1. Date of Submission: 2. Agency: 3. Bureau: 4. Name of this Capital A. Sare of the Sare of the Sare of this Capital A. Sare	PART ONE									
2. Agency: 3. Bureau: 4. Name of this Capital Asset: 5. Unique Project Identifier: 6. What kind of investment will this be in Fr2009? Operations and Maintenance 7. What was the first budget year this investment was submitted to OMB? FY2001 or earlier 8. Provide a bird summary and justification for this investment, including a bird description of how this closes in part or in whole an identified agency performance gap. PACER On-Line (POL) was initiated in fiscal year 1997 to automate the claims and accounting processes for FMS' disbursing function. As a result of the Debt Collection Act of 1996, the original PACER initiative, (Payments, Accounting, Claims and Enhanced Reconciliation) was rescoped and renamed POL. The payments and reconciliation modules were removed from the overall scope. POL was broken into two modules, the first provided users with the capability to view information about payments that were issued, request claims against those payments and view paid check images. The second module replaced the legacy claims system at the Regional Finance Centers and automated the Regional Disbursing Officer's accounting functions. Part of the investment includes the Digital Check Imaging Replacement (OCIR) system which is how users view check images through POL. PACER closes agency performance gaps by centralizing and modernizing the Regional Disbursing Officer's accounting processes and allowing agencies to view detail Information about their payments as well as viewing images of paid checks. POL was reviewed and approved by the FMS Investment Review Board and subsequently the FMS Executive Board. The POL investment was fully implemented during the 1st quarter of PY 2003. The POL investment is in the Steady State phase of the FMS Capital Planning and Investment Control (CPIC) process. 9. But the Agency's Executive/Investment Committee approve this request? 9. But the Agency's Executive/Investment Committee approve this request? 9. But the Agency's Executive/Investment Committee approve this reques	OVERVIEW

12.a. Will this investment include electronic assets (including computers)?	no									
	12.a. Will this investment include	electronic assets (including computers)?								

yes

12.b. Is this investment for new construction or major retrofit of a Federal building or facility? (answer applicable to non-IT assets only)

no

13. Does this investment directly support one of the PMA initiatives?

Ves

If yes, select the initiatives that apply:

Expanded E-Government

13.a. Briefly and specifically describe for each selected how this asset directly supports the identified initiative(s)? (e.g. If E-Gov is selected, is it an approved shared service provider or the managing partner?)

One of the PMA Expanded E-Government initiatives is to provide taxpayers with real time status of their refunds via the internet. PACER is the system of record for all payments issued by the Financial Management Service (FMS). In addition, the PACER database serves as a data warehouse, supplying numerous agencies, systems and applications real time payment data. The IRS CADE application uses the PACER data warehouse to provide taxpayers with refund payment information via the internet.

14. Does this investment support a program assessed using the Program Assessment Rating Tool (PART)?

yes

14.a. If yes, does this investment address a weakness found during the PART review?

no

14.b. If yes, what is the name of the PARTed program?

Financial Management Service Payments

14.c. If yes, what rating did the PART receive?

Effective

15. Is this investment for information technology?

yes

16. What is the level of the IT Project (per CIO Council's PM Guidance)?

Level 3

- 17. What project management qualifications does the Project Manager have? (per CIO Council's PM Guidance)
- (1) Project manager has been validated as qualified for this investment
- 18. Is this investment identified as high risk on the Q4 FY 2007 agency high risk report (per OMB memorandum M-05-23)?

yes

19. Is this a financial management system?

yes

19.a. If yes, does this investment address a FFMIA compliance area?

no

19.a.2. If no, what does it address?

FMS mission critical payment, claims and accounting processes.

19.b. If yes, please identify the system name(s) and system acronym(s) as reported in the most recent financial systems inventory update required by Circular A11 section 52.

Payments, Claims and Enhanced Reconciliation.

20. What is the percentage breakout for the total FY2008 funding request for the following? (This should total 100%)

Hardware	0				
Software	0				
Services	19				
Other	81				
Of this arrived and the discountry time time and the fact the mobile and the scale and the leaders time and the leaders time and the scale and the leaders time and the scale and the sc					

21. If this project produces information dissemination products for the public, are these products published to the Internet in conformance

with OMB Memorandum 05-04 and included in your agency inventory, schedules and priorities? n/a 22. Contact information of individual responsible for privacy related questions. Name Phone Number Title FMS Senior Official for Privacy Email 23. Are the records produced by this investment appropriately scheduled with the National Archives and Records Administration's approval? yes 24. Does this investment directly support one of the GAO High Risk Areas?

SUMMARY OF SPEND

1. Provide the total estimated life-cycle cost for this investment by completing the following table. All amounts represent budget authority in millions, and are rounded to three decimal places. Federal personnel costs should be included only in the row designated Government FTE Cost, and should be excluded from the amounts shown for Planning, Full Acquisition, and Operation/Maintenance. The total estimated annual cost of the investment is the sum of costs for Planning, Full Acquisition, and Operation/Maintenance. For Federal buildings and facilities, life-cycle costs should include long term energy, environmental, decommissioning, and/or restoration costs. The costs associated with the entire life-cycle of the investment should be included in this report.

All amounts represent Budget Authority

	PY-1 & Earlier	PY	СҮ
	-2006	2007	2008
Planning Budgetary Resources	0.000	0.000	0.000
Acquisition Budgetary Resources	7.052	0.000	0.000
Maintenance Budgetary Resources	10.445	3.694	3.814
Government FTE Cost	4.135	0.884	0.911
# of FTEs	55	5 11	11

Note: For the cross-agency investments, this table should include all funding (both managing partner and partner agencies).

Government FTE Costs should not be included as part of the TOTAL represented.

2. Will this project require the agency to hire additional FTE's?

no

2.a. If "yes," how many and in what year?

N/A

PERFORMANCE

In order to successfully address this area of the exhibit 300, performance goals must be provided for the agency and be linked to the annual performance plan. The investment must discuss the agency's mission and strategic goals, and performance measures (indicators) must be provided. These goals need to map to the gap in the agency's strategic goals and objectives this investment is designed to fill. They are the internal and external performance benefits this investment is expected to deliver to the agency (e.g., improve efficiency by 60 percent, increase citizen participation by 300 percent a year to achieve an overall citizen participation rate of 75 percent by FY 2xxx, etc.). The goals must be clearly measurable investment outcomes, and if applicable, investment outputs. They do not include the completion date of the module, milestones, or investment, or general goals, such as, significant, better, improved that do not have a quantitative measure.

Agencies must use the following table to report performance goals and measures for the major investment and use the Federal Enterprise Architecture (FEA) Performance Reference Model (PRM). Map all Measurement Indicators to the corresponding Measurement Area and Measurement Grouping identified in the PRM. There should be at least one Measurement Indicator for each of the four different Measurement Areas (for each fiscal year). The PRM is available at www.egov.gov. The table can be extended to include performance measures for years beyond FY 2009.

	Fiscal Year	Strategic Goal Supported	Measurement Area	Measurement Grouping	Measurement Indicator	Baseline	Planned Improvement to the Baseline	Actual Results
1	2007	Manage the U.S. Government's Finances Effectively	Mission and Business Results	Payments	% of Regional Financial Centers Monthly Statements of Accountability (1219s) for payments/disbursements submitted by the first business day of the Month	100%	100%	100% end of FY 07

EΑ

In order to successfully address this area of the business case and capital asset plan you must ensure the investment is included in the agency's EA and Capital Planning and Investment Control (CPIC) process, and is mapped to and supports the FEA. You must also ensure the business case demonstrates the relationship between the investment and the business, performance, data, services, application, and technology layers of the agency's EA.

1. Is this investment included in your agency's target enterprise architecture?

yes

2. Is this investment included in the agency's EA Transition Strategy?

yes

2.a. If yes, provide the investment name as identified in the Transition Strategy provided in the agency's most recent annual EA Assessment.

PACER

2.b. If no, please explain why?

N/A

3. Is this investment identified in a completed (contains a target architecture) and approved segment architecture?

ves

3.a. If yes, provide the name of the segment architecture as provided in the agency's most recent annual EA Assessment.

Central Fiscal Operations Segment Architecture Roadmap (FMS)

4. Identify the service components funded by this major IT investment (e.g., knowledge management, content management, customer relationship management, etc.). Provide this information in the format of the following table. For detailed guidance regarding components, please refer to http://www.whitehouse.gov/omb/egov/.

Component: Use existing SRM Components or identify as NEW. A NEW component is one not already identified as a service component in the FEA SRM.

Reused Name and UPI: A reused component is one being funded by another investment, but being used by this investment. Rather than answer yes or no, identify the reused service component funded by the other investment and identify the other investment using the Unique Project Identifier (UPI) code from the OMB Ex 300 or Ex 53 submission.

Internal or External Reuse?: Internal reuse is within an agency. For example, one agency within a department is reusing a service component provided by another agency within the same department. External reuse is one agency within a department reusing a service component provided by another agency in another department. A good example of this is an E-Gov initiative service being reused by multiple organizations across the federal government.

Funding Percentage: Please provide the percentage of the BY requested funding amount used for each service component listed in the table. If external, provide the funding level transferred to another agency to pay for the service.

	Agency Component Name	Agency Component Description	Service Type	Component	Reused Component Name	Reused UPI	Internal or External Reuse?	Funding %
1	Billing and Accounting	Accounting for payments and claims	Financial Management	Billing and Accounting			No Reuse	30
2	Data Warehouse	DB central repository for payments and claims	Data Management	Data Warehouse			No Reuse	10
3	Conflict Resolution	Assist in resolving claims	Tracking and Workflow	Conflict Resolution			No Reuse	15
4	Payment / Settlement	Settle claims against payments issued	Financial Management	Payment / Settlement			No Reuse	15
5	Data Exchange	Provide data to other systems	Data Management	Data Exchange			No Reuse	10
6	Data Mart	System of record for payment data	Data Management	Data Mart			No Reuse	10

5. To demonstrate how this major IT investment aligns with the FEA Technical Reference Model (TRM), please list the Service Areas, Categories, Standards, and Service Specifications supporting this IT investment.

FEA SRM Component: Service Components identified in the previous question should be entered in this column. Please enter multiple rows for FEA SRM Components supported by multiple TRM Service Specifications.

Service Specification: In the Service Specification field, Agencies should provide information on the specified technical standard or vendor product mapped to the FEA TRM Service Standard, including model or version numbers, as appropriate.

	SRM Component	Service Area	Service Category	Service Standard	Service Specification (i.e., vendor and product name)
1	Data Exchange	Service Access and Delivery	Delivery Channels	Peer to Peer (P2P)	
2	Data Mart	Service Platform and Infrastructure	Database / Storage	Database	
3	Data Warehouse	Service Platform and Infrastructure	Database / Storage	Storage	
4	Billing and Accounting	Service Platform and Infrastructure	Software Engineering	Integrated Development Environment	
5	Payment / Settlement	Service Platform and Infrastructure	Support Platforms	Platform Dependent	
6	Conflict Resolution	Service Platform and Infrastructure	Software Engineering	Test Management	

6. Will the application leverage existing components and/or applications across the Government (i.e., FirstGov, Pay.Gov, etc)?

no

6.a. If yes, please describe.

N/A

PART THREE

RISK

You should perform a risk assessment during the early planning and initial concept phase of the investment's life-cycle, develop a risk-adjusted life-cycle cost estimate and a plan to eliminate, mitigate or manage risk, and be actively managing risk throughout the investment's life-cycle.

Answer the following questions to describe how you are managing investment risks.

1. Does the investment have a Risk Management Plan?

yes

1.a. If yes, what is the date of the plan?

2006-06-15

1.b. Has the Risk Management Plan been significantly changed since last year's submission to OMB?

no

COST & SCHEDULE

1. Was operational analysis conducted?

yes

1.a. If yes, provide the date the analysis was completed.

2007-10-17

What were the results of your operational analysis?

The PACER operational analysis confirms that the investment continues to meet the strategic and business goals of the organization. PACER-On-Line Database is the System of Record for all Federal government payments that are disbursed through the Treasury. Stakeholders include the FMS Regional Financial Centers, IRS, Social Security, Veterans Administration, OPM, and others. PACER provides real time information to FMS customers related to electronic and check payments disbursed by FMS and performs accounting and claims operations. The PACER Computer Science Contract continues to meet a pre-established cost and schedule baseline. PACER reports EVM metrics well within the 10% threshold for both contractor and FMS FTE support. All performance goals are met within the agreed time frame for message alerts or customer requested changes/corrections. PACER investment is identified in the Central Fiscal Operations Segment Architecture Roadmap and is represented in both the payments and claims segments for the functionality it provides. PACER aligns with the FEA Consolidated Reference Model Version 2 for its SRM and TRM

components. PACER was reviewed by the FMS Architecture Review Board in September 2006. That review is the basis for some of the findings in the analysis. PACER distributed a customer survey to the Regional Financial Center Deputy Directors since the majority of functionality was designed to support the daily operations of the centers. This analysis and customer survey focused on how well PACER supports the customer and how well it is delivering the goods and services it was designed to deliver. It asked each center to respond to their level of satisfaction in the following 6 areas; ease of use, functionality provided, that results are produced in a timely manner, system security, system availability and that output is accurate and correct. The Deputy Directors have responded on behalf of their centers and gave an above satisfactory ranking to all 6 areas of support that were included in the survey.
