**SUPPORTING STATEMENT
APPLICATION FOR A COMMISSION IN THE NOAA OFFICER CORPS
OMB CONTROL NO. 0648-0047**

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

The NOAA Corps is the seventh, and smallest, uniformed service of the United States. The current authorized end strength is 299 officers on the active duty list. Officers serve under Senate-confirmed appointments and Presidential commissions (see attached 33 U.S.C., Chapter 17, Subchapter 1, Sections 853 and 854). Officers may resign their commissions, or may request voluntary retirement when eligible. Each resignation or retirement creates a vacancy on the list of active duty officer, requiring a regular recruiting effort. It is this recruiting effort that makes the collection of appropriate personal, educational, professional qualifications information necessary in order to reach informed decisions on applicants.

2. Explain how, by whom, how frequently, and for what purpose the information will be used. If the information collected will be disseminated to the public or used to support information that will be disseminated to the public, then explain how the collection complies with all applicable Information Quality Guidelines.

The information to be collected by this application form comprises, in substantial part, the initial information from which appointment recommendations will eventually be made. Applicants may apply on a year round basis, but the primary period of collection precedes the summer and winter college graduation periods. Candidate information provided through this form is used by the NOAA Commissioned Personnel Center (personnel office) and the NOAA Officer Personnel Board (selection board). This information is used by these bodies to assess whether a candidate meets or exceeds the statutory minimum appointment qualifications and other legal obligations of citizenship. For instance, there is a legal obligation to register for the Selective Service and this fact must be established before any candidate may be offered an appointment. Similarly, no candidate may be appointed who is not also a lawful U.S. citizen. Proof of citizenship must be established. Applicants who have prior uniformed service are eligible for appointment. The details of their prior service contribute to determining the grade in which they may be originally appointed, as well as what additional entitlements may accrue to them. A completed application is used to examine, rate and/or assess the level of qualification, suitability, and availability of candidates for appointment.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

This NOAA Commissioned Personnel Center utilizes paper forms in its information gathering efforts to build and maintain an applicant pool to fill future vacancies. Fillable electronic forms are available for use as a source form, however, the information is not transmitted in the

electronic format. It must be printed and submitted as a paper form. Because of the nature and frequency of the selection board proceedings, paper forms are the only feasible and efficient means of obtaining and assessing this information.

4. Describe efforts to identify duplication.

This is a unique application and there is no duplication with other efforts.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

N/A

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

NOAA Corps could not collect the information needed to support authorized appointment of applicants for commissions in the Corps.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

None

8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

A Federal Register Notice (copy attached) solicited public comment on this collection. No comments were received.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

None

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

Functions of President under subsec. (a) delegated to Secretary of Commerce, see section 1(g) of Ex. Ord. No. 11023, May 28, 1962, 27 F.R. 5131, set out as a note under section 301 of Title 3, The President.

Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request a Review, 70 FR 16799 (April 1, 2005). The Department received timely requests for review from Colakoglu Metalurji A.S. and Colakoglu Dis Ticaret (collectively "Colakoglu"); Diler Demir Celik Endustrisi ve Ticaret A.S., Yazici Demir Celik Sanayi ve Ticaret A.S., and Diler Dis Ticaret A.S. (collectively "Diler"); Habas Sinai ve Tibbi Gazlar Istihsal Endustrisi A.S. (Habas); and ICDAS Celik Enerji Tersane ve Ulasim Sanayi A.S. (ICDAS), foreign producers/exporters in this proceeding. The Department also received a timely request for review from Nucor Corporation and Gerdau Ameristeel Corporation, domestic producers of rebar and interested parties in this proceeding, covering 34 producers/exporters of rebar from Turkey, including the producers/exporters referenced above. On May 27, 2005, the Department published a notice of initiation of administrative review of the antidumping duty order on rebar from Turkey. See *Initiation of Antidumping Duty and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 70 FR 30694 (May 27, 2005). The Department released the antidumping questionnaire in May and August 2005 to the 34 producers/exporters for which an administrative review was requested. Colakoglu, Diler, Ekinciler Demir ve Celik Sanayi A.S. and Ekinciler Dis Ticaret A.S., and Habas responded to the Department's questionnaire in August 2005 and ICDAS responded to the Department's questionnaire in October 2005. The preliminary results for this proceeding are due no later than May 1, 2006.

Scope of the Order

The product covered by this order is all stock deformed steel concrete reinforcing bars sold in straight lengths and coils. This includes all hot-rolled deformed rebar rolled from billet steel, rail steel, axle steel, or low-alloy steel. It excludes (i) plain round rebar, (ii) rebar that a processor has further worked or fabricated, and (iii) all coated rebar. Deformed rebar is currently classifiable in the *Harmonized Tariff Schedule of the United States* (HTSUS) under item numbers 7213.10.000 and 7214.20.000. The HTSUS subheadings are provided for convenience and customs purposes. The written description of the scope of this proceeding is dispositive.

Determination To Rescind, in Part

On November 8, 2005, the Department published its final results for the April

1, 2003, though March 31, 2004, administrative review and found that ICDAS met the requirements of revocation as described in 19 CFR 351.222. See *Certain Steel Concrete Reinforcing Bars From Turkey; Final Results, Rescission of Antidumping Duty Administrative Review in Part, and Determination To Revoke in Part*, 70 FR 67665 (Nov. 8, 2005). Due to ICDAS' revocation in that review, we are rescinding the April 1, 2004, through March 31, 2005, administrative review with respect to ICDAS because there is no statutory or regulatory basis to conduct an administrative review for a producer/exporter that has met the requirements of revocation.

Dated: January 12, 2006.

Assistant Secretary for Import Administration.

International Trade Administration, North American Free-Trade Agreement (NAFTA), Article 1904 Binational Panel Reviews

AGENCY: NAFTA Secretariat, United States Section, International Trade Administration, Department of Commerce.

ACTION: Notice of decision of panel.

SUMMARY: On January 17, 2006 the binational panel issued its decision in the review of the determination on remand made by the International Trade Commission, respecting Magnesium from Canada Full Sunset Review of AD and CVD Orders, Secretariat File No. USA-CDA-2000-1904-09. The binational panel affirmed in part and remanded in part to the International Trade Commission. Copies of the panel decision are available from the U.S. Section of the NAFTA Secretariat.

FOR FURTHER INFORMATION CONTACT: Caratina L. Alston, United States Secretary, NAFTA Secretariat, Suite 2061, 14th and Constitution Avenue, Washington, DC 20230, (202) 482-5438.

SUPPLEMENTARY INFORMATION: Chapter 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final

determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established *Rules of Procedure for Article 1904 Binational Panel Reviews* ("Rules"). These Rules were published in the **Federal Register** on February 23, 1994 (59 FR 8686). The panel review in this matter has been conducted in accordance with these Rules. *Panel Decision:* The panel affirmed in part and remanded in part the International Trade Commission's determination on remand respecting Magnesium from Canada. The panel remand in part to the Commission and instructed the Commission as follows: Analyze the price, volume and impact of revocation of the countervailing duty order on alloy magnesium to show how the record supports the Commission's conclusions, providing a reasoned explanation based on all of the evidence on the record to support a decision that revocation of the countervailing duty order on imports of alloy magnesium from Canada would be likely to lead to continuation or recurrence of material injury to the domestic alloy magnesium industry within the reasonably foreseeable future due to underselling by Magnola. The Commission must provide further reasoned analysis supported by substantial evidence on the record, including any factual evidence not referred to in its Views on Remand, as to the conclusion that Magnola would enter the market by underselling in order to establish export volumes that would be significant in relation to anticipated demand increases. The Commission is directed to respond to this Order within sixty (60) days of receipt.

Dated: January 17, 2006.

U.S. Secretary, NAFTA Secretariat.

SUPPLEMENTARY INFORMATION:

I. Abstract

The American Fisheries Act (AFA) was signed into law in October of 1998. The AFA established an allocation program for the pollock fishery of the Bering Sea and Aleutian Islands Management Area (BSAI). The purposes of the AFA were to tighten U.S. ownership standards that had been exploited under the Anti-reflagging Act, to provide Alaska's BSAI pollock fleet the opportunity to conduct their fishery in a more rational manner, and to protect non-AFA participants in other fisheries.

Reduced bycatch, higher utilization rates, increased economic returns, and improved safety are among the direct benefits of the AFA. The flexibility provided by cooperatives and by individual vessel allocations of pollock and other species has allowed the BSAI pollock fleet to spread their fishing effort in time and space, thus somewhat mitigating the negative impacts of the Steller sea lion (SSL) conservation and protection measures. The BSAI pollock quota is suballocated to groups of vessel owners who form fishing vessel cooperatives. The cooperative management structure has shifted more of the monitoring and enforcement burden to the cooperatives and their members, allowing NMFS to manage the fishery more precisely.

In order to make timely management decisions on closures, NMFS requires shoreside processors and stationary floating processors to use shoreside processor electronic logbook report (SPELR) to provide catcher vessel delivery information describing daily harvests of pollock and sideboard species on a vessel-by-vessel basis. The SPELR software provided by NMFS has automatic features that allow the users to effect file transfer by computer modem to the NMFS communication server, or file transfer can occur as an attachment to an e-mail message.

II. Method of Collection

Electronic files, paper reports, and paper applications are required from participants. Methods of submittal include transfer by computer modem, transfer by e-mail attachment, and facsimile transmission.
