

Important information regarding Global Phone Services.

GLOBAL PHONE TERMS AND CONDITIONS: Subject to Customer Agreement, Calling Plan and Get It Now® Agreements. CDMA/GSM phone with compatible Subscriber Identity Module (SIM) card required. You are responsible for any unauthorized use of your SIM card, and will safeguard security codes. Upon termination of your service, please destroy your SIM card. You agree to immediately notify us if your phone or SIM card is lost or stolen. Service is subject to applicable taxes, surcharges and regulatory fees. Availability of calling features and text messaging varies by country and network. Message waiting indicator service is only available where text messaging is available, and is not available to customers who block incoming text messages. Existing customers who purchase a Global Phone must set up a new voice mailbox and will lose access to previously stored messages upon activation of the Global Phone. Voice mail messages will be time-stamped "Eastern Time." Calls to voice mail will appear on your bill as calls to your mobile telephone number. Airtime used in Jersey, Guernsey and the Isle of Man will appear as the "United Kingdom" and airtime used in La Reunion will appear as "France" on your monthly bill or online account summary. Billing for airtime used when roaming may be delayed up to two billing cycles. **BY USING YOUR GLOBAL PHONE OUTSIDE THE UNITED STATES, YOU AGREE THAT YOU ARE SOLELY RESPONSIBLE FOR COMPLYING WITH ALL APPLICABLE FOREIGN LAWS, RULES AND REGULATIONS ("FOREIGN LAWS"), INCLUDING FOREIGN LAWS REGARDING USE OF WIRELESS PHONES WHILE DRIVING AND USE OF WIRELESS CAMERA PHONES. YOU FURTHER AGREE THAT VERIZON WIRELESS IS NOT LIABLE FOR ANY DAMAGES THAT RESULT FROM YOUR FAILURE TO COMPLY WITH FOREIGN LAWS.**

Important information about Roaming in "Int'l (GSM) Mode": Rates, terms and conditions apply only when roaming on participating GSM networks in published Global Phone countries. Service may be available in additional countries, but airtime rates, availability of calling features, and ability to receive incoming calls (including return calls from emergency services personnel) may be restricted. For the most current coverage information, please check www.verizonwireless.com (coverage maps will be available on the Web site in June 2004). Service in certain countries may be blocked without prior notice. International long distance per-minute rates apply in addition to airtime rates on incoming calls and voice mail messages. International long distance rates vary depending on your location when a call or voice mail is received. See www.verizonwireless.com/international/ for specific country rates. Where text messaging is available, you will be charged \$0.50 for each message sent and \$0.05 for each message received. Text messages cannot exceed 140 characters and may be sent only to mobile telephone numbers of: (i) Verizon Wireless customers, and (ii) customers of foreign wireless carriers that participate in international text messaging. Check www.vtext.com for the most current list of participating foreign carriers. Sending text messages to e-mail addresses is not available.

**For more information,
talk to your sales representative.**

East Coast. Eastern Hemisphere. One phone.

Whether business takes you around the country or around the world, you can use Global Phone from Verizon Wireless. In addition to the largest nationwide wireless network¹, you'll now enjoy wireless service to over 100 of the world's most popular business centers. With Global Phone, it's one world, one phone, and one number.

One number — so business associates and clients can reach you.

No need to give out new numbers as you travel from country to country. And no worries that a last-minute change of plans will prevent you from getting information you need.

One bill — helps you organize your business expenses.

With your domestic and international calls coming on one bill, you can recognize and itemize your business calls and track your spending more easily.

Enjoy a low rate, just 99¢ per minute, in many of the world's top business destinations.

Your worldwide business travel center.

There's no better traveling companion, both here and abroad, than the Samsung SCH-a790. It's built with both CDMA and GSM capabilities, so you can use it in the U.S. and overseas without a worry. It features voice-activated dialing and a large 260K internal color display, and is Web browser and Get It Now[®] capable. The Samsung SCH-a790 comes with a Lithium-Ion battery, a desktop charger, and European power adaptor. Extra business features such as a scheduler, calculator, alarm clock and a contact directory make business travel a whole lot simpler.
