### General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those notes above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon and Related Acts." This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

The general wage determinations issued under the Davis-Bacon and related Acts are available electronically by subscription to the FedWorld Bulletin Board System of the National Technical Information Service (NTIS) of the US Department of Commerce at 1-800-363-2068.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the seven separate volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates are distributed to subscribers.

Signed at Washington, DC, this 29th day of July 1999.

## DEPARTMENT OF LABOR

### Mine Safety and Health Administration

#### Notice of Public Hearing

**AGENCY:** Mine Safety and Health Administration (MSHA), Labor.

**ACTION:** Notice of public hearing.

**SUMMARY:** This notice sets a date, time and place for a public hearing in connection with MSHA's accident investigation of the July 5, 1999 explosion at Kaiser Aluminum & Chemical Company's Gramercy Works facility in Gramercy, Louisiana.

The United States Department of Labor, Mine Safety & Health Administration will convene a public hearing as part of the Agency's accident investigation into the July 5, 1999 explosion at the Kaiser Aluminum & Chemical Company's Gramercy Works facility in Gramercy, Louisiana.

The hearing will begin at 9:00 A.M. CDT on Wednesday, September 8, 1999, at the St. James Parish Courthouse, Council Chambers, 2nd Floor, 5800 LA 44, Convent, Louisiana 70723. It will continue at such time(s) and place(s) as MSHA designates.

The hearing is convened pursuant to Section 103(b) of the Federal Mine Safety & Health Act of 1977, 30 USC Section 813(b). The purpose of the hearing is to carry out MSHA's statutory responsibility to (1) determine the cause(s), including possible contributory causes, of the explosion; (2) identify and develop corrective actions, procedures and strategies to prevent the occurrence of similar accidents; and (3) determine whether federal safety standards were violated in relation to the explosion. The hearing will be non-adversarial and fact-finding in nature, and questioning will be limited to the statutory purposes. The hearing will not be subject to the provisions of the Administrative Procedure Act, 5 USC Section 554.

All of the questioning will be done by an MSHA panel comprised of Agency personnel, experts retained by MSHA, and representatives from the Department of Labor's Office of the Solicitor. Representatives of the operator, the miners or any other interested person may submit written questions or areas of inquiry for MSHA to consider. MSHA will determine—at its sole discretion—whether said supplemental questions will be asked. Such supplemental questioning will be conducted by the MSHA panel.

Representatives of the operator, representatives of miners at the facility, and any other interested persons are invited to provide the names of potential witnesses with relevant information concerning the accident. A brief description of the possible relevant testimony of the potential witness should be included when witness names are submitted. MSHA will make the final determination of which witnesses will be called to testify. Suggested questions and the names of potential witnesses should be provided to Edward Lopez at the address below.

Witnesses will be subpoenaed by the Agency. The subpoena will advise the witness of the date and time of his/her required appearance, as well as of the location of the hearing. Some witnesses

may be required to bring certain records with them at the time of their appearance. Witnesses are encouraged to review any records necessary to refresh or supplement their recollection prior to appearing to testify.

**DATES:** The hearing will begin at 9:00 A.M. CDT, September 8, 1999.

**ADDRESSES:** The hearing will be held in St. James Parish Courthouse, Council Chambers, 2nd Floor, 5800 LA 44, Convent, Louisiana 70723.

**NUCLEAR REGULATORY COMMISSION**

**Documents Containing Reporting or Recordkeeping Requirements; Office of Management and Budget (OMB) Review**

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. Type of submission, new, revision, or extension: Revision

2. The title of the information collection: Proposed rule, "Requirements for Certain Generally Licensed Industrial Devices Containing Byproduct Material" (10 CFR Parts 30, 31, 32, 170, and 171).

3. The form number if applicable: NRC Form 653, Transfers of Industrial Devices Report

4. How often is the collection required: Quarterly, Annually, On Occasion.

5. Who will be required or asked to report: NRC licensees and Agreement State licensees.

6. An estimate of the number of responses: NRC licensee responses are 20,320 and Agreement States responses are 18,670, for a total of 38,990 responses.

7. The estimated number of annual respondents: 6,340.

8. An estimate of the total number of hours needed annually to complete the requirement or request: NRC licensees = 511, Agreement States = 602 for a total of 1,113 hours.

9. An indication of whether section 3504(h), Pub. L. 96-511 applies: Applicable.

10. Abstract: The proposed rule would include the addition of more explicit requirements concerning a registration requirement that the NRC plans to initiate through an earlier proposed rule (December 2, 1998; 63 FR 66942). This action proposes to include in the regulations the specific criteria for inclusion in the registration program and details about the information required. The amendments would also modify the quarterly transfer reporting, recordkeeping, and labeling requirements for specific licensees who distribute these generally licensed devices and provide clarifications concerning provisions of the regulations applicable to all general licensees for byproduct material. The proposed rule is intended to allow the NRC to better track general licensees so that they can be contacted or inspected, to make sure that the devices can be identified even if lost or damaged, and to further ensure that general licensees are aware of and understand the requirements for the possession of devices containing byproduct material. Greater awareness helps to ensure that general licensees will comply with the requirements for proper handling and disposal of generally licensed devices and would reduce the potential for incidents that could result in unnecessary radiation exposure to the public and contamination of property.

Submit, by September 7, 1999, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
