Abstract: NOAA's Office of Education ([OEd](#)) staff will provide an overview of our Scholarship Programs, roles and responsibilities of NOAA mentors, and answer any questions you may have about hosting a summer intern (at no cost to you) or hiring a graduate student. [OEd](#) sponsors 140 undergraduate students each year through the Educational Partnership Program and Ernest F. Hollings Undergraduate scholarship programs to conduct summer internships at NOAA. The OEd provides academic stipends, summer stipends, summer housing subsidies, and travel expenses. Mentors are requested to submit an internship opportunity which describes the 9-week summer project to studentscholarshipprograms@noaa.gov indicating their interest in hosting a scholar. Interested scholars will then contact potential mentors as they seek their summer placements. All summer placements are expected to be finalized by November 30, 2008. OEd staff will also discuss how managers can hire graduate students to fill positions through the Graduate Sciences Program. For more information on the undergraduate program please visit the [Mentor Frequently Asked Questions](#) (<http://www.oesd.noaa.gov/mentorFAQs.htm>); more information on the graduate sciences program is available at http://educationalpartnership.noaa.gov/grad_science/welcome.html; or contact Priti Brahma or Chantell Haskins at studentscholarshipprograms@noaa.gov or (301) 713-9437.
