Budget, F-K, Year x (R&R)	**Indirect Costs, Indirect Cost Type**	7.16.1	Allow submissions to come in with no indirect costs. (Minimum Validations)		

Component	Field	Rule	Validation	Error Message	Notes & Tips
Budget, F-K, Year x (R&R)	**Indirect Costs, Indirect Cost Rate**	7.17.1	Provide warning if less than 1.	The Indirect Cost Rate (on the 424 RR Budget page, section F-K) is less than 1 for budget Year <Budget Year>. Please note that this figure represents a percentage (e.g., '25.5', not '.255').	
		7.17.2	If provided for a K application (including K12), provide a warning if not equal to 8.	Warning message: The Indirect Cost Rate (on the 424 RR Budget page section F-K) is not equal to 8 for budget Year <Budget Year>.	**NEW!**
Budget, F-K, Year x (R&R)	**Indirect Costs, Indirect Cost Base**	7.18.1	Provide an error if included on a G08, S21, or S22 application.	No indirect cost base may be included for this application on the 424 RR Budget page section F-K, budget year <budget year>.	
Budget, F-K, Year x (R&R)	**Indirect Costs, Funds Requested**	7.19.1	Provide an error if included on a G08, S21, or S22 application.	No indirect cost funds may be requested for this application on the 424 RR Budget page section F-K, budget year <budget year>.	
Budget, F-K, Year x (R&R)	**Indirect Costs, Cognizant Federal Agency**				
Budget, F-K, Year x (R&R)	**Total Indirect Costs**	7.21.1	Must be equal to funds requested for all indirect cost types	The Total Indirect Costs for Budget Year <Budget Year> on the 424 RR Budget page (section F-K) does not equal the sum of indirect costs for each indirect cost type.	
Budget, F-K, Year x (R&R)	**Total Direct and Indirect Costs**	7.22.1	Required	The Total Direct and Indirect Costs Funds Requested for Year *x* is required on the 424 RR Budget page (section F-K).	
		7.22.2	Must be equal to the sum of Total Direct Costs and Total Indirect Costs	The Total Direct and Indirect Institutional Costs on the 424 RR Budget page (section F-K) is not equal to the sum of Total Other Direct Costs and Total Indirect Costs.	

Component	Field	Rule	Validation	Error Message	Notes & Tips
Budget, F-K, Year x (R&R)	**Fee**	7.231	A fee cannot be entered for a subaward/consortium budget.	A fee has been entered for year \<x\> of the budget for \<organization name\> on the 424 RR Budget page (section F-K). Fees are not allowed for subaward/consortium budgets.	
Budget, F-K, Year x (R&R)	**Budget Justification**	7.24.1	If fee is requested for SBIR/STTR, must not be blank or null	A fee has been entered for year \<x\> of the Project budget on the 424 RR Budget page (section F-K). A Budget Justification must be included if a fee has been entered.	
		7.24.2	If SBIR/STTR Phase I cost limitation is exceeded, must not be blank or null. Cost limitation is 100k, calculated as total cost (direct cost, indirect cost, and fee).	The Phase I cost limitation of 100k has been exceeded. Please explain the deviation in the Budget Justification on the 424 RR Budget page (section F-K).	
		7.24.3	If SBIR/STTR Phase II cost limitation is exceeded, must not be blank or null. Cost limitation is 750k, calculated as total cost (direct cost, indirect cost, and fee).	The Phase II cost limitation of 750k has been exceeded. Please explain the deviation in the Budget Justification on the 424 RR Budget page (section F-K).	
		7.24.4	If Fast-Track cost limitation is exceeded, must not be blank or null. Cost limitation is 850k, calculated as total cost (direct cost, indirect cost, and fee).	The Fast-Track cost limitation of 850k has been exceeded. Please explain the deviation in the Budget Justification on the 424 RR Budget page (section F-K).	
		7.24.5	If Phase I SBIR time limitation is exceeded, must not be blank or null. Time limitation is six months, calculated as the time between the start date of the first budget period and the end date of the last budget period.	The Phase I SBIR time limitation of six months has been exceeded. Please explain the deviation in the Budget Justification on the 424 RR Budget page (section F-K).	Since there is no cumulative budget justification, this validation will look at the Budget Justification for the first budget period. Instructions should include this.
		7.24.6	If Phase I STTR time limitation is exceeded, must not be blank or null. Time limitation is one year, calculated as the time between the start date of the first budget period and the end date of the last budget period.	The Phase I STTR time limitation of one year has been exceeded. Please explain the deviation in the Budget Justification on the 424 RR Budget page (section F-K).	Since there is no cumulative budget justification, this validation will look at the Budget Justification for the first budget period. Instructions should include this.

Component	Field	Rule	Validation	Error Message	Notes & Tips
		7.24.7	If Phase II SBIR/STTR time limitation is exceeded, must not be blank or null. Time limitation is two years, calculated as the time between the start date of the first budget period and the end date of the last budget period.	The Phase II SBIR/STTR time limitation of two years has been exceeded. Please explain the deviation in the Budget Justification on the 424 RR Budget page (section F-K).	Since there is no cumulative budget justification, this validation will look at the Budget Justification for the first budget period. Instructions should include this.

Cover Page (NIH)	**PD/PI Information (prefix, first, middle, last, suffix)**	11.1.1	Read only, pulled from R&R		
Cover Page (NIH)	**PD/PI New Investigator Question**	11.2.1	On an R01 submission, if 'Yes', PD/PI (and multiple PIs) should not have a PI or multiple PI role on any awarded R01.	For an R01 submission to be considered a New Investigator application, the PD/PI must not have received agency R01 funding in the past. All PIs (including multiple PIs) must meet the definition of New Investigator for this box to be checked.

Cover Page (NIH)	**PD/PI Degrees**	11.3.1	Match against 4 character degree codes in PI's Commons account (ignore case, spaces, or punctuation). If the Commons account has degrees, but the submitted degree does not appear on the list of Commons degrees, compare against any 'other degree text' degrees on Commons account. If degree not found on the degree list or on 'other degree text' entries for the PI, display a warning to the PI that the degrees did not match the Commons account, and that the submitted degrees will be displayed on the grant image. "The degrees that will be displayed on the grant image are x, y, and z". In db, save the top three Commons degrees instead of the submitted degrees in the role. (Minimum Validations)	The PD/PI degree: <degree>, listed on the PHS 398 Cover Page, is not one of the degrees listed for the eRA Commons account: <List of degrees in the profile, separated by commas>. The application image will display the degrees as submitted. If the degrees listed in the eRA Commons are not current, please update them in the eRA Commons. Instructions on updating profile information are available at https://commons.era.nih.gov/commons-help/216.htm.	
		11.3.2	If there are no degrees listed in the Commons account, give a warning and copy the degrees from the application to the profile.	The eRA Commons profile did not have any degrees associated with the PD/PI. The system has automatically updated the profile to include the degrees included on the grant application. We advise reviewing the profile data to ensure accuracy of the information.	
		11.3.3	Provide a warning if no degrees have been included.	No degrees have been submitted for the PD/PI. If you want the degrees to be displayed on the face page of the application image, you should include them on the PHS 398 Cover Page Supplement.
