[Docket No. 990701179-9301-02]

RIN 0694-AB90

Expansion of License Exception CIV Eligibility for "Microprocessors" Controlled by ECCN 3A001 and Graphics Accelerators Controlled by ECCN 4A003

AGENCY: Bureau of Export Administration, Commerce.

ACTION: Interim rule with request for comments.

SUMMARY: The Bureau of Export Administration (BXA) maintains the Commerce Control List (CCL), which identifies those items subject to Department of Commerce export licensing requirements. Consistent with technological changes, this interim rule adjusts the License Exception CIV eligibility level for microprocessors controlled by Export Control Classification Number (ECCN) 3A001 from a composite theoretical performance (CTP) of equal to or less

than 1900 million theoretical operations per second (MTOPS) to a CTP of equal to or less than 3500 MTOPS. This rule also adjusts the License Exception CIV eligibility level for graphics accelerators controlled by Export Control Classification Number (ECCN) 4A003 from 10 million vectors per second to 75 million vectors per second. License Exception CIV is available for exports and reexports to civil end-users for civil end-uses in Country Group D:1.

In light of rapid technological advancement in microprocessors, the United States will review the eligibility level for microprocessors in January 2000 to determine if further adjustments are warranted. If further adjustments are warranted, BXA anticipates publishing the revision in Spring 2000.

DATES: This rule is effective November 26, 1999. Comments on this rule must be received on or December 27, 1999.

ADDRESSES: Written comments should be sent to Hillary Hess, Regulatory Policy Division, Bureau of Export Administration, Department of Commerce, P.O. Box 273, Washington, DC 20044.

FOR FURTHER INFORMATION CONTACT:

James Lewis, Director, Office of Strategic Trade and Foreign Policy Controls, Bureau of Export Administration, Telephone: (202) 482-4196.

SUPPLEMENTARY INFORMATION: Although the Export Administration Act (EAA) expired on August 20, 1994, the President invoked the International Emergency Economic Powers Act and continued in effect the EAR, and, to the extent permitted by law, the provisions of the EAA in Executive Order 12924 of August 19, 1994, as extended by the President's notices of August 15, 1995 (60 FR 42767), August 14, 1996 (61 FR 42527), August 13, 1997 (62 FR 43629), August 13, 1998 (63 FR 44121), and August 10, 1999 (64 FR 44101, August 13, 1999).

Rulemaking Requirements

1. This interim rule has been determined to be not significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act (PRA), unless that collection of information displays a currently valid OMB Control Number. This rule involves a collection of information subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) This collection has been

approved by the Office of Management and Budget under control number 0694-0088.

3. This rule does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under Executive Order 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military and foreign affairs function of the United States (5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this interim rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under the Administrative Procedure Act or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable.

However, because of the importance of the issues raised by these regulations, this rule is issued in interim form and comments will be considered in the development of final regulations.

Accordingly, the Department encourages interested persons who wish to comment to do so at the earliest possible time to permit the fullest consideration of their views.

The period for submission of comments will close on December 27, 1999. The Department will consider all comments received before the close of the comment period in developing final regulations. Comments received after the end of the comment period will be considered if possible, but their consideration cannot be assured. The Department will not accept public comments accompanied by a request that a part or all of the material be treated confidentially because of its business proprietary nature or for any other reason. The Department will return such comments and materials to the person submitting the comments and will not consider them in the development of final regulations. All public comments on these regulations will be a matter of public record and will be available for public inspection and copying. In the interest of accuracy and completeness, the Department requires comments in written form.

Oral comments must be followed by written memoranda, which will also be a matter of public record and will be available for public review and copying. Communications from agencies of the

United States Government or foreign governments will not be made available for public inspection.

The public record concerning these regulations will be maintained in the Bureau of Export Administration Freedom of Information Records Inspection Facility, Room 6883, Department of Commerce, 14th Street and Pennsylvania Avenue, NW, Washington, DC 20230. Records in this facility, including written public comments and memoranda summarizing the substance of oral communications, may be inspected and copied in accordance with regulations published in Part 4 of Title 15 of the Code of Federal Regulations. Information about the inspection and copying of records at the facility may be obtained from the Bureau of Export Administration Freedom of Information Officer at the above address or by calling (202) 482-0500.

BILLING CODE 3510-33-P

COMMODITY FUTURES TRADING COMMISSION

17 CFR Part 5

RIN 3038-AB42

Revised Procedures for Listing New Contracts

AGENCY: Commodity Futures Trading Commission.

ACTION: Final rules.

SUMMARY: The Commodity Futures Trading Commission (Commission) is adopting a final rule permitting exchanges to list contracts for trading without Commission approval. In response to continued expressions of industry concern that the ability to list new contracts for trading without delay is vital to the exchanges' continued competitiveness, the Commission proposed a two-year pilot program to permit the listing of contracts for trading prior to Commission approval. 64 FR 40528 (July 27, 1999). Based upon the comments received, the Commission is modifying the proposed rule to permit exchanges to list commodity futures or option contracts for trading without Commission approval of the contract or its terms and conditions, including any subsequent amendments thereto. This new listing procedure is an alternative to regular or fast-track procedures for contract market designation. To meet its statutory mission of ensuring market integrity and customer protection, the Commission will place greater reliance on its existing oversight authorities to disapprove, alter or supplement exchange rules or to take emergency action, as appropriate. The Commission also is making a number of technical changes to the rule, as suggested by the comments.

In a companion release published elsewhere in this edition of the **Federal Register**, the Commission is proposing to permit all exchange rules and rule amendments to be made effective without Commission approval. As part of that proposed rulemaking, the Commission will seek comment on whether the new procedure for listing contracts for trading without approval which the Commission is adopting herein should become the exclusive means of offering new exchange products and amending their terms and conditions. In a second companion notice in this issue of the **Federal Register**, the Commission is also proposing to delete fees for applications for contract market designation in order to remove any economic disincentive for using regular or fast-track review procedures.

EFFECTIVE DATE: January 25, 2000.
