FORWARD

The goal of the EIS scoping process is to gather concerns and information from the public and other interested parties regarding Federal actions or projects requiring Federal approval. The following report represents information received by the Minerals Management Service during scoping for an Environmental Impact Statement. It is compiled from letters, public hearing testimony, e-mails, hand-delivered reports, documents, statements, and the OCS Public Connect website. The information is from concerned citizens, local businesses, environmental organizations, homeowner or civic associations, and Federal and state agencies that are cooperating in this environmental review.

These various sources of information can be inherently challenging to categorize because of handwriting variability, address information, and interpretation of intent. Because of these challenges, what is represented in this report may not be exactly what the person offering the comment intended. The goal, however, was to acquire and compile important concepts and concerns surrounding the Long Island Offshore Wind Park project.

We present each comment coded by both name and by comment type. See Chapter 3 for descriptions of codes and the Appendices for lists of comments and people offering comments. If you are looking for your letter, testimony, or comment, please use the tables and appendices contained within the Scoping Report. If you are unable to find your name or comment, please review the contents of this Report and the electronic files of comments and submittals to confirm that it was taken into consideration. Many comments were submitted multiple times from multiple people and/or agencies, therefore, it is possible that your comments were included as an Adobe PDF file even if your name is missing or we misspelled it in this Scoping Report.

1.0 INTRODUCTION

The Department of Interior's Minerals Management Service (MMS) received a request from Long Island Offshore Wind Park, LLC (LIOWP), for a lease, easement, or right-of-way to construct and operate a wind energy facility off the coast of Long Island in New York. When President Bush signed the Energy Policy Act of 2005 into law on August 8, 2005, Section 388 of the Act gave MMS the authority to grant leases, easements, or rights-of-way for offshore renewable energy projects. MMS is responsible for evaluating impacts and approving these projects, in consultation with other responsible Federal agencies, regarding Section 388 proposals in Federal waters.

The proposed facility would be located 3.6 miles southwest of Jones Beach Island on approximately eight square miles of the Outer Continental Shelf. Forty wind turbine generators would produce 140 megawatts of electricity and deliver it to an existing substation near West Amityville by means of a buried transmission line. The purpose of the project would be to provide a utility-scale renewable energy facility to generate power for the New York electrical grid.

In order to process the LIOWP application, MMS must fulfill the requirements of the National Environmental Policy Act (NEPA). Subsequently, MMS will monitor and regulate the offshore facilities used for renewable energy production and energy support services.

The NEPA planning process helps the public and responsible officials consider the environmental impact of proposed actions as well as reasonable alternatives to those actions. The public is engaged early in the process to help define the issues and the scope of the Environmental Impact Statement (EIS), a detailed statement required under NEPA.

MMS published a Notice of Intent to prepare an EIS on June 19, 2006. An MMS public scoping period was open from June 19 to August 21, 2006. This Scoping Report summarizes and categorizes the input received during the scoping period. It does not include recommendations or conclusions about the scope of the EIS.

According to the current LIOWP project schedule, the draft Environmental Impact Statement (DEIS) will be completed in April 2007, after which a public comment period, including public hearings, will be held to review and comment on the document. A final EIS is expected by February 2008, and MMS would file a record of decision with the U.S. Environmental Protection Agency (EPA) shortly thereafter.

2.0 THE SCOPING PROCESS

On April 26, 2005, LIOWP and the Long Island Power Authority (LIPA) filed a joint application with the U.S. Army Corps of Engineers (ACE) in anticipation of construction of an offshore wind energy facility. The ACE issued Public Notice 2005-00365-L4 on June 9, 2005, seeking written comments on the proposal. The initial July 22 comment deadline was extended to August 12, 2005. Approximately 1,200 written comments were received, with 75 percent in support of the Project.

LIOWP completed a response package to that comment record for the ACE on December 5, 2005. It is part of the Application for the LIOWP accepted by the MMS for further environmental review (section B6.0) and can be found on the MMS's web site at: <http://www.mms.gov/offshore/RenewableEnergy/LIOWP.htm>.

Comment Period

On June 19, 2006, a 60-day comment period for EIS scoping was announced in the *Federal Register*. MMS requested that people provide data on resources, potential impacts, possible mitigation measures, and alternatives. The deadline for comments was August 21.

MMS received letters through the U.S. mail in addition to many statements, articles, reports, comment forms, and submittals provided at the scoping meetings held in Long Island in July 2006. In total, comments were received from approximately 2,877 Federal, State, and local governments, interested groups or parties, and members of the public.

Letters

As of August 21, MMS received 1,949 letters.

Summary of Totals	
1949	Letters received before scoping closed 8-21-06
1988	Letters received and reviewed in this Report
2513	Signatories to letters*
2877	Sources identified (i.e. in letter form or otherwise)+

* Includes multiple signatories to one letter or multiple letters from one address, etc.

+ A source is defined as an individual, organization or agency that submitted comments

Approximately 40 letters were received after the deadline and are included in this Report. Since there was no designated email address for comments, any e-mails received by MMS staff are included as letters.

Mailed letters were addressed to:
Minerals Management Service
MS 5412

1201 Elmwood Park Boulevard
New Orleans, LA 70123

Signatures were collected by two organizations against the proposed action. *Biltmore Shores Civic Association* collected approximately 151 individually-signed form letters. *Responsible Environmentalists for Saving Long Island's Oceans & Coastlines* submitted a list of 54 names attached to a petition. Since the two lists were manageable in size, all signatories were included in this Scoping Report.

Citizens Campaign for the Environment mailed a box of "YES to Wind!" petitions to MMS. This organization estimated 12,000 individuals signed the petition to express that they "believe that renewable energy needs to be given the opportunity to advance in our nation." MMS acknowledges and stipulates that they received the petitions on August 16, 2006. The signatories are not included in the Scoping Report, but original copies of petitions will be part of the administrative record of the EIS.

FOIA Package

The director of the *Save Jones Beach* organization submitted a package of materials for scoping on August 21, 2006. The package contained a variety of materials resulting from a Freedom of Information Act (FOIA) request to the ACE while the proposed wind park was under their jurisdiction.

MMS determined which materials were relevant to the current MMS scoping process. Comments provided during the ACE public notice comment period by Federal and state environmental and trade groups, organizations, and individuals are included in MMS scoping if they informed the MMS NEPA evaluation. Remaining materials will be placed in the administrative record.

Public Meetings

Two public meetings were scheduled as part of the scoping process. The first public EIS scoping meeting was held from 7:00 PM until midnight on Monday, July 10, 2006, at the West Babylon Performing Arts Center, 500 Great East Neck Road, West Babylon, New York. MMS panel members included Doug Slitor, Maureen Bornholdt, Tim Redding, and Thomas Bjerstedt. Glen Holcomb of the U.S. Geological Survey facilitated the meeting and a court reporter prepared a transcript. MMS has record of 347 members of the public, 4 elected officials, and 8 members of the press who signed up as meeting attendees. An informal count of attendees by MMS using a hand counter was approximately 750 people at 7:30 PM. Seven public officials and 69 members of the public gave formal public testimony.

The second public EIS scoping meeting occurred on Tuesday, July 11, 2006, at Massapequa High School, 4925 Merrick Road, Massapequa, New York. The same MMS and supporting staff were present. The meeting began at 7:00 PM and ended at approximately 11:45 PM. An informal count of attendees by MMS using a hand counter

was approximately 450 people at 7:30 PM. At least 7 elected officials and 7 members of the press were present. Three public officials and 77 members of the public gave formal testimony.

The agenda for the two scoping meetings was as follows:

5:30-6:45 PM	Registration
6:45-7:00 PM	Meeting Logistics, Facilitator Introduction
7:00-7:30 PM	Greeting, MMS Role, Meeting Purpose, Program Overview, EIS Process and Schedule <i>Doug Slitor, MMS Project Manager</i>
7:30-8:30 PM	Federal, State, or Local Elected Officials, or Administrators
8:30-end	Public Comment Period

OCS Public Connect

A total of 208 comments were submitted to MMS through the agency's internet-based public commenting system called OCS Public Connect, about 20 percent of which included attached documents.

3.0 SUMMARY OF SCOPING COMMENTS

The following coding will allow readers of the Scoping Report to track or trace comments.

Each **person, organization or agency** that offered a comment (i.e. by means of a letter, public testimony, or OCS Public Connect) is coded:

L1 = first letter, L2 = second letter, etc.

SW1 = first speaker (West Babylon)

SM1 = first speaker (Massapequa)

P1 = first OCS Public Connect entry

Additionally, each **comment** is coded:

C1 = conceptual concerns

I1 = impacts and issues of concern

A1 = alternatives

M = mitigation measures

G = general comments

Chapters 3.1 thru 3.5 list the approximate *number of people or groups that submitted a comment* for each issue or concern.

Appendix A identifies each person or group (by code) that submitted a comment listed in Chapters 3.1 thru 3.5.

Appendices B thru F identify the comments (by code) provided by each person or group (see Chapter 4).

The following chapter sections list the approximate *number of people or groups that submitted a comment* for each issue or concern. The actual people or groups that submitted each comment are identified (by code) in Appendix A.

3.1 Conceptual Concerns

Comments were considered to be conceptual concerns if they were broad or general, as opposed to a specific concern over a particular issue.

CODE	ISSUE or CONCERN	NUMBER of COMMENTS
C1	Support project	96
C1A	Support project for environmental reasons (i.e. human health, children, safety, the “environment” in general)	2123
C1B	Support project for energy independence or for other political reasons	1168
C1C	Support project for economic reasons	399
C2	Oppose project; prefer “no action” alternative	37
C2A	Oppose project for environmental reasons (e.g. it’s too dangerous; there are too many unknowns)	324
C2B	Oppose project for political reasons	60
C2C	Oppose project for economic reasons	293
C3	Support a “fair, full evaluation” (i.e. publicize all project justifications)	1565
C4	Support project IF it is evaluated AND the analysis determines there are no significant impacts	9

3.2 *Potential Impacts and Issues of Concern*

CODE	ISSUE or CONCERN	NUMBER of COMMENTS
<i>Impacts to the biological environment</i>		
I1	Benthic and Shellfish Resources	22
I1A	Define and characterize sediments along the proposed transmission route	4
I1B	Assess the benefits and impacts of artificial reef creation	8
I1C	Assess the impacts of submarine construction	8
I2	Protected Marine Species	90
I2A	Use the best available science as a baseline of fish stocks	4
I2B	Discuss the potential impacts on Essential Fish Habitat (EFH)	7
I2C	Discuss the impacts of monopile lights on resident species	1
I2D	Discuss the impacts of monopile lights on migrating species	2
I2E	Discuss the impacts of WTGs on resident marine species	6
I2F	Assess impact of wind park on tuna migrations, whales, turtles and other species	9
I2G	Assess impact of leaks and spills from stored oils, diesel, etc.	8
I2H	Discuss changes in species composition	3
I2I	Discuss impacts of increased vessel traffic	1
I2J	Discuss impacts of potential thermal emissions	1
I2K	Discuss impacts of artificial reef addition	3
I2L	Discuss the impact of shading from turbines	2
I2M	Discuss the impacts of wave disturbance and alternative wave currents	2
I2N	Assess the impact on state and federal threatened and endangered (T/E) species and species of special concern	4
I3	Terrestrial Ecology, Wildlife, and Protected Species	68
I3A	Consider impacts on sea beach amaranth, submerged aquatic vegetation, and other marine vegetation	4
I3B	Discuss impacts to onshore and nearshore habitat	3
I3C	Discuss impacts to offshore habitat	2
I3D	Discuss impacts of WTGs on bats – day and night	2
I3E	Discuss impacts to onshore vegetation	1
I4	Avian Resources	80
I4A	Conduct preconstruction baseline studies (for example, as described by FWS)	6
I4B	Discuss potential avian electrocutions	2
I4C	Assess impact of monopile lights on resident birds	4
I4D	Assess impact of monopile lights on migrating birds	6
I4E	Consider T/E bird species (Piping Plover, Roseate Tern, etc.)	6
I4F	Consider impacts of wind farm construction on migration	13
I4G	Consider impacts of wind farm operation on migration	11

3.3 *Alternatives*

CODE	ISSUE or CONCERN	NUMBER of COMMENTS
A1	Consider alternative renewable energy sources (i.e. not including wind); conserve energy instead	53
A2	Consider alternatives within current proposal	37
A2A	Do not fast track the EIS	5
A2B	Delay the process until rules are promulgated	6
A2C	Use alternative cable routes on land (e.g. the Wantagh Causeway)	1
A2D	Provide the public with an analysis of the alternative sites; determine best location with input from public	2
A2E	Place WTGs on land	2
A3	Update existing facilities	293
A4	Expand the current plan	3
A4A	Determine how expansion will look in the future and potential cumulative impacts	3

3.4 *Mitigation Measures*

CODE	ISSUE or CONCERN	NUMBER of COMMENTS
M	Include mitigation measures	18
M1	Obtain necessary permits	5
M2	Establish a long-term monitoring program	5
M3	Protect shoreline stability	1
M4	Use newer vessels with engines that emit fewer air and water pollutants	1
M5	Paint turbines a different color to lessen impacts	2
M6	Enact time of year restrictions on some activities	1
M7	Utilize adaptive management techniques	3

3.5 General Comments

General comments pertain to relevant aspects of the project that are not easily categorized elsewhere.

CODE	ISSUE or CONCERN	NUMBER of COMMENTS
G	General – the comment may have included additional data and/or research for review	93
G1	Use only peer-reviewed technical literature and ensure access to primary research, not just internal industry reports	10
G2	Coordinate with the NYS Public Service Commission (Article VII integration) and other state agencies	3
G3	Refer to existing LIPA studies, studies in Europe, and studies of Cape Wind	7
G4	Perform a regulatory review; comply with all state and Federal laws	21
G5	Include impacts of staging activities, maintenance, and decommissioning	6
G6	Thoroughly justify project costs, need, and methods; perform a cost-benefit analysis; compensate for “takings”	17
G7	Compare project to Long Island South Shore Estuary Reserve’s Comprehensive Management Plan	1
G8	Consult with the New Jersey Coastal Zone Management Office, since the project (especially the staging area) will affect them	1

4.0 SUMMARY OF PEOPLE OFFERING COMMENTS

Appendices B through F identify the comments (by code) provided by each individual, organization, or government agencies. Copies of the actual comments can be found as Adobe PDF files in Volume II of this Report. The contents of each appendix are described briefly below:

Appendix B includes **individuals** (organized by last name) who submitted letters. Adobe PDF file names are included. File names are italicized when one letter includes two or more signatures. File names are repeated when separate letters were submitted by two or more individuals from one address.

Appendix C also includes **individuals** who submitted letters. Although letters may correspond to Adobe PDF files in Volume II, some were not linked to specific file names. This may have been because the signatures were illegible, the comments were from an anonymous source with no return address, or the letter was separated from the mailing envelope during the process of matching source numbers to files.

Appendix D includes all **agencies and organizations** that sent letters, provided testimony, and/or submitted comments through OCS Public Connect. Adobe PDF file names are included.

Appendix E includes all people who spoke at one or both of the **public scoping meetings** in July. The Adobe PDF file names for all entries are:

- Transcripts_7-10-06_MMS LIOWP EIS Scoping Mtg_W Babylon
- Transcripts_7-11_06_MMS LIOWP EIS Scoping Mtg_Massapequa

Appendix F includes all people who submitted e-mail comments through **OCS Public Connect** on the MMS website. The Adobe PDF file name for all entries is:
 LIOWP scpng cmts from OCS Pub Con 2

The following table shows the numbers of individuals, organizations and agencies that submitted comments and are identified in Appendices B thru F:

CODE	App. B	App. C	App. D	App. E	App. F	TOTAL
Letter (L)	2417	49	47			2513
Scoping Meeting Testimonies (SW, SM)				76 (W. Babylon) 80 (Massapequa)		156
OCS Public Connect (P)					208	208
<i>Number of People, Organizations and Agencies that Provided Comments</i>						2877

Appendix G is a list of supplementary materials provided by the individuals, agencies and organizations identified in Appendices B thru F.

5.0 NEXT STEPS

Many people who offered comments have asked MMS for a response. Scoping for an EIS is a means by which an agency receives the views of various constituencies regarding the scope of the issues and concerns to be evaluated in the EIS. Therefore, MMS does not plan to respond individually to people who offered comments during scoping. Public comments from scoping are one input. Other inputs for the evaluation are provided by the lead agency and the cooperating agencies according to their special knowledge or expertise.

This Scoping Report, the public meeting transcripts, and all submitted materials and letters received by MMS during the scoping period are available on the MMS website at <http://www.mms.gov/offshore/RenewableEnergy/LIOWP.htm>.

MMS will continue to prepare the draft EIS (DEIS) for release in April 2007. The DEIS will summarize the results of the scoping process, identifying the significant issues and concerns analyzed and explain why other issues or concerns were not analyzed. At the time of release, the public will have a 60-day opportunity to review and comment on the DEIS.

MMS is required to consider comments made during the DEIS comment period both individually and collectively. Responses will be incorporated into the final EIS, which is scheduled for release in February 2008.

The Department of the Interior Mission

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering sound use of our land and water resources; protecting our fish, wildlife, and biological diversity; preserving the environmental and cultural values of our national parks and historical places; and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to ensure that their development is in the best interests of all our people by encouraging stewardship and citizen participation in their care. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under U.S. administration.

The Minerals Management Service Mission

As a bureau of the Department of the Interior, the Minerals Management Service's (MMS) primary responsibilities are to manage the ocean energy and mineral resources on the outer continental shelf (OCS) in an environmentally sound & safe manner and to timely collect, verify, and distribute mineral revenues from Federal and Indian lands.

The MMS strives to fulfill its responsibilities through the general guiding principles of: (1) being responsive to the public's concerns and interests by maintaining a dialogue with all potentially affected parties and (2) carrying out its programs with an emphasis on working to enhance the quality of life for all Americans by lending MMS assistance and expertise to economic development and environmental protection.
