Addition of Brazil, Latvia, and Ukraine to the Nuclear Suppliers Group (NSG) and Other Revisions

AGENCY: Bureau of Export Administration, Commerce.

ACTION: Final rule.

SUMMARY: As a result of the admission of Brazil, Latvia, and Ukraine to the Nuclear Suppliers Group (NSG), this rule adds Brazil, Latvia, and Ukraine to Country Group A, Column A:4 (Nuclear Suppliers) and to the definition of "Nuclear Suppliers Group." On February 12, 1997 (62 FR 6683), BXA published a regulation which removed the license requirement symbol for Brazil and Ukraine from the Commerce Country Chart, NP Column 1 (Nuclear Nonproliferation). This rule removes the license requirement symbol for Latvia from the Commerce Country Chart, NP Column 1. The Nuclear Suppliers Group member countries have agreed to establish export licensing procedures for the transfer of items identified on the Annex to the "Nuclear-Related Dual-Use Equipment, Materials, and Related Technology List," which is published by the International Atomic Energy Agency.

In addition, Austria, Finland, Ireland and Sweden are added to "Countries Not Subject to Certain Nuclear End-Use Restrictions in § 744.2(a)", because of their commitment to nuclear non-proliferation.

This action will lessen the administrative burden on U.S. exporters, by decreasing licensing requirements for exports of items

controlled for Nuclear Nonproliferation (NP) reasons to these countries.

DATES: This rule is effective April 9, 2001.

SUPPLEMENTARY INFORMATION:

Background

As a result of the admission of Brazil, Latvia, and Ukraine to the Nuclear Suppliers Group (NSG), this rule revises Supplement Number 1 to part 740, Country Group A, by adding the symbol "X" to Column A:4 (Nuclear Suppliers) for Brazil, adding the countries Latvia and Ukraine to Country Group A, and adding the symbol "X" to Column A:4 (Nuclear Suppliers) for Latvia and Ukraine.

Austria, Finland, Ireland, and Sweden are added to the list of countries not subject to certain nuclear end-use restrictions in § 744.2(a) in Supplement Number 3 to part 744. As a matter of policy, the United States has carried out all significant peaceful nuclear cooperation (export of nuclear material, reactors, and major reactor components) with EURATOM (The European Atomic Energy Community) as a single entity from the beginning of EURATOM's existence.

The United States regards the EURATOM safeguards system as providing an important means of verifying that nuclear items exported by the United States are used for exclusively peaceful, non-explosive purposes.

Lastly, this rule revises the definition for "Nuclear Suppliers Group (NSG)", in part 772, to include Brazil, Latvia, and Ukraine.

Rulemaking Requirements

1. This final rule has been determined not to be significant for purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to nor be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid

OMB Control Number. This regulation involves collections previously approved by the Office of Management and Budget under control numbers 0694-0088, "Multi-Purpose Application," which carries a burden hour estimate of 45 minutes per manual submission and 40 minutes per electronic submission. Miscellaneous and recordkeeping activities account for 12 minutes per submission.

3. This rule does not contain policies with Federalism implications as that term is defined in Executive Order 12612.

4. The provisions of the Administrative Procedure Act requiring notice of proposed rule making, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military or foreign affairs function of the United States (see 5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rule making and an opportunity for public comment be given for this rule. Because a notice of proposed rule making and opportunities for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are inapplicable.

Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. Comments should be submitted to Sharron Cook, Office of Exporter Services, Bureau of Export Administration, Department of Commerce, P.O. Box 273, Washington, DC 20044.

Implementation of the Wassenaar Arrangement List of Dual-Use Items: Revisions to Microprocessors, Graphic Accelerators, and External Interconnects

AGENCY: Bureau of Export Administration, Commerce.
ACTION: Final rule.

SUMMARY: The Bureau of Export Administration (BXA) maintains the Commerce Control List (CCL), which identifies those items subject to Department of Commerce export controls. The CCL also reflects multilateral national security controls established by the Wassenaar Arrangement on Export Controls for Conventional Arms and Dual-Use Goods (the Wassenaar Arrangement), of which the United States is a founding member. The Wassenaar Arrangement controls strategic items with the objective of improving regional and international security and stability.

In this regard, on December 1, 2000, the Wassenaar Arrangement agreed to implement several changes in its List of Dual-Use Goods and Technologies. This final rule revises the CCL to implement certain recently agreed changes in Category 3 (Electronics) and Category 4 (Computers) of the Wassenaar List of Dual-Use Goods and Technologies, specifically in the areas of microprocessors, graphic accelerators, and external interconnects. This change is being implemented to reflect rapid technological advances and controllability factors. Additional changes in the Wassenaar Dual-Use List
