

(4) Security delays may be the result of malfunctioning screening or other security equipment or a breach of security that causes the evacuation of the airport or individual concourses or the need to re-screen passengers.

(5) Late arriving aircraft delays are the result of a late incoming aircraft from the previous flight.

(i) When reporting causal codes in paragraph (a) of this section, reporting carriers are required to code delays only when the arrival delay is 15 minutes or greater; and reporting carriers must report each causal component of the reportable delay when the causal component is 5 minutes or greater.

3. Section 234.5 is revised as follows:

§ 234.5 Form of reports.

Except where otherwise noted, all reports required by this part shall be filed within 15 days of the end of the month for which data are reported. The reports must be submitted to the Office of Airline Information in a format specified in accounting and reporting directives issued by the Bureau of Transportation Statistics' Assistant Director for Airline Information.

Issued in Washington, DC on November 15, 2002.

Rick Kowalewski,

Acting Director, Bureau of Transportation Statistics.

RIN 0694-AC57

Exports and Reexports to the Federal Republic of Yugoslavia: Lifting of UN Arms Embargo-Based Controls; Clarification of UN Arms Embargo-Based Controls on Rwanda

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: This rule amends the Export Administration Regulations (EAR) by removing the special controls on the export and reexport of arms-related items imposed on July 14, 1998 on the Federal Republic of Yugoslavia (Serbia and Montenegro) (FRY). Consequently, arms embargo-based licensing requirements for exports and reexports of certain items subject to the EAR (e.g.,

water cannon) to the FRY are removed, and a case-by-case license review policy is reinstated for the export and reexport of items controlled for regional stability and crime control reasons. This rule is consistent with United Nations Security Council (UNSC) Resolution 1367 of September 10, 2001, which terminated the international arms embargo against the FRY mandated by UNSC Resolution 1160 of March 3, 1998. This rule also makes a minor clarification to the arms embargo-based controls in place with respect to Rwanda pursuant to UNSC Resolution 918 of May 17, 1994.

DATES: This rule is effective November 25, 2002.

SUPPLEMENTARY INFORMATION:

Background

Consistent with United Nations Security Council (UNSC) Resolution 1160 of March 3, 1998, the Bureau of Industry and Security (BIS), formerly the Bureau of Export Administration (BXA), imposed new controls on the export and reexport of arms-related items subject to the EAR to the Federal Republic of Yugoslavia (Serbia and Montenegro) (FRY). UNSC Resolution 1160 mandated an embargo on the sale or supply of arms and arms-related matériel to the FRY. On July 14, 1998, BIS issued a rule consistent with the UNSC embargo against the FRY, applying a policy of denial on the export and reexport of items controlled for crime control and regional stability reasons and making additional items subject to control (e.g. certain shotgun shells, military helmets, water cannon and certain civil aircraft). BIS placed the specific provisions that implemented the embargo in section 746.9 of the EAR.

On September 10, 2001, in Resolution 1367, the UNSC terminated the international arms embargo against the FRY. Consistent with UNSC Resolution 1367, this rule removes the provisions in section 746.9 of the EAR that implemented the arms embargo against the FRY. With the publication of this rule, BIS is removing the UN arms embargo-based license requirements for the export and reexport of items controlled under Export Classification Control Numbers (ECCNs) 0A018, 0A984, 0A985, 0A986, 0A987, 0A988, 0B986, 0E018, 0E984, 1A005, 1B018, 1C018, 1C992 1D018, 2A993, 2B018, 2D018, 2E018, 6A002, 6A003, 6A018, 6E001, 6E002, 8A018, 9A018, 9A991,

9D018, 9E018 to the FRY. BIS is removing altogether ECCN 0A989, water cannon and specially designed components for water cannon, because it was a UN arms embargo-based control applying solely to the FRY. BIS also is reinstating a case-by-case licensing policy for the export and reexport of these items controlled for crime control or regional stability reasons destined to the FRY.

This rule also adds a new note number 4 in the License Exception sections of entries for "Technology" controlled by ECCNs 6E001 and 6E002, making License Exception Technology and Software under Restriction (TSR) unavailable for exports or reexports of 6E001 and 6E002 "Technology" to Rwanda, which is still subject to a UN arms embargo pursuant to UNSC Resolution 918 of May 17, 1994. With respect to Rwanda, "Technology" controlled by ECCN 6E001 is for the "development" of equipment, materials or "software" controlled by Category 6A002 or 6A003, and "Technology" controlled by ECCN 6E002 is for the "production" of equipment or materials controlled by 6A002 or 6A003. The license requirements for Rwanda are set forth in section 746.8 of the EAR.

Finally, this rule makes changes to sections 732.3 and 758.1 of the EAR to reflect the removal of the UN arms embargo-based controls against the FRY and removes Supplement 2 to part 746 describing international arms embargoes administered by the Department of State. For information on such embargoes, exporters are advised to consult with the Department of State, Office of Defense Trade Controls.

Rulemaking Requirements

1. This final rule has been determined to be not significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act (PRA), unless that collection of information displays a currently valid OMB Control Number. This rule involves collections of information subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) These collections have been approved by the Office of Management and Budget under control number 0694-0088, "Multi-Purpose Application," which carries a burden hour estimate of 40 minutes to prepare and submit electronically and 45 minutes to submit manually on form BIS-748P. Send comments regarding these burden

estimates or any other aspect of these collections of information, including suggestions for reducing the burden, to OMB Desk Officer, New Executive Office Building, Washington, DC 20503; and to the Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, P.O. Box 273, Washington, DC 20044.

3. This rule does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under Executive Order 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military and foreign affairs function of the United States (5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this final rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under 5 U.S.C. 553 or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable.

Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. Comments should be submitted to Sheila Quarterman, Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, P.O. Box 273, Washington, DC 20044.

33 CFR Part 117

[CGD08-02-040]

Drawbridge Operation Regulations; Three Mile Creek, Mobile, Baldwin County, AL

AGENCY: Coast Guard, DOT.
ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Eighth Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the CSX Transportation Railroad Swing Span Bridge across Three Mile Creek, mile 0.3, at Mobile, Baldwin County, AL. This deviation allows the bridge to

remain closed to navigation on December 9, 2002. The deviation is necessary to lift the girder off the pivot pedestal in order to remove the worn disc and install a new disc that affect the operation of the swing span.

DATES: This deviation is effective from 7 a.m. through 3 p.m. on December 9, 2002.

ADDRESSES: Materials referred to in this document are available for inspection or copying at the office of the Eighth Coast Guard District, Bridge Administration Branch, Hale Boggs Federal Building, room 1313, 501 Magazine Street, New Orleans, Louisiana 70130-3396 between 7 a.m. and 3 p.m., Monday through Friday, except Federal holidays. The Bridge Administration Branch of the Eighth Coast Guard District maintains the public docket for this temporary deviation.

FOR FURTHER INFORMATION CONTACT: Kay Wade, Bridge Administration Branch, telephone (504) 589-2965.

SUPPLEMENTARY INFORMATION: CSX Transportation has requested a temporary deviation in order to lift the girder off the pivot pedestal in order to remove the worn disc and install a new disc that affect the opening and closing of the swing span bridge across Three Mile Creek at mile 0.3 at Mobile, Baldwin County, Alabama. This maintenance is essential for the continued operation of the bridge and is expected to eliminate frequent breakdowns resulting in emergency bridge closures. This temporary deviation will allow the bridge to remain in the closed-to-navigation position from 7 a.m. through 6 p.m. on Monday, December 9, 2002.

The swing span bridge has a vertical clearance of 10 feet above mean high water and 12 feet above mean low water in the closed-to-navigation position. Navigation on the waterway is primarily commercial, consisting of tugs with tows and fishing vessels. There is no recreational boat traffic at the bridge site. The only known commercial users of the waterway, D.R. Jordan Pile Driving, Inc. and Mobile Ship Yard, were both contacted and have no objection to the closure. The bridge normally opens to pass navigation on an average of 3 times per day. In accordance with 33 CFR 117.5, the draw of the bridge opens on signal. The bridge will not be able to open for emergencies during the closure period. No alternate routes are available.

In accordance with 33 CFR 117.35(c), this work will be performed with all due speed in order to return the bridge to normal operation as soon as possible. This deviation from the operating
