## **Pricing Worksheets**

These worksheets are for the pricing of all award groups. There is a separate pricing table for each award group. The tables allow price entry for all potential usage levels for the first year and the four subsequent option years. Every price entry corresponds to a Contract Line Item Number (CLIN). The government reserves the right to order any combination of services represented by separately priced CLINs.

Pricing is to be entered as "price per user" (except for "Unlimited Access" pricing - see below). The spreadsheet will automatically calculate the resulting monthly and annual pricing for your review.

The Offeror must annotate "No Bid" for any item(s) that the Offeror will not be proposing to the Government under this solicitation.

Enter pricing ONLY in unshaded (i.e. white) cells. All other cells automatically calculate their values, and are locked to prevent data entry.

#### **Baseline**

Baseline figures, which are represented by darker-lined cell borders, are projected access volumes and/or concurrent usage levels for the first year and the four subsequent option years, and will be used to compute evaluated price totals. Entries for all periods (baseline and non-baseline) will be evaluated to determine Fair Market Price and Price Balance and will become contract prices at time of award.

#### **Unlimited Access**

The tables also allow pricing for Unlimited Access. For the purposes of this contract, Unlimited Access is defined as Unlimited Number of Users. Unlimited Access pricing will be evaluated to determine Fair Market Price and Price Balance and will become contract prices at time of award. Vendors who choose not to offer Unlimited Access pricing must enter "No Bid" in each of these cells.
