Systems Biology

November 13-14, 2008

**Biomedical Technology Research Centers
2008 Principal Investigator Annual Meeting**
Multiscale Technologies for Biomedical Research

Featured Topics: Day 1 — Lister Hill Auditorium, NIH

Impact of Biomedical Research Technologies

James Prestegard (chair), Richard Boucher, Preston Hensley, Scott Weaver, Alan Horwitz

Multiscale Biomedical Technologies

Stan Opella (chair), Andrew McCulloch, Christopher Johnson, Bruce Tromberg, Claude Lechene

Informatics and Translational Technologies in CTSA Projects

Al Burlingame (chair), Barry Collier, Mark Chance, Harel Weinstein, Carolyn Meltzer

Featured Topics: Day 2 — Bethesda Hyatt Regency

Novel Approaches to Educational Outreach

Joel Stiles (chair), Wah Chiu, Raquell Holmes, Christopher Johnson

New Optical Imaging Technologies

Warren Zipfel (chair), Richard Superfine, Robin Hochstrasser, William Mantulin

Issues and Strategies for Software Development

Rob MacLeod (chair), Matti Hämäläinen, Ion Moraru, Ron Kikinis

New Applications for Magnetic Resonance Technology

James Prestegard (chair), Ad Bax, Gerhard Wagner, John Markley, Matt Merritt

**Plenary Session: Translational Research and the Biomedical
Technology Research Resources**

Les Loew (chair), Jonathan Cannata, Michael Feld, Cathy Costello
