

this action is not a significant energy action and no Statement of Energy Effects is required.

Unfunded Mandates Reform Act

In accordance with the Unfunded Mandates Reform Act (2 U.S.C. 1501 *et seq.*):

(a) The Service has determined and certifies pursuant to the Unfunded Mandates Reform Act, 2 U.S.C. 1502 *et seq.*, that this rulemaking will not impose a cost of \$100 million or more in any given year on local or State governments or private entities. No additional information will be required from a non-Federal entity solely as a result of this rule. These regulations implement a voluntary program; no incremental costs are being imposed on non-Federal landowners.

(b) These regulations will not produce a Federal mandate of \$100 million or greater in any year; that is, this rule is not a "significant regulatory action" under the Unfunded Mandates Reform Act.

Takings

In accordance with Executive Order 12630, these regulations do not have significant takings implications concerning taking of private property by the Federal Government. These regulations pertain to a voluntary program that does not require individuals to participate unless they volunteer to do so. Therefore, these regulations have no impact on personal property rights.

Federalism

These regulations will not have substantial direct effects on the States, in the relationship between the Federal Government and the States, or on the distribution of power and responsibilities among various levels of government. Therefore, in accordance with Executive Order 13132, the Service has determined that this rule does not have sufficient federalism implications to warrant a Federalism Assessment.

Civil Justice Reform

In accordance with Executive Order 12988, the Department of the Interior has determined that this rule does not unduly burden the judicial system and meets the applicable standards provided in sections 3(a) and 3(b)(2) of the Order.

Paperwork Reduction Act

This rule would not impose any new requirements for collection of information associated with incidental take permits other than those already approved for incidental take permits under the Paperwork Reduction Act (44

U.S.C. 3501 *et seq.*). This rule will not impose new recordkeeping or reporting requirements on State or local governments, individuals, businesses, or organizations. We may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number.

National Environmental Policy Act

The Department of the Interior has determined that the issuance of this rule is categorically excluded under the Department's NEPA procedures in 516 DM 2, Appendix 1.10.

Government-to-Government Relationship With Indian Tribes

In accordance with the Secretarial Order 3206, "American Indian Tribal Rights, Federal-Tribal Trust Responsibilities, and the Endangered Species Act" (June 5, 1997); the President's memorandum of April 29, 1994, "Government-to-Government Relations with Native American Tribal Governments" (59 FR 22951); E.O. 13175; and the Department of the Interior's Manual at 512 DM 2, we understand that we must relate to recognized Federal Indian Tribes on a Government-to-Government basis. However, these regulations pertain to voluntary agreements, Habitat Conservation Plans, in which Tribes and individuals are not required to participate unless they volunteer to do so. Therefore, these regulations may have effects on Tribal resources and Native American Tribes, but solely at their discretion, should those Tribes or individuals choose to participate in the voluntary program.

List of Subjects in 50 CFR Part 17

Endangered and threatened species, Exports, Imports, Reporting and recordkeeping requirements, Transportation.

Final Regulation Promulgation

■ For the reasons set out in the preamble, the Service amends Title 50, Chapter I, subchapter B of the Code of Federal Regulations, as set forth below.

PART 17—[AMENDED]

■ 1. The authority citation for part 17 continues to read as follows:

Authority: 16 U.S.C. 1361–1407; 16 U.S.C. 1531–1544; 16 U.S.C. 4201–4245; Pub. L. 99–625, 100 Stat. 3500; unless otherwise noted.

■ 2. Amend § 17.22 by adding a new paragraph (b)(8) to read as follows:

§ 17.22 Permits for scientific purposes, enhancement of propagation or survival, or for incidental taking.

* * * * *

(b) * * *
(8) *Criteria for revocation.* A permit issued under paragraph (b) of this section may not be revoked for any reason except those set forth in § 13.28(a)(1) through (4) of this subchapter or unless continuation of the permitted activity would be inconsistent with the criterion set forth in 16 U.S.C. 1539(a)(2)(B)(iv) and the inconsistency has not been remedied.

* * * * *

■ 3. Amend § 17.32 by adding a new paragraph (b)(8) to read as follows:

§ 17.32 Permits—general.

* * * * *

(b) * * *
(8) *Criteria for revocation.* A permit issued under paragraph (b) of this section may not be revoked for any reason except those set forth in § 13.28(a)(1) through (4) of this subchapter or unless continuation of the permitted activity would be inconsistent with the criterion set forth in 16 U.S.C. 1539(a)(2)(B)(iv) and the inconsistency has not been remedied.

* * * * *

Dated: November 23, 2004.

Craig Manson,

Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4310–55–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 300

[Docket No. 040617186–4302; I.D. 120704A]

International Fisheries; Pacific Tuna Fisheries; Restrictions for 2004 Purse Seine and Longline Fisheries in the Eastern Tropical Pacific Ocean

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Fishing closure, restrictions.

SUMMARY: NMFS publishes this document to prevent overfishing of bigeye tuna in the eastern tropical Pacific Ocean (ETP), consistent with recommendations by the Inter-American Tropical Tuna Commission (IATTC) that have been approved by the Department of State (DOS) under the Tuna

Conventions Act. NMFS hereby closes the U.S. longline fishery for bigeye tuna in the Convention Area for the remainder of 2004 because the bigeye tuna catch in the Convention Area has reached the reported level of catch made in 2001. This action is intended to limit fishing mortality on bigeye tuna stock caused by longline fishing in the Convention Area and contribute to the long-term conservation of bigeye tuna stock at levels that support healthy fisheries.

DATES: Effective from December 13, 2004 through the end of the 2004 fishing season, unless NMFS publishes a superseding document in the **Federal Register**.

ADDRESSES: Southwest Regional Administrator, Southwest Region, NMFS, 501 W. Ocean Blvd., Suite 4200, Long Beach, CA 90902-4213.

This **Federal Register** document is also accessible via the Internet at the Office of the **Federal Register's** website at <http://www.gpoaccess.gov/>.

FOR FURTHER INFORMATION CONTACT: J. Allison Roult, Sustainable Fisheries Division, Southwest Region, NMFS, (562) 980-4030.

SUPPLEMENTARY INFORMATION: The United States is a member of the IATTC, which was established under the Convention for the Establishment of an Inter-American Tropical Tuna Commission signed in 1949 (Convention). The IATTC was established to provide an international arrangement to ensure the effective international conservation and management of highly migratory species of fish in the Convention Area. The Convention Area is defined to include the waters of the ETP bounded by the coast of the Americas, the 40° N. and 40° S. parallels, and the 150° W. meridian. The IATTC has maintained a scientific research and fishery monitoring program for many years and annually assesses the status of stocks of tuna and the fisheries to determine appropriate harvest limits or other measures to prevent overexploitation of tuna stocks and promote viable fisheries. Under the Tuna Conventions Act, 16 U.S.C. 951-962, NMFS must publish regulations to carry out IATTC recommendations and resolutions that have been approved by DOS. A proposed rule and request for comments was published in the **Federal Register** (69 FR 122) on June 25, 2004, and a final rule was published on November 12, 2004 (69 FR 65382). The Southwest Regional Administrator also is required by regulations at 50 CFR 300.29(b)(3) to issue a direct notice to the owners or

agents of U.S. vessels that operate in the ETP of actions recommended by the IATTC and approved by the DOS. Notices to the fleet were issued in October 2003, May 2004, and again in October 2004 regarding these actions.

The November 12, 2004, final rule provides that the U.S. longline fishery for bigeye tuna in the Convention Area will close for the remainder of calendar year 2004 if the catch of bigeye tuna by U.S. longline vessels in the Convention Area reaches 150 mt, which is the amount estimated to have been caught by the U.S. longline fishery in the Convention Area in 2001. Specifically, once the fishery is closed upon reaching the 2001 catch level, no bigeye tuna may be caught and retained by U.S. longline vessels in the Convention Area during the remainder of calendar year 2004.

NMFS has determined that the 150 mt catch level has been reached and hereby closes the U.S. longline fishery for bigeye tuna in the Convention Area for the remainder of the year 2004. It is therefore prohibited for a U.S. longline vessel to catch and retain bigeye tuna in the Convention Area from the effective date of this action through December 31, 2004.

Authority: 16 U.S.C. 951-962.

Dated: December 7, 2004.

Alan D. Risenhoover,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[I.D. 120704C]

Atlantic Highly Migratory Species; Bluefin Tuna Fisheries

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Quota transfer; fishery reopening; catch limit adjustment.

SUMMARY: NMFS has determined that Atlantic bluefin tuna (BFT) quota transfers from the Atlantic tunas General, Harpoon, and Incidental Longline categories to the Angling and Reserve categories, are warranted. In addition, NMFS is reopening the coastwide General category BFT fishery and reopening the Angling category BFT fishery. Finally, NMFS prohibits

retention of school BFT less than 47 inches (119 cm) in the recreational fishery for the remainder of the fishing year. These actions are being taken to ensure that U.S. BFT harvest is consistent with recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT), pursuant to the Atlantic Tunas Convention Act (ATCA), and to meet domestic management objectives under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) and the Fishery Management Plan for Atlantic Tunas, Swordfish and Sharks (HMS FMP).

DATES: The effective date of the BFT quota transfers and recreational catch limit adjustment is December 7, 2004 through May 31, 2005. The effective dates for the reopening of the General and Angling categories, as specified in this rule, are provided in Table 1 under **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Brad McHale at (978) 281-9260.

SUPPLEMENTARY INFORMATION:

Regulations implemented under the authority of the ATCA (16 U.S.C. 971 *et seq.*) and the Magnuson-Stevens Act (16 U.S.C. 1801 *et seq.*) governing the harvest of BFT by persons and vessels subject to U.S. jurisdiction are found at 50 CFR part 635. Section 635.27 subdivides the U.S. BFT quota recommended by ICCAT among the various domestic fishing categories, and together with General category effort controls are specified annually under procedures specified at 50 CFR 635.23(a) and 635.27(a). The proposed initial 2004 BFT Quota and General category effort controls were filed with the Office of the Federal Register on December 7, 2004.

Quota Transfer

Under the implementing regulations at 50 CFR 635.27(a)(8), NMFS has the authority to transfer quotas among categories, or, as appropriate, subcategories, of the fishery, after considering the following factors: (1) The usefulness of information obtained from catches in the particular category for biological sampling and monitoring of the status of the stock; (2) the catches of the particular category quota to date and the likelihood of closure of that segment of the fishery if no allocation is made; (3) the projected ability of the vessels fishing under the particular category quota to harvest the additional amount of BFT before the end of the fishing year; (4) the estimated amounts by which quotas established for other gear segments of the fishery might be exceeded; (5) the effects of the transfer
