Sources: With the exception of net realized capital gains, all data used to generate the TTR estimates come from the Bureau of Economic Analysis. The most recent Gross State Product and state personal income data series were released in September 2000. Several unpublished estimates from both data series were used to estimate TTR. The estimates for net realized capital gains are from the Internal Revenue Service, Statistics of Income Bulletin, Spring issues 1996-2000.

For details about the methodology for estimating TTR, please visit the TTR web site at [www.treas.gov/offices/economic-policy/resources/index.html](http://www.treas.gov/offices/economic-policy/resources/index.html). Please direct questions or comments regarding TTR to the Treasury Department at (202) 622-2200.
