I have to say that I **completely** disagree with this proposed ruling!!!! If I am on the ground; I most certainly do not want to be run over by a loader operator who may be under the influence of any type of substance. This ruling could do away with the drug-free workplace as well as undermine corporate policy.

As a concerned miner, I beg you not to pass this ruling. I honestly feel that the lives of many would be endangered by the actions of a few. I always thought that MSHA was about keeping us safe – this proposal is making me doubt that very seriously.
