

(the Board) by the Port of Tacoma, grantee of FTZ 86, requesting authority on behalf of Tesoro Refining and Marketing Company (Tesoro), to expand the scope of manufacturing activity conducted under zone procedures within Subzone 86D at the Tesoro oil refinery complex in Anacortes, Washington. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on July 10, 2007.

Subzone 86D (108,200 BPD capacity, 350 employees) was approved by the Board in 2001 for the manufacture of fuel products and certain petrochemical feedstocks and refinery by-products (Board Order 1140, 66 FR 6583-6585, 1-22-2001).

The subzone is located on West March Point Road in Anacortes, Washington (Skagit County). The request anticipates expansion of Tesoro's crude unit and modifications and upgrades to existing units within the refinery complex that may increase the overall crude distillation capacity of the refinery up to 150,000 BPD. No additional feedstocks or products have been requested.

Zone procedures would exempt the increased production from customs duty payments on the foreign products used in its exports. On domestic sales of the increased production, the company would be able to choose the finished product duty rate on certain petrochemical feedstocks and refinery by-products (duty-free) by admitting foreign crude oil in non-privileged foreign status. The duty rates on crude oil range from 5.25 cents/barrel to 10.5 cents/barrel. The application indicates that the savings from zone procedures help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is September 17, 2007. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to October 1, 2007).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

[Docket No. 070619210-7211-01]

Request for Public Comments on a Systematic Review of the Commerce Control List

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Notice of inquiry.

SUMMARY: The Bureau of Industry and Security (BIS) is soliciting comments from the public regarding the Commerce Control List (CCL) in the Export Administration Regulations (EAR). BIS has already requested that its Technical Advisory Committees (TACs) review the CCL and recommend potential changes to BIS. BIS believes that it would also be beneficial to allow interested members of the public to submit comments regarding the CCL.

DATES: Comments must be received by September 17, 2007.

ADDRESSES: Written comments on this notice of inquiry may be sent by e-mail to publiccomments@bis.doc.gov. Include "Notice of Inquiry—CCL" in the subject line of the message. Comments may also be submitted by mail or hand delivery to Timothy Mooney, Office of Exporter Services, Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, 14th St. & Pennsylvania Avenue, NW., Room 2705, Washington, DC 20230, ATTN: Notice of Inquiry—CCL; or by fax to (202) 482-3355.

FOR FURTHER INFORMATION CONTACT: Timothy Mooney, Regulatory Policy Division, Bureau of Industry and Security, telephone: (202) 482-2440, e-mail: tmooney@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

Background

The Commerce Control List (CCL) is found in Supplement No. 1 to part 774 of the EAR. The CCL is a list of items subject to the Export Administration Regulations (EAR). Items subject to the EAR are under the export control jurisdiction of the Bureau of Industry and Security (BIS), U.S. Department of Commerce. The CCL covers items (i.e., commodities, software, and technology) enumerated in Export Control Classification Numbers (ECCNs). There are 10 general categories (0-9) of ECCNs and each category has five parts (Systems, Equipment and Components; Test, Inspection and Production Equipment; Materials; Software; and Technology). The CCL covers a broad range of commodities, software and technologies and plays an important role in the U.S. system for controlling the export of dual-use items. Items not listed on the CCL, but subject to the EAR, are designated as EAR99.

Changes are made regularly to the CCL to reflect revisions in the control lists of the multilateral export control regimes (Wassenaar Arrangement; Missile Technology Control Regime; Australia Group; Nuclear Suppliers' Group). To conduct a more systematic review of the CCL, BIS has requested that its TACs review the CCL and recommend potential changes to BIS.

In addition to seeking recommendations from its TACs, BIS is also inviting the interested public to submit comments regarding:

(1) The overall structure of the CCL, including suggestions for how the structure of the CCL may be changed to better advance U.S. national security, foreign policy, and economic interests;

(2) Types of items that should be listed on the CCL and the appropriate levels of controls to be placed on those items, taking into account technology levels, markets, and foreign availability;

(3) Any updates to the CCL item descriptions that would enable the descriptions to better reflect the intent of the multinational controls and to eliminate any overly broad descriptions that inadvertently capture non-critical items that are not controlled by other countries; and

(4) Coordination and harmonization of controls on items covered by the multilateral regimes, such as the Wassenaar Arrangement.

Comments should be submitted to BIS as described in the **ADDRESSES** section of this notice by September 17, 2007.

Dated: July 11, 2007.

Matthew S. Borman,

Deputy Assistant Secretary for Export Administration.
