

NOTICE OF OFFICE OF MANAGEMENT AND BUDGET ACTION

Date 06/02/2008

Department of Commerce
National Oceanic and Atmospheric Administration
FOR CERTIFYING OFFICIAL: Suzanne Hilding
FOR CLEARANCE OFFICER: Diana Hynek

In accordance with the Paperwork Reduction Act, OMB has taken action on your request received 06/02/2008

ACTION REQUESTED: Revision of a currently approved collection
TYPE OF REVIEW REQUESTED: Regular
ICR REFERENCE NUMBER: 200806-0648-001
AGENCY ICR TRACKING NUMBER:
TITLE: Atlantic Highly Migratory Species Permit Family of Forms
LIST OF INFORMATION COLLECTIONS: See next page

OMB ACTION: Approved without change
OMB CONTROL NUMBER: 0648-0327

The agency is required to display the OMB Control Number and inform respondents of its legal significance in accordance with 5 CFR 1320.5(b).

EXPIRATION DATE: 09/30/2008

DISCONTINUE DATE:

BURDEN:	RESPONSES	HOURS	COSTS

19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

NOTE: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

SUPPORTING STATEMENT
ATLANTIC HIGHLY MIGRATORY SPECIES PERMIT FAMILY OF FORMS
OMB CONTROL NO.: 0648-0327

INTRODUCTION

This Supporting Statement is submitted as part of a Paperwork Reduction Act (PRA) request to revise information collection Office of Management and Budget (OMB) Control No.: 0648-0327. The collection consists of vessel and dealer permits which are part of the National Marine Fisheries Service (NMFS) program to manage Atlantic highly migratory species (HMS) including tuna, billfish, sharks, and swordfish. The covered permits are listed in the table below. The fishery management program is implemented under the Atlantic Tunas Convention Act (ATCA) ([16 U.S.C. 971](#)) and Magnuson-Stevens Fishery Conservation and Management Act ([16 U.S.C. 1801](#)), the Consolidated HMS Fishery Management Plan, and the regulations at [50 CFR part 635](#) and [part 300.182](#).

Dealer Permits
HMS International Trade Permit
Atlantic Tunas Dealer
Shark Dealer
Swordfish Dealer
Vessel Permits
Atlantic Tunas
HMS Charter/Headboat
HMS Recreational
Shark (Directed, Incidental)
Swordfish (Directed, Incidental, Hand Gear)

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

The purpose of this collection of information is to comply with the statutory obligations of the Atlantic Tunas Convention (ATC; 16 U.S.C. 971), the Tuna Conventions (TC, 16 U.S.C. 955), and the Magnuson-Stevens Fishery Conservation and Management Act (MSFCMA; 16 U.S.C. 1853), and the implementing regulations at 50 CFR part 635 and part 300 subpart M.

Section 971d(c)(3) of the ATCA provides the statutory authority to promulgate regulations as necessary to implement the recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT). As a member nation of ICCAT, the United States is obligated to implement ICCAT recommendations and take part in the collection of biological statistics for research purposes (fishing effort and catch). As one of the member nations fishing for Atlantic HMS, the United States must abide by the specific catch quotas or caps assigned by ICCAT and support ICCAT rebuilding and fishery management programs. ICCAT recommendations have also established restrictions on international trade, such as statistical document programs to track the trade of bluefin tuna, swordfish, and frozen bigeye tuna. Statistical documents programs recommended by the Commission for the Conservation of

Southern Bluefin Tuna and the Indian Ocean Tuna Commission are also implemented under the authority of ATCA to effectively implement ICCAT statistical document programs.

The United States is also a member of the Inter-American Tropical Tuna Commission (IATTC), and authorized under the Tunas Convention Act to implement resolutions approved by IATTC. Like ICCAT, IATTC has adopted a resolution for a frozen bigeye tuna statistical document program.

The Atlantic tunas, swordfish, billfish and shark fisheries are also managed under the MSFCMA and the Consolidated HMS Fishery Management Plan, and several of these fisheries are subject to restrictive catch quotas with the goal of recovering the stocks to a level commensurate with maximum sustainable yield. Section 303(b) of the MSFCMA provides statutory authority to require permits for fisheries governed by management plans issued by the Secretary of Commerce.

Regulations at 50 CFR part 635 and 300 subpart M requires the permits listed above under Section A. Justification. The importance of the information collected by permit issuance and the use of the permit system is explained in question #2.

In addition, in a proposed rule (Regulation Identifier Number (RIN): 0648-AU88) to improve enforcement of the HMS International Trade Permit (ITP) program, NMFS would require that shark fin traders obtain the HMS ITP, as a means to identify the individuals involved in this activity, and assist monitoring trade of this valuable commodity. Export of shark fins drives much of the U.S. shark fishery, including overfishing of several species and landing prohibited species. Dealers may receive up to \$50 per pound for shark fins (dry weight). Dusky sharks (which are currently prohibited) and sandbar sharks have been determined to be overfished with overfishing still occurring, and porbeagle sharks have been determined to be overfished. Dusky sharks (before they were prohibited) and sandbar sharks have been heavily commercially exploited because of the high value of their fins. NMFS is currently proposing management measures to rebuild these stocks and stop overfishing, and has already implemented regulations to control the shark fishery by limiting the amount of shark fins that can be landed relative to the amount of shark meat that is landed. However, the high prices obtained for shark fins result in extreme pressure to circumvent the regulations. Once shark fins pass beyond the dealer acting as first-receiver/landing, it is difficult to track compliance with landing regulations. The regulatory adjustment requiring shark fin traders to obtain an ITP is expected to result in an increase in the number of individuals requiring the HMS ITP (estimated 10-100).

The proposed rule would also modify the description of the entity required to obtain the ITP to harmonize NMFS and Customs and Border Protection (CBP) regulations that address U.S. trade by foreign entities. This regulatory adjustment is not expected to affect the number of permit applicants.

2. Explain how, by whom, how frequently, and for what purpose the information will be used. If the information collected will be disseminated to the public or used to support information that will be disseminated to the public, then explain how the collection complies with all applicable Information Quality Guidelines.

Permits can be used to accomplish many functions, which are discussed further below. One of the main purposes for permitting by NMFS is to identify the participants in a particular trade or industry. NMFS manages fisheries on a regional basis; likewise, permits are issued by regional offices and the permit databases are regionally distributed. HMS works with two regions and the Office of Science and Technology to issue HMS permits. Under these current HMS operations, it is difficult to identify businesses that hold more than one HMS permit. An exception to this rule are the permits covering the HMS longline fisheries, some of which are required to be held in unison. In 2006, 604 permit holders held the 1,131 permits issued for this fishery (includes portions of shark, swordfish and Atlantic Tunas vessel permits). Conversely, the HMS recreational fishery can be identified as holding only one HMS vessel permit (approximately 25,238 in 2006). All other respondents could hold more than one dealer or (commercial) vessel permit.

This revision pertains to the International Trade Permit, described below:

Dealer Permits

The general information collected for dealer applications includes all or some of the following information:

Business & owner name and contact information (e.g. phone, address, business website, etc.),
Birth date for the sole proprietor or applicant,
Business report or articles of incorporation (other than sole proprietorship);
Facilities where product is received or other business addresses/contact information
Applicant name and contact information
Federal Tax I.D. Number
Type of dealer permit requested
Other NMFS dealer permit identification
Applicant signature and date

Note: the currently approved Federal Tax I.D. Number requirement is included in this revision, specifically for support of the cost recovery requirement in the Southeast Region Gulf of Mexico Red Snapper Individual Fishing Quota (IFQ) Program, OMB Control No.: 0648-0551. Dealers applying for the International Trade Permit may be eligible to acquire these quota shares. Collection of the Tax Identification Number (TIN) is necessary to ensure that we are collecting from the person who owes the debt. If the fee submission and payment are not received, the agency must begin collection processes and those collection processes cannot be initiated or accomplished without the TIN. *Because the TIN in this instance is collected for NMFS cost recovery, there is demonstrable practical utility. In addition, cost recovery is mandated by the Magnuson-Stevens Act (16 U.S.C. 1853a et seq.) as amended in 2006, and the collection of TIN in such an instance is supported by 31 U.S.C. Section 7701).* This is the only method we have for identifying TIN for those involved, or who may become involved, in the IFQ program.

Application for all dealer permits requires submission of the appropriate hard-copy application indicated as below in Number 3. In general, the purpose and use of dealer permits is to (1)

identify fish dealers and the characteristics of their operations; (2) increase compliance (e.g., impose permit sanctions pending collection of required reports or unpaid penalties); (3) provide a mailing list for the dissemination of important information to the industry; and (4) provide a universe for data collection samples.

Although the information collected is not expected to be disseminated directly to the public, it may be used in the development or review of fishery management plans or subject to release through a Freedom of Information Act request, and is therefore subject to National Oceanic and Atmospheric Administration (NOAA)'s Information Quality Guidelines. As explained in the preceding paragraphs, the information gathered has utility. NMFS will retain control over the information and safeguard it from improper access, modification, and destruction, consistent with NOAA standards for confidentiality, privacy, and electronic information. See Question #10 of this Supporting Statement for more information on confidentiality and privacy. The information collection is designed to yield data that meet all applicable information quality guidelines. Prior to dissemination, the information will be subjected to quality control measures and a pre-dissemination review pursuant to Section 515 of Public Law 106-554.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

Dealer permit applications must be submitted in hard copy. Electronic versions of the applications are available to be printed and filled out by hand or as form-fillable .PDF files. Renewal is facilitated by providing a pre-filled renewal application.

4. Describe efforts to identify duplication.

The HMS Advisory Panel meets at least once per year to discuss issues pertinent to management of HMS fisheries, including permits. This panel includes representatives from fishing and processing industries, environmentalists, and state representatives. Through this forum and the federal rule-making process, information including any potential duplication of permitting requirements is identified.

Dealer Permit

HMS Dealer permits are species specific for purchasing HMS from fishing vessels (see below). In addition, HMS dealers who import, export, or re-export species covered by the HMS ITP are required to hold that permit as well. So, although U.S. dealers may be required to hold more than one permit for purchasing and trading HMS, each permit covers a different function, and none of the permits are duplicative in the activities they cover.

SPECIES	PERMIT FOR PURCHASE FROM VESSEL	PERMIT FOR TRADE
Atlantic bluefin tuna	Atlantic Tunas Dealer Permit	HMS ITP
Atlantic bigeye tuna	Atlantic Tunas Dealer Permit	HMS ITP (frozen only)
Atlantic sharks	Atlantic Shark Dealer Permit	HMS ITP (proposed for shark fins only)
Atlantic swordfish	Atlantic Swordfish Dealer Permit	HMS ITP
Southern bluefin tuna	None	HMS ITP

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

Annual permitting does not have a significant impact on small businesses, organizations or government bodies. The minimal burden per application is outlined in Question #12. Impacts have been minimized for several vessel permits by providing application and renewal services over the internet and telephone, as discussed in Question # 3.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

If this information collection were not conducted, the United States would have difficulty in complying with international obligations under ICCAT, possibly resulting in violations of ICCAT catch recommendations. ICCAT penalties may include reduction in the assigned country catch quota equal to a minimum of 125% of the excess harvest. In addition, trade restrictions may be imposed on countries that fail to restrict catch to the level of the assigned quotas. This is particularly important for those species for which an international rebuilding program is in place such as bluefin tuna, swordfish, and blue and white marlins.

Estimates of the status of the Atlantic HMS resources would be less accurate without this information, since all contracting parties to ICCAT must submit catch and effort information on an annual basis. Without such catch and effort statistics, the conservation and management objectives of ICCAT with respect to the tuna and swordfish rebuilding programs could be jeopardized. Furthermore, it would be difficult for the United States to formulate domestic policy consistent with the MSFCMA, which must be based on sound socio-economic and biological data and analyses. NMFS would be less able to prepare documents such as Regulatory Impact Reviews, or Environmental Impact Statements, etc., as required under the Magnuson-Stevens Act, National Environmental Policy Act, and other applicable laws.

Annual permitting thus provides a more accurate vessel and dealer list and facilitates quota monitoring and data collections necessary to meet ICCAT obligations. Widening the timeframe for collection of information on HMS fisheries participants (e.g., every two years rather than annually) would provide a less accurate sampling frame that is the basis for fleet size calculations used for annual catch and effort estimates. Many vessels change hands or are moved from year to year. It is also necessary to permit dealers annually in order to ensure accurate records of landings and to communicate regulatory changes efficiently and effectively.

Likewise, annual permitting for trade participants provides NMFS with a comprehensive list of individuals involved in trade of species included in regional fishery management organization (RFMO, e.g. ICCAT) statistical document programs. This allows NMFS to communicate program requirements, including time-sensitive changes, and collect necessary data for required RFMO reports. If reports are not submitted, the United States could be penalized by quota reductions as discussed above. The permitting of shark traders will assist NMFS in understanding shark fin trade and improving domestic management of sharks. If not permitted, NMFS would continue to lack information on the industry driving the shark fishery.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

Collection of information will be made in a manner consistent with OMB guidelines.

8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

A proposed rule, RIN: 0648-AU88, amending regulations so that the HMS ITP may be required for shark fin traders, will be published for public comment.

All of the permits covered under this collection were established via the federal rulemaking process which required analyses of the impacts of the permits and provided an opportunity for public comment. In addition, a federal advisory committee (the HMS Advisory Panel) meets at least annually to provide input on HMS regulatory and operations programs.

The HMS Advisory Panel met most recently in October of 2007, and continues to support improved recreational monitoring as a high priority, which would not be possible without this collection.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

There are no payments or other remunerations to respondents.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

The information collected is confidential under section 402(b) of the MSFCMA, as amended in 2006. It is also confidential under NOAA Administrative Order 216.100, which sets forth procedures to protect confidentiality of fishery statistics.

A Privacy Act System of Records Notice, COMMERCE/NOAA-19, Permits and Registrations for United States Federally Regulated Fisheries, will be published in the Federal Register in April, 2008.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

No sensitive questions are asked.

12. Provide an estimate in hours of the burden of the collection of information.

Although this revision applies only to the International Trade Permit, we are taking this opportunity to update burden and cost estimates for all permits. Burden hours, number of respondents and opportunity costs for each permit are given in the table below. For most permit types, the number of respondents is estimated by actual 2006 data, increased by 10% to account for any potential increases in number of permits issued over the period covered by this request. Exceptions for this include limited access permits for which the number of respondents was not increased⁽¹⁾, and the HMS ITP⁽²⁾. For the HMS ITP, the number of actual 2006 permits plus an estimated increase of 100 HMS ITP were added to account for potential increase in HMS ITP issued to shark fin traders.

Permit Type	Annual Responses (2006)	Annual Responses (Future/current)	Time per Response (hrs)	Annual Burden (hrs)	Cost (\$) (@\$15/hr)
VESSEL PERMITS					
INITIAL -- Atlantic Tunas (General, Harpoon & Trap categories), HMS Charter/headboat, HMS Angling	9,710	10,681	0.5 (30 min.)	5,341	80,115
RENEWAL -- Atlantic Tunas, HMS Charter/headboat (General, Harpoon & Trap categories), HMS Charter/headboat, HMS Angling	25,124	27,636	0.1 (6 min.)	2,764	41,460
RENEWAL -- Atlantic Tunas limited access (Purse seine & Longline categories)	241	241 ¹	0.1 (6 min.)	24	360
SUBTOTAL	35,075	38,558	N/A	8,129	121,935
Shark and Swordfish	959	959 ¹	0.33 (20 min.)	316	4,747
SUBTOTALS (VESSEL)	36,034	39,517	N/A	8,445	126,682
DEALER PERMITS					
INITIAL - Atlantic Tunas	100	110	0.25 (15 min.)	28	420
RENEWAL - Atlantic Tunas	306	336	0.083 (5 min.)	28	420
Shark and Swordfish (shark = 225)	470	517	0.083 (5 min.)	43	645
HMS ITP	230	330 ⁽²⁾	0.083 (5 min.)	27	405
SUBTOTALS (DEALER)	1,106	1,293	N/A	126	1,890
TOTALS		40,810	N/A	8,571	128,572

13. Provide an estimate of the total annual cost burden to the respondents or record-keepers resulting from the collection (excluding the value of the burden hours in #12 above).

Permit Type	Annual Responses (Future)	Estimated Permit Cost (\$)	Application Submission and/or Permit Delivery Cost	Total Recordkeeping and Reporting Cost (\$)
VESSEL PERMITS				
Atlantic Tunas, HMS Charter/headboat, HMS recreational – internet application & self printed/faxed/mailed (99% of 38,558)	38,173	\$28	0	1,068,844
Atlantic Tunas, HMS Charter/headboat, HMS recreational – hardcopy application (0.95% of 38,558)	366	\$28	\$0.50	10,431
Atlantic Tunas, HMS Charter/headboat, HMS recreational – overnight delivery (.05% of 38,558)	19	N/A	\$3.55	67
Shark and Swordfish	959	\$50	0.50	48,430
SUBTOTAL	39,517	N/A	N/A	1,127,772
DEALER PERMITS				
Atlantic Tunas	446	\$113	0.50	50,621
Shark and Swordfish	517	\$100	0.50	51,958
HMS ITP	330	\$25	0.50	8,415
SUBTOTAL	1,293			110,994
TOTALS	40,810			1,238,766

14. Provide estimates of annualized cost to the Federal government.

The cost of all these permits will be reimbursed by an administrative cost recovery fee, and there will be no cost to the Federal government.

15. Explain the reasons for any program changes or adjustments reported in Questions 13 or 14 of the OMB 83-I.

Program Changes – Changes to dealer permitting that resulted in changes to the number of respondents, responses, or costs in this request as compared to the previous version are the result of: 1) the new requirement for shark traders to obtain the HMS ITP; and 2) a new fee (\$113) for the Atlantic Tunas Dealer Permit.

Program Adjustments – Adjustments to the number of respondents, responses, or costs as compared to the previous version are the result of: 1) the use of more recent data for estimation of the number of permit holders; 2) an estimated addition of 10% more permit holders by the end of the reporting period; 3) adjustment in cost of ITP from \$100 to \$25; 4) changes in the percentage of renewal v. initial permits.

Description	Number of Responses			Number of hours			Recordkeeping/reporting Cost		
	Previous	Current	Change	Previous	Current	Change	Previous	Current	Change
Add Charge for ATDP	N/A	N/A	N/A	N/A	N/A	N/A		50,398	50,398
Add shark fin traders to HMS ITP	0	100	100	0	8	8	N/A	2550	2550
TOTAL for PROGRAM CHANGE On 83i			100			8			53
DEALER PERMITS									
ATDP	509	446	-63	52	56	4	255	223	-32
Shark & SWO	583	517	-113	48	43	-5	58,592	51,958	-6634

Atlantic Tunas, HMS Recreational, & HMS Charter/headboat	42,494	38,558	-3,936	7989	8129	140	926,068	1,079,275	153,207
TOTAL for PROG ADJ on 83i			-4857			73			127
TOTAL per 83i	45,520	40,810	-4757	8490	8571	81	1,059	1,239	180

16. For collections whose results will be published, outline the plans for tabulation and publication.

No publication of information is planned other than annual summary tables of the total number and type of permit issued by state and. Such tables may appear in reports to ICCAT, Stock Assessment and Fishery Evaluation reports, Environmental Assessments, Regulatory Impact Reviews, etc.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

The control number and expiration date for OMB approval are displayed on all hardcopy forms (applications and/or instructions) and under the permit information screen on the web site.

18. Explain each exception to the certification statement identified in Question 19 of the OMB 83-I.

No exceptions are requested.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

This collection does not employ statistical methods.

NOAA National Marine Fisheries Service (NMFS) Highly Migratory Species International Trade Permit

A NMFS Highly Migratory Species International Trade Permit is required pursuant to 50 CFR 300.182 to import, export, or re-export swordfish, bluefin tuna, southern bluefin tuna, and/or frozen bigeye tuna, regardless of ocean area of origin.

Application Instructions

- Section 1 Print or type the requested information.

- Section 2 Print or type the names and addresses of additional facilities where fish are received, if applicable. If more space is needed, attach an additional sheet.

- Section 3 Print or type the requested information.

- Section 4 List all other state and Federal licenses, if applicable.

- Section 5 Select appropriate delivery options. For FedEx delivery, a completed airbill, including your account number or major credit card number with expiration date, is required. Include a check or money order for \$25 made payable to the *United States Treasury*.

- Section 6 The application must be complete and signed by the applicant or it will be returned. The applicant's signature declares under of penalty of law that all information on the application is true, accurate and complete.

Paperwork Reduction Act Notification: Public reporting burden for this collection of information is estimated to average 5 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the information. Send comments regarding this burden estimate or suggestions for reducing this burden to: NMFS, Highly Migratory Species Division, 1315 East West Highway, Silver Spring, MD 20910. The Paperwork Reduction Act requires potential respondents for a dealer permit to be notified of certain information regarding their rights and the burden associated with applying for a Federal dealer permit. One of the regulatory steps taken by NMFS to carry out conservation and management objectives is the requirement of a permit for users of the resources. Section 971(d) of the Atlantic Tunas Convention Act authorizes the promulgation of regulations as may be necessary and appropriate to implement the recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT). This permit is necessary for the implementation of required ICCAT trade monitoring programs. Pursuant to Section 402(b) of the Magnuson-Stevens Act, and consistent with NOAA Administrative Order 216-100 (Confidentiality of Fisheries Statistics), the Agency does not release confidential information submitted in compliance with provisions of the Act, other than in aggregate form and under circumstances required or authorized by law. Whenever data are requested or released to the general public, the Agency ensures that information on the pecuniary business activity of a dealer is not identified. Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to, a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

TITLE 16--CONSERVATION

CHAPTER 16A--ATLANTIC TUNAS CONVENTION

Sec. 971. Definitions

For the purpose of this chapter -

- (1) The term "Convention" means the International Convention for the Conservation of Atlantic Tunas, signed at Rio de Janeiro May 14, 1966, including any amendments or protocols which are or become effective for the United States.
- (2) The term "Commission" means the International Commission for the Conservation of Atlantic Tunas provided for in article III of the Convention.
- (3) The term "conservation recommendation" means any recommendation of the Commission made pursuant to Article VIII of the Convention and acted upon favorably by the Secretary of State under section 971 c(a) of this title.
- (4) The term "Council" means the Council established within the International Commission for the Conservation of Atlantic Tunas pursuant to article V of the Convention.
- (5) The term "exclusive economic zone" means an exclusive economic zone as defined in section 1802 of this title.
- (6) The term "fishing" means the catching, taking, or fishing for or the attempted catching, taking, or fishing for any species of fish covered by the Convention, or any activities in support thereof.
- (7) The term "fishing vessel" means any vessel engaged in catching fish or processing or transporting fish loaded on the high seas, or any vessel outfitted for such activities.
- (8) The term "Panel" means any panel established by the Commission pursuant to article VI of the Convention.
- (9) The term "person" means every individual, partnership, corporation, and association subject to the jurisdiction of the United States.
- (10) The term "Secretary" means the Secretary of Commerce.
- (11) The term "State" includes each of the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

Sec. 971a. Commissioners

- (a) Appointment and number; selection of Chairman; rules of procedure; term
 - (1) The United States shall be represented by not more than three Commissioners who shall serve as delegates of the United States on the Commission, and who may serve on the Council and Panels of the Commission as provided for in the Convention. Such Commissioners shall be appointed by and serve at the pleasure of the President. Not more than one such Commissioner shall be a salaried employee of any State or political subdivision thereof, or the Federal Government. Individuals serving as such Commissioners shall not be considered to be Federal employees while performing such service, except for purposes of injury compensation or tort claims liability as provided in chapter 81 of title 5 and chapter 171 of title 28. The Commissioners shall be entitled to select a Chairman and to adopt such rules of procedure as they find necessary.
 - (2) Of the Commissioners appointed under paragraph (1) who are not governmental employees -
 - (A) one shall be appointed from among individuals with knowledge and experience regarding commercial fishing in the Atlantic Ocean, Gulf of Mexico, or Caribbean Sea; and
 - (B) one shall be appointed from among individuals with knowledge and experience regarding recreational

fishing in the Atlantic Ocean, Gulf of Mexico, or Caribbean Sea.

(3)

(A) The term of a Commissioner shall be three years.

(B) An individual appointed in accordance with paragraph (2) shall not be eligible to serve more than two consecutive terms as a Commissioner.

(b) Alternate Commissioners

The Secretary of State, in consultation with the Secretary, may designate from time to time and for periods of time deemed appropriate Alternate United States Commissioners to the Commission. Any Alternate United States Commissioner may exercise at any meeting of the Commission, Council, any Panel, or the advisory committee established pursuant to section 971b of this title, all powers and duties of a United States Commissioner in the absence of any Commissioner appointed pursuant to subsection (a) of this section for whatever reason. The number of such Alternate United States Commissioners that may be designated for any such meeting shall be limited to the number of United States Commissioners appointed pursuant to subsection (a) of this section who will not be present at such meeting.

(c) Compensation

The United States Commissioners or Alternate Commissioners, although officers of the United States while so serving, shall receive no compensation for their services as such Commissioners or Alternate Commissioners.

(d) Travel expenses

(1) The Secretary of State shall pay the necessary travel expenses of United States Commissioners, Alternate United States Commissioners, and authorized advisors in accordance with the Federal Travel Regulations and sections 5701, 5702, 5704 through 5708, and 5731 of title 5.

(2) The Secretary may reimburse the Secretary of State for amounts expended by the Secretary of State under this subsection.

Sec. 971b. Advisory committee

(a) There is established an advisory committee which shall be composed of -

(1) not less than five nor more than twenty individuals appointed by the United States Commissioners who shall select such individuals from the various groups concerned with the fisheries covered by the Convention; and

(2) the chairmen (or their designees) of the New England, Mid-Atlantic, South Atlantic, Caribbean, and Gulf Fishery Management Councils established under section 302(a) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1852(a)). Each member of the advisory committee appointed under paragraph (1) shall serve for a term of two years and shall be eligible for reappointment. Members of the advisory committee may attend all public meetings of the Commission, Council, or any Panel and any other meetings to which they are invited by the Commission, Council, or any Panel. The advisory committee shall be invited to attend all non-executive meetings of the United States Commissioners and at such meetings shall be given opportunity to examine and to be heard on all proposed programs of investigation, reports, recommendations, and regulations of the Commission. Members of the advisory committee shall receive no compensation for their services as such members. The Secretary and the Secretary of State may pay the necessary travel expenses of members of the advisory committee in accordance with the Federal Travel Regulations and sections 5701, 5702, 5704 through 5708, and 5731 of title 5.

(b)

(1) A majority of the members of the advisory committee shall constitute a quorum, but one or more such members designated by the advisory committee may hold meetings to provide for public participation and to discuss measures relating to the United States implementation of Commission recommendations.

(2) The advisory committee shall elect a Chairman for a 2-year term from among its members.

(5) The advisory committee shall meet at appropriate times and places at least twice a year, at the call of the Chairman or upon the request of the majority of its voting members, the United States Commissioners, the Secretary, or the Secretary of State. Meetings of the advisory committee, except when in executive session, shall be open to the public, and prior notice of meetings shall be made public in a timely fashion.

(4)

(A) The Secretary shall provide to the advisory committee in a timely manner such administrative and technical support services as are necessary for the effective functioning of the committee.

(B) The Secretary and the Secretary of State shall furnish the advisory committee with relevant information concerning fisheries and international fishery agreements.

(5) The advisory committee shall determine its organization, and prescribe its practices and procedures for carrying out its functions under this chapter, the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), and the Convention. The advisory committee shall publish and make available to the public a statement of its organization, practices, and procedures.

(6) The advisory committee shall, to the maximum extent practicable, consist of an equitable balance among the various groups concerned with the fisheries covered by the Convention and shall not be subject to the Federal Advisory Committee Act (5 U.S.C. App.).

Sec. 971b-1. Species working groups

The United States Commissioners may establish species working groups for the purpose of providing advice and recommendations to the Commissioners and the advisory committee on matters relating to the conservation and management of any highly migratory species covered by the Convention. Any species working group shall consist of no more than seven members of the advisory committee and no more than four scientific or technical personnel, as considered necessary by the Commissioner.

Sec. 971c. Authority of Secretary of State; cooperative enforcement agreements

(a) Recommendations from Commission

The Secretary of State is authorized to receive on behalf of the United States, reports, requests, and other communications of the Commission, and to act thereon directly or by reference to the appropriate authorities. The Secretary of State, with the concurrence of the Secretary and, for matters relating to enforcement, the Secretary of the department in which the Coast Guard is operating, is authorized to take appropriate action on behalf of the United States with regard to recommendations received from the Commission pursuant to article VIII of the Convention. The Secretary and, when appropriate, the Secretary of the department in which the Coast Guard is operating, shall inform the Secretary of State as to what action he considers appropriate within five months of the date of the notification of the recommendation from the Commission, and again within forty-five days of the additional sixty-day period provided by the Convention if any objection is presented by another contracting party to the Convention, or within thirty days of the date of the notification of an objection made within the additional sixty-day period, whichever date shall be the later. After any notification from the Commission that an objection of the United States is to be considered as having no effect, the Secretary shall inform the Secretary of State as to what action he considers appropriate within forty-five days of the sixty-day period provided by the Convention for reaffirming objections. The Secretary of State shall take steps under the Convention to insure that a recommendation pursuant to article VIII of the Convention does not become effective for the United States prior to its becoming effective for all contracting parties conducting fisheries affected by such recommendation on a meaningful scale in terms of their effect upon the success of the conservation program, unless he determines, with the concurrence of the Secretary, and, for matters relating to enforcement, the Secretary of the department in which the Coast Guard is operating, that the purposes of the Convention would be served by allowing a recommendation to take effect for the United States at some earlier time.

(b) Enforcement agreements

The Secretary of State, in consultation with the Secretary and the Secretary of the department in which the Coast Guard is operating, is authorized to enter into agreements with any contracting party, pursuant to paragraph 3 of article IX of the Convention, relating to cooperative enforcement of the provisions of the Convention, recommendations in force for the United States and such party or parties under the Convention, and regulations adopted by the United States and such contracting party or parties pursuant to recommendations of the Commission. Such agreements may authorize personnel of the United States to enforce measures under the Convention and under regulations of another party with respect to persons under that party's jurisdiction, and may authorize personnel of another party to enforce measures under the Convention and under United States regulations with respect to persons subject to the jurisdiction of the United States. Enforcement under such an agreement may not take place within the territorial seas or exclusive economic zone of the United States. Such agreements shall not subject persons or vessels under the jurisdiction of the United States to prosecution or assessment of penalties by any court or tribunal of a foreign country.

Sec. 971 d. Administration

(a) Regulations; cooperation with other parties to Convention; utilization of personnel, services, and facilities for enforcement

The Secretary is authorized and directed to administer and enforce all of the provisions of the Convention, this chapter, and regulations issued pursuant thereto, except to the extent otherwise provided for in this chapter. In carrying out such functions the Secretary is authorized and directed to adopt such regulations as may be necessary to carry out the purposes and objectives of the Convention and this chapter, and with the concurrence of the Secretary of State, he may cooperate with the duly authorized officials of the government of any party to the Convention. In addition, the Secretary may utilize, with the concurrence of the Secretary of the department in which the Coast Guard is operating insofar as such utilization involves enforcement at sea, with or without reimbursement and by agreement with any other Federal department or agency, or with any agency of any State, the personnel, services, and facilities of that agency for enforcement purposes with respect to any vessel in the exclusive economic zone, or wherever found, with respect to any vessel documented under the laws of the United States, and any vessel numbered or otherwise licensed under the laws of any State. When so utilized, such personnel of the States of the United States are authorized to function as Federal law enforcement agents for these purposes, but they shall not be held and considered as employees of the United States for the purposes of any laws administered by the Director of the Office of Personnel Management.

(b) Primary enforcement responsibility

Enforcement activities at sea under the provisions of this chapter for fishing vessels subject to the jurisdiction of the United States shall be primarily the responsibility of the Secretary of the department in which the Coast Guard is operating, in cooperation with the Secretary and the United States Customs Service. The Secretary after consultation with the Secretary of the department, in which the Coast Guard is operating, shall adopt such regulations as may be necessary to provide for procedures and methods of enforcement pursuant to article IX of the Convention.

(c) Regulations and other measures to carry out Commission recommendations

(1)

(A) Upon favorable action by the Secretary of State under section 971 c(a) of this title on any recommendation of the Commission made pursuant to article VIII of the Convention, the Secretary shall promulgate, pursuant to this subsection, such regulations as may be necessary and appropriate to carry out such recommendation.

(B) Not later than June 30, 1991, the Secretary shall promulgate any additional regulations necessary to ensure that the United States is in full compliance with all recommendations made by the Commission that have been accepted by the United States and with other agreements under the Convention between the United States and any nation which is a party to the Convention.

(C) Regulations promulgated under this paragraph shall, to the extent practicable, be consistent with fishery management plans prepared and implemented under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).

(2) To promulgate regulations referred to in paragraph (1) of this subsection, the Secretary shall publish in the Federal Register a general notice of proposed rulemaking and shall afford interested persons an opportunity to participate in the rulemaking through (A) submission of written data, views, or arguments, and (B) oral presentation at a public hearing. Such regulations shall be published in the Federal Register and shall be accompanied by a statement of the considerations involved in the issuance of the regulations, and by a statement, based on inquiries and investigations, assessing the nature and effectiveness of the measures for the implementation of the Commission's recommendations which are being or will be carried out by countries whose vessels engage in fishing the species subject to such recommendations within the waters to which the Convention applies. After publication in the Federal Register, such regulations shall be applicable to all vessels and persons subject to the jurisdiction of the United States on such date as the Secretary shall prescribe. The Secretary shall suspend at any time the application of any such regulation when, after consultation with the Secretary of State and the United States Commissioners, he determines that fishing operations in the Convention area of a contracting party for whom the regulations are effective are such as to constitute a serious threat to the achievement of the Commission's recommendations.

(3) The regulations required to be promulgated under paragraph (1) of this subsection may

(A) select for regulation one or more of the species covered by the Convention;

(B) divide the Convention waters into areas;

(C) establish one or more open or closed seasons as to each such area;

(D) limit the size of the fish and quantity of the catch which may be taken from each area within any season during which fishing is allowed;

(E) limit or prohibit the incidental catch of a regulated species which may be retained, taken, possessed, or landed by vessels or persons fishing for other species of fish;

(F) require records of operations to be kept by any master or other person in charge of any fishing vessel;

(G) require such clearance certificates for vessels as may be necessary to carry out the purposes of the Convention and this chapter;

(H) require proof satisfactory to the Secretary that any fish subject to regulation pursuant to a recommendation of the Commission offered for entry into the United States has not been taken or retained contrary to the recommendations of the Commission made pursuant to article VIII of the Convention which have been adopted as regulations pursuant to this section;

(I) require any commercial or recreational fisherman to obtain a permit from the Secretary and report the quantity of the catch of a regulated species;

(J) require that observers be carried aboard fishing vessels for the purpose of providing statistically reliable scientific data; and

(K) impose such other requirements and provide for such other measures as the Secretary may determine necessary to implement any recommendation of the Convention or to obtain scientific data necessary to accomplish the purpose of the Convention; except that no regulation promulgated under this section may have the effect of increasing or decreasing any allocation or quota of fish or fishing mortality level to the United States agreed to pursuant to a recommendation of the Commission.

(4) Upon the promulgation of regulations provided for in paragraph (3) of this subsection, the Secretary shall promulgate, with the concurrence of the Secretary of State and pursuant to the procedures prescribed in paragraph (2) of this subsection, additional regulations which shall become effective simultaneously with the application of the regulations provided for in paragraph (3) of this subsection, which prohibit -

(A) the entry into the United States of fish in any form of those species which are subject to regulation pursuant to a recommendation of the Commission and which were taken from the Convention area in such manner or in such circumstances as would tend to diminish the effectiveness of the conservation recommendations of the Commission; and

(B) the entry into the United States, from any country when the vessels of such country are being used in the conduct of fishing operations in the Convention area in such manner or in such circumstances as would tend to diminish the effectiveness of the conservation recommendations of the Commission, of fish in any form of those species which are subject to regulation pursuant to a recommendation of the Commission and which were taken from the Convention area.

(5) In the case of repeated and flagrant fishing operations in the Convention area by the vessels of any country which seriously threaten

the achievement of the objectives of the Commission's recommendations, the Secretary with the concurrence of the Secretary of State, may by regulations promulgated pursuant to paragraph (2) of this subsection prohibit the entry in any form from such country of other species covered by the Convention as may be under investigation by the Commission and which were taken in the Convention area. Any such prohibition shall continue until the Secretary is satisfied that the condition warranting the prohibition no longer exists, except that all fish in any form of the species under regulation which were previously prohibited from entry shall continue to be prohibited from entry.

(6) Identification and notification. -

(A) Not later than July 1, 1996, and annually thereafter, the Secretary, in consultation with the Secretary of State, the Commissioners, and the advisory committee, shall -

(i) identify those nations whose fishing vessels are fishing, or have fished during the preceding calendar year, within the convention area in a manner or under circumstances that diminish the effectiveness of a conservation recommendation;

(ii) notify the President and the nation so identified, including an explanation of the reasons therefore; and

(iii) publish a list of those Nations identified under clause notify the President and the nation so identified,

(B) In identifying those Nations, the Secretary shall consider, based on the best available information, whether those Nations have measures in place for reporting, monitoring, and enforcement, and whether those measures diminish the effectiveness of any conservation recommendation.

(7) Consultation. - Not later than 30 days after a Nation is notified under paragraph (6), the President may enter into consultations with the Government of that Nation for the purpose of obtaining an agreement that will -

(A) effect the immediate termination and prevent the resumption of any fishing operation by vessels of that Nation within the Convention area which is conducted in a manner or under circumstances that diminish the effectiveness of the conservation recommendation;

(B) when practicable, require actions by that Nation, or vessels of that Nation, to mitigate the negative impacts of fishing operations on the effectiveness of the conservation recommendation involved, including but not limited to, the imposition of subsequent-year deductions for quota overages; and

(C) result in the establishment, if necessary, by such Nation of reporting, monitoring, and enforcement measures that are adequate to ensure the effectiveness of conservation recommendations.

(d) Recommended Commission actions regarding large-scale driftnet fishing and conservation of Atlantic swordfish

(1) It is the sense of the Congress that the Secretary, in consultation with the Secretary of State, should seek support for a recommendation by the Commission to ban large-scale driftnet fishing (as that term is defined in section 3(16) ⁽¹⁾ of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1802(16))) in the Convention area.

(2) The Secretary, in consultation with the Secretary of State, shall request the Commission to adopt recommendations necessary for the conservation and management of Atlantic swordfish. In making the request, the Secretary shall seek the establishment of an international minimum harvest size and a reduction in harvest levels to the extent necessary to conserve the stock. Until the Commission adopts all the conservation and management measures requested by the Secretary, the Secretary, within 3 months after each annual meeting of the Commission, shall notify Congress as to the nature and results of his request. These notifications shall identify those nations not acting to conserve and manage Atlantic swordfish, and recommend measures which could be taken to achieve effective international conservation and management of the stock.

Sec. 971e. Violations

(a) In general

It shall be unlawful -

(1) for any person in charge of a fishing vessel or any fishing vessel subject to the jurisdiction of the United States to engage in fishing in violation of any regulation adopted pursuant to section 971d of this title; or

(2) for any person subject to the jurisdiction of the United States to ship, transport, purchase, sell, offer for sale, import, export, or have in custody, possession, or control any fish which he knows, or should have known, were taken or retained contrary to the recommendations of the Commission made pursuant to article VIII of the Convention and adopted as regulations pursuant to section 971d of this title, without regard to the citizenship of the person or vessel which took the fish.

(b) Failure to furnish returns, records, or reports

It shall be unlawful for the master or any person in charge of any fishing vessel subject to the jurisdiction of the United States to fail to make, keep, or furnish any catch returns, statistical records, or other reports as are required by regulations adopted pursuant to this chapter to be made, kept, or furnished by such master or person.

(c) Refusal of request to board and inspect vessel

It shall be unlawful for the master or any person in charge of any fishing vessel subject to the jurisdiction of the United States to refuse to permit any person authorized to enforce the provisions of this chapter and any regulations adopted pursuant thereto, to board such vessel and inspect its catch, equipment, books, documents, records, or other articles or question the persons onboard in accordance with the provisions of this chapter, or the Convention, as the case may be, or to obstruct such officials in the execution of such duties.

(d) Importation of ineligible species or species under investigation

It shall be unlawful for any person to import, in violation of any regulation adopted pursuant to section 971d(c) or (d) (FOOTNOTE 1) of this title, from any country, any fish in any form of those species subject to regulation pursuant to a recommendation of the Commission, or any fish in any form not under regulation but under investigation by the Commission, during the period such fish have been denied entry in accordance with the provisions of section 971d(c) or (d) ⁽¹⁾ of this title. In the case of any fish as described in this subsection offered for entry in the United States, the Secretary shall require proof satisfactory to him that such fish is not ineligible for such entry under the terms of section 971d(c) or (d) ⁽¹⁾ of this title.

(e) Sanctions

The civil penalty and permit sanctions of section 1858 of this title are hereby made applicable to violations of this section as if they were violations of section 1857 of this title.

(f) Forfeiture

All fish taken or retained in violation of subsection (a) of this section, or the monetary value thereof, may be forfeited.

(g) Applicability of other laws

All provisions of law relating to the seizure, judicial forfeiture, and condemnation of a cargo for violation of the customs laws, the disposition of such cargo or the proceeds from the sale thereof, and the remission or mitigation of such forfeitures shall apply to seizures and forfeitures incurred, or alleged to have been incurred, under the provisions of this chapter, insofar as such provisions of law are applicable and not inconsistent with the provisions of this chapter.

Sec. 971f. Enforcement

(a) Particular powers

Any person authorized in accordance with the provisions of this chapter to enforce the provisions of this chapter and the regulations issued thereunder may -

- (1) with or without a warrant, board any vessel subject to the jurisdiction of the United States and inspect such vessel and its catch and, if as a result of such inspection, he has reasonable cause to believe that such vessel or any person on board is engaging in operations in violation of this chapter or any regulations issued thereunder, he may, with or without a warrant or other process, arrest such person;
- (2) arrest, with or without a warrant, any person who violates the provisions of this chapter or any regulation issued thereunder in his presence or view;
- (3) execute any warrant or other process issued by an officer or court of competent jurisdiction; and
- (4) seize, whenever and wherever lawfully found, all fish taken or retained by a vessel subject to the jurisdiction of the United States in violation of the provisions of this chapter or any regulations issued pursuant thereto. Any fish so seized may be disposed of pursuant to an order of a court of competent jurisdiction, or, if perishable, in a manner prescribed by regulation of the Secretary.

(b) International enforcement

To the extent authorized under the convention or by agreements between the United States and any contracting party concluded pursuant to section 971 c(b) of this title for international enforcement, the duly authorized officials of such party shall have the authority to carry out the enforcement activities specified in subsection (a) of this section with respect to persons or vessels subject to the jurisdiction of the United States, and the officials of the United States authorized pursuant to this section shall have the authority to carry out the enforcement activities specified in subsection (a) of this section with respect to persons or vessels subject to the jurisdiction of such party, except that where any agreement provides for arrest or seizure of persons or vessels under United States jurisdiction it shall also provide that the person or vessel arrested or seized shall be promptly handed over to a United States enforcement officer or another authorized United States official.

(c) Bonds or stipulations

Notwithstanding the provisions of section 2464 of title 28, when a warrant of arrest or other process in rem is issued in any cause under this section, the marshal or other officer shall stay the execution of such process, or discharge any fish seized if the process has been levied, on receiving from the claimant of the fish a bond or stipulation for the value of the property with sufficient surety to be approved by a judge of the district court having jurisdiction of the offense, conditioned to deliver the fish seized, if condemned, without impairment in value or, in the discretion of the court, to pay its equivalent value in money or otherwise to answer the decree of the court in such cause. Such bond or stipulation shall be returned to the court and judgment thereon against both the principal and sureties may be recovered in event of any breach of the conditions thereof as determined by the court. In the discretion of the accused, and subject to the direction of the court, the fish may be sold for not less than its reasonable market value at the time of seizure and the proceeds of such sale placed in the registry of the court pending judgment in the case.

Sec. 971g. Cooperation in carrying out Convention

(a) Federal and State agencies; private institutions and organizations

The United States Commissioners, through the Secretary of State and with the concurrence of the agency, institution, or organization concerned, may arrange for the cooperation of agencies of the United States Government, and of State and private institutions and organizations in carrying out the provisions of article IV of the Convention.

(b) Scientific and other programs; facilities and personnel

All agencies of the Federal Government are authorized, upon the request of the Commission, to cooperate in the conduct of scientific and other programs, and to furnish facilities and personnel for the purpose of assisting the Commission in carrying out its duties under the Convention.

(c) Fishing operations and biological experiments

None of the prohibitions deriving from this chapter, or contained in the laws or regulations of any State, shall prevent the Commission from conducting or authorizing the conduct of fishing operations and biological experiments at any time for purposes of scientific investigation, or shall prevent the Commission from discharging any other duties prescribed by the Convention.

(d) State jurisdiction; preemption by Federal regulations

(1) Except as provided in paragraph (2) of this subsection, nothing in this chapter shall be construed so as to diminish or to increase the jurisdiction of any State in the territorial sea of the United States.

(2) In the event a State does not request a formal hearing and after notice by the Secretary, the regulations promulgated pursuant to this chapter to implement recommendations of the Commission shall apply within the boundaries of any State bordering on any Convention area if the Secretary determines that any such State -

(A) has not, within a reasonable period of time after the promulgation of regulations pursuant to this chapter, enacted laws or promulgated regulations which implement any such recommendation of the Commission within the boundaries of such State; or

(B) has enacted laws or promulgated regulations which (i) are less restrictive than the regulations promulgated pursuant to this chapter, or (ii) are not effectively enforced. If a State requests the opportunity for an agency hearing on the record, the Secretary shall not apply regulations promulgated pursuant to this chapter within that State's boundaries unless the hearing record supports a determination under paragraph (A) or (B). Such regulations shall apply until the Secretary determines that the State is effectively enforcing within its boundaries measures which are not less restrictive than such regulations.

(e) Continuing review of State laws and regulations

To insure that the purposes of subsection (d) of this section are carried out, the Secretary shall undertake a continuing review of the laws and regulations of all States to which subsection (d) of this section applies or may apply and the extent to which such laws and regulations are enforced.

(a) FINDINGS.—The Congress finds and declares the following:

(1) The fish off the coasts of the United States, the highly migratory species of the high seas, the species which dwell on or in the Continental Shelf appertaining to the United States, and the anadromous species which spawn in United States rivers or estuaries, constitute valuable and renewable natural resources. These fishery resources contribute to the food supply, economy, and health of the Nation and provide recreational opportunities.

104-297

(2) Certain stocks of fish have declined to the point where their survival is threatened, and other stocks of fish have been so substantially reduced in number that they could become similarly threatened as a consequence of (A) increased fishing pressure, (B) the inadequacy of fishery resource conservation and management practices and controls, or (C) direct and indirect habitat losses which have resulted in a diminished capacity to support existing fishing levels.

(3) Commercial and recreational fishing constitutes a major source of employment and contributes significantly to the economy of the Nation. Many coastal areas are dependent upon fishing and related activities, and their economies have been badly damaged by the overfishing of fishery resources at an ever-increasing rate over the past decade. The activities of massive foreign fishing fleets in waters adjacent to such coastal areas have contributed to such damage, interfered with domestic fishing efforts, and caused destruction of the fishing gear of United States fishermen.

(4) International fishery agreements have not been effective in preventing or terminating the overfishing of these valuable fishery resources. There is danger that irreversible effects from overfishing will take place before an effective international agreement on fishery management jurisdiction can be negotiated, signed, ratified, and implemented.

(5) Fishery resources are finite but renewable. If placed under sound management before overfishing has caused irreversible effects, the fisheries can be conserved and maintained so as to provide optimum yields on a continuing basis.

104-297

(6) A national program for the conservation and management of the fishery resources of the United States is necessary to prevent overfishing, to rebuild overfished stocks, to insure conservation, to facilitate long-term protection of essential fish habitats, and to realize the full potential of the Nation's fishery resources.

95-354

(7) A national program for the development of fisheries which are underutilized or not utilized by the United States fishing industry, including bottom fish off Alaska, is necessary to assure that our citizens benefit from the employment, food supply, and revenue which could be generated thereby.

16 U.S.C. 1801
MSA § 2

101-627

(8) The collection of reliable data is essential to the effective conservation, management, and scientific understanding of the fishery resources of the United States.

104-297

(9) One of the greatest long-term threats to the viability of commercial and recreational fisheries is the continuing loss of marine, estuarine, and other aquatic habitats. Habitat considerations should receive increased attention for the conservation and management of fishery resources of the United States.

104-297

(10) Pacific Insular Areas contain unique historical, cultural, legal, political, and geographical circumstances which make fisheries resources important in sustaining their economic growth.

109-479

(11) A number of the Fishery Management Councils have demonstrated significant progress in integrating ecosystem considerations in fisheries management using the existing authorities provided under this Act.

109-479

(12) International cooperation is necessary to address illegal, unreported, and unregulated fishing and other fishing practices which may harm the sustainability of living marine resources and disadvantage the United States fishing industry.

(b) PURPOSES.—It is therefore declared to be the purposes of the Congress in this Act—

99-659, 101-627, 102-251

(1) to take immediate action to conserve and manage the fishery resources found off the coasts of the United States, and the anadromous species and Continental Shelf fishery resources of the United States, by exercising (A) sovereign rights for the purposes of exploring, exploiting, conserving, and managing all fish within the exclusive economic zone established by Presidential Proclamation 5030, dated March 10, 1983, and (B) exclusive fishery management authority beyond the exclusive economic zone over such anadromous species and Continental Shelf fishery resources[, and fishery resources in the special areas]*;

(2) to support and encourage the implementation and enforcement of international fishery agreements for the conservation and management of highly migratory species, and to encourage the negotiation and implementation of additional such agreements as necessary;

104-297

(3) to promote domestic commercial and recreational fishing under sound conservation and management principles, including the promotion of catch and release programs in recreational fishing;

(4) to provide for the preparation and implementation, in accordance with national standards, of fishery management plans which will achieve and maintain, on a continuing basis, the optimum yield from each fishery;

101-627

(5) to establish Regional Fishery Management Councils to exercise sound judgment in the stewardship of fishery resources through the preparation, monitoring, and revision of such plans under circumstances (A) which will enable the States, the fishing industry, consumer and environmental organizations, and other interested persons to participate in, and advise on, the establishment and administration of such plans, and (B) which take into account the social and economic needs of the States;

95-354, 96-561, 104-297

(6) to encourage the development by the United States fishing industry of fisheries which are currently underutilized or not utilized by United States fishermen, including bottom fish off Alaska, and to that end, to ensure that optimum yield determinations promote such development in a non-wasteful manner; and

104-297

(7) to promote the protection of essential fish habitat in the review of projects conducted under Federal permits, licenses, or other authorities that affect or have the potential to affect such habitat.

(c) POLICY.—It is further declared to be the policy of the Congress in this Act—

(1) to maintain without change the existing territorial or other ocean jurisdiction of the United States for all purposes other than the conservation and management of fishery resources, as provided for in this Act;

(2) to authorize no impediment to, or interference with, recognized legitimate uses of the high seas, except as necessary for the conservation and management of fishery resources, as provided for in this Act;

101-627, 104-297

(3) to assure that the national fishery conservation and management program utilizes, and is based upon, the best scientific information available; involves, and is responsive to the needs of, interested and affected States and citizens; considers efficiency; draws upon Federal, State, and academic capabilities in carrying out research, administration, management, and enforcement; considers the effects of fishing on immature fish and encourages development of practical measures that minimize bycatch and avoid unnecessary waste of fish; and is workable and effective;

(4) to permit foreign fishing consistent with the provisions of this Act;

16 U.S.C. 1801-1802
MSA §§ 2-3

99-659, 101-627

(5) to support and encourage active United States efforts to obtain internationally acceptable agreements which provide for effective conservation and management of fishery resources, and to secure agreements to regulate fishing by vessels or persons beyond the exclusive economic zones of any nation;

101-627

(6) to foster and maintain the diversity of fisheries in the United States; and

104-297

(7) to ensure that the fishery resources adjacent to a Pacific Insular Area, including resident or migratory stocks within the exclusive economic zone adjacent to such areas, be explored, developed, conserved, and managed for the benefit of the people of such area and of the United States.

SEC. 3. DEFINITIONS

16 U.S.C. 1802

As used in this Act, unless the context otherwise requires—

(1) The term "anadromous species" means species of fish which spawn in fresh or estuarine waters of the United States and which migrate to ocean waters.

104-297

(2) The term "bycatch" means fish which are harvested in a fishery, but which are not sold or kept for personal use, and includes economic discards and regulatory discards. Such term does not include fish released alive under a recreational catch and release fishery management program.

104-297

(3) The term "charter fishing" means fishing from a vessel carrying a passenger for hire (as defined in section 2101(21a) of title 46, United States Code) who is engaged in recreational fishing.

104-297

(4) The term "commercial fishing" means fishing in which the fish harvested, either in whole or in part, are intended to enter commerce or enter commerce through sale, barter or trade.

e-CFR Data is current as of February 21, 2008

Title 50: Wildlife and Fisheries

PART 300—INTERNATIONAL FISHERIES REGULATIONS

[Browse Previous](#) | [Browse Next](#)

Subpart M—International Trade Documentation and Tracking Programs for Highly Migratory Species

Authority: 16 U.S.C. 951–961 and 971 *et seq.* ; 16 U.S.C. 1801 *et seq.*

Source: 69 FR 67277, Nov. 17, 2004, unless otherwise noted.

§ 300.180 Purpose and scope.

The regulations in this subpart are issued under the authority of the Atlantic Tunas Convention Act of 1975 (ATCA), Tuna Conventions Act of 1950, and Magnuson-Stevens Act. The regulations implement the recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT) for the conservation and management of tuna and tuna-like species in the Atlantic Ocean and of the Inter-American Tropical Tuna Commission (IATTC) for the conservation and management of highly migratory fish resources in the Eastern Tropical Pacific Ocean, so far as they affect vessels and persons subject to the jurisdiction of the United States.

§ 300.181 Definitions.

Atlantic bluefin tuna means the species *Thunnus thynnus* found in the Atlantic Ocean.

Bigeye tuna means the species *Thunnus obesus* found in any ocean area.

Bluefin tuna , for purposes of this subpart, means Atlantic and Pacific bluefin tuna, as defined in this section.

BSD tag means a numbered tag affixed to a bluefin tuna issued by any country in conjunction with a catch statistics information program and recorded on a bluefin tuna statistical document (BSD).

CBP means the U.S. Customs and Border Protection.

CCSBT means the Commission for the Conservation of Southern Bluefin Tuna established pursuant to the Convention for the Conservation of Southern Bluefin Tuna.

Customs territory of the United States has the same meaning as in 19 CFR 101.1 and includes only the States, the District of Columbia, and Puerto Rico.

Dealer tag means the numbered, flexible, self-locking ribbon issued by NMFS for the identification of Atlantic bluefin tuna sold to a dealer permitted under §635.4 of this title as required under §635.5(b) of this title.

Entered for consumption has the same meaning as in 19 CFR 141.0a(f) and generally refers to the filing of an entry summary for consumption with customs authorities, in proper form, with estimated duties attached.

Entry for consumption , for purposes of this subpart, has the same meaning as entry for consumption, withdrawal from warehouse for consumption, or entry for consumption of merchandise from a foreign trade zone, as provided under 19 CFR parts 101.1, 141, 144, and 146. For purposes of this subpart, “entry for consumption” generally means an import into the Customs territory of the United States or the separate customs territory of a U.S. insular possession, for domestic use, that is classified for customs purposes in the “consumption” category (entry type codes 00–08) or withdrawal from warehouse or foreign trade zone for consumption category (entry type codes 30–34 and 38). For purposes of this subpart, HMS destined from one foreign country to another, which transits the Customs territory of the United States or the separate customs territory of a U.S. insular possession, and is not classified as an entry for consumption upon release from CBP or other customs custody, is not an entry for consumption under this definition.

Entry number , for purposes of this subpart, means the unique number/identifier assigned by customs authorities for each entry into a customs territory. For CBP, the entry number is assigned at the time of filing an entry summary (CBP Form 7501 or equivalent electronic filing) for entries into the Customs territory of the United States.

Export , for purposes of this subpart, means to effect exportation.

Exportation has the same general meaning as 19 CFR 101.1 and generally refers to a severance of goods from the mass of things

belonging to one country with the intention of uniting them to the mass of things belonging to some foreign country. For purposes of this subpart, a shipment between the United States and its insular possessions is not an export.

Exporter, for purposes of this subpart, is the principal party in interest, meaning the party that receives the primary benefit, monetary or otherwise, of the export transaction. For exports from the United States, the exporter is the U.S. principal party in interest, as identified in Part 30 of title 15 of the CFR. An exporter is subject to the requirements of this subpart, even if exports are exempt from statistical reporting requirements under Part 30 of title 15 of the CFR.

Finlet means one of the small individual fins on a tuna located behind the second dorsal and anal fins and forward of the tail fin.

Fish or fish products regulated under this subpart means bluefin tuna, frozen bigeye tuna, southern bluefin tuna and swordfish and all such products of these species except parts other than meat (e.g., heads, eyes, roe, guts, and tails).

IATTC means the Inter-American Tropical Tuna Commission, established pursuant to the Convention for the Establishment of an Inter-American Tropical Tuna Commission.

ICCAT means the International Commission for the Conservation of Atlantic Tunas established pursuant to the International Convention for the Conservation of Atlantic Tunas.

Import, for purposes of this subpart, generally means the act of bringing or causing any goods to be brought into the customs territory of a country with the intent to unlade them. For purposes of this subpart, goods brought into the United States from a U.S. insular possession, or vice-versa, are not considered imports.

Importer, for purposes of this subpart, means the principal party responsible for the import of product into a country. For imports into the United States, and for purposes of this subpart, "importer" means the consignee as identified on entry documentation or any authorized, equivalent electronic medium required for release of shipments from the customs authority of the United States or the separate customs territory of a U.S. insular possession. If a consignee is not declared, then the importer of record is considered to be the consignee.

Insular possession of the United States or U.S. insular possession, for purposes of this subpart, means the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, and other possessions listed under 19 CFR 7.2, that are outside the customs territory of the United States.

Intermediate country means a country that exports to another country HMS previously imported as an entry for consumption by that nation. A shipment of HMS through a country on a through bill of lading, or in another manner that does not enter the shipment into that country as an entry for consumption, does not make that country an intermediate country under this definition.

IOTC means the Indian Ocean Tuna Commission established pursuant to the Agreement for the Establishment of the Indian Ocean Tuna Commission approved by the Food and Agriculture Organization (FAO) Council of the United Nations.

Pacific bluefin tuna means the species *Thunnus orientalis* found in the Pacific Ocean.

Permit holder, for purposes of this subpart, means, unless otherwise specified, a person who obtains a trade permit under §300.182.

Re-export, for purposes of this subpart, means the export of goods that were previously entered for consumption into the customs territory of a country.

RFMO, as defined under this subpart, means regional fishery management organization, including CCSBT, IATTC, ICCAT, or IOTC.

Separate customs territory of a U.S. insular possession means the customs territory of a U.S. insular possession when that possession's customs territory is not a part of the Customs territory of the United States.

Southern bluefin tuna means the species *Thunnus maccoyi* found in any ocean area.

Swordfish means the species *Xiphias gladius* that is found in any ocean area.

Tag means either a dealer tag or a BSD tag.

Trade permit means the HMS international trade permit under §300.182.

§ 300.182 HMS international trade permit.

(a) *General.* A person entering for consumption, exporting, or re-exporting fish or fish products regulated under this subpart from any ocean area must possess a valid trade permit issued under this section. Importation of fish or fish products regulated under this subpart by nonresident corporations is restricted to those entities authorized under 19 CFR 141.18.

(b) *Application.* A person must apply for a permit in writing on an appropriate form obtained from NMFS. The application must be completed, signed by the applicant, and submitted with required supporting documents, at least 30 days before the date upon which the permit is made effective. Application forms and instructions for their completion are available from NMFS.

(c) *Issuance.* (1) Except as provided in subpart D of 15 CFR part 904, NMFS will issue a permit within 30 days of receipt of a completed application.

(2) NMFS will notify the applicant of any deficiency in the application, including failure to provide information or reports required under this subpart. If the applicant fails to correct the deficiency within 30 days following the date of notification, the application will be considered abandoned.

(d) *Duration.* Any permit issued under this section is valid for the period specified on it, unless suspended or revoked.

(e) *Alteration.* Any permit that is substantially altered, erased, or mutilated is invalid.

(f) *Replacement.* NMFS may issue replacement permits. An application for a replacement permit is not considered a new application. An appropriate fee, consistent with paragraph (j) of this section, may be charged for issuance of a replacement permit.

(g) *Transfer.* A permit issued under this section is not transferable or assignable; it is valid only for the permit holder to whom it is issued.

(h) *Inspection.* The permit holder must keep the permit issued under this section at his/her principal place of business. The permit must be displayed for inspection upon request of any authorized officer, or any employee of NMFS designated by NMFS for such purpose.

(i) *Sanctions.* The Assistant Administrator may suspend, revoke, modify, or deny a permit issued or sought under this section. Procedures governing permit sanctions and denials are found at subpart D of 15 CFR part 904.

(j) *Fees.* NMFS may charge a fee to recover the administrative expenses of permit issuance. The amount of the fee is calculated, at least annually, in accordance with the procedures of the NOAA Finance Handbook, available from NMFS, for determining administrative costs of each special product or service. The fee may not exceed such costs and is specified on each application form. The appropriate fee must accompany each application. Failure to pay the fee will preclude issuance of the permit. Payment by a commercial instrument later determined to be insufficiently funded shall invalidate any permit.

(k) *Change in application information.* Within 30 days after any change in the information contained in an application submitted under this section, the permit holder must report the change to NMFS in writing. If a change in permit information is not reported within 30 days, the permit is void as of the 31st day after such change.

(l) *Renewal.* Persons must apply annually for a trade permit issued under this section. A renewal application must be submitted to NMFS, at an address designated by NMFS, at least 30 days before the permit expiration date to avoid a lapse of permitted status. NMFS will renew a permit provided that: the application for the requested permit is complete; all reports required under the Magnuson-Stevens Act, ATCA, and the Tuna Conventions Act of 1950 have been submitted, including those required under §§300.183, 300.185, 300.186, and 300.187 and §635.5 of this title; and the applicant is not subject to a permit sanction or denial under paragraph (i) of this section.

[69 FR 67277, Nov. 17, 2004, as amended at 71 FR 58163, Oct. 2, 2006]

§ 300.183 Permit holder reporting and recordkeeping requirements.

(a) *Biweekly reports.* Any person issued a trade permit under §300.182 must submit to NMFS, on forms supplied by NMFS, a biweekly report of imports entered for consumption, exports, and re-exports of fish or fish products regulated under this subpart.

(1) The report required to be submitted under paragraph (a) of this section must be postmarked within 10 days after the end of each biweekly reporting period in which fish or fish products regulated under this subpart were entered for consumption, exported, or re-exported. The bi-weekly reporting periods are defined as the first day to the 15th day of each month and the 16th day to the last day of each month.

(2) Each report must specify accurately and completely the requested information for each shipment of fish or fish products regulated under this subpart that is entered for consumption, exported, or reexported.

(b) *Recordkeeping.* Any person issued a trade permit under §300.182 must retain at his/her principal place of business a copy of each biweekly report and supporting records for a period of 2 years from the date on which each report was submitted to NMFS.

(c) *Other reporting and recordkeeping requirements.* Any person issued a trade permit is also subject to the reporting and recordkeeping requirements identified in §300.185.

(d) *Inspection.* Any person authorized to carry out the enforcement activities under the regulations in this subpart has the authority, without warrant or other process, to inspect, at any reasonable time: fish or fish products regulated under this subpart, biweekly reports,

statistical documents, re-export certificates, relevant sales receipts, import and export documentation, or other records and reports required by this subpart to be made, retained, or submitted. A permit holder must allow NMFS or an authorized person to inspect and copy, for any fish or fish products regulated under this subpart, any import and export documentation and any reports required under this subpart, and the records, in any form, on which the completed reports are based, wherever they exist. Any agent of a person issued a trade permit under this part, or anyone responsible for importing, exporting, storing, packing, or selling fish or fish products regulated under this subpart, shall be subject to the inspection provisions of this section.

§ 300.184 Species subject to documentation requirements.

The following fish or fish products are subject to the documentation requirements of this subpart regardless of ocean area of catch.

(a) *Bluefin tuna*. (1) Documentation is required for bluefin tuna products including those identified by the following subheading numbers from the Harmonized Tariff Schedule of the United States (HTS):

(i) Fresh or chilled bluefin tuna (No. 0302.35.00.00) excluding fillets and other fish meat of HTS heading 0304.

(ii) Frozen bluefin tuna (No. 0303.45.00.00), excluding fillets and other fish meat of HTS heading 0304.

(2) In addition, bluefin tuna products in other forms (e.g., chunks, fillets, and products in airtight containers) that may be classified under any other HTS heading/subheading numbers are subject to the documentation requirements of this subpart, except that fish parts other than meat (e.g., heads, eyes, roe, guts, and tails) may be imported without said documentation.

(b) *Southern bluefin tuna*. (1) Documentation is required for southern bluefin tuna products including those identified by the following subheading numbers from the HTS:

(i) Fresh or chilled southern bluefin tuna (No. 0302.36.00.00), excluding fillets and other fish meat of HTS heading 0304.

(ii) Frozen southern bluefin tuna (No. 0303.46.00.00), excluding fillets and other fish meat of HTS heading 0304.

(2) In addition, southern bluefin tuna products in other forms (e.g., chunks, fillets, products in airtight containers) that may be classified under any other HTS heading/subheading numbers are subject to the documentation requirements of this subpart, except that fish parts other than meat (e.g., heads, eyes, roe, guts, and tails) may be imported without said documentation.

(c) *Bigeye tuna*. (1) Documentation is required for frozen bigeye tuna products including those identified by the following subheading numbers from the HTS:

(i) Frozen bigeye tuna (No. 0303.44.00.00), excluding fillets and other fish meat of HTS heading 0304.

(ii) [Reserved]

(2) In addition, frozen bigeye tuna products in other forms (e.g., chunks and fillets) that may be classified under any other HTS heading/subheading numbers are subject to the documentation requirements of this subpart, except that frozen fish parts other than meat (e.g., heads, eyes, roe, guts, and tails), may be imported without said documentation.

(3) Bigeye tuna caught by purse seiners and pole and line (bait) vessels and destined for canneries within the United States, including all U.S. commonwealths, territories, and possessions, may be imported without the documentation required under this subpart.

(d) *Swordfish*. (1) Documentation is required for swordfish products including those identified by the following subheading numbers from the HTS:

(i) Fresh or chilled swordfish, steaks (No. 0302.69.20.41).

(ii) Fresh or chilled swordfish, excluding fish fillets, steaks, and other fish meat (No. 0302.69.20.49).

(iii) Frozen swordfish, steaks (No. 0303.79.20.41).

(iv) Frozen swordfish, excluding fillets, steaks and other fish meat (No. 0303.79.20.49).

(v) Fresh, chilled or frozen swordfish, fillets and other fish meat (No. 0304.20.60.92).

(2) In addition, swordfish products in other forms (e.g., chunks, fillets, and products in airtight containers) that may be classified under any other HTS heading/subheading numbers, are subject to the documentation requirements of this subpart, except that fish parts

other than meat (e.g., heads, eyes, roe, guts, tails) may be allowed entry without said statistical documentation.

§ 300.185 Documentation, reporting and recordkeeping requirements for statistical documents and re-export certificates.

(a) *Imports —(1) Applicability of requirements.* The documentation requirements in paragraph (a)(2) of this section apply to all imports of fish or fish products regulated under this subpart into the Customs territory of the United States, except when entered as a product of an American fishery landed overseas (HTS heading 9815). For insular possessions with customs territories separate from the Customs territory of the United States, documentation requirements in paragraph (a)(2) of this section apply only to entries for consumption. The reporting requirements of paragraph (a)(3) of this section do not apply to fish products destined from one foreign country to another which transit the United States or a U.S. insular possession and are designated as an entry type other than entry for consumption as defined in §300.181.

(2) *Documentation requirements.* (i) All fish or fish products regulated under this subpart, imported into the customs territory of the United States or entered for consumption into a separate customs territory of a U.S. insular possession, must, at the time of presenting entry documentation for clearance by customs authorities (e.g., CBP Forms 7533 or 3461 or other documentation required by the port director) be accompanied by an original, completed, approved, validated, species-specific statistical document with the required information and exporter's certification completed as specified in §300.186. Customs forms can be obtained by contacting the local CBP port office; contact information is available at www.cbp.gov. For a U.S. insular possession, contact the local customs office for any forms required for entry.

(ii) The statistical document must be validated as specified in §300.187 by a responsible government official of the country whose flag vessel caught the fish (regardless of where the fish are first landed).

(iii) For fish products entered for consumption, the permit holder must provide on the original statistical document that accompanied the import shipment the correct information and importer's certification specified in §300.186, and must note on the top of the statistical document the entry number assigned at the time of filing an entry summary (e.g., CBP Form 7501 or electronic equivalent) with customs authorities.

(iv) Bluefin tuna, imported into the Customs territory of the United States or entered for consumption into the separate customs territory of a U.S. insular possession, from a country requiring a BSD tag on all such bluefin tuna available for sale, must be accompanied by the appropriate BSD tag issued by that country, and said BSD tag must remain on any bluefin tuna until it reaches its final destination. If the final import destination is the United States, which includes U.S. insular possessions, the BSD tag must remain on the bluefin tuna until it is cut into portions. If the bluefin tuna portions are subsequently packaged for domestic commercial use or re-export, the BSD tag number and the issuing country must be written legibly and indelibly on the outside of the package.

(3) *Reporting requirements.* For fish or fish products regulated under this subpart that are entered for consumption and whose final destination is within the United States, which includes a U.S. insular possessions, a permit holder must submit to NMFS the original statistical document that accompanied the fish product as completed under §300.186 and paragraph (a)(2) of this section. A copy of the original completed statistical document must be postmarked and mailed, or faxed, by said permit holder to NMFS at an address designated by NMFS within 24 hours of the time the fish product was entered for consumption into the Customs territory of the United States or the separate customs territory of a U.S. insular possession.

(b) *Exports —(1) Applicability of requirements.* The documentation and reporting requirements of this paragraph apply to exports of fish or fish products regulated under this subpart that were harvested by U.S. vessels and first landed in the United States, or harvested by vessels of a U.S. insular possession and first landed in that possession. This paragraph also applies to products of American fisheries landed overseas.

(2) *Documentation requirements.* A permit holder must complete an original, numbered, species-specific statistical document issued to that permit holder by NMFS for each export referenced under paragraph (b)(1) of this section. Such an individually numbered document is not transferable and may be used only once by the permit holder to which it was issued to report on a specific export shipment. A permit holder must provide on the statistical document the correct information and exporter certification specified in §300.186. The statistical document must be validated, as specified in §300.187, by NMFS, or another official authorized by NMFS. A list of such officials may be obtained by contacting NMFS. A permit holder requesting U.S. validation for exports should notify NMFS as soon as possible after arrival of the vessel to avoid delays in inspection and validation of the export shipment.

(3) *Reporting requirements.* A permit holder must ensure that the original statistical document, as completed under paragraph (b)(2) of this section, accompanies the export of such products to their export destination. A copy of the statistical document must be postmarked and mailed by said permit holder to NMFS, at an address designated by NMFS, within 24 hours of the time the fish product was exported from the U.S. or a U.S. insular possession. Once a system is available, permit holders will also be able to submit the forms electronically via the Internet.

(c) *Re-exports —(1) Applicability of requirements.* The documentation and reporting requirements of this paragraph apply to exports of fish or fish products regulated under this subpart that were previously entered for consumption into the customs territory of the United States or the separate customs territory of a U.S. insular possession through filing the documentation specified in paragraph (a) of this section. The requirements of this paragraph do not apply to fish products destined from one foreign country to another which transit the United States or a U.S. insular possession and which are designated as an entry type other than entry for consumption as defined in §300.181.

(2) *Documentation requirements.* (i) If a permit holder subdivides or consolidates a shipment that was previously entered for consumption as described in paragraph (c)(1) of this section, the permit holder must complete an original, individually numbered,

species-specific re-export certificate issued to that permit holder by NMFS for each such re-export shipment. Such an individually numbered document is not transferable and may be used only once by the permit holder to which it was issued to report on a specific re-export shipment. A permit holder must provide on the re-export certificate the correct information and re-exporter certification specified in §300.186. The permit holder must also attach the original statistical document that accompanied the import shipment or a copy, and provide the correct information and intermediate importer's certification specified in §300.186, and must note on the top of both the statistical documents and the re-export certificates the entry number assigned by customs authorities at the time of filing the entry summary.

(ii) If a shipment that was previously entered for consumption as described in paragraph (c)(1) of this section is not subdivided into sub-shipments or consolidated, for each re-export shipment, a permit holder must complete the intermediate importer's certification on the original statistical document and note the entry number on the top of the statistical document. Such re-exports do not need a re-export certificate and the re-export does not require validation.

(iii) Re-export certificates must be validated, as specified in §300.187, by NMFS or another official authorized by NMFS. A list of such officials may be obtained by contacting NMFS. A permit holder requesting validation for re-exports should notify NMFS as soon as possible to avoid delays in inspection and validation of the re-export shipment.

(3) *Reporting requirements.* For each re-export, when required under this paragraph (c), a permit holder must submit the original of the completed re-export certificate and the original or a copy of the original statistical document completed as specified under paragraph (c)(2) of this section, to accompany the shipment of such products to their re-export destination. A copy of the completed statistical document and re-export certificate, when required under this paragraph (c), must be postmarked and mailed by said permit holder to NMFS, at an address designated by NMFS, within 24 hours of the time the shipment was re-exported from the U.S. Once a system is available, permit holders will also be able to submit the forms electronically via the Internet.

(d) *Recordkeeping.* A permit holder must retain at his or her principal place of business, a copy of each statistical document and re-export certificate required to be submitted to NMFS pursuant to this section, and supporting records for a period of 2 years from the date on which it was submitted to NMFS.

(e) *Inspection.* Any person responsible for importing, exporting, storing, packing, or selling fish or fish products regulated under this subpart, including permit holders, consignees, customs brokers, freight forwarders, and importers of record, shall be subject to the inspection provisions at §300.183(d).

[69 FR 67277, Nov. 17, 2004, as amended at 71 FR 58163, Oct. 2, 2006]

§ 300.186 Contents of documentation.

(a) *Statistical documents.* To be deemed complete, all statistical documents must state:

(1) The document number assigned by the country issuing the document.

(2) The name of the country issuing the document, which must be the country whose flag vessel harvested the fish, regardless of where it is first landed.

(3) The name of the vessel that caught the fish, the vessel's length (in meters), the vessel's registration number, and the ICCAT record number, if applicable.

(4) The point of export, which is the city, state or province, and country from which the fish is first exported.

(5) The product type (fresh or frozen), time of harvest (month/year), and product form (round, gilled and gutted, dressed, fillet, or other).

(6) The method of fishing used to harvest the fish (e.g., purse seine, trap, rod and reel).

(7) The ocean area from which the fish was harvested.

(8) The weight of each fish (in kilograms for the same product form previously specified) or the net weight of each product type, as applicable.

(9) The name and license number of, and be signed and dated in the exporter's certification block by, the exporter.

(10) If applicable, the name and title of, and be signed and dated in the validation block by, a responsible government official of the country whose flag vessel caught the fish (regardless of where the fish are first landed) or by an official of an institution accredited by said government, with official government or accredited institution seal affixed, thus validating the information on the statistical document.

(11) If applicable, the name(s) and address(es), including the name of the city and state or province of import, and the name(s) of

the intermediate country(ies) or the name of the country of final destination, and license number(s) of, and be signed and dated in the importer's certification block by, each intermediate and the final importer.

(b) *Bluefin tuna statistical documents.* Bluefin tuna statistical documents, to be deemed complete, in addition to the elements in paragraph (a) of this section, must also state:

- (1) Whether the fish was farmed or captured.
- (2) The name and address of the owner of the trap that caught the fish, or the farm from which the fish was taken, if applicable.
- (3) The identifying tag number, if landed by vessels from countries with BSD tagging programs, or tagged pursuant to §300.187(d) or §635.5(b) of this title.

(c) *Southern bluefin tuna statistical documents.* To be complete, southern bluefin tuna statistical documents must, in addition to the elements in §300.186(a), also state:

- (1) The name and address of the processing establishment, if applicable.
- (2) [Reserved]

(d) *Bigeye tuna statistical documents.* To be deemed complete, bigeye tuna statistical documents must, in addition to the elements in paragraph (a) of this section, also state:

- (1) The name of the owner of the trap that caught the fish, if applicable.
- (2) The net weight of product for each product type (in kilograms for the same product form previously specified).

(e) *Swordfish statistical documents.* To be deemed complete, swordfish statistical documents must, in addition to the elements in paragraph (a) of this section, also state:

- (1) Certification by the exporter that, for swordfish harvested from the Atlantic Ocean, each individual Atlantic swordfish included in the shipment weighs at least 15 kilograms (33 lb) dressed weight, or if pieces, that the pieces were derived from a swordfish that weighed at least 15 kilograms (33 lb) dressed weight. Import provisions pertaining to swordfish minimum size are provided at §635.20(f) of this title.
- (2) [Reserved]

(f) *Re-export certificates.* To be deemed complete, all re-export certificates, must state:

- (1) The document number assigned by the country issuing the document.
- (2) The name of the country issuing the document, which must be the country through which the product is being re-exported.
- (3) The point of re-export, which is the city, state, or province, and country from which the product was re-exported.
- (4) The description of the fish product as imported, including the product type (fresh or frozen), product form (round, gilled and gutted, dressed, fillet, or other), the net weight, flag country of the vessel that harvested the fish in the shipment, and the date of import to the country from which it is being reexported.
- (5) The description of the fish product as re-exported, including the product type (fresh or frozen), product form (round, gilled and gutted, dressed, fillet, or other) and the net weight.
- (6) The name and license number (if applicable) of, and be signed and dated in the re-exporter's certification block by, the re-exporter.

(7) If applicable, the name and title of, and be signed and dated in the validation block by, a responsible government official of the re-exporting country appearing on the certificate, or by an official of an institution accredited by said government, with official government or accredited institution seal affixed, thus validating the information on the re-export certificate.

(8) If applicable, the name(s) and address(es), including the name of the city and state or province of import, and the name(s) of the intermediate country(ies) or the name of the country of final destination, and license number(s) of, and be signed and dated in the importer's certification block by each intermediate and the final importer.

(g) *Bluefin tuna re-export certificates.* To be deemed complete, Bluefin tuna re-export certificates must, in addition to the elements in paragraph (f) of this section, also state:

(1) Whether the fish for re-export was farmed.

(2) The name and address of the farm from which the fish was taken.

(h) *Approved statistical documents and re-export certificates.* (1) An approved statistical document or reexport certificate may be obtained from NMFS to accompany exports of fish or fish products regulated under this subpart from the customs territory of the United States or the separate customs territory of a U.S. insular possession.

(2) A nationally approved form from another country may be used for exports to the United States if that document strictly conforms to the information requirements and format of the applicable RFMO documents. An approved statistical document or re-export certificate for use in countries without a nationally approved form may be obtained from the following websites, as appropriate: www.iccat.org, www.iattc.org, www.ccsbt.org, or www.iotc.org to accompany exports to the United States.

§ 300.187 Validation requirements.

(a) *Imports.* The approved statistical document accompanying any import of any fish or fish product regulated under this subpart must be validated by a government official from the issuing country, unless NMFS waives this requirement pursuant to an applicable RFMO recommendation. NMFS will furnish a list of countries for which government validation requirements are waived to the appropriate customs officials. Such list will indicate the circumstances of exemption for each issuing country and the non-government institutions, if any, accredited to validate statistical documents and re-export certificates for that country.

(b) *Exports.* The approved statistical document accompanying any export of fish or fish products regulated under this subpart must be validated, except pursuant to a waiver described in paragraph (d) of this section. Validation must be made by NMFS or another official authorized by NMFS.

(c) *Re-exports.* The approved re-export certificate accompanying any re-export of fish or fish products regulated under this subpart, as required under §300.185(c), must be validated, except pursuant to a waiver described in paragraph (d) of this section. Validation must be made by NMFS or another official authorized by NMFS.

(d) *Validation waiver.* Any waiver of government validation will be consistent with applicable RFMO recommendations concerning validation of statistical documents and re-export certificates. If authorized, such waiver of government validation may include exemptions from government validation for Pacific bluefin tuna with individual BSD tags affixed pursuant to paragraph (f) of this section or for Atlantic bluefin tuna with tags affixed pursuant to §635.5(b) of this title. Waivers will be specified on statistical documents and re-export certificates or accompanying instructions, or in a letter to permit holders from N M F S.

(e) *Authorization for non-NMFS validation.* An official from an organization or government agency seeking authorization to validate statistical documents or re-export certificates accompanying exports or re-exports from the United States, which includes U.S. commonwealths, territories, and possessions, must apply in writing, to NMFS, at an address designated by NMFS for such authorization. The application must indicate the procedures to be used for verification of information to be validated; list the names, addresses, and telephone/fax numbers of individuals to perform validation; procedures to be used to notify NMFS of validations; and an example of the stamp or seal to be applied to the statistical document or re-export certificate. NMFS, upon finding the applicant capable of verifying the information required on the statistical document or re-export certificate, will issue, within 30 days, a letter specifying the duration of effectiveness and conditions of authority to validate statistical documents or re-export certificates accompanying exports or re-exports from the United States. The effectiveness of such authorization will be delayed as necessary for NMFS to notify the appropriate RFMO of other officials authorized to validate statistical document or re-export certificates. Non-government organizations given authorization to validate statistical documents or re-export certificates must renew such authorization on a yearly basis.

(f) *BSD tags —(1) Issuance.* NMFS will issue numbered BSD tags for use on Pacific bluefin tuna upon request to each permit holder.

(2) *Transfer.* BSD tags issued under this section are not transferable and are usable only by the permit holder to whom they are issued.

(3) *Affixing BSD tags.* At the discretion of permit holders, a tag issued under this section may be affixed to each Pacific bluefin tuna purchased or received by the permit holder. If so tagged, the tag must be affixed to the tuna between the fifth dorsal finlet and the keel.

(4) *Removal of tags.* A tag, as defined in this subpart and affixed to any bluefin tuna, must remain on the tuna until it is cut into portions. If the bluefin tuna or bluefin tuna parts are subsequently packaged for transport for domestic commercial use or for export, the number of each dealer tag or BSD tag must be written legibly and indelibly on the outside of any package containing the bluefin tuna or bluefin tuna parts. Such tag number also must be recorded on any document accompanying the shipment of bluefin tuna or bluefin tuna parts for commercial use or export.

(5) *Labeling.* The tag number of a BSD tag affixed to each Pacific bluefin tuna under this section must be recorded on NMFS reports required by §300.183, on any documents accompanying the shipment of Pacific bluefin tuna for domestic commercial use or export as indicated in §§300.185 and 300.186, and on any additional documents that accompany the shipment (e.g., bill of lading, customs manifest, etc.) of the tuna for commercial use or for export.

(6) *Reuse.* BSD tags issued under this section are separately numbered and may be used only once, one tail tag per Pacific bluefin tuna, to distinguish the purchase of one Pacific bluefin tuna. Once affixed to a tuna or recorded on any package, container or report, a BSD tag and associated number may not be reused.

§ 300.188 Ports of entry.

NMFS shall monitor the importation of fish or fish products regulated under this subpart into the United States. If NMFS determines that the diversity of handling practices at certain ports at which fish or fish products regulated under this subpart are being imported into the United States allows for circumvention of the statistical document requirement, NMFS may undertake a rulemaking to designate, after consultation with the CBP, those ports at which fish or fish products regulated under this subpart from any ocean area may be imported into the United States.

§ 300.189 Prohibitions.

In addition to the prohibitions specified in §300.4, and §§600.725 and 635.71 of this title, it is unlawful for any person subject to the jurisdiction of the United States to violate any provision of this part, the Atlantic Tunas Convention Act, the Magnuson-Stevens Act, the Tuna Conventions Act of 1950, or any other rules promulgated under those Acts. It is unlawful for any person or vessel subject to the jurisdiction of the United States to:

- (a) Falsify information required on an application for a permit submitted under §300.182.
- (b) Import as an entry for consumption, purchase, receive for export, export, or re-export any fish or fish product regulated under this subpart without a valid trade permit issued under §300.182.
- (c) Fail to possess, and make available for inspection, a trade permit at the permit holder's place of business, or alter any such permit as specified in §300.182.
- (d) Falsify or fail to record, report, or maintain information required to be recorded, reported, or maintained, as specified in §300.183 or §300.185.
- (e) Fail to allow an authorized agent of NMFS to inspect and copy reports and records, as specified in §300.183 or §300.185.
- (f) Fail to comply with the documentation requirements as specified in §300.185, §300.186 or §300.187, for fish or fish products regulated under this subpart that are imported, entered for consumption, exported, or re-exported.
- (g) Fail to comply with the documentation requirements as specified in §300.186, for the importation, entry for consumption, exportation, or re-exportation of an Atlantic swordfish, or part thereof, that is less than the minimum size.
- (h) Validate statistical documents or re-export certificates without authorization as specified in §300.187.
- (i) Validate statistical documents or re-export certificates as provided for in §300.187 with false information.
- (j) Remove any NMFS-issued numbered tag affixed to any Pacific bluefin tuna or any tag affixed to a bluefin tuna imported from a country with a BSD tag program before removal is allowed under §300.187; fail to write the tag number on the shipping package or container as specified in §300.187; or reuse any NMFS-issued numbered tag affixed to any Pacific bluefin tuna, or any tag affixed to a bluefin tuna imported from a country with a BSD tag program, or any tag number previously written on a shipping package or container as prescribed by §300.187.
- (k) Import, or attempt to import, any fish or fish product regulated under this subpart in a manner inconsistent with any ports of entry designated by NMFS as authorized by §300.188.
- (l) Ship, transport, purchase, sell, offer for sale, import, enter for consumption, export, re-export, or have in custody, possession, or control any fish or fish product regulated under this subpart that was imported, entered for consumption, exported, or re-exported contrary to this subpart.
- (m) Fail to provide a validated statistical document for imports at time of entry into the customs territory of the United States of fish or fish products regulated under this subpart, regardless of whether the importer, exporter, or re-exporter holds a valid trade permit issued pursuant to §300.182 or whether the fish products are imported as an entry for consumption.

Title 50: Wildlife and Fisheries

PART 635—ATLANTIC HIGHLY MIGRATORY SPECIES

[Browse Next](#)

Subpart A—General

§ 635.1 Purpose and scope.

(a) The regulations in this part govern the conservation and management of Atlantic tunas, Atlantic billfish, Atlantic sharks, and Atlantic swordfish under the authority of the Magnuson-Stevens Act and ATCA. They implement the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks, and the Fishery Management Plan for Atlantic Billfishes. The Atlantic tunas regulations govern conservation and management of Atlantic tunas in the management unit. The Atlantic billfish regulations govern conservation and management of Atlantic billfish in the management unit. The Atlantic swordfish regulations govern conservation and management of North and South Atlantic swordfish in the management unit. North Atlantic swordfish are managed under the authority of both ATCA and the Magnuson-Stevens Act. South Atlantic swordfish are managed under the sole authority of ATCA. The shark regulations govern conservation and management of sharks in the management unit, solely under the authority of the Magnuson-Stevens Act. Sharks are managed under the authority of the Magnuson-Stevens Act.

(b) Under section 9(d) of ATCA, NMFS has determined that the regulations contained in this part with respect to Atlantic tunas are applicable within the territorial sea of the United States adjacent to, and within the boundaries of, the States of New Hampshire, Massachusetts, Rhode Island, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Louisiana and Texas, and the Commonwealths of Puerto Rico and the Virgin Islands. NMFS will undertake a continuing review of State regulations to determine if regulations applicable to Atlantic tunas, swordfish or billfish are at least as restrictive as regulations contained in this part and if such regulations are effectively enforced. In such case, NMFS will file with the Office of the Federal Register for publication notification of the basis for the determination and of the specific regulations that shall or shall not apply in the territorial sea of the identified State.

§ 635.2 Definitions.

In addition to the definitions in the Magnuson-Stevens Act, ATCA, and §600.10 of this chapter, the terms used in this part have following meanings. If applicable, the terms used in this part supercede those used in §600.10:

Archival tag means a device that is implanted or affixed to a fish to electronically record scientific information about the migratory behavior of that fish.

ATCA Certificate of Eligibility (COE) means the certificate that must accompany any applicable shipment of fish pursuant to a finding under 16 U.S.C. 971d (c)(4) or (c)(5).

Atlantic HMS means Atlantic tunas, billfish, sharks, and swordfish.

Atlantic Ocean, as used in this part, includes the North and South Atlantic Oceans, the Gulf of Mexico, and the Caribbean Sea.

Atlantic shark identification workshop certificate means the document issued by NMFS, or its designee, indicating that the person named on the certificate has successfully completed the Atlantic shark identification workshop.

BAYS means Atlantic bigeye, albacore, yellowfin, and skipjack tunas as defined in §600.10 of this part.

BFT landings quota means the portion of the ICCAT BFT catch quota allocated to the United States against which landings of BFT are counted.

Billfish Certificate of Eligibility (COE) means a certificate that accompanies a shipment of billfish indicating that the billfish or related species, or parts thereof, are not from the respective Atlantic Ocean management units.

Bottom longline means a longline that is deployed with enough weights and/or anchors to maintain contact with the ocean bottom.

BSD tag means a numbered tag affixed to a BFT issued by any country in conjunction with a catch statistics information program and recorded on a BSD.

Buoy gear means a fishing gear consisting of one or more floatation devices supporting a single mainline to which no more

than two hooks or gangions are attached.

Caudal keel means the horizontal ridges along each side of a fish at the base of the tail fin.

CFL (curved fork length) means the length of a fish measured from the tip of the upper jaw to the fork of the tail along the contour of the body in a line that runs along the top of the pectoral fin and the top of the caudal keel.

Charleston Bump closed area means the Atlantic Ocean area seaward of the inner boundary of the U.S. EEZ from a point intersecting the inner boundary of the U.S. EEZ at 34°00' N. lat. near Wilmington Beach, NC, and proceeding due east to connect by straight lines the following coordinates in the order stated: 34°00' N. lat., 76°00' W. long.; 31°00' N. lat., 76°00' W. long.; then proceeding due west to intersect the inner boundary of the U.S. EEZ at 31 °00' N. lat. near Jekyll Island, GA.

Circle hook means a fishing hook originally designed and manufactured so that the point is turned perpendicularly back to the shank to form a generally circular, or oval, shape.

CK means the length of a fish measured along the body contour, i.e., a curved measurement, from the point on the cleithrum that provides the shortest possible measurement along the body contour to the anterior portion of the caudal keel. The cleithrum is the semicircular bony structure at the posterior edge of the gill opening.

Convention means the International Convention for the Conservation of Atlantic Tunas, signed at Rio de Janeiro, Brazil, on May 14, 1966, 20 U.S.T. 2887, TIAS 6767, including any amendments or protocols thereto, which are binding upon the United States.

Conventional tag means a numbered, flexible ribbon that is implanted or affixed to a fish that is released back into the ocean that allows for the identification of that fish in the event it is recaptured.

Corrodible Hook means a fishing hook composed of any material other than stainless steel.

Dealer tag means the numbered, flexible, self-locking ribbon issued by NMFS for the identification of BFT sold to a permitted dealer as required under §635.5(b)(2)(ii).

Dehooking device means a device intended to remove a hook embedded in a fish in order to release the fish with minimum damage.

Designated by NMFS means the address or location indicated in a letter to permit holders or in a letter accompanying reporting forms.

DeSoto Canyon closed area means the area within the Gulf of Mexico bounded by straight lines connecting the following coordinates in the order stated: 30°00' N. lat., 88°00' W. long.; 30°00' N. lat., 86°00' W. long.; 28°00' N. lat., 86°00' W. long.; 28°00' N. lat., 84°00' W. long.; 26°00' N. lat., 84°00' W. long.; 26°00' N. lat., 86°00' W. long.; 28°00' N. lat., 86°00' W. long.; 28°00' N. lat., 88°00' W. long.; 30° 00' N. lat., 88°00' W. long.

Display permit means a permit issued in order to catch and land HMS for the purpose of public display pursuant to §635.32.

Division Chief means the Chief, Highly Migratory Species Management Division, NMFS (F/SF1), 1315 East-West Highway, Silver Spring, MD, 20910; (301) 713-2347.

Downrigger means a piece of equipment attached to a vessel and with a weight on a cable that is in turn attached to hook-and-line gear to maintain lures or bait at depth while trolling. The downrigger has a release system to retrieve the weight by rod and reel or by manual, electric, or hydraulic winch after a fish strike on the hook-and-line gear.

Dress means to process a fish by removal of head, viscera, and fins, but does not include removal of the backbone, halving, quartering, or otherwise further reducing the carcass.

Dressed weight (dw) means the weight of a fish after it has been dressed.

East Florida Coast closed area means the Atlantic Ocean area seaward of the inner boundary of the U.S. EEZ from a point intersecting the inner boundary of the U.S. EEZ at 31 °00' N. lat. near Jekyll Island, GA, and proceeding due east to connect by straight lines the following coordinates in the order stated: 31°00' N. lat., 78°00' W. long.; 28°17'10" N. lat., 79°11'24" W. long.; then proceeding along the outer boundary of the EEZ to the intersection of the EEZ with 24°00' N. lat.; then proceeding due west to 24°00' N. lat., 81 °47' W. long.; and then proceeding due north to intersect the inner boundary of the U.S. EEZ at 81 °47' W. long. near Key West, FL.

EFP means an exempted fishing permit issued pursuant to §600.745 of this chapter or to §635.32.

Eviscerated means a fish that has only the alimentary organs removed.

Export , for purposes of this subpart, means to effect exportation.

Exportation has the same general meaning as 19 CFR 101.1 and generally refers to a severance of goods from the mass of things belonging to one country with the intention of uniting them to the mass of things belonging to some foreign country. For purposes of this subpart, a shipment between the United States and its insular possessions is not an export.

Exporter, for purposes of this subpart, is the principal party in interest, meaning the party that receives the primary benefit, monetary or otherwise, of the export transaction. For exports from the United States, the exporter is the U.S. principal party in interest, as identified in Part 30 of title 15 of the CFR. An exporter is subject to the requirements of this subpart, even if exports are exempt from statistical reporting requirements under Part 30 of title 15 of the CFR.

Finlet means one of the small individual fins on a tuna located behind the second dorsal and anal fins and forward of the tail fin.

First transaction in the United States means the time and place at which a fish is filleted, cut into steaks, or processed in any way that physically alters it after being landed in or imported into the United States.

Fishing record means all records of navigation and operations of a fishing vessel, as well as all records of catching, harvesting, transporting, landing, purchasing, or selling a fish.

Fishing vessel means any vessel engaged in fishing, processing, or transporting fish loaded on the high seas, or any vessel outfitted for such activities.

Fishing year means —

(1) For Atlantic tunas and swordfish, before January 1, 2008 — June 1 through May 31. On or after January 1, 2008 — January 1 through December 31.

(2) For Atlantic billfish, On or after January 1, 2007 — January 1 through December 31.

(3) For sharks — January 1 through December 31. *Floatation device* means any positively buoyant object rigged to be attached to a fishing gear.

Floatline means a line attached to a buoyant object that is used to support the mainline of a longline at a specific target depth.

For-hire trip means a recreational fishing trip taken by a vessel with an Atlantic HMS Charter/Headboat permit during which paying passenger(s) are aboard; or, for uninspected vessels, trips during which there are more than three persons aboard, including operator and crew; or, for vessels that have been issued a Certificate of Inspection by the U.S. Coast Guard to carry passengers for hire, trips during which there are more persons aboard than the number of crew specified on the vessel's Certificate of Inspection.

Freeboard is defined as the working distance between the top rail of the gunwale to the water's surface, and will vary based on the vessel design.

Gangion means a line that serves to attach a hook, suspended at a specific target depth, to the mainline of a longline.

Giant BFT means an Atlantic BFT measuring 81 inches (206 cm) CFL or greater.

Handgear means handline, harpoon, rod and reel, bandit gear, buoy gear, or speargun gear.

Handline means fishing gear that is attached to, or in contact with, a vessel; that consists of a mainline to which no more than two hooks or gangions may be attached; and that is released and retrieved by hand rather than by mechanical means.

High-flyer means a flag, radar reflector or radio beacon transmitter, suitable for attachment to a longline to facilitate its location and retrieval.

Highly migratory species (HMS) means bluefin, bigeye, yellowfin, albacore, and skipjack tunas; swordfish; sharks (listed in appendix A to this part); white marlin; blue marlin; sailfish; and longbill spearfish.

Import, for purposes of this subpart, generally means the act of bringing or causing any goods to be brought into the customs territory of a country with the intent to unlade them. For purposes of this subpart, goods brought into the United States from a U.S. insular possession, or vice-versa, are not considered imports.

Importer, for purposes of this subpart, means the principal party responsible for the import of product into a country. For imports into the United States, and for purposes of this subpart, "importer" means the consignee as identified on entry documentation or any authorized, equivalent electronic medium required for release of shipments, or any authorized equivalent entry documentation from the customs authority of the United States or the separate customs territory of a U.S. insular possession. If a consignee is not declared, then the importer of record is considered to be the consignee.

LAP means a limited access permit issued pursuant to §635.4.

Large coastal shark (LCS) means one of the species, or a part thereof, listed in paragraph (a) of table 1 in appendix A to this part.

Large medium BFT means a BFT measuring at least 73 inches (185 cm) and less than 81 inches (206 cm) CFL.

Large school BFT means a BFT measuring at least 47 inches (119 cm) and less than 59 inches (150 cm) CFL.

LJFL (lower jaw-fork length) means the straight-line measurement of a fish from the tip of the lower jaw to the fork of the caudal fin.

The measurement is not made along the curve of the body.

Longline means fishing gear that is set horizontally, either anchored, floating, or attached to a vessel, and that consists of a mainline or groundline with three or more leaders (gangions) and hooks, whether retrieved by hand or mechanical means.

Madison-Swanson closed area means a rectangular-shaped area in the Gulf of Mexico bounded by straight lines connecting the following coordinates in the order stated: 29°17' N. lat., 85°50' W. long.; 29° 17' N. lat., 85°38' W. long.; 29°06' N. lat., 85°38' W. long.; 29°06' N. lat., 85°50' W. long.; and 29°17' N. lat., 85°50' W. long.

Management unit means in this part:

- (1) For Atlantic tunas, longbill spearfish, blue marlin and white marlin, means all fish of these species in the Atlantic Ocean;
- (2) For sailfish, means all fish of this species in the Atlantic Ocean west of 30° W. long.;
- (3) For North Atlantic swordfish, means all fish of this species in the Atlantic Ocean north of 5° N. lat.;
- (4) For South Atlantic swordfish, means all fish of this species in the Atlantic Ocean south of 5° N. lat.; and
- (5) For sharks, means all fish of the species listed in Table 1 of Appendix A to this part, in the western north Atlantic Ocean, including the Gulf of Mexico and the Caribbean Sea.

Mid -Atlantic Bight means the area bounded by straight lines connecting the mid-Atlantic states' internal waters and extending to 71 ° W. long. between 35° N. lat. and 43° N. lat.

Mid -Atlantic shark closed area means the Atlantic Ocean area seaward of the inner boundary of the U.S. EEZ from a point intersecting the inner boundary of the U.S. EEZ at 35°41' N. lat. just south of Oregon Inlet, North Carolina, and connecting by straight lines the following coordinates in the order stated: 35° 41' N. lat., 75°25' W. long. proceeding due east to 35°41' N. lat., 74°51' W. long.; then proceeding southeast to 35°30' N. lat., 74°46' W. long.; then proceeding southwest, roughly following the 55 fathom mark, to 33°51' N. lat., 76°24' W. long.; then proceeding due west to intersect the inner boundary of the U.S. EEZ at 33°51' N. lat., 77°53' W. long. near Cape Fear, North Carolina.

Net check refers to a visual inspection of a shark gillnet where the vessel operator transits the length of the gear and inspects it either with a spotlight or by pulling up the gear.

Non-ridgeback large coastal shark means one of the species, or a part thereof, listed in paragraph (a)(2) of table 1 in appendix A to this part.

North Atlantic swordfish or North Atlantic swordfish stock means those swordfish occurring in the Atlantic Ocean north of 5° N. lat.

Northeast Distant gear restricted area means the Atlantic Ocean area bounded by straight lines connecting the following coordinates in the order stated: 35°00' N. lat., 60°00' W. long.; 55°00' N. lat., 60°00' W. long.; 55°00' N. lat., 20°00' W. long.; 35°00' N. lat., 20°00' W. long.; 35°00' N. lat., 60°00' W. long.

Northeastern United States closed area means the area bounded by straight lines connecting the following coordinates in the order stated: 40°00' N. lat., 74°00' W. long.; 40°00' N. lat., 68°00' W. long.; 39°00' N. lat., 68°00' W. long.; and 39°00' N. lat., 74°00' W. long.

Offset circle hook means a circle hook originally designed and manufactured so that the barbed end of the hook is displaced relative to the parallel plane of the eyed-end, or shank, of the hook when laid on its side.

Operator, with respect to any vessel, means the master or other individual aboard and in charge of that vessel.

Pectoral fin means the fin located behind the gill cover on either side of a fish.

Pelagic longline means a longline that is suspended by floats in the water column and that is not fixed to or in contact with the ocean bottom.

Pelagic shark means one of the species, or a part thereof, listed in paragraph (c) of table 1 in appendix A to this part.

PFCFL (pectoral fin curved fork length) means the length of a beheaded fish from the dorsal insertion of the pectoral fin to the fork of the tail measured along the contour of the body in a line that runs along the top of the pectoral fin and the top of the caudal keel.

Prohibited shark means one of the species, or a part thereof, listed in paragraph (d) of table 1 in appendix A to this part.

Protected species safe handling, release, and identification workshop certificate means the document issued by NMFS, or its designee, indicating that the person named on the certificate has successfully completed the Atlantic HMS protected species safe handling, release, and identification workshop.

Restricted-fishing day (RFD) means a day, beginning at 0000 hours and ending at 2400 hours local time, during which a person aboard a vessel for which a General category permit for Atlantic Tunas has been issued may not fish for, possess, or retain a BFT.

Ridgeback large coastal shark means one of the species, or a part thereof, listed in paragraph (a)(1) of table 1 in appendix A to this part.

School BFT means a BFT measuring at least 27 inches (69 cm) and less than 47 inches (119 cm) CFL.

Shark means one of the oceanic species, or a part thereof, listed in Table 1 of Appendix A to this part.

Smal coastal shark (SCS) means one of the species, or a part thereof, listed in paragraph (b) of table 1 in appendix A to this part.

Small medium BFT means a BFT measuring at least 59 inches (150 cm) and less than 73 inches (185 cm) CFL.

South Atlantic swordfish or south Atlantic swordfish stock means those swordfish occurring in the Atlantic Ocean south of 5° N. lat.

Speargun fishing gear means a muscle-powered speargun equipped with a trigger mechanism, a spear with a tip designed to penetrate and retain fish, and terminal gear. Terminal gear may include, but is not limited to, trailing lines, reels, and floats. The term "muscle-powered speargun" for the purposes of this part means a speargun that stores potential energy provided from the operator's muscles, and that releases only the amount of energy that the operator has provided to it from his or her own muscles. Common energy storing methods for muscle-powered spearguns include compressing air and springs, and the stretching of rubber bands.

Steamboat Lumps closed area means a rectangular-shaped area in the Gulf of Mexico bounded by straight lines connecting the following coordinates in the order stated: 28°14' N. lat., 84°48' W. long.; 28° 14' N. lat., 84°37' W. long.; 28°03' N. lat., 84°37' W. long.; 28°03' N. lat., 84°48' W. long.; and 28°14' N. lat., 84°48' W. long.

Tournament means any fishing competition involving Atlantic HMS in which participants must register or otherwise enter or in which a prize or award is offered for catching or landing such fish.

Tournament operator means a person or entity responsible for maintaining records of participants and results used for awarding tournament points or prizes, regardless of whether fish are retained.

Trip limit means the total allowable take from a single trip as defined in §600.10 of this chapter.

Tuna or tuna-like means the Scombriformes (with the exception of families Trichiuridae and Gempylidae and the genus Scomber) and such other species of fishes that are regulated by ICCAT in the Atlantic Ocean.

Weighout slip means a document provided to the owner or operator of the vessel by a person who weighs fish or parts thereof that are landed from a fishing vessel. A document, such as a "tally sheet," "trip ticket," or "sales receipt," that contains such information is considered a weighout slip.

Young school BFT means an Atlantic BFT measuring less than 27 inches (69 cm) CFL.

[64 FR 29135, May 28, 1999, as amended at 65 FR 47237, Aug. 1, 2000; 66 FR 8904, Feb. 5, 2001; 67 FR 45400, July 9, 2002; 67 FR 77436, Dec. 18, 2002; 68 FR 74784, Dec. 24, 2003; 69 FR 40754, July 6, 2004; 69 FR 67283, Nov. 17, 2004; 69 FR 70399, Dec. 6, 2004; 71 FR 58163, Oct. 2, 2006]

§ 635.3 Relation to other laws.

(a) The relation of this part to other laws is set forth in §600.705 of this chapter and in paragraphs (b) and (c) of this section.

(b) In accordance with regulations issued under the Marine Mammal Protection Act of 1972, as amended, it is unlawful for a commercial fishing vessel, a vessel owner, or a master or operator of a vessel to engage in fisheries for HMS in the Atlantic Ocean, unless the vessel owner or authorized representative has complied with specified requirements including, but not limited to, registration, exemption certificates, decals, and reports, as contained in part 229 of this title.

(c) General provisions on facilitation of enforcement, penalties, and enforcement policy applicable to all domestic fisheries are set forth in §§600.730, 600.735, and §600.740 of this chapter, respectively.

(d) An activity that is otherwise prohibited by this part may be conducted if authorized as scientific research activity, exempted fishing

or exempted educational activity, or for public display, as specified in §635.32.

[64 FR 29135, May 28, 1999, as amended at 68 FR 74784, Dec. 24, 2003]

§ 635.4 Permits and fees.

Information on permits and permit requirements may be obtained from the Division Chief or where otherwise stated in this part.

(a) *General* —(1) *Authorized activities*. Each permit issued by NMFS authorizes certain activities, and persons may not conduct these activities without the appropriate permit, unless otherwise authorized by NMFS in accordance with this part. In certain cases, additional permits may be required to authorize these same or related activities under federal, state or local jurisdictions.

(2) *Vessel permit inspection*. The owner or operator of a vessel of the United States must have the appropriate valid permit on board the vessel to fish for, take, retain, or possess Atlantic HMS when engaged in recreational fishing and to fish for, take, retain or possess Atlantic tunas, swordfish, or sharks when engaged in commercial fishing. The vessel operator must make such permit available for inspection upon request by NMFS or by a person authorized by NMFS. The owner of the vessel is responsible for satisfying all of the requirements associated with obtaining, maintaining, and making available for inspection all required vessel permits.

(3) *Property rights*. Limited access vessel permits or any other permit issued pursuant to this part do not represent either an absolute right to the resource or any interest that is subject to the takings provision of the Fifth Amendment of the U.S. Constitution. Rather, limited access vessel permits represent only a harvesting privilege that may be revoked, suspended, or amended subject to the requirements of the Magnuson-Stevens Act or other applicable law.

(4) *Dealer permit inspection*. A dealer permit issued under this section, or a copy thereof, must be available at each of the dealer's places of business. A dealer must present the permit or a copy for inspection upon the request of a NMFS-authorized officer.

(5) *Display upon offloading*. Upon transfer of Atlantic HMS, the owner or operator of the harvesting vessel must present for inspection the vessel's HMS Charter/Headboat permit and/or Atlantic tunas, shark, or swordfish permit to the receiving dealer. The permit must be presented prior to completing any applicable landing report specified at §635.5(a)(1), (a)(2) and (b)(2)(i).

(6) *Sanctions and denials*. A permit issued under this section may be revoked, suspended, or modified, and a permit application may be denied, in accordance with the procedures governing enforcement-related permit sanctions and denials found at subpart D of 15 CFR part 904.

(7) *Alteration*. A vessel or dealer permit that is altered, erased, mutilated, or otherwise modified is invalid.

(8) *Replacement*. NMFS may issue a replacement permit upon the request of the permittee. An application for a replacement permit will not be considered a new application. An appropriate fee, consistent with paragraph (b) of this section, may be charged for issuance of the replacement permit.

(9) *Fees*. NMFS may charge a fee for each application for a permit or for each transfer or replacement of a permit. The amount of the fee is calculated in accordance with the procedures of the NOAA Finance Handbook, available from NMFS, for determining administrative costs of each special product or service. The fee may not exceed such costs and is specified in the instructions provided with each application form. Each applicant must include the appropriate fee with each application or request for transfer or replacement. A permit will not be issued to anyone who fails to pay the fee.

(10) *Permit condition*. An owner of a vessel with a valid swordfish, shark, HMS Angling, or HMS Charter/Headboat permit issued pursuant to this part must agree, as a condition of such permit, that the vessel's HMS fishing, catch, and gear are subject to the requirements of this part during the period of validity of the permit, without regard to whether such fishing occurs in the U.S. EEZ, or outside the U.S. EEZ, and without regard to where such HMS, or gear, are possessed, taken, or landed. However, when a vessel fishes within the waters of a state that has more restrictive regulations pertaining to HMS, persons aboard the vessel must abide by the state's more restrictive regulations.

(b) *HMS Charter/Headboat permits*. (1) The owner of a charter boat or headboat used to fish for, take, retain, or possess any Atlantic HMS must obtain an HMS Charter/Headboat permit. A vessel issued an HMS Charter/Headboat permit for a fishing year shall not be issued an HMS Angling permit or an Atlantic Tunas permit in any category for that same fishing year, regardless of a change in the vessel's ownership.

(2) While persons aboard a vessel that has been issued an HMS Charter/Headboat permit are fishing for or are in possession of Atlantic HMS, the operator of the vessel must have a valid Merchant Marine License or Uninspected Passenger Vessel License, as applicable, issued by the U.S. Coast Guard pursuant to regulations at 46 CFR part 10. Such Coast Guard license must be carried on board the vessel.

(c) *HMS Angling permits*. (1) The owner of any vessel used to fish recreationally for Atlantic HMS or on which Atlantic HMS are retained or possessed recreationally, must obtain an HMS Angling permit, except as provided in §635.4(c)(2). Atlantic HMS caught, retained, possessed, or landed by persons on board vessels with an HMS Angling permit may not be sold or transferred to any person

for a commercial purpose. A vessel issued an HMS Angling permit for a fishing year shall not be issued an HMS Charter/Headboat permit or an Atlantic Tunas permit in any category for that same fishing year, regardless of a change in the vessel's ownership.

(2) A vessel with a valid Atlantic Tunas General category permit issued under paragraph (d) of this section may fish in a recreational HMS fishing tournament if the vessel has registered for, paid an entry fee to, and is fishing under the rules of a tournament that has registered with NMFS' HMS Management Division as required under §635.5(d). When a vessel issued a valid Atlantic Tunas General category permit is fishing in such a tournament, such vessel must comply with HMS Angling category regulations, except as provided in paragraph (c)(3) of this section.

(3) A vessel issued an Atlantic Tunas General category permit fishing in a tournament, as authorized under §635.4(c)(2), shall comply with Atlantic Tunas General category regulations when fishing for, retaining, possessing, or landing Atlantic tunas.

(d) *Atlantic Tunas vessel permits.* (1) The owner of each vessel used to fish for or take Atlantic tunas commercially or on which Atlantic tunas are retained or possessed with the intention of sale must obtain an HMS Charter/Headboat permit issued under paragraph (b) of this section, or an Atlantic tunas permit in one, and only one, of the following categories: General, Harpoon, Longline, Purse Seine, or Trap.

(2) Persons aboard a vessel with a valid Atlantic Tunas, HMS Angling, or HMS Charter/Headboat permit may fish for, take, retain, or possess Atlantic tunas, but only in compliance with the quotas, catch limits, size classes, and gear applicable to the permit category of the vessel from which he or she is fishing.

Persons may sell Atlantic tunas only if the harvesting vessel has a valid permit in the General, Harpoon, Longline, Purse Seine, or Trap category of the Atlantic Tunas permit or a valid HMS Charter/Headboat permit.

(3) A vessel issued an Atlantic Tunas permit in any category for a fishing year shall not be issued an HMS Angling permit, HMS Charter/Headboat permit, or an Atlantic Tunas permit in any other category for that same fishing year, regardless of a change in the vessel's ownership.

(4) A person can obtain a limited access Atlantic Tunas Longline category permit for a vessel only if the vessel has been issued both a limited access permit for shark and a limited access permit, other than handgear, for swordfish. Limited access Atlantic Tunas Longline category permits may only be obtained through transfer from current owners consistent with the provisions under paragraph (l)(2) of this section.

(5) An owner of a vessel with an Atlantic Tunas permit in the Purse Seine category may transfer the permit to another purse seine vessel that he or she owns. In either case, the owner must submit a written request for transfer to NMFS, to an address designated by NMFS, and attach an application for the new vessel and the existing permit. NMFS will issue no more than 5 Atlantic Tunas Purse Seine category permits.

(e) *Shark vessel LAPs.* (1) The only valid Federal commercial vessel permits for sharks are those that have been issued under the limited access program consistent with the provisions under paragraphs (l) and (m) of this section.

(2) The owner of each vessel used to fish for or take Atlantic sharks or on which Atlantic sharks are retained, possessed with an intention to sell, or sold must obtain, in addition to any other required permits, only one of two types of commercial limited access shark permits: Shark directed limited access permit or shark incidental limited access permit. It is a rebuttable presumption that the owner or operator of a vessel on which sharks are possessed in excess of the recreational retention limits intends to sell the sharks.

(3) A commercial limited access permit for sharks is not required if the vessel is recreational fishing and retains no more sharks than the recreational retention limit, is operating pursuant to the conditions of a shark EFP, or that fishes exclusively within state waters.

(f) *Swordfish vessel LAPs.* (1) The owner of each vessel used to fish for or take Atlantic swordfish or on which Atlantic swordfish are retained, possessed with an intention to sell, or sold must obtain, in addition to any other required permits, only one of three types of commercial limited access swordfish permits: Swordfish directed limited access permit, swordfish incidental limited access permit, or swordfish handgear limited access permit. It is a rebuttable presumption that the owner or operator of a vessel on which swordfish are possessed in excess of the recreational retention limits intends to sell the swordfish.

(2) The only valid commercial Federal vessel permits for swordfish are those that have been issued under the limited access program consistent with the provisions under paragraphs (l) and (m) of this section.

(3) A commercial Federal permit for swordfish is not required if the vessel is recreational fishing.

(4) Unless the owner has been issued a swordfish handgear permit, a limited access permit for swordfish is valid only when the vessel has on board a valid limited access permit for shark and a valid Atlantic Tunas Longline category permit issued for such vessel.

(g) *Dealer permits* —(1) *Atlantic tunas.* A person that receives, purchases, trades for, or barter for Atlantic tunas from a fishing vessel of the United States, as defined under §600.10 of this chapter, must possess a valid dealer permit.

(2) *Shark.* A person that receives, purchases, trades for, or barter for Atlantic sharks from a fishing vessel of the United States,

as defined under §600.10 of this chapter, must possess a valid dealer permit.

(3) *Swordfish*. A person that receives, purchases, trades for, or barter for Atlantic swordfish from a fishing vessel of the United States, as defined under §600.10 of this chapter, must possess a valid dealer permit.

(h) *Applications for permits*. An owner of a vessel or a dealer must submit to NMFS, at an address designated by NMFS, a complete application and required supporting documents at least 30 days before the date on which the permit is to be made effective. Application forms and instructions for their completion are available from NMFS.

(1) *Atlantic Tunas, HMS Angling, and HMS Charter/Headboat vessel permits*. (i) An applicant must provide all information concerning his or her identification, vessel, gear used, fishing areas, fisheries participated in, the corporation or partnership owning the vessel, and income requirements requested by NMFS and included on the application form.

(ii) An applicant must also submit a copy of the vessel's valid U.S. Coast Guard documentation or, if not documented, a copy of its valid state registration and any other information that may be necessary for the issuance or administration of the permit as requested by NMFS. The owner must submit such information to an address designated by NMFS.

(iii) NMFS may require an applicant to provide documentation supporting the application before a permit is issued or to substantiate why such permit should not be revoked or otherwise sanctioned under paragraph (a)(7) of this section.

(2) *Limited access permits for swordfish and shark*. See paragraph (l) of this section for transfers of LAPs for shark and swordfish. See paragraph (m) of this section for renewals of LAPs for shark and swordfish.

(3) *Dealer permits*. (i) An applicant for a dealer permit must provide all the information requested on the application form necessary to identify the company, its principal place of business, and mechanisms by which the company can be contacted.

(ii) An applicant must also submit a copy of each state wholesaler's license held by the dealer and, if a business is owned by a corporation or partnership, the corporate or partnership documents requested on the application form.

(iii) An applicant must also submit any other information that may be necessary for the issuance or administration of the permit, as requested by NMFS.

(i) *Change in application information*. A vessel owner or dealer must report any change in the information contained in an application for a permit within 30 days after such change. The report must be submitted in writing to NMFS, to an address designated by NMFS with the issuance of each permit. In the case of a vessel permit for Atlantic tunas or an HMS Charter/Headboat permit, the vessel owner or operator must report the change by phone or internet to a number or website designated by NMFS. A new permit will be issued to incorporate the new information, subject to limited access provisions specified in paragraph (l)(2) of this section. For certain information changes, NMFS may require supporting documentation before a new permit will be issued. If a change in the permit information is not reported within 30 days, the permit is void as of the 31st day after such change.

(j) *Permit issuance*. (1) NMFS will issue a permit within 30 days of receipt of a complete and qualifying application. An application is complete when all requested forms, information, and documentation have been received, including all reports and fishing or catch information required to be submitted under this part.

(2) NMFS will notify the applicant of any deficiency in the application, including failure to provide information or reports required to be submitted under this part. If the applicant fails to correct the deficiency within 30 days following the date of notification, the application will be considered abandoned.

(3) A vessel owner issued an Atlantic tunas permit in the General, Harpoon, or Trap category or an Atlantic HMS permit in the Angling or Charter/Headboat category under paragraph (b), (c), or (d) of this section may change the category of the vessel permit once within 10 calendar days of the date of issuance of the permit. After 10 calendar days from the date of issuance of the permit, the vessel owner may not change the permit category until the following fishing season, except during the period of January 1, 2008, through May 31, 2008, when one additional change is authorized.

(k) *Duration*. A permit issued under this section will be valid for the period specified on it unless it is revoked, suspended, or modified pursuant to subpart D of 15 CFR part 904, the vessel or dealership is sold, or any other information previously submitted on the application changes, as specified in paragraph (i) of this section.

(l) *Transfer* — (1) *General*. A permit issued under this section is not transferable or assignable to another vessel or owner or dealer; it is valid only for the vessel or owner or dealer to whom it is issued. If a person acquires a vessel or dealership and wants to conduct activities for which a permit is required, that person must apply for a permit in accordance with the provisions of paragraph (h) of this section or, if the acquired vessel is permitted in either the shark, swordfish, or tuna longline fishery, in accordance with paragraph (1)(2) of this section. If the acquired vessel or dealership is currently permitted, an application must be accompanied by the original permit, by a copy of a signed bill of sale or equivalent acquisition papers, and the appropriate workshop certificates as specified in §635.8.

(2) *Shark, swordfish, and tuna longline LAPs*. (i) Subject to the restrictions on upgrading the harvesting capacity of permitted vessels in paragraphs (l)(2)(ii) or (x) of this section, as applicable, and to the limitations on ownership of permitted vessels in paragraph (l)(2)(iii) of this section, an owner may transfer a shark or swordfish LAP or an Atlantic Tunas Longline category permit to another

vessel that he or she owns or to another person. Directed handgear LAPs for swordfish may be transferred to another vessel but only for use with handgear and subject to the upgrading restrictions in paragraph (l) (2)(ii) of this section and the limitations on ownership of permitted vessels in paragraph (l)(2)(iii) of this section. Incidental catch LAPs are not subject to the requirements specified in paragraphs (l)(2)(ii),(iii), and (x) of this section.

(ii) Except as specified in paragraph (l)(2)(x) of this section, an owner may upgrade a vessel with a shark, swordfish, or tuna longline limited access permit, or transfer the limited access permit to another vessel, and be eligible to retain or renew a limited access permit only if the upgrade or transfer does not result in an increase in horsepower of more than 20 percent or an increase of more than 10 percent in length overall, gross registered tonnage, or net tonnage from the vessel baseline specifications.

(A) The vessel baseline specifications are the respective specifications (length overall, gross registered tonnage, net tonnage, horsepower) of the first vessel that was issued an initial limited access permit or, if applicable, of that vessel's replacement owned as of May 28, 1999.

(B) Subsequent to the issuance of a limited access permit, the vessel's horsepower may be increased, relative to the baseline specifications of the vessel initially issued the LAP, through refitting, replacement, or transfer. Such an increase may not exceed 20 percent of the baseline specifications of the vessel initially issued the LAP.

(C) Subsequent to the issuance of a limited access permit, the vessel's length overall, gross registered tonnage, and net tonnage may be increased, relative to the baseline specifications of the vessel initially issued the LAP, through refitting, replacement, or transfer. An increase in any of these three specifications of vessel size may not exceed 10 percent of the baseline specifications of the vessel initially issued the LAP. This type of upgrade may be done separately from an engine horsepower upgrade.

(iii) No person or entity may own or control more than 5 percent of the vessels for which swordfish directed, shark directed or tuna longline limited access permits have been issued.

(iv) In order to transfer a swordfish, shark or tuna longline limited access permit to a replacement vessel, the owner of the vessel issued the limited access permit must submit a request to NMFS, at an address designated by NMFS, to transfer the limited access permit to another vessel, subject to requirements specified in paragraphs (l)(2)(ii) or (x) of this section, if applicable. The owner must return the current valid limited access permit to NMFS with a complete application for a limited access permit, as specified in paragraph (h) of this section, for the replacement vessel. Copies of both vessels' U.S. Coast Guard documentation or state registration must accompany the application.

(v) For swordfish, shark, and tuna longline limited access permit transfers to a different person, the transferee must submit a request to NMFS, at an address designated by NMFS, to transfer the original limited access permit(s), subject to the requirements specified in paragraphs (l)(2)(ii), (iii), and (x) of this section, if applicable. The following must accompany the completed application: The original limited access permit(s) with signatures of both parties to the transaction on the back of the permit(s) and the bill of sale for the permit(s). A person must include copies of both vessels' U.S. Coast Guard documentation or state registration for limited access permit transfers involving vessels.

(vi) For limited access permit transfers in conjunction with the sale of the permitted vessel, the transferee of the vessel and limited access permit(s) issued to that vessel must submit a request to NMFS, at an address designated by NMFS, to transfer the limited access permit(s), subject to the requirements specified in paragraphs (l)(2)(ii), (iii), and (x) of this section, if applicable. The following must accompany the completed application: The original limited access permit(s) with signatures of both parties to the transaction on the back of the permit(s), the bill of sale for the limited access permit(s) and the vessel, and a copy of the vessel's U.S. Coast Guard documentation or state registration.

(vii) The owner of a vessel issued a limited access permit(s) who sells the permitted vessel but retains the limited access permit(s) must notify NMFS within 30 days after the sale of the change in application information in accordance with paragraph (i) of this section. If the owner wishes to transfer the limited access permit(s) to a replacement vessel, he/she must apply according to the procedures in paragraph (l)(2)(iv) of this section.

(viii) As specified in paragraph (f)(4) of this section, a directed or incidental LAP for swordfish, a directed or an incidental catch LAP for shark, and an Atlantic Tunas Longline category permit are required to retain swordfish for commercial purposes. Accordingly, a LAP for swordfish obtained by transfer without either a directed or incidental catch shark LAP or an Atlantic tunas Longline category permit will not entitle an owner or operator to use a vessel to fish in the swordfish fishery.

(ix) As specified in paragraph (d)(4) of this section, a directed or incidental LAP for swordfish, a directed or an incidental catch LAP for shark, and an Atlantic Tunas Longline category permit are required to retain Atlantic tunas taken by pelagic longline gear. Accordingly, an Atlantic Tunas Longline category permit obtained by transfer without either a directed or incidental catch swordfish or shark LAP will not entitle an owner or operator to use the permitted vessel to fish in the Atlantic tunas fishery with pelagic longline gear.

(x) The owner of a vessel that, on August 6, 2007, concurrently possesses, or is eligible to renew, a directed or incidental swordfish limited access permit, a directed or incidental shark limited access permit, and an Atlantic Tunas Longline category permit is eligible to upgrade that vessel, or transfer its limited access permits to another vessel, subject to the following restrictions:

(A) For eligible vessels, as defined in paragraph (l)(2)(x), any increase in the three specifications of vessel size (length overall, gross registered tonnage, and net tonnage), whether through refitting, replacement, or transfer, may not exceed 35 percent of the vessel baseline specifications, as defined in paragraph (l)(2)(ii)(A) of this section. Horsepower for eligible vessels is not limited for purposes

vessel upgrades or permit transfers under paragraph (l)(2)(x).

(B) If a vessel owner wants to request a transfer of limited access permits in order to be eligible for the upgrading restrictions under paragraph (l)(2)(x), the transferee must submit a complete application(s), as specified in paragraphs (h),(i),(j), and (l)(1) of this section, according to the procedures at paragraphs (l) (2)(iv), (v), or (vi) of this section, as applicable, to an address designated by NMFS, so that the completed application(s) are received by NMFS by August 6, 2007. Vessels will not be eligible for the upgrading restrictions under paragraph (l)(2)(x) if applications are incomplete or received after August 6, 2007.

(C) Owners of directed or incidental swordfish limited access permit(s), directed or incidental shark limited access permit(s), and Atlantic Tunas Longline category permit(s) that are not assigned to a specific vessel may request transfer of these permits to a vessel in order to be eligible for the upgrading restrictions under paragraph (l)(2)(x). The transferee must submit complete applications, as specified in paragraphs (h),(i),(j), and (l)(1) of this section, according to the procedures at paragraphs (l)(2)(iv), (v), or (vi) of this section, as applicable, to an address designated by NMFS, so that the completed applications are received by NMFS by August 6, 2007. Vessels will not be eligible for the upgrading restrictions under paragraph (l)(2)(x) if applications are incomplete or received by NMFS after August 6, 2007.

(m) *Renewal* —(1) *General*. Persons must apply annually for a dealer permit for Atlantic tunas, sharks, and swordfish, and for an Atlantic HMS Angling, HMS Charter/Headboat, tunas, shark, or swordfish vessel permit. Except as specified in the instructions for automated renewals, persons must submit a renewal application to NMFS, along with a copy of the applicable valid workshop certificate or certificates, if required pursuant to §635.8, at an address designated by NMFS, at least 30 days before a permit's expiration to avoid a lapse of permitted status. NMFS will renew a permit if the specific requirements for the requested permit are met, including those described in paragraph(l)(2) of this section, all reports required under the Magnuson-Stevens Act and ATCA have been submitted, including those described in §635.5 and §300.185 of this title, the applicant is not subject to a permit sanction or denial under paragraph (a)(6) of this section, and the workshop requirements specified in §635.8 are met.

(2) *Shark, swordfish, and tuna longline LAPs*. The owner of a vessel of the U.S. that fishes for, possesses, lands or sells shark or swordfish from the management unit, takes or possesses such shark or swordfish as incidental catch, or that fishes for Atlantic tunas with longline gear must have the applicable limited access permit(s) issued pursuant to the requirements in paragraphs (e) and (f) of this section. Only persons holding a non-expired limited access permit(s) in the preceding year are eligible to renew a limited access permit(s). Transferors may not renew limited access permits that have been transferred according to the procedures of paragraph (l) of this section.

[64 FR 29135, May 28, 1999, as amended at 64 FR 37703, July 13, 1999; 65 FR 47238, Aug. 1, 2000; 66 FR 30652, June 7, 2001; 67 FR 77436, Dec. 18, 2002; 68 FR 56787, Oct. 2, 2003; 69 FR 67283, Nov. 17, 2004; 71 FR 45436, Aug. 9, 2006; 71 FR 58164, Oct. 2, 2006; 72 FR 31708, June 7, 2007; 72 FR 33407, June 18, 2007]

§ 635.5 Recordkeeping and reporting.

Information on HMS vessel and dealer reporting requirements may be obtained from the Division Chief or where otherwise stated in this part.

(a) *Vessels* —(1) *Logbooks*. If an owner of an HMS charter/headboat vessel, an Atlantic tunas vessel, a shark vessel, or a swordfish vessel, for which a permit has been issued under §635.4(b), (d), (e), or (f), is selected for logbook reporting in writing by NMFS, he or she must maintain and submit a fishing record on a logbook form specified by NMFS. Entries are required regarding the vessel's fishing effort and the number of fish landed and discarded. Entries on a day's fishing activities must be entered on the logbook form within 48 hours of completing that day's activities or before offloading, whichever is sooner. The owner or operator of the vessel must submit the logbook form(s) postmarked within 7 days of offloading all Atlantic HMS. If no fishing occurred during a calendar month, a no-fishing form so stating must be submitted postmarked no later than 7 days after the end of that month. If an owner of an HMS charter/headboat vessel, Atlantic tunas vessel, shark vessel, or swordfish vessel, permitted under §635.4(b), (d), (e), or (f), is selected in writing by NMFS to complete the cost-earnings portion of the logbook(s), the owner or operator must maintain and submit the cost-earnings portion of the logbook postmarked no later than 30 days after completing the offloading for each trip fishing for Atlantic HMS during that calendar year, and submit the Atlantic Highly Migratory Species Annual Expenditures form(s) postmarked no later than the date specified on the form of the following year.

(2) *Weighout slips*. If an owner of a permitted vessel is required to maintain and submit logbooks under paragraph (a)(1) of this section, and Atlantic HMS harvested on a trip are sold, the owner or operator must obtain and submit copies of weighout slips for those fish. Each weighout slip must show the dealer to whom the fish were transferred, the date they were transferred, and the carcass weight of each fish for which individual weights are normally recorded. For fish that are not individually weighed, a weighout slip must record total weights by species and market category. A weighout slip for sharks prior to or as part of a commercial transaction involving shark carcasses or fins must record the weights of carcasses and any detached fins. The owner or operator must also submit copies of weighout slips with the logbook forms required to be submitted under paragraph (a)(1) of this section.

(3) *BFT not sold*. If a person who catches and lands a large medium or giant BFT from a vessel issued a permit in any of the commercial categories for Atlantic tunas does not sell or otherwise transfer the BFT to a dealer who has a dealer permit for Atlantic tunas, the person must contact a NMFS enforcement agent, at a number designated by NMFS, immediately upon landing such BFT, provide the information needed for the reports required under paragraph (b)(2)(i) of this section, and, if requested, make the tuna available so that a NMFS enforcement agent or authorized officer may inspect the fish and attach a tag to it. Alternatively, such reporting requirement may be fulfilled if a dealer who has a dealer permit for Atlantic tunas affixes a dealer tag as required under paragraph (b)(2)(ii) of this section and reports the BFT as being landed but not sold on the reports required under paragraph (b)(2)(i) of this section. If a vessel is placed on a trailer, the person must contact a NMFS enforcement agent, or the BFT must have a dealer tag affixed to it by a permitted Atlantic tunas dealer, immediately upon the vessel being removed from the water. All BFT landed but not

sold will be applied to the quota category according to the permit category of the vessel from which it was landed.

(4) *Shark gillnet whale reporting.* The vessel operators of vessels that are shark gillnetting, as defined by 50 CFR 229.2, and that have been issued, or are required to have, shark directed or incidental limited access permits for use in the Atlantic Ocean including the Caribbean Sea and the Gulf of Mexico are required to contact the NOAA Fisheries Southeast Regional Office, at a number designated by NOAA Fisheries, if a listed whale is taken, in addition to submitting all other reporting forms required by this part and 50 CFR part 229.

(5) *Chartering Arrangements.* (i) For the purposes of this section, a chartering arrangement means any contract, agreement, or commitment between a U.S. vessel owner and a foreign entity (e.g., government, company, person) by which the control, use, possession, or services of a vessel are secured, for a period of time for fishing targeting Atlantic HMS. Chartering arrangements under this part do not include bareboat charters under which a vessel enters into a fishing agreement with a foreign entity, changes registration to fish under another country's registration then, once the agreed-upon fishing is completed, reverts back to the vessel's original registration.

(ii) Before fishing under a chartering arrangement, the owner of a fishing vessel subject to U.S. jurisdiction must apply for, and obtain, a chartering permit as specified in §635.32 (e) and (f). If a chartering permit is obtained, the vessel owner must submit catch information as specified in the terms and conditions of that permit. All catches will be recorded and counted against the applicable quota of the Contracting Party to which the chartering foreign entity is a member and, unless otherwise provided in the chartering permit, must be offloaded in the ports of the chartering foreign entity or offloaded under the direct supervision of the chartering foreign entity.

(iii) If the chartering arrangement terminates before the expiration of the charter permit, the vessel owner must notify NMFS immediately and in writing, upon termination of the chartering arrangement. Such notification requirements shall also apply to situations where the chartering arrangement is temporarily suspended and during intermittent periods where the vessel may be fishing under U.S. quotas for Atlantic HMS.

(b) *Dealers.* Persons who have been issued a dealer permit under §635.4 must submit reports to NMFS, to an address designated by NMFS, and maintain records as follows:

(1) *Atlantic HMS.* (i) Dealers that have been issued an Atlantic tunas, swordfish and/or sharks dealer permit under §635.4 must submit to NMFS all reports required under this section.

(ii) Reports of Atlantic tunas, Atlantic swordfish, and/or Atlantic sharks received by dealers from U.S. vessels, as defined under §600.10 of this chapter, on the first through the 15th of each month, must be postmarked not later than the 25th of that month. Reports of such fish received on the 16th through the last day of each month must be postmarked not later than the 10th of the following month. If a dealer issued an Atlantic tunas, swordfish or sharks dealer permit under §635.4 has not received any Atlantic HMS from U.S. vessels during a reporting period as specified in this section, he or she must still submit the report required under paragraph (b)(1)(i) of this section stating that no Atlantic HMS were received. This negative report must be postmarked for the applicable reporting period as specified in this section. This negative reporting requirement does not apply for bluefin tuna.

(iii) The reporting requirement of paragraph (b)(1)(i) of this section may be satisfied by a dealer if he or she provides a copy of each appropriate weighout slip or sales record, provided such weighout slip or sales record by itself or combined with the form available from NMFS includes all of the required information and identifies each fish by species.

(iv) The dealer may mail or fax such report to an address designated by NMFS or may hand-deliver such report to a state or Federal fishery port agent designated by NMFS. If the dealer hand-delivers the report to a port agent, a dealer must deliver such report no later than the prescribed postmark date for the reporting period.

(2) *Requirements for bluefin tuna —(i) Dealer reports —(A) Landing reports.* Each dealer with a valid Atlantic tunas permit issued under §635.4 must submit a completed landing report on a form available from NMFS for each BFT received from a U.S. fishing vessel. Such report must be submitted by electronic facsimile (fax) or, once available, via the Internet, to a number or a web address designated by NMFS not later than 24 hours after receipt of the BFT. A landing report must indicate the name and permit number of the vessel that landed the BFT and must be signed by the permitted vessel's owner or operator immediately upon transfer of the BFT. The dealer must inspect the vessel's permit to verify that the required vessel name and vessel permit number as listed on the permit are correctly recorded on the landing report and to verify that the vessel permit has not expired.

(B) *Bi-weekly reports.* Each dealer with a valid Atlantic tunas permit issued under §635.4 must submit a bi-weekly report on forms available from NMFS for BFT received from U.S. vessels. For BFT received from U.S. vessels on the 1st through the 15th of each month, the dealer must submit the bi-weekly report form to NMFS postmarked or, once available, electronically submitted via the Internet not later than the 25th of that month. Reports of BFT received on the 16th through the last day of each month must be postmarked or, once available, electronically submitted via the Internet not later than the 10th of the following month.

(ii) *Dealer Tags.* NMFS will issue numbered dealer tags to each person issued a dealer permit for Atlantic tunas under §635.4. A dealer tag is not transferable and is usable only by the dealer to whom it is issued. Dealer tags may not be reused once affixed to a tuna or recorded on a package, container, or report.

(A) *Affixing dealer tags.* A dealer or a dealer's agent must affix a dealer tag to each BFT purchased or received from a U.S. vessel immediately upon offloading the BFT. If a vessel is placed on a trailer, the dealer or dealer's agent must affix the dealer tag to the BFT immediately upon the vessel being removed from the water. The dealer tag must be affixed to the BFT between the fifth dorsal finlet

and the caudal keel.

(B) *Removal of dealer tags.* A dealer tag affixed to any BFT under paragraph (b)(2)(ii)(A) of this section or a BSD tag affixed to an imported bluefin tuna must remain on the fish until it is cut into portions. If the bluefin tuna or bluefin tuna parts subsequently are packaged for transport for domestic commercial use or for export, the number of the dealer tag or the BSD tag must be written legibly and indelibly on the outside of any package containing the tuna. Such tag number also must be recorded on any document accompanying the shipment of bluefin tuna for commercial use or export.

(3) *Recordkeeping.* Dealers must retain at their place of business a copy of each report required under paragraphs (b)(1)(i), (b)(1)(ii), and (b)(2)(i) of this section for a period of 2 years from the date on which each report was required to be submitted.

(c) *Anglers.* All bluefin tuna, billfish, and North Atlantic swordfish non-tournament landings must be reported as specified under paragraphs (c)(1) or (c)(2) of this section, unless an alternative recreational catch reporting system has been established as specified under paragraph (c)(3) of this section. Tournament landings must be reported as specified under paragraph (d) of this section.

(1) *Bluefin tuna.* The owner of a vessel permitted, or required to be permitted, in the Atlantic HMS Angling or Atlantic HMS Charter/Headboat category must report all BFT landings under the Angling category quota designated at §635.27(a) through the NMFS automated catch reporting system within 24 hours of the landing. Such reports may be made by calling 1-888-872-8862 or by submitting the required information over the Internet at: www.nmfspermits.com.

(2) The owner, or the owner(s) designee, of a vessel permitted, or required to be permitted, in the Atlantic HMS Angling or Atlantic HMS Charter/Headboat category must report all non-tournament landings of Atlantic blue marlin, Atlantic white marlin, and Atlantic sailfish, and all non-tournament and noncommercial landings of North Atlantic swordfish to NMFS by telephone to a number designated by NMFS, or electronically via the internet to an internet website designated by NMFS, or by other means as specified by NMFS, within 24 hours of that landing. For telephone landing reports, the owner, or the owner(s) designee, must provide a contact phone number so that a NMFS designee can call the vessel owner, or the owner(s) designee, for follow up questions and to confirm the reported landing. Regardless of how submitted, landing reports submitted to NMFS are not complete unless the vessel owner, or the owner(s) designee, has received a confirmation number from NMFS or a NMFS designee.

(3) *Alternative recreational catch reporting.* Alternative recreational catch reporting procedures may be established by NMFS with cooperation from states which may include such methodologies as telephone, dockside or mail surveys, mail in or phone-in reports, tagging programs, catch cards, or mandatory check-in stations. A census or a statistical sample of persons fishing under the recreational fishing regulations of this part may be used for these alternative reporting programs (after the programs have received Paperwork Reduction Act approval from OMB). Persons or vessel owners selected for reporting will be notified by NMFS or by the cooperating state agency of the requirements and procedures for reporting recreational catch. Each person so notified must comply with those requirements and procedures. Additionally, NMFS may determine that recreational landing reporting systems implemented by the states, if mandatory, at least as restrictive, and effectively enforced, are sufficient for recreational landing monitoring as required under this part. In such case, NMFS will file with the Office of the Federal Register for publication notification indicating that compliance with the state system satisfies the reporting requirements of paragraph (c) of this section.

(d) *Tournament operators.* For all tournaments that are conducted from a port in an Atlantic coastal state, including the U.S. Virgin Islands and Puerto Rico, a tournament operator must register with the NMFS' HMS Management Division, at least 4 weeks prior to commencement of the tournament by submitting information on the purpose, dates, and location of the tournament to NMFS. A tournament is not registered unless the tournament operator has received a confirmation number from the NMFS' HMS Management Division. NMFS will notify the tournament operator in writing when a tournament has been selected for reporting. Tournament operators that are selected to report must maintain and submit to NMFS a record of catch and effort on forms available from NMFS. Tournament operators must submit the completed forms to NMFS, at an address designated by NMFS, postmarked no later than the 7th day after the conclusion of the tournament, and must attach a copy of the tournament rules.

(e) *Inspection.* Any person authorized to carry out enforcement activities under the regulations in this part has the authority, without warrant or other process, to inspect, at any reasonable time, catch on board a vessel or on the premises of a dealer, logbooks, catch reports, statistical records, sales receipts, or other records and reports required by this part to be made, kept, or furnished. An owner or operator of a fishing vessel that has been issued a permit under §635.4 or §635.32 must allow NMFS or an authorized person to inspect and copy any required reports and the records, in any form, on which the completed reports are based, wherever they exist. An agent of a person issued a permit under this part, or anyone responsible for offloading, storing, packing, or selling regulated HMS for such permittee, shall be subject to the inspection provisions of this section.

(f) *Additional data and inspection.* Additional data on fishing effort directed at Atlantic HMS or on catch of Atlantic HMS, regardless of whether retained, may be collected by contractors and statistical reporting agents, as designees of NMFS, and by authorized officers. A person issued a permit under §635.4 is required to provide requested information about fishing activity, and a person, regardless of whether issued a permit under §635.4, who possesses an Atlantic HMS is required to make such fish or parts thereof available for inspection by NMFS or its designees upon request.

[64 FR 29135, May 28, 1999, as amended at 64 FR 37704, July 13, 1999; 66 FR 30653, June 7, 2001; 66 FR 42804, Aug. 15, 2001; 67 FR 45400, July 9, 2002; 67 FR 77437, Dec. 18, 2002; 68 FR 714, Jan. 7, 2003; 68 FR 37773, June 25, 2003; 68 FR 74784, Dec. 24, 2003; 69 FR 67284, Nov. 17, 2004; 69 FR 70399, Dec. 6, 2004; 71 FR 58165, Oct. 2, 2006; 72 FR 56932, Oct. 5, 2007]

§ 635.6 Vessel and gear identification.

(a) *Vessel number.* For the purposes of this section, a vessel's number is the vessel's official number issued by either by the U.S. Coast Guard or by the appropriate state agency.

(b) *Vessel identification.* (1) An owner or operator of a vessel for which a permit has been issued under §635.4, other than an HMS Angling permit, must display the vessel number—

(i) On the port and starboard sides of the deckhouse or hull and on an appropriate weather deck, so as to be clearly visible from an enforcement vessel or aircraft.

(ii) In block arabic numerals permanently affixed to or painted on the vessel in contrasting color to the background.

(iii) At least 18 inches (45.7 cm) in height for vessels over 65 ft (19.8 m) in length; at least 10 inches (25.4 cm) in height for all other vessels over 25 ft (7.6 m) in length; and at least 3 inches (7.6 cm) in height for vessels 25 ft (7.6 m) in length or less.

(2) The owner or operator of a vessel for which a permit has been issued under §635.4 must keep the vessel's number clearly legible and in good repair and ensure that no part of the vessel, its rigging, its fishing gear, or any other material on board obstructs the view of the vessel's number from an enforcement vessel or aircraft.

(c) *Gear identification.* (1) The owner or operator of a vessel for which a permit has been issued under §635.4 and that uses handline, buoy gear, harpoon, longline, or gillnet, must display the vessel's name, registration number or Atlantic Tunas, HMS Angling, or HMS Charter/Headboat permit number on each float attached to a handline, buoy gear, or harpoon, and on the terminal floats and high-flyers (if applicable) on a longline or gillnet used by the vessel. The vessel's name or number must be at least 1 inch (2.5 cm) in height in block letters or arabic numerals in a color that contrasts with the background color of the float or high-flyer.

(2) An unmarked handline, buoy gear, harpoon, longline, or gillnet, is illegal and may be disposed of in an appropriate manner by NMFS or an authorized officer.

[64 FR 29135, May 28, 1999, as amended at 66 FR 42804, Aug. 15, 2001; 67 FR 77437, Dec. 18, 2002; 71 FR 58166, Oct. 2, 2006]

§ 635.7 At-sea observer coverage.

(a) *Applicability.* NMFS may select for at-sea observer coverage any vessel that has an Atlantic HMS, tunas, shark or swordfish permit issued under §635.4 or §635.32. Vessels permitted in the HMS Charter/Headboat and Angling categories will be requested to take observers on a voluntary basis. When selected, vessels issued any other permit under §635.4 or §635.32 are required to take observers on a mandatory basis.

(b) *Selection of vessels.* NMFS will notify a vessel owner, in writing, when his or her vessel is selected for observer coverage. Vessels will be selected to provide information on catch, bycatch and other fishery data according to the need for representative samples.

(c) *Notification of trips.* The owner or operator of a vessel that is selected under paragraph (b) of this section must notify NMFS, at an address designated by NMFS, before commencing any fishing trip that may result in the incidental catch or harvest of Atlantic HMS. Notification procedures and information requirements such as expected gear deployment, trip duration and fishing area will be specified in a selection letter sent by NMFS.

(d) *Assignment of observers.* Once notified of a trip, NMFS will assign an observer for that trip based on current information needs relative to the expected catch and bycatch likely to be associated with the indicated gear deployment, trip duration and fishing area. If an observer is not assigned for a fishing trip, NMFS will issue a waiver for that trip to the owner or operator of the selected vessel, so long as the waiver is consistent with other applicable laws. If an observer is assigned for a trip, the operator of the selected vessel must arrange to embark the observer and shall not fish for or retain any Atlantic HMS unless the NMFS-assigned observer is aboard.

(e) *Requirements.* The owner or operator of a vessel on which a NMFS-approved observer is embarked, regardless of whether required to carry the observer, must comply with §§600.725 and 600.746 of this chapter and—

(1) Provide accommodations and food that are equivalent to those provided to the crew.

(2) Allow the observer access to and use of the vessel's communications equipment and personnel upon request for the transmission and receipt of messages related to the observer's duties.

(3) Allow the observer access to and use of the vessel's navigation equipment and personnel upon request to determine the vessel's position.

(4) Allow the observer free and unobstructed access to the vessel's bridge, working decks, holding bins, weight scales, holds, and any other space used to hold, process, weigh, or store fish.

(5) Allow the observer to inspect and copy the vessel's log, communications logs, and any records associated with the catch and distribution of fish for that trip.

[64 FR 29135, May 28, 1999, as amended at 64 FR 37704, July 13, 1999; 66 FR 17372, Mar. 30, 2001; 68 FR 63741, Nov. 10, 2003]

§ 635.8 Workshops.

(a) *Protected species release, disentanglement, and identification workshops.* (1) Both the owner and operator of a vessel that fishes with longline or gillnet gear must be certified by NMFS, or its designee, as having completed a workshop on the safe handling, release, and identification of protected species before a shark or swordfish limited access vessel permit, pursuant to §635.4(e) and (f), is renewed in 2007. For the purposes of this section, it is a rebuttable presumption that a vessel fishes with longline or gillnet gear if: longline or gillnet gear is onboard the vessel; logbook reports indicate that longline or gillnet gear was used on at least one trip in the preceding year; or, in the case of a permit transfer to new owners that occurred less than a year ago, logbook reports indicate that longline or gillnet gear was used on at least one trip since the permit transfer.

(2) NMFS, or its designee, will issue a protected species safe handling, release, and identification workshop certificate to any person who completes a protected species safe handling, release, and identification workshop. If an owner owns multiple vessels, NMFS will issue a certificate for each vessel that the owner owns upon successful completion of one workshop. An owner who is also an operator will be issued multiple certificates, one as the owner of the vessel and one as the operator.

(3) The owner of a vessel that fishes with longline or gillnet gear, as specified in paragraph (a)(1) of this section, is required to possess on board the vessel a valid protected species safe handling, release, and identification workshop certificate issued to that vessel owner. A copy of a valid protected species safe handling, release, and identification workshop certificate issued to the vessel owner for a vessel that fishes with longline or gillnet gear must be included in the application package to renew or obtain a shark or swordfish limited access permit.

(4) An operator that fishes with longline or gillnet gear as specified in paragraph (a)(1) of this section must possess on board the vessel a valid protected species safe handling, release, and identification workshop certificate issued to that operator, in addition to a certificate issued to the vessel owner.

(5) All owners and operators that attended and successfully completed industry certification workshops, held on April 8, 2005, in Orlando, FL, and on June 27, 2005, in New Orleans, LA, as documented by workshop facilitators, will automatically receive valid protected species safe handling, release, and identification workshop certificates issued by NMFS no later than December 31, 2006.

(b) *Atlantic shark identification workshops.* (1) As of December 31, 2007, all Federal Atlantic shark dealers permitted or required to be permitted pursuant to §635.4(g)(2), or a proxy for each place of business as specified in paragraph (b)(4) of this section, must be certified by NMFS, or its designee, as having completed an Atlantic shark identification workshop.

(2) NMFS, or its designee, will issue an Atlantic shark identification workshop certificate to any person who completes an Atlantic shark identification workshop.

(3) Dealers who own multiple businesses and who attend and successfully complete the workshop will be issued a certificate for each place of business that is permitted to receive sharks pursuant to §635.4 (g)(2).

(4) Dealers may send a proxy to the Atlantic shark identification workshops. If a dealer opts to send a proxy, the dealer must designate a proxy from each place of business covered by the dealer's permit issued pursuant to §635.4(g)(2). The proxy must be a person who is currently employed by a place of business covered by the dealer's permit; is a primary participant in the identification, weighing, and/or first receipt of fish as they are offloaded from a vessel; and fills out dealer reports as required under §635.5. Only one certificate will be issued to each proxy. If a proxy is no longer employed by a place of business covered by the dealer's permit, the dealer or another proxy must be certified as having completed a workshop pursuant to this section. At least one individual from each place of business covered by the shark dealer permit must possess a valid Atlantic shark identification workshop certificate.

(5) A Federal Atlantic shark dealer issued or required to be issued a shark dealer permit pursuant to §635.4(g)(2) must possess and make available for inspection a valid Atlantic shark identification workshop certificate at each place of business. A copy of this certificate issued to the dealer or proxy must be included in the dealer's application package to obtain or renew a shark dealer permit. If multiple businesses are authorized to receive sharks under the dealer's permit, a copy of the workshop certificate for each business must be included in the shark dealer permit renewal application package.

(c) *Terms and conditions.* (1) Certificates, as described in paragraphs (a) and (b) of this section, are valid for three calendar years. All certificates must be renewed prior to the expiration date on the certificate.

(2) If a vessel fishes with longline or gillnet gear as described in paragraph (a) of this section, the vessel owner may not renew a shark or swordfish limited access permit, issued pursuant to §635.4(e) or (f), without submitting a valid protected species workshop certificate with the permit renewal application.

(3) A vessel that fishes with longline or gillnet gear as described in paragraph (a) of this section and that has been, or should be, issued a valid limited access permit pursuant to §635.4(e) or (f), may not fish unless a valid protected species safe handling, release, and identification workshop certificate has been issued to both the owner and operator of that vessel.

(4) An Atlantic shark dealer may not receive, purchase, trade, or barter for Atlantic shark unless a valid Atlantic shark identification workshop certificate is on the premises of each business listed under the shark dealer permit. An Atlantic shark dealer may not renew a Federal dealer permit issued pursuant to §635.4(g)(2) unless a valid Atlantic shark identification workshop certificate has been submitted with permit renewal application. If the dealer is not certified, the dealer must submit a copy of a proxy certificate for each place of business listed on the shark dealer permit.

(5) A vessel owner, operator, shark dealer, or proxy for a shark dealer who is issued either a protected species workshop certificate or an Atlantic HMS identification workshop certificate may not transfer that certificate to another person.

(6) Vessel owners issued a valid protected species safe handling, release, and identification workshop certificate may request, in the application for permit transfer per §635.4(l)(2), additional protected species safe handling, release, and identification workshop certificates for additional vessels that they own. Shark dealers may request from NMFS additional Atlantic shark identification workshop certificates for additional places of business authorized to receive sharks that they own as long as they, and not a proxy, were issued the certificate. All certificates must be renewed prior to the date of expiration on the certificate.

(7) To receive either the protected species safe handling, release, and identification workshop certificate or Atlantic shark identification workshop certificate, persons required to attend the workshop must show a copy of their HMS permit, as well as proof of identification to NMFS or NMFS' designee at the workshop. If a permit holder is a corporation, partnership, association, or any other entity, the individual attending on behalf of the permit holder must show proof that he or she is the permit holder's agent and a copy of the HMS permit to NMFS or NMFS' designee at the workshop. For proxies attending on behalf of a shark dealer, the proxy must have documentation from the shark dealer acknowledging that the proxy is attending the workshop on behalf of the Atlantic shark dealer and must show a copy of the Atlantic shark dealer permit to NMFS or NMFS' designee at the workshop.

TITLE 16--CONSERVATION CHAPTER 16--TUNA

CONVENTIONS Sec. 955. Secretary of State to act for United States

(a) Approval of commission bylaws and rules; action on reports, requests, and recommendations

The Secretary of State is authorized to approve or disapprove, on behalf of the United States Government, bylaws and rules, or amendments thereof, adopted by each commission and submitted for approval of the United States Government in accordance with the provisions of the conventions, and, with the concurrence of the Secretary of Commerce, to approve or disapprove the general annual programs of the commissions. The Secretary of State is further authorized to receive, on behalf of the United States Government, reports, requests, recommendations, and other communications of the commissions, and to take appropriate action thereon either directly or by reference to the appropriate authority.

(b) Regulations

Regulations recommended by each commission pursuant to the convention requiring the submission to the commission of records of operations by boat captains or other persons who participate in the fisheries covered by the convention, upon the concurrent approval of the Secretary of State and the Secretary of Commerce, shall be promulgated by the latter and upon publication in the Federal Register, shall be applicable to all vessels and persons subject to the jurisdiction of the United States.

(c) Rulemaking procedures; prohibitions

Regulations required to carry out recommendations of the commission made pursuant to paragraph 5 of article II of the Convention for the Establishment of an Inter-American Tropical Tuna Commission shall be promulgated as hereinafter provided by the Secretary of Commerce upon approval of such recommendations by the Secretary of State and the Secretary of Commerce. The Secretary of Commerce shall cause to be published in the Federal Register a general notice of proposed rulemaking and shall afford interested persons an opportunity to participate in the rulemaking through (1) submission of written data, views, or arguments, and (2) oral presentation at a public hearing. Such regulations shall be published in the Federal Register and shall be accompanied by a statement of the considerations involved in the issuance of the regulations. After publication in the Federal Register such regulations shall be applicable to all vessels and persons subject to the jurisdiction of the United States on such date as the Secretary of Commerce shall prescribe, but in no event prior to an agreed date for the application by all countries whose vessels engage in fishing for species covered by the convention in the regulatory area on a meaningful scale, in terms of effect upon the success of the conservation program, of effective measures for the implementation of the commission's recommendations applicable to all vessels and persons subject to their respective jurisdictions. The Secretary of Commerce shall suspend at any time the application of any such regulations when, after consultation with the Secretary of State and the United States Commissioners, he determines that foreign fishing operations in the regulatory area are such as to constitute a serious threat to the achievement of the objectives of the commission's recommendations. The regulations thus promulgated may include the selection for regulation of one or more of the species covered by the convention; the division of the convention waters into areas; the establishment of one or more open or closed seasons as to each area; the limitation of the size of the fish and quantity of the catch which may be taken from each area within any season during which fishing is allowed; the limitation or prohibition of the incidental catch of a regulated species which may be retained, taken, possessed, or landed by vessels or persons fishing for other species of fish; the requiring of such clearance certificates for vessels as may be necessary to carry out the purposes of the convention and this chapter; and such other measures incidental thereto as the Secretary of Commerce may deem necessary to implement the recommendations of the commission: Provided, That upon the promulgation of any such regulations the Secretary of Commerce shall promulgate additional regulations, with the concurrence of the Secretary of State, which shall become effective simultaneously with the application of the regulations hereinbefore referred to (1) to prohibit the entry into the United States, from any country when the vessels of such

country are being used in the conduct of fishing operations in the regulatory area in such manner or in such circumstances as would tend to diminish the effectiveness of the conservation recommendations of the commission, of fish in any form of those species which are subject to regulation pursuant to a recommendation of the commission and which were taken from the regulatory area; and (2) to prohibit entry into the United States, from any country, of fish in any form of those species which are subject to regulation pursuant to a recommendation of the commission and which were taken from the regulatory area by vessels other than those of such country in such manner or in such circumstances as would tend to diminish the effectiveness of the conservation recommendations of the commission. In the case of repeated and flagrant fishing operations in the regulatory area by the vessels of any country which seriously threaten the achievement of the objectives of the commission's recommendations, the Secretary of Commerce, with the concurrence of the Secretary of State, may, in his discretion, also prohibit the entry from such country of such other species of tuna, in any form, as may be under investigation by the commission and which were taken in the regulatory area. The aforesaid prohibitions shall continue until the Secretary of Commerce is satisfied that the condition warranting the prohibition no longer exists, except that all fish in any form of the species under regulation which were previously prohibited from entry shall continue to be prohibited from entry.

(Sept. 7, 1950, ch. 907, Sec. 6, 64 Stat. 778; Pub. L. 87-814, Sec. 2, Oct. 15, 1962, 76 Stat. 923; 1970 Reorg. Plan No. 4, eff. Oct. 3, 1970, 35 F.R. 15627, 84 Stat. 2090.)

Amendments

1962--Subsecs. (a), (b). Pub. L. 87-814 substituted ``Secretary of the Interior '' for ``head of the enforcement agency ''. Subsec. (c). Pub. L. 87-814 added subsec. (c).

Transfer of Functions

``Secretary of Commerce '' substituted in text for ``Secretary of the Interior '' in view of: creation of National Oceanic and Atmospheric Administration in Department of Commerce and Office of Administrator of such Administration; abolition of Bureau of Commercial Fisheries in Department of the Interior and Office of Director of such Bureau; transfers of functions, including functions formerly vested by law in Secretary of the Interior or Department of the Interior which were administered through Bureau of Commercial Fisheries or were primarily related to such Bureau, exclusive of certain enumerated functions with respect to Great Lakes fishery research, Missouri River Reservoir research, Gulf Breeze Biological Laboratory, and Trans-Alaska pipeline investigations; and transfer of marine sport fish program of Bureau of Sport Fisheries and Wildlife by Reorg. Plan No. 4 of 1970, eff. Oct. 3, 1970, 35 F.R. 15627, 84 Stat. 2090, set out in the Appendix to Title 5, Government Organization and Employees.

SEC. 303. CONTENTS OF FISHERY MANAGEMENT PLANS 16 U.S.C. 1853

95-354, 99-659, 101-627, 104-297

(a) **REQUIRED PROVISIONS.**—Any fishery management plan which is prepared by any Council, or by the Secretary, with respect to any fishery, shall—

(1) contain the conservation and management measures, applicable to foreign fishing and fishing by vessels of the United States, which are—

(A) necessary and appropriate for the conservation and management of the fishery to prevent overfishing and rebuild overfished stocks, and to protect, restore, and promote the long-term health and stability of the fishery;

(B) described in this subsection or subsection (b), or both; and

(C) consistent with the national standards, the other provisions of this Act, regulations implementing recommendations by international organizations in which the United States participates (including but not limited to closed areas, quotas, and size limits), and any other applicable law;

(2) contain a description of the fishery, including, but not limited to, the number of vessels involved, the type and quantity of fishing gear used, the species of fish involved and their location, the cost likely to be incurred in management, actual and potential revenues from the fishery, any recreational interest in the fishery, and the nature and extent of foreign fishing and Indian treaty fishing rights, if any;

(3) assess and specify the present and probable future condition of, and the maximum sustainable yield and optimum yield from, the fishery, and include a summary of the information utilized in making such specification;

(4) assess and specify—

(A) the capacity and the extent to which fishing vessels of the United States, on an annual basis, will harvest the optimum yield specified under paragraph (3),

(B) the portion of such optimum yield which, on an annual basis, will not be harvested by fishing vessels of the United States and can be made available for foreign fishing, and

(C) the capacity and extent to which United States fish processors, on an annual basis, will process that portion of such optimum yield that will be harvested by fishing vessels of the United States;

109-479

(5) specify the pertinent data which shall be submitted to the Secretary with respect to commercial, recreational, charter fishing, and fish processing in the fishery, including, but not limited to, information regarding the type and quantity of fishing gear used, catch by species in numbers of fish or weight thereof, areas in which fishing was engaged in, time of fishing, number of hauls, economic information necessary to meet the requirements of this Act, and the estimated processing capacity of, and the actual processing capacity utilized by, United States fish processors;

(6) consider and provide for temporary adjustments, after consultation with the Coast Guard and persons utilizing the fishery, regarding access to the fishery for vessels otherwise prevented from harvesting because of weather or other ocean conditions affecting the safe conduct of the fishery; except that the adjustment shall not adversely affect conservation efforts in other fisheries or discriminate among participants in the affected fishery;

(7) describe and identify essential fish habitat for the fishery based on the guidelines established by the Secretary under section 305(b)(1)(A), minimize to the extent practicable adverse effects on such habitat caused by fishing, and identify other actions to encourage the conservation and enhancement of such habitat;

(8) in the case of a fishery management plan that, after January 1, 1991, is submitted to the Secretary for review under section 304(a) (including any plan for which an amendment is submitted to the Secretary for such review) or is prepared by the Secretary, assess and specify the nature and extent of scientific data which is needed for effective implementation of the plan;

109-479

(9) include a fishery impact statement for the plan or amendment (in the case of a plan or amendment thereto submitted to or prepared by the Secretary after October 1, 1990) which shall assess, specify, and analyze the likely effects, if any, including the cumulative conservation, economic, and social impacts, of the conservation and management measures on, and possible mitigation measures for—

(A) participants in the fisheries and fishing communities affected by the plan or amendment;

(B) participants in the fisheries conducted in adjacent areas under the authority of another Council, after consultation with such Council and representatives of those participants; and

(C) the safety of human life at sea, including whether and to what extent such measures may affect the safety of participants in the fishery;

(10) specify objective and measurable criteria for identifying when the fishery to which the plan applies is overfished (with an analysis of how the criteria were determined and the relationship of the criteria to the reproductive potential of stocks of fish in that fishery) and, in the case of a fishery which the Council or the Secretary has determined is approaching an overfished condition or is overfished, contain conservation and management measures to prevent overfishing or end overfishing and rebuild the fishery;

(11) establish a standardized reporting methodology to assess the amount and type of bycatch occurring in the fishery, and include conservation and management measures that, to the extent practicable and in the following priority—

(A) minimize bycatch; and

(B) minimize the mortality of bycatch which cannot be avoided;

16 U.S.C. 1853
MSA § 303

(12) assess the type and amount of fish caught and released alive during recreational fishing under catch and release fishery management programs and the mortality of such fish, and include conservation and management measures that, to the extent practicable, minimize mortality and ensure the extended survival of such fish;

109-479

(13) include a description of the commercial, recreational, and charter fishing sectors which participate in the fishery, including its economic impact, and, to the extent practicable, quantify trends in landings of the managed fishery resource by the commercial, recreational, and charter fishing sectors;

109-479

(14) to the extent that rebuilding plans or other conservation and management measures which reduce the overall harvest in a fishery are necessary, allocate, taking into consideration the economic impact of the harvest restrictions or recovery benefits on the fishery participants in each sector, any harvest restrictions or recovery benefits fairly and equitably among the commercial, recreational, and charter fishing sectors in the fishery and;

109-479

(15) establish a mechanism for specifying annual catch limits in the plan (including a multiyear plan), implementing regulations, or annual specifications, at a level such that overfishing does not occur in the fishery, including measures to ensure accountability.

97-453, 99-659, 101-627, 102-251, 104-297

(b) DISCRETIONARY PROVISIONS.—Any fishery management plan which is prepared by any Council, or by the Secretary, with respect to any fishery, may—

(1) require a permit to be obtained from, and fees to be paid to, the Secretary, with respect to—

(A) any fishing vessel of the United States fishing, or wishing to fish, in the exclusive economic zone [or special areas,]* or for anadromous species or Continental Shelf fishery resources beyond such zone [or areas]*;

(B) the operator of any such vessel; or

(C) any United States fish processor who first receives fish that are subject to the plan;

109-479

(2)(A) designate zones where, and periods when, fishing shall be limited, or shall not be permitted, or shall be permitted only by specified types of fishing vessels or with specified types and quantities of fishing gear;

(B) designate such zones in areas where deep sea corals are identified under section 408, to protect deep sea corals from physical damage from fishing gear or to prevent loss or damage to such fishing gear from interactions with deep sea corals, after considering long-term sustainable uses of fishery resources in such areas; and

(C) with respect to any closure of an area under this Act that prohibits all fishing, ensure that such closure—

- (i) is based on the best scientific information available;
- (ii) includes criteria to assess the conservation benefit of the closed area;
- (iii) establishes a timetable for review of the closed area's performance that is consistent with the purposes of the closed area; and
- (iv) is based on an assessment of the benefits and impacts of the closure, including its size, in relation to other management measures (either alone or in combination with such measures), including the benefits and impacts of limiting access to: users of the area, overall fishing activity, fishery science, and fishery and marine conservation;

(3) establish specified limitations which are necessary and appropriate for the conservation and management of the fishery on the—

- (A) catch of fish (based on area, species, size, number, weight, sex, bycatch, total biomass, or other factors);
- (B) sale of fish caught during commercial, recreational, or charter fishing, consistent with any applicable Federal and State safety and quality requirements; and
- (C) transshipment or transportation of fish or fish products under permits issued pursuant to section 204;

(4) prohibit, limit, condition, or require the use of specified types and quantities of fishing gear, fishing vessels, or equipment for such vessels, including devices which may be required to facilitate enforcement of the provisions of this Act;

109-479

(5) incorporate (consistent with the national standards, the other provisions of this Act, and any other applicable law) the relevant fishery conservation and management measures of the coastal States nearest to the fishery and take into account the different circumstances affecting fisheries from different States and ports, including distances to fishing grounds and proximity to time and area closures;

109-479

(6) establish a limited access system for the fishery in order to achieve optimum yield if, in developing such system, the Council and the Secretary take into account—

- (A) present participation in the fishery;
- (B) historical fishing practices in, and dependence on, the fishery;
- (C) the economics of the fishery;
- (D) the capability of fishing vessels used in the fishery to engage in other fisheries;
- (E) the cultural and social framework relevant to the fishery and any affected fishing communities;
- (F) the fair and equitable distribution of access privileges in the fishery; and
- (G) any other relevant considerations;

16 U.S.C. 1853
MSA § 303

(7) require fish processors who first receive fish that are subject to the plan to submit data which are necessary for the conservation and management of the fishery;

(8) require that one or more observers be carried on board a vessel of the United States engaged in fishing for species that are subject to the plan, for the purpose of collecting data necessary for the conservation and management of the fishery; except that such a vessel shall not be required to carry an observer on board if the facilities of the vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized;

(9) assess and specify the effect which the conservation and management measures of the plan will have on the stocks of naturally spawning anadromous fish in the region;

(10) include, consistent with the other provisions of this Act, conservation and management measures that provide harvest incentives for participants within each gear group to employ fishing practices that result in lower levels of bycatch or in lower levels of the mortality of bycatch;

(11) reserve a portion of the allowable biological catch of the fishery for use in scientific research;

109-479

(12) include management measures in the plan to conserve target and non-target species and habitats, considering the variety of ecological factors affecting fishery populations; and

(14)[sic]¹⁵ prescribe such other measures, requirements, or conditions and restrictions as are determined to be necessary and appropriate for the conservation and management of the fishery.

97-453, 104-297

(c) PROPOSED REGULATIONS.—Proposed regulations which the Council deems necessary or appropriate for the purposes of—

(1) implementing a fishery management plan or plan amendment shall be submitted to the Secretary simultaneously with the plan or amendment under section 304; and

(2) making modifications to regulations implementing a fishery management plan or plan amendment may be submitted to the Secretary at any time after the plan or amendment is approved under section 304.

¹⁵ So in original.

P.L. 109-479, sec. 104(b), MSA § 303 note

16 U.S.C. 1853 note

EFFECTIVE DATES; APPLICATION TO CERTAIN SPECIES.—The amendment made by subsection (a)(10)¹⁶—

(1) shall, unless otherwise provided for under an international agreement in which the United States participates, take effect—

(A) in fishing year 2010 for fisheries determined by the Secretary to be subject to overfishing; and

(B) in fishing year 2011 for all other fisheries; and

(2) shall not apply to a fishery for species that have a life cycle of approximately 1 year unless the Secretary has determined the fishery is subject to overfishing of that species; and

(3) shall not limit or otherwise affect the requirements of section 301(a)(1) or 304(e) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1851(a)(1) or 1854(e), respectively).

109-479

SEC. 303A. LIMITED ACCESS PRIVILEGE PROGRAMS.

16 U.S.C. 1853a

(a) **IN GENERAL.**—After the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, a Council may submit, and the Secretary may approve, for a fishery that is managed under a limited access system, a limited access privilege program to harvest fish if the program meets the requirements of this section.

(b) **NO CREATION OF RIGHT, TITLE, OR INTEREST.**—Limited access privilege, quota share, or other limited access system authorization established, implemented, or managed under this Act—

(1) shall be considered a permit for the purposes of sections 307, 308, and 309;

(2) may be revoked, limited, or modified at any time in accordance with this Act, including revocation if the system is found to have jeopardized the sustainability of the stock or the safety of fishermen;

(3) shall not confer any right of compensation to the holder of such limited access privilege, quota share, or other such limited access system authorization if it is revoked, limited, or modified;

(4) shall not create, or be construed to create, any right, title, or interest in or to any fish before the fish is harvested by the holder; and

(5) shall be considered a grant of permission to the holder of the limited access privilege or quota share to engage in activities permitted by such limited access privilege or quota share.

¹⁶ Section 104(a)(10) of P.L. 109-479 added section 303(a)(15).

(c) REQUIREMENTS FOR LIMITED ACCESS PRIVILEGES.—

(1) IN GENERAL.—Any limited access privilege program to harvest fish submitted by a Council or approved by the Secretary under this section shall—

(A) if established in a fishery that is overfished or subject to a rebuilding plan, assist in its rebuilding;

(B) if established in a fishery that is determined by the Secretary or the Council to have over-capacity, contribute to reducing capacity;

(C) promote—

(i) fishing safety;

(ii) fishery conservation and management; and

(iii) social and economic benefits;

(D) prohibit any person other than a United States citizen, a corporation, partnership, or other entity established under the laws of the United States or any State, or a permanent resident alien, that meets the eligibility and participation requirements established in the program from acquiring a privilege to harvest fish, including any person that acquires a limited access privilege solely for the purpose of perfecting or realizing on a security interest in such privilege;

(E) require that all fish harvested under a limited access privilege program be processed on vessels of the United States or on United States soil (including any territory of the United States);

(F) specify the goals of the program;

(G) include provisions for the regular monitoring and review by the Council and the Secretary of the operations of the program, including determining progress in meeting the goals of the program and this Act, and any necessary modification of the program to meet those goals, with a formal and detailed review 5 years after the implementation of the program and thereafter to coincide with scheduled Council review of the relevant fishery management plan (but no less frequently than once every 7 years);

(H) include an effective system for enforcement, monitoring, and management of the program, including the use of observers or electronic monitoring systems;

(I) include an appeals process for administrative review of the Secretary's decisions regarding initial allocation of limited access privileges;

(J) provide for the establishment by the Secretary, in consultation with appropriate Federal agencies, for an information collection and review process to provide any additional information needed to determine whether any illegal acts of anti-competition, anti-trust, price collusion, or price fixing have occurred among regional fishery associations or persons receiving limited access privileges under the program; and

(K) provide for the revocation by the Secretary of limited access privileges held by any person found to have violated the antitrust laws of the United States.

(2) WAIVER.—The Secretary may waive the requirement of paragraph (1)(E) if the Secretary determines that—

- (A) the fishery has historically processed the fish outside of the United States; and
- (B) the United States has a seafood safety equivalency agreement with the country where processing will occur.

(3) FISHING COMMUNITIES.—

(A) IN GENERAL.—

(i) ELIGIBILITY.—To be eligible to participate in a limited access privilege program to harvest fish, a fishing community shall—

- (I) be located within the management area of the relevant Council;
- (II) meet criteria developed by the relevant Council, approved by the Secretary, and published in the Federal Register;
- (III) consist of residents who conduct commercial or recreational fishing, processing, or fishery-dependent support businesses within the Council's management area; and
- (IV) develop and submit a community sustainability plan to the Council and the Secretary that demonstrates how the plan will address the social and economic development needs of coastal communities, including those that have not historically had the resources to participate in the fishery, for approval based on criteria developed by the Council that have been approved by the Secretary and published in the Federal Register.

(ii) FAILURE TO COMPLY WITH PLAN.—The Secretary shall deny or revoke limited access privileges granted under this section for any person who fails to comply with the requirements of the community sustainability plan. Any limited access privileges denied or revoked under this section may be reallocated to other eligible members of the fishing community.

- (B) PARTICIPATION CRITERIA.—In developing participation criteria for eligible communities under this paragraph, a Council shall consider—
- (i) traditional fishing or processing practices in, and dependence on, the fishery;
 - (ii) the cultural and social framework relevant to the fishery;
 - (iii) economic barriers to access to fishery;
 - (iv) the existence and severity of projected economic and social impacts associated with implementation of limited access privilege programs on harvesters, captains, crew, processors, and other businesses substantially dependent upon the fishery in the region or subregion;
 - (v) the expected effectiveness, operational transparency, and equitability of the community sustainability plan; and
 - (vi) the potential for improving economic conditions in remote coastal communities lacking resources to participate in harvesting or processing activities in the fishery.

(4) REGIONAL FISHERY ASSOCIATIONS.—

(A) IN GENERAL.—To be eligible to participate in a limited access privilege program to harvest fish, a regional fishery association shall—

- (i) be located within the management area of the relevant Council;
- (ii) meet criteria developed by the relevant Council, approved by the Secretary, and published in the Federal Register;
- (iii) be a voluntary association with established by-laws and operating procedures;
- (iv) consist of participants in the fishery who hold quota share that are designated for use in the specific region or subregion covered by the regional fishery association, including commercial or recreational fishing, processing, fishery-dependent support businesses, or fishing communities;
- (v) not be eligible to receive an initial allocation of a limited access privilege but may acquire such privileges after the initial allocation, and may hold the annual fishing privileges of any limited access privileges it holds or the annual fishing privileges that is [sic]¹⁷ members contribute; and
- (vi) develop and submit a regional fishery association plan to the Council and the Secretary for approval based on criteria developed by the Council that have been approved by the Secretary and published in the Federal Register.

(B) FAILURE TO COMPLY WITH PLAN.—The Secretary shall deny or revoke limited access privileges granted under this section to any person participating in a regional fishery association who fails to comply with the requirements of the regional fishery association plan.

¹⁷ So in original.

(C) PARTICIPATION CRITERIA.—In developing participation criteria for eligible regional fishery associations under this paragraph, a Council shall consider—

- (i) traditional fishing or processing practices in, and dependence on, the fishery;
- (ii) the cultural and social framework relevant to the fishery;
- (iii) economic barriers to access to fishery;
- (iv) the existence and severity of projected economic and social impacts associated with implementation of limited access privilege programs on harvesters, captains, crew, processors, and other businesses substantially dependent upon the fishery in the region or subregion;
- (v) the administrative and fiduciary soundness of the association; and
- (vi) the expected effectiveness, operational transparency, and equitability of the fishery association plan.

(5) ALLOCATION.—In developing a limited access privilege program to harvest fish a Council or the Secretary shall—

(A) establish procedures to ensure fair and equitable initial allocations, including consideration of—

- (i) current and historical harvests;
- (ii) employment in the harvesting and processing sectors;
- (iii) investments in, and dependence upon, the fishery; and
- (iv) the current and historical participation of fishing communities;

(B) consider the basic cultural and social framework of the fishery, especially through—

- (i) the development of policies to promote the sustained participation of small owner-operated fishing vessels and fishing communities that depend on the fisheries, including regional or port-specific landing or delivery requirements; and
- (ii) procedures to address concerns over excessive geographic or other consolidation in the harvesting or processing sectors of the fishery;

(C) include measures to assist, when necessary and appropriate, entry-level and small vessel owner-operators, captains, crew, and fishing communities through set-asides of harvesting allocations, including providing privileges, which may include set-asides or allocations of harvesting privileges, or economic assistance in the purchase of limited access privileges;

(D) ensure that limited access privilege holders do not acquire an excessive share of the total limited access privileges in the program by—

- (i) establishing a maximum share, expressed as a percentage of the total limited access privileges, that a limited access privilege holder is permitted to hold, acquire, or use; and
- (ii) establishing any other limitations or measures necessary to prevent an inequitable concentration of limited access privileges; and

(E) authorize limited access privileges to harvest fish to be held, acquired, used by, or issued under the system to persons who substantially participate in the fishery, including in a specific sector of such fishery, as specified by the Council.

(6) PROGRAM INITIATION.—

(A) LIMITATION.—Except as provided in subparagraph (D), a Council may initiate a fishery management plan or amendment to establish a limited access privilege program to harvest fish on its own initiative or if the Secretary has certified an appropriate petition.

(B) PETITION.—A group of fishermen constituting more than 50 percent of the permit holders, or holding more than 50 percent of the allocation, in the fishery for which a limited access privilege program to harvest fish is sought, may submit a petition to the Secretary requesting that the relevant Council or Councils with authority over the fishery be authorized to initiate the development of the program. Any such petition shall clearly state the fishery to which the limited access privilege program would apply. For multispecies permits in the Gulf of Mexico, only those participants who have substantially fished the species proposed to be included in the limited access program shall be eligible to sign a petition for such a program and shall serve as the basis for determining the percentage described in the first sentence of this subparagraph.

(C) CERTIFICATION BY SECRETARY.—Upon the receipt of any such petition, the Secretary shall review all of the signatures on the petition and, if the Secretary determines that the signatures on the petition represent more than 50 percent of the permit holders, or holders of more than 50 percent of the allocation in the fishery, as described by subparagraph (B), the Secretary shall certify the petition to the appropriate Council or Councils.

(D) NEW ENGLAND AND GULF REFERENDUM.—

(i) Except as provided in clause (iii) for the Gulf of Mexico commercial red snapper fishery, the New England and Gulf Councils may not submit, and the Secretary may not approve or implement, a fishery management plan or amendment that creates an individual fishing quota program, including a Secretarial plan, unless such a system, as ultimately developed, has been approved by more than 2/3 of those voting in a referendum among eligible permit holders, or other persons described in clause (v), with respect to the New England Council, and by a majority of those voting in the referendum among eligible permit holders with respect to the Gulf Council. For multispecies permits in the Gulf of Mexico, only those participants who have substantially fished the species proposed to be included in the individual fishing quota program shall be eligible to vote in such a referendum. If an individual fishing quota program fails to be approved by the requisite number of those voting, it may be revised and submitted for approval in a subsequent referendum.

(ii) The Secretary shall conduct a referendum under this subparagraph, including notifying all persons eligible to participate in the referendum and making available to them information concerning the schedule, procedures, and eligibility requirements for the referendum process and the proposed individual fishing quota program. Within 1 year after the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, the Secretary shall publish guidelines and procedures to determine procedures and voting eligibility requirements for referenda and to conduct such referenda in a fair and equitable manner.

(iii) The provisions of section 407(c) of this Act shall apply in lieu of this subparagraph for an individual fishing quota program for the Gulf of Mexico commercial red snapper fishery.

(iv) Chapter 35 of title 44, United States Code, (commonly known as the Paperwork Reduction Act) does not apply to the referenda conducted under this subparagraph.

(v) The Secretary shall promulgate criteria for determining whether additional fishery participants are eligible to vote in the New England referendum described in clause (i) in order to ensure that crew members who derive a significant percentage of their total income from the fishery under the proposed program are eligible to vote in the referendum.

(vi) In this subparagraph, the term ‘individual fishing quota’ does not include a sector allocation.

(7) TRANSFERABILITY.—In establishing a limited access privilege program, a Council shall—

(A) establish a policy and criteria for the transferability of limited access privileges (through sale or lease), that is consistent with the policies adopted by the Council for the fishery under paragraph (5); and

(B) establish, in coordination with the Secretary, a process for monitoring of transfers (including sales and leases) of limited access privileges.

(8) PREPARATION AND IMPLEMENTATION OF SECRETARIAL PLANS.—This subsection also applies to a plan prepared and implemented by the Secretary under section 304(c) or 304(g).

(9) ANTITRUST SAVINGS CLAUSE.—Nothing in this Act shall be construed to modify, impair, or supersede the operation of any of the antitrust laws. For purposes of the preceding sentence, the term ‘antitrust laws’ has the meaning given such term in subsection (a) of the first section of the Clayton Act, except that such term includes section 5 of the Federal Trade Commission Act to the extent that such section 5 applies to unfair methods of competition.

16 U.S.C. 1853a
MSA § 303A

(d) AUCTION AND OTHER PROGRAMS.—In establishing a limited access privilege program, a Council shall consider, and may provide, if appropriate, an auction system or other program to collect royalties for the initial, or any subsequent, distribution of allocations in a limited access privilege program if—

(1) the system or program is administered in such a way that the resulting distribution of limited access privilege shares meets the program requirements of this section; and

(2) revenues generated through such a royalty program are deposited in the Limited Access System Administration Fund established by section 305(h)(5)(B) and available subject to annual appropriations.

(e) COST RECOVERY.—In establishing a limited access privilege program, a Council shall—

(1) develop a methodology and the means to identify and assess the management, data collection and analysis, and enforcement programs that are directly related to and in support of the program; and

(2) provide, under section 304(d)(2), for a program of fees paid by limited access privilege holders that will cover the costs of management, data collection and analysis, and enforcement activities.

(f) CHARACTERISTICS.—A limited access privilege established after the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006 is a permit issued for a period of not more than 10 years that—

(1) will be renewed before the end of that period, unless it has been revoked, limited, or modified as provided in this subsection;

(2) will be revoked, limited, or modified if the holder is found by the Secretary, after notice and an opportunity for a hearing under section 554 of title 5, United States Code, to have failed to comply with any term of the plan identified in the plan as cause for revocation, limitation, or modification of a permit, which may include conservation requirements established under the plan;

(3) may be revoked, limited, or modified if the holder is found by the Secretary, after notice and an opportunity for a hearing under section 554 of title 5, United States Code, to have committed an act prohibited by section 307 of this Act; and

(4) may be acquired, or reacquired, by participants in the program under a mechanism established by the Council if it has been revoked, limited, or modified under paragraph (2) or (3).

(g) LIMITED ACCESS PRIVILEGE ASSISTED PURCHASE PROGRAM.—

(1) IN GENERAL.—A Council may submit, and the Secretary may approve and implement, a program which reserves up to 25 percent of any fees collected from a fishery under section 304(d)(2) to be used, pursuant to section 53706(a)(7) of title 46, United States Code, to issue obligations that aid in financing—

(A) the purchase of limited access privileges in that fishery by fishermen who fish from small vessels; and

(B) the first-time purchase of limited access privileges in that fishery by entry level fishermen.

(2) ELIGIBILITY CRITERIA.—A Council making a submission under paragraph (1) shall recommend criteria, consistent with the provisions of this Act, that a fisherman must meet to qualify for guarantees under subparagraphs (A) and (B) of paragraph (1) and the portion of funds to be allocated for guarantees under each subparagraph.

(h) EFFECT ON CERTAIN EXISTING SHARES AND PROGRAMS.—Nothing in this Act, or the amendments made by the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, shall be construed to require a reallocation or a reevaluation of individual quota shares, processor quota shares, cooperative programs, or other quota programs, including sector allocation in effect before the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006.

(i) TRANSITION RULES.—

(1) IN GENERAL.—The requirements of this section shall not apply to any quota program, including any individual quota program, cooperative program, or sector allocation for which a Council has taken final action or which has been submitted by a Council to the Secretary, or approved by the Secretary, within 6 months after the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, except that—

(A) the requirements of section 303(d) of this Act in effect on the day before the date of enactment of that Act shall apply to any such program;

(B) the program shall be subject to review under subsection (c)(1)(G) of this section not later than 5 years after the program implementation; and

(C) nothing in this subsection precludes a Council from incorporating criteria contained in this section into any such plans.

(2) PACIFIC GROUND FISH PROPOSALS.—The requirements of this section, other than subparagraphs (A) and (B) of subsection (c)(1) and subparagraphs (A), (B), and (C) of paragraph (1) of this subsection, shall not apply to any proposal authorized under section 302(f) of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006 that is submitted within the timeframe prescribed by that section.

16 U.S.C. 1853a note, 1854
MSA §§ 303A note, 304

P.L. 109-479, sec. 106(e), MSA § 303A note

16 U.S.C. 1853a note

APPLICATION WITH AMERICAN FISHERIES ACT.—Nothing in section 303A of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), as added by subsection (a) [P.L. 109-479], shall be construed to modify or supersede any provision of the American Fisheries Act (46 U.S.C. 12102 note; 16 U.S.C. 1851 note; et alia).

P.L. 104-297, sec. 108(i), MSA § 303 note

EXISTING QUOTA PLANS.—Nothing in this Act [P.L.104-297] or the amendments made by this Act shall be construed to require a reallocation of individual fishing quotas under any individual fishing quota program approved by the Secretary before January 4, 1995.

SEC. 304. ACTION BY THE SECRETARY

16 U.S.C. 1854

104-297

(a) REVIEW OF PLANS.—

(1) Upon transmittal by the Council to the Secretary of a fishery management plan or plan amendment, the Secretary shall—

(A) immediately commence a review of the plan or amendment to determine whether it is consistent with the national standards, the other provisions of this Act, and any other applicable law; and

(B) immediately publish in the Federal Register a notice stating that the plan or amendment is available and that written information, views, or comments of interested persons on the plan or amendment may be submitted to the Secretary during the 60-day period beginning on the date the notice is published.

(2) In undertaking the review required under paragraph (1), the Secretary shall—

(A) take into account the information, views, and comments received from interested persons;

(B) consult with the Secretary of State with respect to foreign fishing; and

(C) consult with the Secretary of the department in which the Coast Guard is operating with respect to enforcement at sea and to fishery access adjustments referred to in section 303(a)(6).

(3) The Secretary shall approve, disapprove, or partially approve a plan or amendment within 30 days of the end of the comment period under paragraph (1) by written notice to the Council. A notice of disapproval or partial approval shall specify—

(A) the applicable law with which the plan or amendment is inconsistent;

(B) the nature of such inconsistencies; and

(C) recommendations concerning the actions that could be taken by the Council to conform such plan or amendment to the requirements of applicable law.

If the Secretary does not notify a Council within 30 days of the end of the comment period of the approval, disapproval, or partial approval of a plan or amendment, then such plan or amendment shall take effect as if approved.

October 30, 2006]

[CITE: 31USC7701]

TITLE 31--MONEY AND FINANCE

SUBTITLE V--GENERAL ASSISTANCE ADMINISTRATION CHAPTER 77--ACCESS TO

INFORMATION FOR DEBT COLLECTION Sec. 7701. Taxpayer identifying number

(a) In this section--

(1) ``included Federal loan program '' has the same meaning given that term in section 6103(1)(3)(C) of the Internal Revenue Code of 1986 (26 U.S.C. 6103 (1) (3) (C)) .

(2) ``taxpayer identifying number '' means the identifying number required under section 6109 of the Internal Revenue Code of 1986 (26 U.S.C. 6109).

(b) The head of an agency administering an included Federal loan program shall require a person applying for a loan under the program to provide that person's taxpayer identifying number.

(c)(1) The head of each Federal agency shall require each person doing business with that agency to furnish to that agency such person's taxpayer identifying number.

(2) For purposes of this subsection, a person shall be considered to be doing business with a Federal agency if the person is--

(A) a lender or servicer in a Federal guaranteed or insured loan program administered by the agency;

(B) an applicant for, or recipient of, a Federal license, permit, right-of-way, grant, or benefit payment administered by the agency or insurance administered by the agency;

(C) a contractor of the agency;

(D) assessed a fine, fee, royalty or penalty by the agency; and

(E) in a relationship with the agency that may give rise to a receivable due to that agency, such as a partner of a borrower in or a guarantor of a Federal direct or insured loan administered by the agency.

(3) Each agency shall disclose to a person required to furnish a taxpayer identifying number under this subsection its intent to use such number for purposes of collecting and reporting on any delinquent amounts arising out of such person's relationship with the Government.

(4) For purposes of this subsection, a person shall not be treated as doing business with a Federal agency solely by reason of being a debtor under third party claims of the United States. The preceding sentence shall not apply to a debtor owing claims resulting from petroleum pricing violations or owing claims resulting from Federal loan or loan guarantee/insurance programs.

(d) Notwithstanding section 552a(b) of title 5, United States Code, creditor agencies to which a delinquent claim is owed, and their agents, may match their debtor records with Department of Health and Human Services, and Department of Labor records to obtain names (including names of employees), name controls, names of employers, taxpayer identifying numbers, addresses (including addresses of employers), and dates of birth. The preceding sentence shall apply to the disclosure of taxpayer identifying numbers only if such disclosure is not otherwise prohibited by section 6103 of the Internal Revenue Code of 1986. The Department of Health and Human Services, and the Department of Labor shall release that information to creditor agencies and may charge reasonable fees sufficient to pay the costs associated with that release.

(Added Pub. L. 103-272, Sec. 4(f)(1)(Y)(i), July 5, 1994, 108 Stat. 1363; amended Pub. L. 104-134, title III, Sec. 31001(i)(1), Apr. 26, 1996, 110 Stat. 1321-364.)

References in Text

Section 6103 of the Internal Revenue Code of 1986, referred to in subsecs. (a)(1) and (d), is classified to section 6103 of Title 26, Internal Revenue Code.

Amendments

1996--Subsecs. (c), (d). Pub. L. 104-134 added subsecs. (c) and (d).

SECTION 515 PRE-DISSEMINATION REVIEW & DOCUMENTATION GUIDELINES

Background

Section 515 of the Treasury and General Government Appropriations Act for Fiscal Year 2001 (Public Law 106-554, aka the Data Quality Act or Information Quality Act) directed the Office of Management and Budget (OMB) to issue government-wide guidelines that “provide policy and procedural guidance to federal agencies for ensuring and maximizing the quality, objectivity, utility, and integrity of information (including statistical information) disseminated by federal agencies.” OMB complied by issuing guidelines which direct each federal agency to 1) issue its own guidelines; 2) establish administrative mechanisms allowing affected persons to seek and obtain correction of information that does not comply with the OMB 515 Guidelines or the agency guidelines; and 3) report periodically to OMB on the number and nature of complaints received by the agency and how the complaints were handled. The OMB Guidelines can be found at:

<http://www.whitehouse.gov/omb/fedreg/reproducible2.pdf>

The Department of Commerce Guidelines can be found at: <http://www.osec.doc.gov/cio/oipr/iqg.htm>

The NOAA Section 515 Information Quality Guidelines, created with input and reviews from each of the components of NOAA Fisheries, went into effect on October 1, 2002. **The NOAA Information Quality Guidelines are posted on the NOAA home page under “Information Quality.”** <http://www.noaanews.noaa.gov/stories/iq.htm>

The guidelines apply to a wide variety of government information products and all types of media, including printed, electronic, broadcast or other. The guidelines define “Information” as, “any communication or representation of knowledge such as facts or data, in any medium or form, including textual, numerical, graphic, cartographic, narrative, or audiovisual forms.” For example, this definition includes information that an agency disseminates from a web page. The guidelines define “Dissemination” as, “agency initiated or sponsored distribution of information to the public.” Explicitly **not** included within this term is distribution limited to “government employees or agency contractors or grantees; intra- or inter-agency use or sharing of government information; and responses to requests for agency records under the Freedom of Information Act, the Privacy Act, the Federal Advisory Committee Act or other similar law.” It also does not include distribution limited to correspondence with individuals or persons, press releases, archival records, public filings, subpoenas or adjudicative processes. (See the NOAA IQ Guidelines, pgs 5-6).

To assist in Data Quality Act compliance, NOAA Fisheries has established a series of actions that should be completed for each new information product subject to the Data Quality Act. (See “Information Generation and Compliance Documentation” and “Pre-Dissemination Review” below.) **In addition to the information contained in this document, familiarity with the NOAA Section 515 Information Quality Guidelines (<http://www.noaanews.noaa.gov/stories/iq.htm>) is crucial for NOAA Fisheries employees who engage in the generation and dissemination of information.**

Information Generation and Compliance Documentation

- The fundamental step in the process is to create a Sec. 515 Information Quality file for each new information product. To aid in this process, a Section 515 Pre-Dissemination Review and Documentation form has been created. These guidelines are intended to serve as a supplement to the Pre-Dissemination Review and Documentation Form. The basic steps to the documentation process are outlined below.
- Complete general information (e.g., author/responsible office, title/description) section of the form.
- Determine the information category (i.e., original data; synthesized products; interpreted products; hydrometeorological, hazardous chemical spill, and space weather warnings, forecasts, and advisories; experimental products; natural resource plans; corporate and general information). **For most information products, you will only need to check one box.** More complex documents may be an “aggregate” of different categories of information products.
- Generate the information in a way that meets each of the applicable standards for the appropriate information category. See the NOAA Information Quality Guidelines.
- Document how the standards for **utility, integrity and objectivity** are met for each information product, describing what measures were taken to meet each of the applicable standards. Use the 2 page Pre-Dissemination Review & Documentation Form to document compliance with the Utility and Integrity standards contained in NOAA’s Information Quality Guidelines. The Utility and Integrity standards pertain to all categories of information disseminated by NOAA. Use these guidelines (pgs 4-11) to document compliance with the applicable objectivity standards for your information product and attach that documentation to the Pre-Dissemination Review & Documentation Form.
- Maintain the Sec. 515 Information Quality file in a readily accessible place. [Pre-Dissemination Review](#)
- Before information is disseminated, it must be reviewed for compliance with the NOAA Sec. 515 Information Quality Guidelines. This is accomplished by reviewing the information and the Sec. 515 Information Quality file.
- The Pre-Dissemination Review should be conducted during the normal course of clearing the information product for release. The person conducting the Pre-Dissemination Review will sign and date the Pre-Dissemination Review & Documentation Form. The reviewing official must be at least one level above the person generating the information product.
- The Pre-Dissemination Review form and the supporting information quality documentation must accompany the information product through the clearance process and be maintained on file.

Completing the Section 515 Pre-Dissemination Review & Documentation Form

Using the Section 515 Pre-Dissemination Review & Documentation Form and these guidelines, document how the information product meets the

following standards for **Utility, Integrity and Objectivity**. **Please note:** Use the Pre-Dissemination Review & Documentation Form to document how the information product complies with the Utility and Integrity standards that pertain to all categories of information products. The Utility and Integrity standards are presented here for your convenience. Use these guidelines to explain how the information product meets the applicable Objectivity standards for the information product and attach that documentation to the Pre-Dissemination Review & Documentation Form.

I. Utility of Information Product

Utility means that disseminated information is useful to its intended users. "Useful" means that the content of the information is helpful, beneficial, or serviceable to its intended users, or that the information supports the usefulness of other disseminated information by making it more accessible or easier to read, see, understand, obtain or use.

- A. Is the information helpful, beneficial or serviceable to the intended user? Explain.
- B. Who are the intended users of the data or information product? (e.g., the American public; other federal agencies; state and local governments; recreational concerns; national and international organizations). Is this data or information product an improvement over previously available information? Is it more detailed or current? Is it more useful or accessible to the public? Has it been improved based on comments or interactions with users?
- C. What media are used in the dissemination of the information? Printed publications? CD-ROM? Internet?
Is the product made available in a standard data format?
Does it use consistent attribute naming and unit conventions to ensure that the information is accessible to a broad range of users with a variety of operating systems and data needs?

II. Integrity of Information Product

Integrity refers to security - the protection of information from unauthorized access or revision, to ensure that the information is not compromised through corruption or falsification. Prior to dissemination, NOAA information, independent of the specific intended distribution mechanism, is safeguarded from improper access, modification, or destruction, to a degree commensurate with the risk and magnitude of harm that could result from the loss, misuse, or unauthorized access to or modification of such information. **Please note: all electronic information disseminated by NOAA adheres to the standards set forth in paragraph A below. If the information product is disseminated electronically, simply circle paragraph II(A) on the form.** You may also contact your IT Manager for further information.

Explain (circle) how the information product meets the following standards for integrity:

- A. All electronic information disseminated by NOAA adheres to the standards set out in Appendix III, "Security of Automated Information Resources," OMB Circular A-130; the Computer Security Act; and the Government Information Security Reform Act.
- B. If information is confidential, it is safeguarded pursuant to the Privacy Act and Titles 13, 15, and 22 of the U. S. Code (confidentiality of census, business and financial information).
- C. Other/Discussion
(e.g., 50 CFR 600, Subpart E, Confidentiality of Statistics of the Magnuson-Stevens Fishery Conservation and Management Act; NOAA Administrative Order 216-100, Protection of Confidential Fisheries Statistics; 50 CFR 229.11, Confidentiality of information collected under the Marine Mammal Protection Act.)

III. Objectivity of Information Product

(1) Indicate which one of the following categories of information products apply for this product (check one):

- Original Data - go to Section A
- Synthesized Products - go to Section B
- Interpreted Products - go to Section C
- Hydrometeorological, Hazardous Chemical Spill, and Space Weather Warnings, Forecasts, and Advisories - go to Section D
- Experimental Products - go to Section E
- Natural Resource Plans - go to Section F
- Corporate and General Information - go to Section G

(2) Describe how this information product meets the applicable objectivity standards.

General Standard: Information is presented in an accurate, clear, complete, and unbiased manner, and in proper context. The substance of the information is accurate, reliable, and unbiased; in the scientific, financial or statistical context, original and supporting data are generated and the analytical results are developed using sound, commonly accepted scientific and research methods. "Accurate" means that information is within an acceptable degree of imprecision or error appropriate to the particular kind of information at issue and otherwise meets commonly accepted scientific, financial and statistical standards.

If the information is "influential," that is, it is expected to have a genuinely clear and substantial impact on major public policy and private sector decisions, it is noted as such and it is presented with the highest degree of transparency. If influential information constitutes an assessment of risks to human health, safety or the environment, indicate whether the risk assessment was qualitative or quantitative, and describe which SDWA-adapted quality standards at page 9 of NOAA's Section 515 Information Quality Guidelines were applied to the information product.

Use of third party information in the product (information not collected or generated by NOAA) is only done when the information is of known quality and consistent with NOAA's Section 515 Guidelines; any limitations, assumptions, collection methods, or uncertainties concerning the information are taken into account and disclosed.

Specific Standards: Specific objectivity standards for categories of information products disseminated by NOAA are listed below. Document how the general and specific objectivity standards for the particular information product were met.

A. Original Data

Original Data are data in their most basic useful form. These are data from individual times and locations that have not been summarized or processed to higher levels of analysis. While these data are often derived from other direct measurements (e.g., spectral signatures from a chemical analyzer, electronic signals from current meters), they represent properties of the environment. These data can be disseminated in both real time and retrospectively. Examples of original data include buoy data, survey data (e.g., living marine resource and hydrographic surveys), biological and chemical properties, weather observations, and satellite data.

Objectivity of original data is achieved using sound quality control techniques.

Detail how the data collection methods, systems, instruments, training, and/or tools are appropriate to meet the requirements of the intended users.

Were the methods, systems, instruments, etc., validated before use?

Were standard operating procedures (SOPs) followed for time series data collections? If not, document the valid scientific reasons for the deviation.

Document the quality control techniques used, for example:

- Gross error checks for data that fall outside of physically realistic ranges (e.g., a minimum, maximum or maximum change)
- Comparisons made with other independent sources of the same measurement
- Examination of individual time series and statistical summaries
- Application of sensor drift coefficients determined by a comparison of pre- and post-deployment calibrations
- Visual inspection of data

Describe any evolution and/or improvements in survey techniques, instrument performance and/or data processing.

Have metadata record descriptions and explanations of the methods and quality controls to which original data are subjected been included in the disseminated product? If not, they must be made available upon request.

B. Synthesized Products

Synthesized Products are those that have been developed through analysis of original data. This includes analysis through statistical methods; model interpolations, extrapolations, and simulations; and combinations of multiple sets of original data.

While some scientific evaluation and judgment is needed, the methods of analysis are well documented and relatively routine.

Examples of synthesized products include summaries of fisheries landings statistics, weather statistics, model outputs, data display through Geographical Information System techniques, and satellite-derived maps.

The objectivity of synthesized products is achieved by using data of known quality, applying sound analytical techniques, and reviewing the products or processes used to create them before dissemination. For synthesized products, please document the following:

Identify data sources (preferred option) or be prepared to make them available upon request.

Are the data used of known quality or from sources acceptable to the relevant scientific and technical communities?

Are the methods used to create the synthesized product published in standard methods manuals or generally accepted by the relevant scientific and technical communities? Are the methods documented in readily accessible formats by the disseminating office?

Describe the review process used to ensure the validity of the synthesized product or the procedures used to create them, e.g., statistical procedures, models, or other analysis tools.

If the synthesized product is unique or not regularly produced, was this product reviewed by internal and/or external experts?

If this is a routinely produced synthesized product, was the process for developing the product reviewed by internal and/or external experts?

Does the synthesized product include information about the methods used to create the product? If not, the methods must be made available upon request.

C. Interpreted Products

Interpreted Products are those that have been developed through interpretation of original data and synthesized products. In many cases, this information incorporates additional contextual and/or normative data, standards, or information that puts original data and synthesized products into larger spatial, temporal, or issue contexts. This information is subject to scientific interpretation, evaluation, and judgment. Examples of interpreted products include journal articles, scientific papers, technical reports, and production of and contributions to integrated assessments.

Objectivity of interpreted products is achieved by using data of known quality or from sources acceptable to the relevant scientific and technical communities and reliable supporting products, applying sound analytical techniques, presenting the information in the proper context, and reviewing the products before dissemination.

Are all data and information sources identified or properly referenced?

Are the methods used to create the interpreted product generally accepted by the relevant scientific and technical communities?

Is information concerning the quality and limitations of the interpreted product provided to help the user assess the suitability of the product for the user's application?

Describe the review process used to ensure that the product is valid, complete, unbiased, objective and relevant. For example, peer reviews, ranging from internal peer review by staff who were not involved in the development of the product to formal, independent, external peer review. The review should be conducted at a level commensurate with the importance of the interpreted product.

Does the interpreted product include a description of the methods used to create the product? If not, they must be made available upon

request.

D. Hydrometeorological, Hazardous Chemical Spill, and Space Weather

Warnings, Forecasts, and Advisories

Hydrometeorological, Hazardous Chemical Spill, and Space Weather Warnings, Forecasts, and Advisories are time-critical interpretations of original data and synthesized products, prepared under tight time constraints and covering relatively short, discrete time periods. As such, these warnings, forecasts, and advisories represent the best possible information in given circumstances. They are subject to scientific interpretation, evaluation, and judgment. Some products in this category, such as weather forecasts, are routinely prepared. Other products, such as tornado warnings, hazardous chemical spill trajectories, and solar flare alerts, are of an urgent nature and are prepared for unique circumstances.

Objectivity of information in this category is achieved by using reliable data collection methods and sound analytical techniques and systems to ensure the highest possible level of accuracy given the time critical nature of the products.

What is the source of the data or information used in the product? Are the data used of known quality or from sources acceptable to the relevant scientific and technical communities? Are the sources included in the information product? If not, they must be made available upon request. Are the methods used to create the product generally accepted by the relevant scientific and technical communities?

Please note if individual best judgment was used due to the time-critical nature of the product.

What mechanisms were used to evaluate the accuracy of the information product? Statistical analysis may be carried out for a subset of products for verification purposes.

E. Experimental Products

Experimental products are products that are experimental (in the sense that their quality has not yet been fully determined) in nature, or are products that are based in part on experimental capabilities or algorithms. Experimental products fall into two classes.

They are either (1) disseminated for experimental use, evaluation or feedback, or (2) used in cases where, in the view of qualified scientists who are operating in an urgent situation in which the timely flow of vital information is crucial to human health, safety, or the environment, the danger to human health, safety, or the environment will be lessened if every tool available is used. Examples of experimental products include imagery or data from non-NOAA sources, algorithms currently being tested and evaluated, experimental climate forecasts, and satellite imagery processed with developmental algorithms for urgent needs (e.g., wildfire detection).

Objectivity of experimental products is achieved by using the best science and supporting studies available, in accordance with sound and objective scientific practices, evaluated in the relevant scientific and technical communities, and peer-reviewed where feasible.

Describe the science and/or supporting studies used, the evaluation techniques used, and note any peer-review of the experimental product. Were the results of initial tests or evaluations made available where possible? Describe the review, by the appropriate NOAA unit, of the experimental products and capabilities documentation, along with any tests or evaluations.

Are explicit limitations provided concerning the quality of the experimental product? Is the degree of uncertainty indicated?

Describe the testing process used, e.g., the experimental product or capabilities are used only after careful testing, evaluation, and review by NOAA experts, and then are approved for provisional use only by selected field offices or other NOAA components. This process is repeated as needed to ensure an acceptable and reliable level of quality.

F. Natural Resource Plans

Natural Resource Plans are information products that are prescribed by law and have content, structure, and public review processes (where applicable) that will be based upon published standards, e.g., statutory or regulatory guidelines. Examples of such published standards include the National Standard Guidelines (50 CFR Part 600, Subpart D), Essential Fish Habitat Guidelines, and Operational Guidelines - Fishery Management Plan Process, all under the Magnuson-Stevens Fishery Conservation and Management Act; and the National Marine Sanctuary Management Plan Handbook (16 U.S.C. section 1434) under the National Marine Sanctuary Act. These Natural Resource Plans are a composite of several types of information (e.g., scientific, management, stakeholder input, and agency policy) from a variety of internal and external sources. Examples of Natural Resources Plans include fishery, protected resource, and sanctuary management plans and regulations, and natural resource restoration plans.

Objectivity of Natural Resource Plans will be achieved by adhering to published standards, using information of known quality or from sources acceptable to the relevant scientific and technical communities, presenting the information in the proper context, and reviewing the products before dissemination.

What published standard(s) governs the creation of the Natural Resource Plan? Does the Plan adhere to the published standards? (See the NOAA Sec. 515 Information Quality Guidelines, Section II(F) for links to the published standards for the Plans disseminated by NOAA.)

Was the Plan developed using the best information available? Please explain.

Have clear distinctions been drawn between policy choices and the supporting science upon which they are based? Have all supporting materials, information, data and analyses used within the Plan been properly referenced to ensure transparency?

Describe the review process of the Plan by technically qualified individuals to ensure that the Plan is valid, complete, unbiased, objective and relevant. For example, internal review by staff who were not involved in the development of the Plan to formal, independent, external peer review. The level of review should be commensurate with the importance of the Plan and the constraints imposed by legally enforceable deadlines.

G. Corporate and General Information

Corporate or general information includes all non-scientific, non-financial, non-statistical information. Examples include program and organizational descriptions, brochures, pamphlets, education and outreach materials, newsletters, and other general descriptions of NOAA operations and capabilities.

Corporate and general information disseminated by NOAA must be presented in a clear, complete, and unbiased manner, and in a context that enhances usability to the intended audience. To the extent possible, identify the sources of the disseminated information, consistent with confidentiality, privacy and security considerations and protections, and taking into account timely presentation, the medium of dissemination, and the importance of the information, balanced against the resources required and the time available.

Information disseminated by NOAA is reliable and accurate to an acceptable degree of error as determined by factors such as the importance of the information, the intended use, time sensitivity, expected degree of permanence, relation to the primary mission(s) of the disseminating office, and the context of the dissemination, balanced against the resources required and the time available.

For non-scientific, non-statistical information, has the information product been reasonably determined to be factually correct in the view of the disseminating office as of the time of dissemination?

Describe the review process for the information product. Review can be accomplished in a number of ways, including but not limited to combinations of the following:

- Active personal review of information by supervisory and management layers, either by reviewing each individual dissemination, or selected samples, or by any other reasonable method.
- Use of quality check lists, charts, statistics, or other means of tracking quality, completeness, and usefulness.
- Process design and monitoring to ensure that the process itself imposes checks on information quality .
- Review during information preparation.
- Use of management controls.
- Any other method, which serves to enhance the accuracy, reliability and objectivity of the information.

104-297

SEC. 402. INFORMATION COLLECTION

16 U.S.C. 1881a

109-479

(a) COLLECTION PROGRAMS.—

(1) COUNCIL REQUESTS.—If a Council determines that additional information would be beneficial for developing, implementing, or revising a fishery management plan or for determining whether a fishery is in need of management, the Council may request that the Secretary implement an information collection program for the fishery which would provide the types of information specified by the Council. The Secretary shall undertake such an information collection program if he determines that the need is justified, and shall promulgate regulations to implement the program within 60 days after such determination is made. If the Secretary determines that the need for an information collection program is not justified, the Secretary shall inform the Council of the reasons for such determination in writing. The determinations of the Secretary under this paragraph regarding a Council request shall be made within a reasonable period of time after receipt of that request.

(2) SECRETARIAL INITIATION.—If the Secretary determines that additional information is necessary for developing, implementing, revising, or monitoring a fishery management plan, or for determining whether a fishery is in need of management, the Secretary may, by regulation, implement an information collection or observer program requiring submission of such additional information for the fishery.

109-479

(b) CONFIDENTIALITY OF INFORMATION.—

(1) Any information submitted to the Secretary, a State fishery management agency, or a marine fisheries commission by any person in compliance with the requirements of this Act shall be confidential and shall not be disclosed except—

(A) to Federal employees and Council employees who are responsible for fishery management plan development, monitoring, or enforcement;

(B) to State or Marine Fisheries Commission employees as necessary to further the Department's mission, subject to a confidentiality agreement that prohibits public disclosure of the identity of business of any person;

(C) to State employees who are responsible for fishery management plan enforcement, if the States employing those employees have entered into a fishery enforcement agreement with the Secretary and the agreement is in effect;

(D) when required by court order;

(E) when such information is used by State, Council, or Marine Fisheries Commission employees to verify catch under a limited access program, but only to the extent that such use is consistent with subparagraph (B);

(F) when the Secretary has obtained written authorization from the person submitting such information to release such information to persons for reasons not otherwise provided for in this subsection, and such release does not violate other requirements of this Act;

(G) when such information is required to be submitted to the Secretary for any determination under a limited access program; or

(H) in support of homeland and national security activities, including the Coast Guard's homeland security missions as defined in section 888(a)(2) of the Homeland Security Act of 2002 (6 U.S.C. 468(a)(2)).

(2) Any observer information shall be confidential and shall not be disclosed, except in accordance with the requirements of subparagraphs (A) through (H) of paragraph (1), or—

(A) as authorized by a fishery management plan or regulations under the authority of the North Pacific Council to allow disclosure to the public of weekly summary bycatch information identified by vessel or for haul-specific bycatch information without vessel identification;

(B) when such information is necessary in proceedings to adjudicate observer certifications; or

(C) as authorized by any regulations issued under paragraph (3) allowing the collection of observer information, pursuant to a confidentiality agreement between the observers, observer employers, and the Secretary prohibiting disclosure of the information by the observers or observer employers, in order—

(i) to allow the sharing of observer information among observers and between observers and observer employers as necessary to train and prepare observers for deployments on specific vessels; or

(ii) to validate the accuracy of the observer information collected.

(3) The Secretary shall, by regulation, prescribe such procedures as may be necessary to preserve the confidentiality of information submitted in compliance with any requirement or regulation under this Act, except that the Secretary may release or make public any such information in any aggregate or summary form which does not directly or indirectly disclose the identity or business of any person who submits such information. Nothing in this subsection shall be interpreted or construed to prevent the use for conservation and management purposes by the Secretary, or with the approval of the Secretary, the Council, of any information submitted in compliance with any requirement or regulation under this Act or the use, release, or publication of bycatch information pursuant to paragraph (2)(A).

(c) RESTRICTION ON USE OF CERTAIN INFORMATION.—

(1) The Secretary shall promulgate regulations to restrict the use, in civil enforcement or criminal proceedings under this Act, the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.), and the Endangered Species Act (16 U.S.C. 1531 et seq.), of information collected by voluntary fishery data collectors, including sea samplers, while aboard any vessel for conservation and management purposes if the presence of such a fishery data collector aboard is not required by any of such Acts or regulations thereunder.

(2) The Secretary may not require the submission of a Federal or State income tax return or statement as a prerequisite for issuance of a permit until such time as the Secretary has promulgated regulations to ensure the confidentiality of information contained in such return or statement, to limit the information submitted to that necessary to achieve a demonstrated conservation and management purpose, and to provide appropriate penalties for violation of such regulations.

Administrative Management and Executive Secretariat

NAO 216-100

PROTECTION OF CONFIDENTIAL FISHERIES STATISTICS Eff: 7/18/94; Iss: 7/26/94

SECTION 1. PURPOSE.

. 01 This Order:

- a. prescribes policies and procedures for protecting the confidentiality of data submitted to and collected by the National Oceanic and Atmospheric Administration (NOAA)/National Marine Fisheries Service (NMFS) as authorized or required by law;
- b. informs authorized users of their obligations for maintaining the confidentiality of data received by NMFS;
- c. provides for operational safeguards to maintain the security of data; and
- d. states the penalties provided by law for disclosure of confidential data.

SECTION 2. SCOPE.

This Order covers all confidential data received, collected, maintained, or used by NMFS.

SECTION 3. DEFINITIONS.

. 01 **Access to data** means the freedom or ability to use data, conditioned by a statement of nondisclosure and penalties for unauthorized use.

. 02 **Aggregate or summary form** means data structured so that the identity of the submitter cannot be determined either from the present release of the data or in combination with other releases.

. 03 **Agreement** refers to all binding forms of mutual commitment under a stated set of conditions to achieve a specific objective.

. 04 **Assistant Administrator** means the Assistant Administrator for Fisheries, NOAA, or a designee authorized to have access to confidential data.

. 05 **Authorized Use/User.**

a. **Authorized use** is that specific use authorized under the governing statute, regulation, order, contract or agreement.

b. An **authorized user** is any person who, having the need to collect or use confidential data in the performance of an official activity, has read this Order and has signed a statement of nondisclosure affirming the user's understanding of NMFS obligations with respect to confidential data and the penalties for unauthorized use and disclosure.

. 06 **Confidential data** means data that are identifiable with any person, accepted by the Secretary, and prohibited by law from being disclosed to the public. The term "as used" does not convey data sensitivity for national security purposes [See Executive Order (E.O.) 12356 dated April 2, 1982].

. 07 **Data** refers to information used as a basis for reasoning, discussion, or calculation that a person may submit, either voluntarily or as required by statute or regulation.

. 08 **GC** means the Office of General Counsel, NOAA.

. 09 **Person** means any individual (whether or not a citizen or national of the United States), any corporation, partnership, association, or other entity (whether or not organized or existing under the laws of any State), and any Federal, State, local, or foreign government or any entity of such governments, including Regional Fishery Management Councils (Councils).

. 10 **Public** means any person who is not an authorized user.

. 11 **Region** means NMFS Regional field offices, Fisheries Science Centers, and associated laboratories.

. 12 **Source document** means the document, paper, or electronic format on which data are originally recorded.

. 13 **State employee** means any member of a State agency responsible for developing and monitoring the State's program for fisheries or Marine Mammal Protection Act (MMPA) program.

. 14 **Submitter** means any person or the agent of any person who provides data to NMFS either

voluntarily or as required by statute or regulation.

SECTION 4. POLICY.

For data subject to this Order, it is NMFS policy that:

- a. confidential data shall only be disclosed to the public if required by the Freedom of Information Act (FOIA), 5 U.S.C. 552, the Privacy Act, 5 U.S.C. 552a, or by court order. Disclosure of data pursuant to a subpoena issued by an agency of competent jurisdiction is a lawful disclosure. Disclosure pursuant to a subpoena must be approved by GC;
- b. individual identifiers shall be retained with data, unless the permanent deletion is consistent with the needs of NMFS and good scientific practice [See Section 6.02c]; and
- c. a notice is required on all report forms requesting data and must comply with 5 U.S.C. 552a(e)(3) and Paperwork Reduction Act requirements in NAO 216-8, Information Collections and Requirements Needing Office of Management and Budget Clearance. [See E.O. 12600 of June 23, 1987, for additional information regarding the rights of submitters to designate commercial confidential data at the time of submission.]

SECTION 5. OPERATIONAL RESPONSIBILITIES.

. 01 The Regional Director of each region (or, in the case of headquarters, each Office Director) has the responsibility to maintain the confidentiality of all data collected, maintained, and disclosed by the respective region.

. 02 Each region shall submit to the Assistant Administrator specific procedures governing the collection, maintenance, and disclosure of confidential data. These documents shall be compiled as regional handbooks following the guidelines and standards:

- a. handbooks are to be developed in detail to ensure the maintenance of confidential data on a functional basis in each region; and
- b. handbooks shall be coordinated through the National Data Management Committee (a NMFS group established by the Assistant Administrator to develop data management policies and procedures) and reviewed annually. The regional handbooks will address, at minimum, the contents of Sections 6-7.

SECTION 6. PROCEDURES.

. 01 **Data Collection.** To collect data, the Secretary may use Federal employees, contractor employees, or, pursuant to an agreement, State employees.

a. General Requirements.

1. Personnel authorized to collect Federal data must maintain all documents containing confidential data in secure facilities; and
2. may not disclose confidential data, whether recorded or not, to anyone not authorized to receive and handle such data.

b. Specific Requirements.

1. Each Federal or contractor employee collecting or processing confidential data will be required to read, date, and sign a statement of nondisclosure, that affirms the employee's understanding of NMFS obligations with respect to confidential data and the penalties for unauthorized use and disclosure of the data. Upon signature, the employee's name will be placed on record as an "authorized user," and the employee will be issued certification.
2. Data collected by a contractor must be transferred timely to authorized Federal employees; no copies of these data may be retained by the contractor. NMFS may permit contractors to retain aggregated data. A data return clause shall be included in the agreement. All procedures applicable to Federal employees must be followed by contractor employees collecting data with Federal authority.
3. Under agreements with the State, each State data collector collecting confidential data will sign a statement at least as protective as the one signed by Federal employees, which affirms that the signer understands the applicable procedures and regulations and the penalties for unauthorized disclosure.

.02 Maintenance.

- a. Maintenance is defined as the procedures required to keep confidential data secure from the time the source documents are received by NMFS to their ultimate disposition, regardless of format. [See National Institute of Standards and Technology "Computer Security Publications, List 91" for guidance.]
- b. Specific procedures in regional handbooks must deal with the following minimum security requirements, as well as any others that may be necessary because of the specific data, equipment, or physical facilities:
 1. the establishment of an office or person responsible for evaluating requests for access to data;

2. the identifications of all persons certified as authorized users. These lists shall be kept current and reviewed on an annual basis;
 3. the issuance of employee security rules that emphasize the confidential status of certain data and the consequences of unauthorized removal or disclosure;
 4. the description of the security procedures used to prevent unauthorized access to and/or removal of confidential data;
 5. the development of a catalog/inventory system of all confidential data received including: the type of source document; the authority under which each item of data was collected; any statutory or regulatory restriction(s) which may apply; and routing from the time of receipt until final disposition; and
 6. The development of an appropriate coding system for each set of confidential data so that access to data that identifies, or could be used to identify, the person or business of the submitter is controlled by the use of one or more coding system(s). Lists that contain the codes shall be kept secure.
- c. The permanent deletion of individual identifiers from a database shall be addressed on a case-by-case basis. Identifiers may only be deleted after:
1. future uses of data have thoroughly been evaluated, e.g., the need for individual landings records for allocating shares under an individual transferable quota program;
 2. consultation with the agency(s) collecting data (if other than NMFS), the relevant Council(s), and NMFS Senior Scientist; and
 3. concurrence by the Assistant Administrator has been received prior to deletion.

.03 Access to Data Subject to This Order.

- a. **General Requirements.** In determining whether to grant a request for access to confidential data, the following information shall be taken into consideration:

1. the specific types of data required;
2. the relevance of the data to the intended uses;
3. whether access will be continuous, infrequent, or one-time;
4. an evaluation of the requester's statement of why aggregate or nonconfidential summaries of data would not satisfy the requested needs; and
5. the legal framework for the disclosure, in accordance with GC and this Order.

- b. **Within NMFS.** NMFS employees requesting confidential data must have certification as being authorized users for the particular type of data requested.

- b. **Councils.** Upon written request by the Council Executive Director:

1. "authorized user" status for confidential data collected under the Magnuson Fishery Conservation and Management Act (Magnuson Act) may be granted to a Council for use by the Council for conservation and management purposes consistent with the approval of the Assistant Administrator as described in 50 CFR 603.5;
2. "authorized user" status for confidential data, collected under the Magnuson Act and MMPA, will be granted to Council employees who are responsible for Fishery Management Plan development and monitoring; and
3. Councils that request access to confidential data must submit, on an annual basis, a copy of their procedures for ensuring the confidentiality of data to the region, or in the case of intercouncil fisheries, regions. The procedures will be evaluated for their effectiveness and, if necessary, changes may be recommended. As part of this procedure, an updated statement of nondisclosure will be included for each employee and member who requires access to confidential data.

d. **States.**

1. Requests from States for confidential data shall be directed in writing to the NMFS office that maintains the source data.
2. Each request will be processed in accordance with any agreement NMFS may have with the State:
 - (a) confidential data collected **solely** under Federal authority will be provided to a State by NMFS only if the Assistant Administrator finds that the State has authority to protect the confidentiality of the data comparable to, or more stringent than, NMFS' requirements; and
 - (b) the State will exercise its authority to limit subsequent access and use of the data to those uses allowed by authorities under which the data was collected.

3. If the State has no agreement with NMFS for the collection and exchange of confidential data, the request shall be treated as a public request and disclosure may be denied subject to FOIA or the Privacy Act.

4. Where a State has entered into a cooperative exchange agreement with another State(s), NMFS will facilitate transfer or exchange of State collected data in its possession if:

- (a) NMFS has written authorization for data transfer from the head of the collecting State agency; and
- (b) the collecting State has provided NMFS a list of authorized users in the recipient State(s); and
- (c) the collecting State agrees to hold the United States Government harmless for any suit that may arise from the misuse of the data.

e. Contractors.

1. Pursuant to an agreement with NMFS, a NMFS contractor (including universities, Sea Grant investigators, etc.) may be granted "authorized user" status consistent with this Order if the use furthers the mission of NMFS.

2. The region will notify the contractor of its decision on access in writing within 30 calendar days after receipt of the request.

3. Contingent upon approval, the contractor will be provided with details regarding conditions of data access, any costs involved, formats, timing, and security procedures. If the request is denied, the reason(s) for denial will be given by the NMFS office involved. The denial will not preclude NMFS consideration of future requests from the contractor.

4. If access is granted, language in the agreement specifically dealing with confidentiality of data will be required. The language shall include all of the relevant portions of this Order and shall prohibit the further disclosure of the data. No data may be retained beyond the termination date of the agreement; and any disclosure of data derived from the accessed confidential data must be approved by NMFS.

5. Each agreement shall be reviewed by GC prior to its execution, and shall, to the extent possible, be consistent with the model agreement contained in Appendix D (Not included --WebEd).

f. Submitters. The Privacy Act allows for data to be released back to the submitter upon receipt and verification of a written request stating the data required.

04. Requests for Confidential Data. NMFS is authorized to collect data under various statutes [See Appendix A (Not include --WebEd)]. Two types of statutes govern the disclosure of confidential data collected by the Federal Government, those that contain specific and non-discretionary language within the Act, and those that provide overall guidance to the Federal Government. Sections of these Acts that deal with exceptions to disclosure may be found in Appendix B (Not included -- WebEd).

a. Magnuson Act and MMPA.

1. Data collected under 16 U.S.C. 1853 (a) or (b), and 16 U.S.C. 1383a (c),(d),(e),(f),or (h) will be handled in the following manner:

(a) data will only be disclosed to Federal employees and Council employees who are responsible for management plan development and monitoring; State employees pursuant to an agreement with the Secretary that prevents public disclosure of the identity or business of any person; a Council for conservation and management purposes [not applicable for MMPA data] or when required by court order. [See 50 CFR 229.10 and part 603];

(b) Council advisory groups are not permitted access to such confidential data [See 50 CFR 601.27(b)];

(c) requests from States that do not have an agreement with the Secretary will be processed in accordance with the Privacy Act or FOIA; and

(d) data collected by an observer under 16 U.S.C. 1853 (a) or (b) are not considered to have been "submitted to the Secretary by any person," and therefore are not confidential under Section 6.04.a of this Order. Data collected by an observer may be withheld from disclosure under the Privacy Act, or subsections (b)(3),(4),(5),(6), or (7) of FOIA.

2. Confidential data submitted to the Secretary under other Sections of the Magnuson Act or MMPA may only be disclosed in accordance with the Privacy Act or FOIA. Types of data and the collection authority may include among others:

(a) Processed Product Data -- 16 U.S.C. 1854(e);

(b) Fish Meal and Oil, Monthly -- 16 U.S.C. 1854(e);

(c) Data Collected Under State Authority and Provided to NMFS -- 16 U.S.C. 1854(e); and

(d) Tuna-Dolphin Observer Program -- 16 U.S.C. 1361 et seq.

b. **South Pacific Tuna Act.** Data collected under South Pacific Tuna Act 16 U.S.C. 973j is protected from disclosure to the public in accordance with section 973j(b).

c. **Other Statutes.** Confidential data collected under other NMFS programs as authorized by statutes other than South Pacific Tuna Act (16 U.S.C 973j), MMPA (16 U.S.C. 1361 et seq.), and Magnuson Act (16 U.S.C. 1801 et seq.), may only be disclosed to the public in accordance with the Privacy Act and FOIA. Types of data and the collection authority may include among others:

- (1) Monthly Cold Storage Fish Report -- 16 U.S.C. 742(a);
- (2) Market News Data -- 16 U.S.C. 742(a); and
- (3) Seafood Inspection Data -- 7 U.S.C. 1621 et seq.

d. Special Procedures.

1. **Cold Storage Summary Reports.** NMFS publishes monthly cold storage holdings of fishery products. Advance knowledge of the content of these reports could give those who trade in the products an opportunity to gain competitive advantage. Therefore, in addition to the confidential protection provided to individual reports, the monthly summary report will not be disclosed to the public until 3:00 p.m. Eastern Time of the official release date. Release dates for these data are published 1 year in advance in November, and can be obtained from the NMFS Fisheries Statistics Division.

2. **Surplus commodity purchases by USDA.** NMFS and the Department of Agriculture (USDA) have an interagency agreement relating to the purchase of surplus fishery products. NMFS is responsible for providing confidential data and recommendations to the USDA regarding these purchases. Advance knowledge of these data could cause a competitive advantage or disadvantage to the general public, fishing industry, and the program. Therefore, all NMFS personnel engaged in the surplus commodity purchase program will be required to sign a specific "USDA Responsibility Statement." A copy will be maintained in the Office of Trade Services.

3. **Agreements for Disclosure of Confidential Data.** A letter of agreement may authorize the disclosure of confidential data when both the Government and the submitter agree to disclosure of the data. The need to provide security for the data will vary depending on the type of data collected and the form of the disclosure. Disclosure can be undertaken if all the following conditions are met:

- (a) the person has agreed in writing to the disclosure and is aware that disclosure is irrevocable;
- (b) the recipient has been informed in writing of the sensitivity of the data; and
- (c) the wording of the agreement has been approved by GC.

.05 Disposal. NAO 205-1, NOAA Records Management Program, shall govern the disposition of records covered under this Order.

SECTION 7. PENALTIES.

.01 **Civil and Criminal.** Persons who make unauthorized disclosure of confidential data may be subject to civil penalties or criminal prosecution under:

- a. Trade Secrets Act (18 U.S.C. 1905);
- b. Privacy Act (5 U.S.C. 552a(i)(1));
- c. Magnuson Act (16 U.S.C. 1858); and
- d. MMPA (16 U.S.C. 1375).

.02 **Conflict of Interest.** Employees are prohibited by Department of Commerce employee conduct regulations [15 CFR part 0] and by ethics regulations applicable to the Executive Branch [5 CFR 2635.703] from using nonpublic information subject to this Order for personal gain, whether or not there is a disclosure to a third party.

.03 **Disciplinary Action.** Persons may be subject to disciplinary action, including removal, for failure to comply with this Order. Prohibited activities include, but are not limited to, unlawful disclosure or use of the data, and failure to comply with implementing regulations or statutory prohibitions relating to the collection, maintenance, use and disclosure of data covered by this Order.

SECTION 8. EFFECT ON OTHER ISSUANCES. None.
