Straits of Florida Planning Area	0.015	0.025	0.045	0.019	0.026	0.030	0.018	0.030	0.051	
Interim Update										
GOM Offshore Total (See Note3)	31.50	36.90	44.00	208.90	232.50	267.60	68.70	78.30	91.60	
Western Planning Area	10.70	12.50	14.50	79.80	85.30	92.20	24.90	27.60	30.90	
Central Planning Area	16.50	18.90	21.40	103.70	115.30	134.80	35.00	39.40	45.40	
Eastern Planning Area	3.76	5.52	8.67	24.61	31.92	45.20	8.14	11.20	16.71	

Notes

Thunder horse (MC778) is a good example of a field that was considered "UCRR" in the 2000 assessment since it was discovered AFTER the cutoff date but is now included in the Overall between the two assessments; 2000 vs. 2003 Update, about 160 pools were discovered containing an estimated 3.5 BBOE.

^{1 -} In the 2000 assessment Florida Straits Planning Area was included in the Gulf of Mexico total; in interim update it was included with Atlantic OCS

^{2 -} The 2003 Assessment update does consider resources that may have moved from "UCRR" in the 2000 Assessment to "Discovered" in the 2003 update.
