

marking the edge of the vehicle closest to the roadway.

In a recent denial of a petition from Mr. Chevedden requesting a similar requirement for front license plates (60 FR 19716) the agency estimated that if it were to specify that those vehicles with off-center front license plates have their front plates located on the driver's side, the number of lives saved would not exceed one life for every 588 years.

This petition applies only to light trucks which are about half of the new vehicle population, making the possibility of benefit about half that of the previous petition. Additionally, while all vehicles have rear license plates and not all have front plates, all vehicles also have two rear red reflex reflectors. Thus, any benefit associated with the possibility of having more vehicles with driver-side plates, would be overshadowed because the effectiveness of such a treatment is dwarfed by the effectiveness of the reflectors already present on the vehicles.

Based on that recent analysis and these facts, the agency believes that the benefit from Mr. Chevedden's new petition would be smaller than his previous petition.

In accordance with 49 CFR part 552, this completes the agency's technical review of the petition. The agency has concluded that there is no reasonable possibility that the amendment requested by the petitioner would be issued at the conclusion of a rulemaking proceeding. The agency notes that the petition is basically repetitive of an earlier petition. After considering all relevant factors, including the need to allocate and prioritize limited agency resources to best accomplish the agency's safety mission, the agency has decided to deny the petition.

Taking of Marine Mammals Incidental to Commercial Fishing Operations; Authorization for Commercial Fisheries; Proposed List of Fisheries; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; correction.

SUMMARY: This document contains corrections to the proposed List of Fisheries (LOF) contained in a proposed rule that was published on Friday, June 16, 1995. NMFS issued a proposed LOF that categorized fisheries according to frequency of incidental serious injury and mortality of marine mammals. The proposed rule is intended to provide for a limited exemption of commercial fisheries from the Marine Mammal Protection Act of 1972 (MMPA) moratorium on the taking of marine mammals.

DATES: Comments on the proposed rule must be received by July 31, 1995, Comments on the proposed LOF must be received by September 14, 1995.

ADDRESSES: Send comments to Chief, Marine Mammal Division, Office of

Protected Resources, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Robyn Angliss, Office of Protected Resources, 301-713-2322.

SUPPLEMENTARY INFORMATION: Section 118(c) of the MMPA requires NMFS to publish a LOF, along with the marine mammals and number of vessels or persons involved in each such fishery. A notice of proposed revisions to the last LOF is to be published in the **Federal Register** on or about July 1 of each year for the purpose of receiving public comment, and a final LOF is to be published on or about October 1 of each year, which would become effective January 1 of the next calendar year. On June 16, 1995 (60 FR 31666), NMFS published a proposed LOF for calendar year 1996 in two tables: Table 1—Proposed List of Fisheries (Commercial Fisheries in the Pacific Ocean), and Table 2—Proposed List of Fisheries (Commercial Fisheries in the Atlantic Ocean, Gulf of Mexico and Caribbean). However, in these two tables, several marine mammal species/stocks were inadvertently omitted or misidentified in several fisheries. Also, a plus (+) designation indicating a stock is listed as threatened or endangered under the Endangered Species Act was inadvertently omitted from several stock and species codes. This document corrects these errors.

Correction of Publication

Accordingly, in proposed rule document FR Doc. 95-14828, beginning on page 31666 in the **Federal Register** issue of Friday, June 16, 1995, make the following corrections:
