18	1997 credit carryforward to 2000. Enter the smaller of line 5 or line 17	18		
19	1999 credit carryforward to 2000. Subtract line 11 from line 3. If line 11 is equal to or more than line 3, enter -0-	19		

General Instructions

Purpose of Form

Use Form 8396 to figure the mortgage interest credit for 1999 and any carryforward to 2000.

Who May Claim the Credit

You may claim the credit only if you were issued a qualified Mortgage Credit Certificate (MCC) by a state or local governmental unit or agency under a qualified mortgage credit certificate program.

Certificates issued by the Federal Housing Administration, Department of Veterans Affairs, and Farmers Home Administration, and Homestead Staff Exemption Certificates do not qualify for the credit.

The home to which the certificate relates must be your **main home** and also must be **located in the jurisdiction** of the governmental unit that issued the certificate.

If the interest on the mortgage was paid to a **related person**, you **cannot** claim the credit.

Refinanced Mortgage Credit Certificates

You can refinance your mortgage without losing this Federal subsidy if your existing MCC is reissued and the reissued certificate meets the following conditions.

1. It must be issued to the holder(s) of the existing certificate for the same property,
2. It must entirely replace the existing certificate (that is, the holder cannot retain any portion of the outstanding balance of the existing certificate),
3. The certified indebtedness specified on the reissued certificate cannot exceed the outstanding balance shown on the existing certificate,
4. The credit rate (line 2) of the reissued certificate cannot exceed the credit rate of the existing certificate, and
5. The reissued certificate cannot result in a larger line 3 credit than would otherwise have been allowable under the existing certificate for any tax year.

For each tax year, you must determine the amount of credit that you would have been allowed using your old MCC by multiplying the interest that was scheduled to be paid on your original mortgage by the certificate rate on your original MCC. That figure may limit your line 3 credit allowed when you have a reissued MCC, even if your new loan has a lower interest rate.

If, in the year you refinanced, the certificate credit rates are different, attach a statement showing the separate calculations for lines 1, 2, and 3 for the applicable parts of the year when the original MCC and the reissued MCC were in effect. Combine the amounts of each line 3, enter the total on line 3 of the form, and write "see attached" on the dotted line.

For more details, see **Form 8828**, Recapture of Federal Mortgage Subsidy, and read the special rules for refinancing your home, or see Regulations section 1.25-3(p).

Recapture of Credit

If you bought a home after 1990 using an MCC, and sell that home within 9 years, you may have to recapture (repay) some of the credit. See **Pub. 523**, Selling Your Home, and Form 8828.

Specific Instructions

Note: If you refinanced during the year, see **Refinanced Mortgage Credit Certificates** above.

Line 1. Enter the interest you paid during the year on the loan amount shown on your MCC. In most cases, this will be the amount shown on **Form 1098**, Mortgage Interest Statement, in box 1, or on a similar statement that you received from your mortgage holder. The loan amount (certified indebtedness amount) shown on your MCC may be less than your total mortgage loan. If so, you must

allocate the interest to determine what part relates to the amount of the loan covered by the MCC. See **Pub. 530**, Tax Information for First-Time Homeowners, for an example of how to make the allocation.

Line 3. If the certificate credit rate shown on line 2 is more than 20%, do not enter more than \$2,000 on line 3. If you refinanced, see **Refinanced Mortgage Credit Certificates** on this page.

If you and someone else (other than your spouse if you file jointly) held an interest in the home, the \$2,000 limit must be allocated to each owner in proportion to the interest held. See Pub. 530 for an example of how to make the allocation.

Reduction of Home Mortgage Interest on Schedule A (Form 1040). If you itemize your deductions on Schedule A (Form 1040), you must subtract the amount shown on line 3 of Form 8396 from the total deductible interest you paid on your home mortgage, even if part of the amount on line 3 is carried forward to 2000.

Lines 12 Through 19. If the amount on line 11 is less than the amount on line 7, you may have an unused credit to carry forward to the next 3 tax years or until used, whichever comes first. Because the unused credit can only be carried forward for 3 years, you will have to keep track of each year's unused credit. The current year credit is used first and then the prior year credits, beginning with the earliest prior year.

If you have any unused credit to carry forward to 2000, be sure you keep a copy of this form to figure your credit for 2000.

Note: If you are subject to the \$2,000 credit limit because your certificate credit rate is more than 20%, no amount over the \$2,000 limit for any tax year (or your prorated share of the \$2,000 if you must allocate the credit) may be carried forward for use in a later year.

Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. You are required to give us the information. We need it to ensure that you are complying with these laws and to allow us to figure and collect the right amount of tax.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by Internal Revenue Code section 6103.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated average time is: **Recordkeeping**, 46 min.; **Learning about the law or the form**, 5 min.; **Preparing the form**, 28 min.; and **Copying, assembling, and sending the form to the IRS**, 14 min.

If you have comments concerning the accuracy of these time estimates or suggestions for making this form simpler, we would be happy to hear from you. See the Instructions for Form 1040.
