**Purpose of Form**

Form 8827 is used by corporations to compute the minimum tax credit, if any, for alternative minimum tax (AMT)

incurred in prior tax years and to compute any minimum tax credit carryforward that may be used in future years.

**Who Should File**

Form 8827 should be completed by corporations that had:

- An AMT liability in 1991;
- A minimum tax credit carryforward from 1991 to 1992; **or**
- A 1991 unallowed nonconventional source fuel credit or a 1991 unallowed orphan drug credit (see **Line 3** below).

**Recordkeeping.**—Use Form 8827 each year to see if the corporation has a minimum tax credit and to keep a record of any credit carryforward.

**Specific Instructions**

**Line 3**

Enter the unused portion of the 1991 credit for fuel produced from a nonconventional source that was not allowed solely because of the limit under section 29(b).

Also include on this line the unused portion of any 1991 orphan drug credit not allowed solely because of the limit under section 28(d)(2)(B).

**Line 5**

Enter the corporation's regular income tax liability (as defined in section 26(b)) minus any credits allowed under Subchapter A, Part IV, subparts B, D, E, and F of the Internal Revenue Code (e.g., if you are filing Form 1120 for 1992, subtract any credits on lines 4a through 4e, Schedule J, from the amount on line 3, Schedule J).

**Line 8**

If the corporation had a post-1986 "ownership change" (as defined in section 382(g)), section 383 may limit the amount of prechange minimum tax credits that can be applied against the corporation's tax for any tax year ending after the ownership change. If this limit applies, attach the computation of the allowable minimum tax credit, enter that amount on line 8, and write "Sec. 383" on the dotted line to the left of the line 8 entry space. In addition, see section 384 for the limit on the use of any preacquisition excess credit of one corporation to offset recognized built-in gains of another corporation.

**Line 9**

Keep a record of this amount because it can be carried forward and used in future years.
