Exports of High Performance Computers Under License Exception CTP

AGENCY: Bureau of Export Administration, Commerce.

ACTION: Interim rule with request for comments.

SUMMARY: The Bureau of Export Administration (BXA) is amending the Export Administration Regulations by revising the requirements for exports of high performance computers to the People's Republic of China. This rule requires that exports of high performance computers, regardless of value, to the People's Republic of China under License Exception CTP be supported by a PRC End-User Certificate. The PRC End-User Certificate must be obtained by the

exporter prior to export. In addition, this rule also removes the \$5,000 End-User Certification exemption for license applications for exports of high performance computers to the People's Republic of China.

DATES: *Effective Date:* This rule is effective January 14, 1999.

Comment Date: Comments on this rule must be received on or before March 1, 1999.

ADDRESSES: Written comments should be sent to Patricia Muldonian, Regulatory Policy Division, Bureau of Export Administration, Department of Commerce, P.O. Box 273, Washington, DC 20044.

FOR FURTHER INFORMATION CONTACT: Patricia Muldonian, Regulatory Policy Division, Bureau of Export Administration, Telephone: (202) 482-2440.

SUPPLEMENTARY INFORMATION:

Background

The National Defense Authorization Act for Fiscal Year 1998 (NDAA) requires the Department of Commerce to conduct a post shipment verification of each high performance computer exported to a country in Computer Tier 3 as defined § 740.7(d) of the Export Administration Regulations. For purposes of this post shipment verification requirement, the NDAA defines a high performance computer as one with a composite theoretical performance greater than 2,000 millions of theoretical operations per second. Tier 3 includes the People's Republic of China. In order to facilitate the Department's ability to conduct the required verifications, the Bureau of Export Administration is amending the Export Administration Regulations to require the exporter to obtain a PRC End-User Certificate issued by the Ministry of Foreign Trade and Economic Cooperation before exporting any high performance computer to the People's

Republic of China if the computer is to be exported under the authority of an export license or License Exception CTP regardless of value. This rule also requires exporters to report the End-User Certificate number to the Bureau of Export Administration. This amendment does not affect the requirements for reexports of high performance computers because the NDAA does not require the Department to conduct post shipment verifications on those computers.

Although the Export Administration Act (EAA) expired on August 20, 1994, the President invoked the International Emergency Economic Powers Act and continued in effect the EAR and, to the extent permitted by law, the provisions of the EAA in Executive Order 12924 of August 19, 1994, as extended by the President's notices of August 15, 1995 (60 FR 42767), August 14, 1996 (61 FR 42527), August 13, 1997 (62 FR 43629) and August 13, 1998 (63 FR 44121).

Savings Clause

Shipments of items now subject to a PRC End-User Certificate as a result of this regulatory action that were on dock for loading, on lighter, laden aboard an exporting carrier, or en route aboard a carrier to a port of export pursuant to actual orders for export before January 28, 1999 may be exported up to and including February 11, 1999. Any such items not actually exported before midnight February 11, 1999, require a PRC End-User Certificate, in accordance with this regulation.

Rulemaking Requirements

1. This interim rule has been determined to be significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the Paperwork Reduction Act (PRA), unless

that collection of information displays a currently valid OMB Control Number. This rule involves collections of information subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). These collections have been approved by the Office of Management and Budget under control number 0694-0088, "Multi-Purpose Application," which carries a burden hour estimate of 52.5 minutes per submission and control number 0694-0107, "National Defense Authorization Act," Advance Notifications and Post-Shipment Verification reports. Reports in support of Post-Shipment Verifications require 15 minutes per submission, whether the Post-Shipment Verification is conducted on an export authorized under a license or License Exception CTP. In addition, this rule contains a new collection of information requirement approved under control number 0694-0112, which carries a burden hour estimate of 15 minutes per submission for obtaining and maintaining the PRC End-Use Certificate for License Exception CTP shipments. An additional 1 minute per submission is needed for recordkeeping. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments regarding these burden estimates or any other aspect of the collection of information, including suggestions for reducing the burdens, should be forwarded to Patricia Muldonian, Regulatory Policy Division, Office of Exporter Services, Bureau of Export Administration, Department of Commerce, P.O. Box 273, Washington, DC 20044, and David Rostker, Office of Management and Budget, OMB/OIRA, 725 17th Street, NW, NEOB Rm. 10202, Washington, DC 20503.

3. This rule does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under Executive Order 12612.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military and

foreign affairs function of the United States (Sec. 5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this interim rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under 5 U.S.C. 553 or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable.

However, because of the importance of the issues raised by these regulations, this rule is being issued in interim form and comments will be considered in the development of final regulations.

Accordingly, the Department encourages interested persons who wish to comment to do so at the earliest possible time to permit the fullest consideration of views.

The period for submission of comments will close March 1, 1999. The Department will consider all comments received before the close of the comment period in developing final regulations. Comments received after the end of the comment period will be considered if possible, but their consideration cannot be assured. The Department will not accept public comments accompanied by a request that a part or all of the material be treated confidentially because of its business proprietary nature or for any other reason. The Department will return such comments and materials to the persons submitting the comments and will not consider them in the development of final regulations. All public comments on these regulations will be a matter of public record and will be available for public inspection and copying. In the interest of accuracy and completeness, the Department requires comments in written form.

Oral comments must be followed by written memoranda, which will also be a matter of public record and will be available for public review and copying. Communications from agencies of the United States Government or foreign governments will not be available for public inspection.

The public record concerning these regulations will be maintained in the Bureau of Export Administration Freedom of Information Records Inspection Facility, Room 4525, Department of Commerce, 14th Street and Pennsylvania Avenue, NW, Washington, DC 20230. Records in this facility, including written public comments and memoranda summarizing the substance of oral communications, may be inspected and copied in accordance with regulations

published in part 4 of Title 15 of the Code of Federal Regulations. Information about the inspection and copying of records at the facility may be obtained from Margaret Cornejo, Bureau of Export Administration Freedom of Information Officer, at the above address or by calling (202) 482-5653.

[CGD1-98-183]

RIN 2115-AA97

Safety Zone; Explosive Loads and Detonations Bath Iron Works, Bath, ME

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone to close a portion of the Kennebec River to waterway traffic in a 400 foot radius around Bath Iron Works, Bath, Maine for explosive loads and explosives detonations, from 6 a.m. December 30, 1998 through 12 p.m. January 30, 1999. This safety zone is needed to protect persons, facilities, vessels and others in the maritime community from the safety hazards associated with the handling, detonation and transportation of explosives. Entry into this safety zone is prohibited unless authorized by the Captain of the Port.

DATES: This rule is effective from 6 a.m. Wednesday December 30, 1998 until 12 p.m. Saturday January 30, 1999.

FOR FURTHER INFORMATION CONTACT: Lieutenant J.D. Gafkjen, Chief of Response and Planning, Captain of the Port, Portland at (207) 780-3251.

SUPPLEMENTARY INFORMATION:

Regulatory History

As authorized by 5 U.S.C. 553, a notice of proposed rulemaking (NPRM) was not published for this regulation. Good cause exists for not publishing a NPRM and for making this regulation effective in less than 30 days after **Federal Register** publication. Due to the complex planning and coordination involved, final details for the closure were not provided to the Coast Guard
