

Your newest trauma tool isn't in here.

Seriously injured patients rely on you to give the best medical attention and care. To do that, you need knowledge, experience and the proper tools. That's why the Centers for Disease Control and Prevention (CDC) has released the widely endorsed ***Field Triage Decision Scheme: The National Trauma Triage Protocol*** to help EMTs and paramedics choose the best transport destination for trauma patients. Designed in partnership with other leading organizations and experts in injury care, the Decision Scheme has been published in the prestigious *MMWR Report & Recommendations*. It's a valuable tool that can help your EMS system save lives.
