- The first broadcast was from Washington, D.C. on May 20, 1985.
- Programs air 24 hours a day 6 days a week, and 18 hours a day one day a week on shortwave and medium wave (AM).

OFFICE OF CUBA BROADCASTING AND THE CUBAN GOVERNMENT

- Office of Cuba Broadcasting (OCB) broadcasts attempt to fill the information gap caused by more than four decades of Cuban government censorship.
- Massive jamming efforts by the Cuban government still make it difficult to receive signals in the center of the capital of Havana.
- In 16 other Latin American countries, regional cable systems acquire TV Martí programs via satellite and rebroadcast them to local audiences.

THE BROADCASTING BOARD OF GOVERNORS (BBG)

- The BBG is an independent federal agency that oversees all non-military U.S. international broadcasting including Radio and TV Martí.
- The bi-partisan Board is comprised of nine members, appointed by the President and confirmed by the Senate, including the Secretary of State.
- Its mission is “To promote and sustain freedom and democracy by broadcasting accurate and objective news and information about the United States and the world to audiences overseas.”
