

Are you coming to the 2009 National Conference on Tobacco or Health?

Come one day early and learn how to make the most of available data to:

- Monitor progress in efforts to control tobacco use.
- Evaluate tobacco control programs.
- Conduct tobacco-related research.
- Link occupational, economic, health insurance, mortality and cancer incidence data, time use, or internet and cell phone access information to tobacco use data.

Join us for the

TUS-CPS (Tobacco Use Supplement to the Current Population Survey)

Users' Workshop

Tuesday, June 9, 2009

Sheraton Phoenix • Phoenix, AZ

This one-day training workshop will enhance your knowledge of TUS-CPS data and how to use this rich, national, state, and sub-state level data resource.

To register, visit the meeting Web site at <http://www.cancermeetings.org/tus-cps09/>

Conducted by:

Risk Factors Monitoring and Methods Branch, National Cancer Institute, in collaboration with survey co-sponsor, the Office of Smoking and Health, Centers for Disease Control and Prevention

For more information, contact:

Mahogany Hopkins, NOVA Research Company

Telephone: 301-986-1891 x155

E-mail: mhopkins@novaresearch.com

For more info on the TUS-CPS series of surveys, see
