

## *Some Recollections by Our Panel*

Seymour Cohen

*Virus Induced Enzymes*, 1968.

"Recollections on the Northrop Hypothesis and the Origins of Virus Induced Enzymes," *Protein Science* (January 1994).

Erwin Chargaff

*Heracleitean Fire — Sketches from Life Before Nature*, 1978.

"How Genetics Got a Chemical Education," *Ann. N.Y. Acad. Sci.*, 325 (1979): 345-360.

Maclyn McCarty

*The Transforming Principle — Discovering that Genes are Made of DNA*, 1985.

"Reminiscences of the Early Days of Transformation," *Ann. Rev. Genetics*, 14 (1980): 1-15.

Rollin Hotchkiss

"Gene, Transforming Principle, and DNA," in *Phage and the Origins of Molecular Biology*, 1966, pp. 180-200.

"The Identification of Nucleic Acids as Genetic Determinants," *Ann. N.Y. Acad. Sci.*, 325 (1979): 321-342.

Alfred Hershey

"The Injection of DNA into Cells by Phage," in *Phage and Origins of Molecular Biology*, pp. 100-108.

Joshua Lederberg

"Genetic Recombination in Bacteria: A Discovery Account," *Ann. Rev. Genetics*, 21 (1987): 23-46.

"The Transformation of Genetics by DNA," *Genetics*, 136 (1994): 2.

Nature 1944 - 2 refs. to Avery.

Ken Cooper 1954

S. Cohen 1944 - "estimation of DNA. independent of Avery." JBR. ? cited.

" 1947 phage DNA attempted cross. CSH.

[Stanley - tried to make mutants in TMV protein]
