CORRECTION

PACIFIC COAST GROUND FISH FISHERY Changes to commercial and recreational management measures

The National Marine Fisheries Service (NMFS) announces changes to commercial management measures for the Pacific Coast groundfish fishery off Washington, Oregon, and California, **effective at 0001 hours (local time) May 1, 2008.**

The Pacific Fishery Management Council (Pacific Council) recommended changes to management measures at their March 10-14, 2008, meeting in Sacramento, CA. Changes to management measures are being implemented in a Federal Register notice that published on April 18, 2008 (73 FR 21057), and are described in this public notice.

Commercial Fishery

For complete regulations governing the commercial groundfish fishery, please see Title 50 CFR Part 660, Subpart G. Current trip limit tables, Tables 3-5 (North and South), are included at the end of this public notice.

Limited Entry Non-Whiting Trawl Fishery

For more detailed regulations applying to the limited entry trawl fishery, see § 660.381 of the Pacific Coast groundfish regulations.

Based on 2006 West Coast Groundfish Observer Program data, indicating different canary rockfish bycatch rates using selective flatfish trawl gear north of 40°10' N. lat., NMFS believes that the canary

rockfish OY could be exceeded in 2008. Therefore, NMFS has implemented the following Pacific Council recommendations for May changes to the trawl RCA boundaries and trip limits:

Limited Entry Trawl Rockfish Conservation Area

NMFS will be modifying the seaward and shoreward boundaries of the trawl RCA to keep canary rockfish within their 2008 OY, and to allow some target opportunities in areas where canary bycatch rates are relatively low.

- **From Leadbetter Point (46°38.17' N. lat.) to the Oregon-Washington Border (46°16' N. lat.),** the seaward boundary of the trawl RCA is shifted seaward to a line approximating the 200 fm depth contour from May 1 through June 30;
- **Between Oregon-Washington Border (46°16' N. lat.) and Cape Falcon (45°46' N. lat.),** the seaward boundary of the trawl RCA is shifted shoreward to a line approximating the 150 fm depth contour from May 1 through August 31;
- **Between the Cape Alava (48°10' N. lat.) and the Oregon-Washington Border,** and between

Visit the NMFS Northwest Region website for current groundfish management regulations, VMS information, and RCA boundary coordinates.

Groundfish E-mail Group

Subscribe to "wgroundfish" by visiting the following website: http://listserver.afsc.noaa.gov/read/all_forums/subscribe?name=wgroundfish

Humbog Mountain (42°40.50' N. lat.) and 40°10' N. lat., the shoreward boundary of the trawl RCA is shifted shoreward to a line approximating the 60 fm depth contour beginning May 1 through October 31;

- **For all other areas and times not included above**, the trawl RCA has not changed from January 1, 2008, see Table 3 (North).

Limited Entry Trawl Trip Limits

NMFS will be decreasing cumulative limits for some species using selective flatfish trawl gear to keep canary rockfish within its 2008 OY.

- **North of 40°10 N. lat.**, decrease Dover sole trip limits using selective flatfish trawl gear to 40,000 lbs per 2 months from May through August;
- **North of 40°10 N. lat.**, decrease other flatfish trip limits using selective flatfish trawl gear to 50,000 lbs per 2 months from May through December;
- **North of 40°10 N. lat.**, decrease Petrale sole trip limits using selective flatfish trawl gear to 18,000 lb per 2 months from May through October.

NMFS will be increasing cumulative limits for some species using large and small footrope gears to provide incentives to fish in areas of low canary rockfish abundance.

- **North and South of 40°10 N. lat.**, increase sablefish trip limits using large and small footrope gear to 19,000 lb per 2 months from May through October;
- **North and South of 40°10 N. lat.**, increase shortspine thornyheads trip limits using large and small footrope gear to 25,000 lb per 2 months from May through December;
- **Between 40°10 N. lat. and 38° N. lat.**, increase minor slope and darkblotched rockfish trip limits to 15,000 lb per 2 months from July through October.

Limited Entry Non-Tribal Whiting Trawl Fishery

Catch of widow rockfish in the non-tribal limited entry trawl whiting fishery, combined with impacts from all other fisheries, is projected to exceed the 2008 widow rockfish OY. The Pacific Council considered raising the darkblotched rockfish bycatch limit to: increase flexibility in behavior of the non-tribal whiting fleet, so that they can move to offshore areas if they encounter widow rockfish early in the season; keep the impacts of all fisheries within the 2008 widow rockfish OY; and because darkblotched total catch is not projected to attain the OY.

Therefore, NMFS has implemented the following Pacific Council recommendations for an increase in the darkblotched rockfish bycatch limit to 40 mt for the non-tribal limited entry trawl whiting fishery.

Open Access Sablefish Daily Trip Limit (DTL) Fishery

The salmon fishery in 2008 will be severely constrained off the coasts of Oregon and California. In anticipation of a large influx of fishing effort into the sablefish DTL fishery as a result of salmon fishery restrictions and closures, NMFS believes the 2008 sablefish OY could be exceeded. Therefore, NMFS has implemented the following Pacific Council recommendations for May changes to the sablefish DTL trip limits:

- **North of 36° N. lat.**, decrease sablefish trip limits to 300 lb per day, or one landing per week of up to 800 lb, not to exceed 2,200 lb per two months from May through December.

Recreational Fishery off California

Recreational fishery catch projections indicate that the California state harvest limits for yelloweye, and canary rockfish would be exceeded without action to restrict California recreational fisheries. Therefore, the recreational rockfish conservation area closure is expanded toward the shore from 30 fm to 20 fm in the North (between the Oregon-California border and 40°10 N. lat.) and North-Central (between 40°10 N. lat. and 37°11 N. lat.) Management Areas. This action is in effect through the end of 2008; California has taken similar action to restrict state water fisheries for these fishing areas.

**Trip limit tables, effective May 1, 2008,
are included at the end of this public notice.**

Selective flatfish trawl gear is required shoreward of the RCA; all trawl gear (large footrope, selective flatfish trawl, and small footrope trawl gear) is permitted seaward of the RCA. Large footrope trawl gear is prohibited shoreward of the RCA. Midwater trawl gear is permitted only for vessels participating in the primary whiting season.

See § 660.370 and § 660.381 for Additional Gear, Trip Limit, and Conservation Area Requirements and Restrictions. See §§ 660.390-660.394 and §§ 660.396-660.399 for Conservation Area Descriptions and Coordinates (including RCAs, YRCA, CCAs, Farallon Islands, Cordell Banks, and EFHCAs).

State trip limits and seasons may be more restrictive than federal trip limits, particularly in waters off Oregon and California.

TABLE 3 (North) cont'

1/ Bocaccio, chilipepper and cowcod are included in the trip limits for minor shelf rockfish.

2/ Splitnose rockfish is included in the trip limits for minor slope rockfish.

3/ "Other flatfish" are defined at § 660.302 and include butter sole, curfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, and sand sole.

4/ The minimum size limit for lingcod is 24 inches (61 cm) total length.

5/ "Other fish" are defined at § 660.302 and include sharks, skates, ratfish, morids, grenadiers, and kelp greening.

Cabezon is included in the trip limits for "other fish."

6/ The Rockfish Conservation Area is a gear and/or sector specific closed area generally described by depth contours but specifically defined by lat/long coordinates set out at §§ 660.391-660.394.

7/ The "modified 200 fm" line is modified to exclude certain petrale sole areas from the RCA.

8/ If a vessel has both selective flatfish gear and large or small footrope gear on board during a cumulative limit period (either simultaneously or successively), the most restrictive cumulative limit for any gear on board during the cumulative limit period applies for the entire cumulative limit period.

To convert pounds to kilograms, divide by 2.20462, the number of pounds in one kilogram.

21 Lingcod^{4/}	CLOSED	800 lb/ 2 months				400 lb/ month	CLOSED					
22 Pacific cod	1,000 lb/ 2 months											
23 Spiny dogfish	200,000 lb/ 2 months		150,000 lb/ 2 months	100,000 lb/ 2 months								
24 Other fish^{5/}	Not limited											

TABLE 4 (North)

1/ "Other flatfish" are defined at § 660.302 and include butter sole, curlfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, and sand sole.

2/ Bocaccio, chilipepper and cowcod are included in the trip limits for minor shelf rockfish and splitnose rockfish is included in the trip limits for minor slope rockfish.

3/ For black rockfish north of Cape Alava (48°09.50' N. lat.), and between Destruction Is. (47°40' N. lat.) and Leadbetter Pnt. (46°38.17' N. lat.), there is an additional limit of 100 lb or 30 percent by weight of all fish on board, whichever is greater, per vessel, per fishing trip.

4/ The minimum size limit for lingcod is 22 inches (56 cm) total length North of 42° N. lat. and 24 inches (61 cm) total length south of 42° N. lat.

5/ "Other fish" are defined at § 660.302 and include sharks, skates, ratfish, morids, grenadiers, and kelp greenling. Cabezon is included in the trip limits for "other fish."

6/ The Rockfish Conservation Area is a gear and/or sector specific closed area generally described by depth contours but specifically defined by lat/long coordinates set out at §§ 660.391-660.394.

To convert pounds to kilograms, divide by 2.20462, the number of pounds in one kilogram.

TABLE 5 (North)

Table 5 (North). Continued

24	PINK SHRIMP NON-GROUNDFISH TRAWL <i>(not subject to RCAs)</i>	<p>Effective April 1 - October 31: Groundfish: 500 lb/day, multiplied by the number of days of the trip, not to exceed 1,500 lb/trip. The following sublimits also apply and are counted toward the overall 500 lb/day and 1,500 lb/trip groundfish limits: lingcod 300 lb/month (minimum 24 inch size limit); sablefish 2,000 lb/month; canary, thornyheads and yelloweye rockfish are PROHIBITED. All other groundfish species taken are managed under the overall 500 lb/day and 1,500 lb/trip groundfish limits. Landings of these species count toward the per day and per trip groundfish limits and do not have species-specific limits. The amount of groundfish landed may not exceed the amount of pink shrimp landed.</p>	TABLE 5 (North) cont'
25	North		
26	SALMON TROLL	<p>Salmon trollers may retain and land up to 1 lb of yellowtail rockfish for every 2 lbs of salmon landed, with a cumulative limit of 200 lb/month, both within and outside of the RCA. This limit is within the 200 lb per month combined limit for minor shelf rockfish, widow rockfish and yellowtail rockfish, and not in addition to that limit. All groundfish species are subject to the open access limits, seasons and RCA restrictions listed in the table above.</p>	
27	North		

- 1/ Bocaccio, chilipepper and cowcod rockfishes are included in the trip limits for minor shelf rockfish.
Splitnose rockfish is included in the trip limits for minor slope rockfish.
 - 2/ "Other flatfish" are defined at § 660.302 and include butter sole, curlfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, and sand sole.
 - 3/ For black rockfish north of Cape Alava (48°09.50' N. lat.), and between Destruction Is. (47°40' N. lat.) and Leadbetter Pnt. (46°38.17' N. lat.), there is an additional limit of 100 lbs or 30 percent by weight of all fish on board, whichever is greater, per vessel, per fishing trip.
 - 4/ The minimum size limit for lingcod is 22 inches (56 cm) total length North of 42° N. lat. and 24 inches (61 cm) total length south of 42° N. lat.
 - 5/ "Other fish" are defined at § 660.302 and include sharks, skates, ratfish, morids, grenadiers, and kelp greenling.
Cabezon is included in the trip limits for "other fish."
 - 6/ The Rockfish Conservation Area is a gear and/or sector specific closed area generally described by depth contours but specifically defined by lat/long coordinates set out at §§ 660.391-660.394.

39	RIDGEBACK PRAWN AND, SOUTH OF 38°57.50' N. LAT., CA HALIBUT AND SEA CUCUMBER NON-GROUNDFISH TRAWL						
40	NON-GROUNDFISH TRAWL Rockfish Conservation Area (RCA) for CA Halibut, Sea Cucumber & Ridgeback Prawn:						
41	40°10' - 38° N. lat.	100 fm - modified 200 fm ^{6/}	100 fm - 150 fm				100 fm - modified 200 fm ^{6/}
42	38° - 34°27' N. lat.	100 fm - 150 fm					
43	South of 34°27' N. lat.	100 fm - 150 fm along the mainland coast; shoreline - 150 fm around islands					
44		<p>Groundfish: 300 lb/trip. Trip limits in this table also apply and are counted toward the 300 lb groundfish per trip limit. The amount of groundfish landed may not exceed the amount of the target species landed, except that the amount of spiny dogfish landed may exceed the amount of target species landed. Spiny dogfish are limited by the 300 lb/trip overall groundfish limit. The daily trip limits for sablefish coastwide and thornyheads south of Pt. Conception and the overall groundfish "per trip" limit may not be multiplied by the number of days of the trip. Vessels participating in the California halibut fishery south of 38°57.50' N. lat. are allowed to (1) land up to 100 lb/day of groundfish without the ratio requirement, provided that at least one California halibut is landed and (2) land up to 3,000 lb/month of flatfish, no more than 300 lb of which may be species other than Pacific sanddabs, sand sole, starry flounder, rock sole, curlfin sole, or California scorpionfish (California scorpionfish is also subject to the trip limits and closures in line 31).</p>					
45	PINK SHRIMP NON-GROUNDFISH TRAWL GEAR (not subject to RCAs)						
46	South	<p>Effective April 1 - October 31: Groundfish: 500 lb/day, multiplied by the number of days of the trip, not to exceed 1,500 lb/trip. The following sublimits also apply and are counted toward the overall 500 lb/day and 1,500 lb/trip groundfish limits: lingcod 300 lb/ month (minimum 24 inch size limit); sablefish 2,000 lb/ month; canary, thornyheads and yelloweye rockfish are PROHIBITED. All other groundfish species taken are managed under the overall 500 lb/day and 1,500 lb/trip groundfish limits. Landings of these species count toward the per day and per trip groundfish limits and do not have species-specific limits. The amount of groundfish landed may not exceed the amount of pink shrimp landed.</p>					

TABLE 5 (South) cont

1/ Yellowtail rockfish is included in the trip limits for minor shelf rockfish and POP is included in the trip limits for minor slope rockfish.
 2/ "Other flatfish" are defined at § 660.302 and include butter sole, curlfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, and sand sole.
 3/ The size limit for lingcod is 24 inches (61 cm) total length.
 4/ "Other fish" are defined at § 660.302 and include sharks, skates, ratfish, morids, grenadiers, and kelp greenling.
 5/ The Rockfish Conservation Area is a gear and/or sector specific closed area generally described by depth contours but specifically defined by lat/long coordinates set out at §§ 660.391-660.394, except that the 20-fm depth contour off California is defined by the depth contour and not coordinates.
 6/ The "modified 200 fm" line is modified to exclude certain petrale sole areas from the RCA.
To convert pounds to kilograms, divide by 2.20462, the number of pounds in one kilogram.
