Future
Releases

History

About
CDAT

Current
Release

Future
Releases

- 2001 Beta release in C
- 2004 Java release with CW utilities
- 2005 OPeNDAP network support
- 2006 GUI updates, units conversions, expression masking
- 2007 Navigation analysis, user's guide, full screen mode, ACSPO, non-AVHRR NOAA 1b

User Groups

About
CDAT

Current
Release

Future
Releases

- NOAA/NESDIS researchers: verify products, analysis
- Academic researchers: data conversion, analysis, visualization
- Casual and commercial users: fishing, weather

Home Page

About
CDAT

Current
Release

Future
Releases

- [coastwatch.noaa.gov/
cw_cwfv3.html](http://coastwatch.noaa.gov/cw_cwfv3.html)
- Installation packages,
documentation
- Errata, prereleases

Development

About
CDAT

Current
Release

Future
Releases

- New versions released every 6-12 months
- Major feature requests from NESDIS (approval and funding)
- Minor feature requests from users
- Bug fixes are ongoing

Documentation

About
CDAT

Current
Release

Future
Releases

- Data users: User's guide, help menus
- Software developers: Java code API in HTML (Javadoc), user's guide chapter on main modules
- Data providers: User's guide appendices on supported formats & metadata

New Features (3.2.2)

About
CDAT

**Current
Release**

Future
Releases

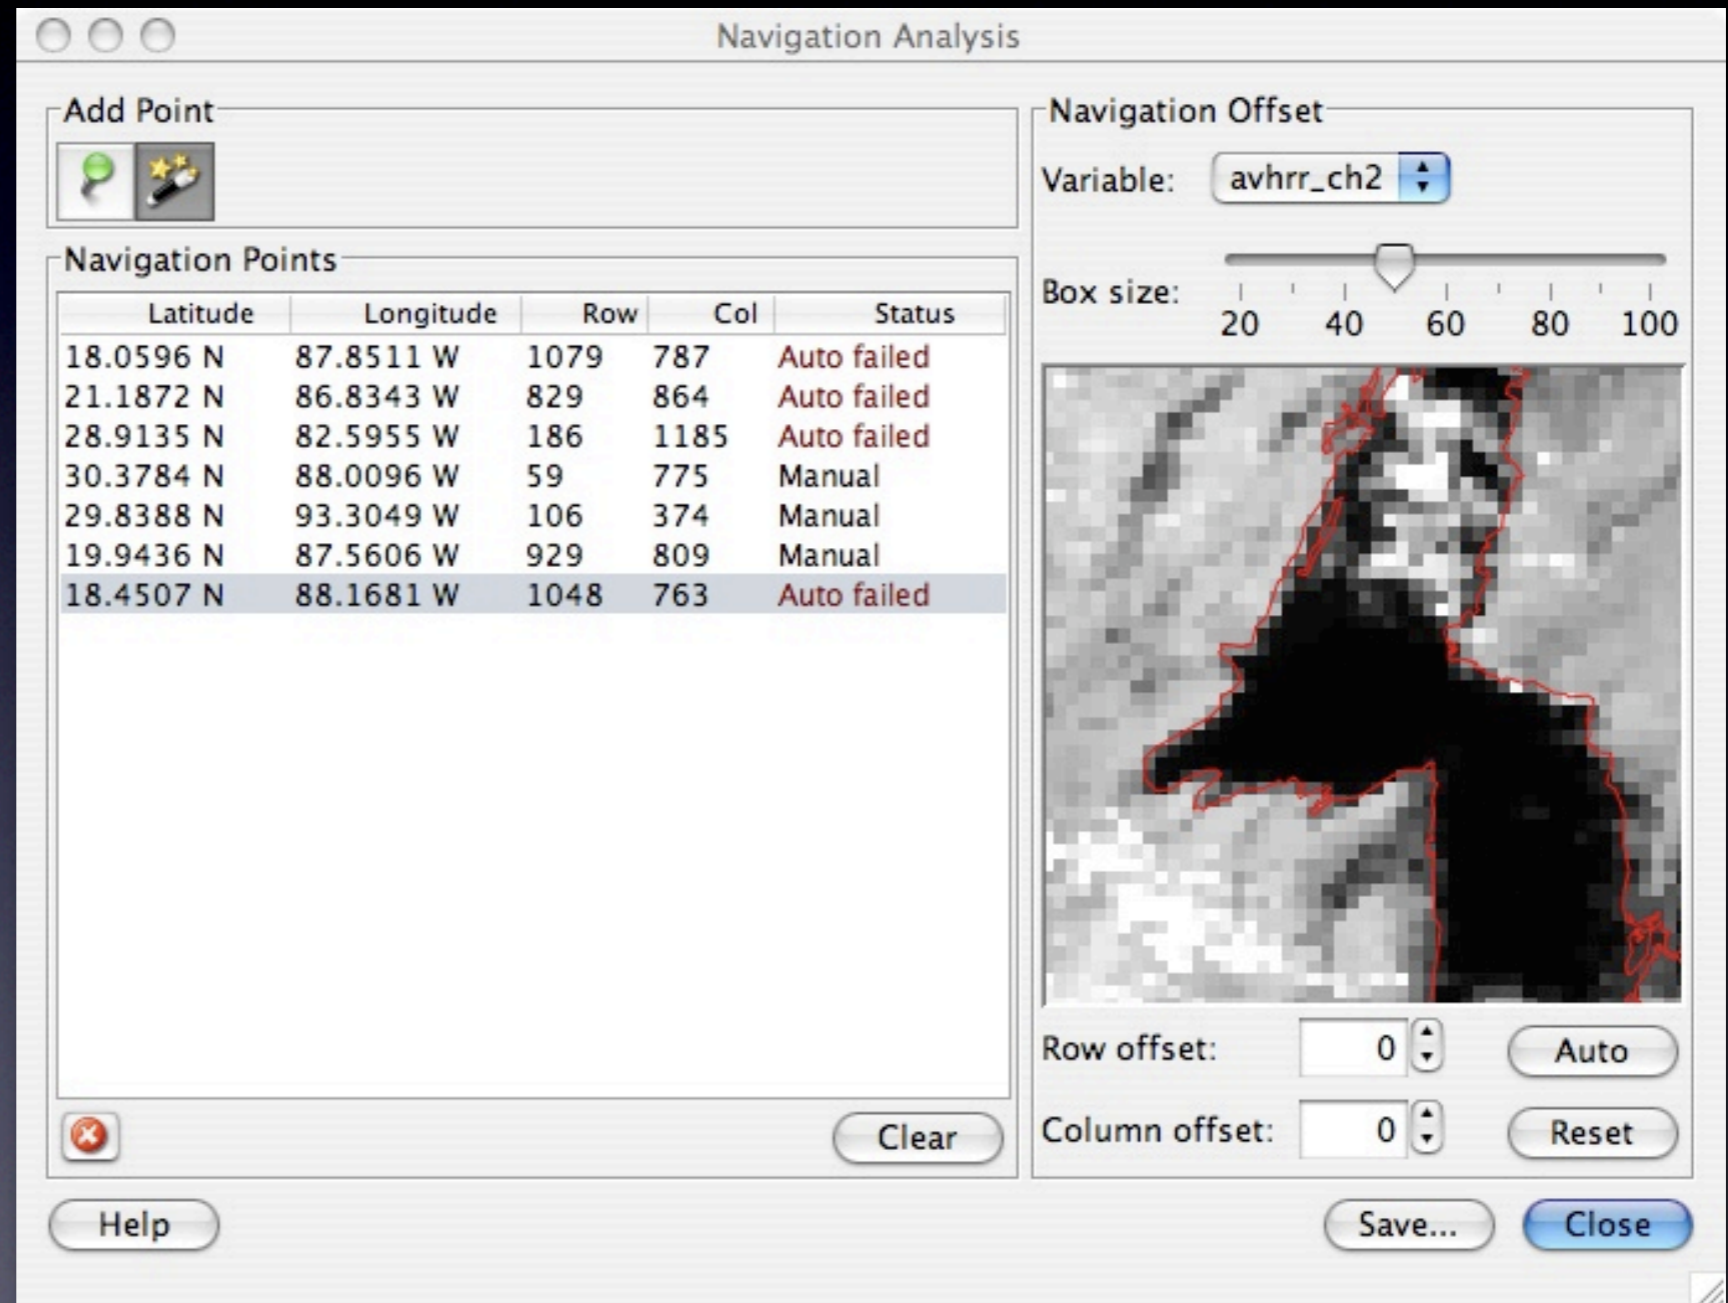

- Windows Vista support 
- Full screen mode
- NOAA Ib improvements
- Navigation analysis
- User's guide updates

Current Development (3.2.3)

About
CDAT

Current
Release

 **Future
Releases**

- Point data overlay
- XML-based shapefile display
- Data time series support
- Support for 3D and 4D CF-compliant netCDF and OPeNDAP data

Feature Ideas

About
CDAT

Current
Release

 **Future
Releases**

- Vector data display
- Google Earth compatible output
- Flexible data import
- Scriptable operations

Summary

- About CDAT: history, users, web site, development, docs
- Current Release: new features, current user stats
- Future Releases: development for 3.2.3, feature ideas

Acknowledgements

- CoastWatch node and central operations staff
- CoastWatch data users
