

amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these chart changes to SIAPs, the TERPS criteria were applied to only these specific conditions existing at the affected airports. All SIAP amendments in this rule have been previously issued by the FAA in a FDC NOTAM as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for all these SIAP amendments requires making them effective in less than 30 days.

Further, the SIAPs contained in this amendment are based on the criteria contained in TERPS. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are impracticable and contrary to the public interest and, where applicable, that good cause exists for making these SIAPs effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established

body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Revisions and Clarifications of License Exception Availability, License Requirements and Licensing Policy for Certain Crime Control Items

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: This rule removes the geographic restrictions on use of a

license exception used to ship items to U.S. government agencies, applies those geographic restrictions on use of license exceptions to crime control software and technology, reclassifies thumbcuffs on the Commerce Control List, and restates and emphasizes BIS’s policy of distinguishing crime control items from specially designed implements of torture for export control purposes.

DATES: This rule is effective March 6, 2007.

ADDRESSES: Comments may be submitted by e-mail to *publiccomments@bis.doc.gov*; by fax to (202) 482-3355; or on paper to Regulatory Policy Division, Office of Exporter Services, Bureau of Industry

SUPPLEMENTARY INFORMATION:

Background

The Export Administration Regulations (EAR) impose license requirements on certain items because of their potential use in crime control activities. These license requirements are maintained to support U.S. foreign policy to promote human rights. This rule revises the EAR to make certain shipments of crime control items consigned to and for the use of U.S. government agencies eligible for a license exception. It also clarifies and strengthens limits on use of License Exceptions for crime control items generally and clearly delineates between our export control policies regarding legitimate crime control items (a policy of reviewing license applications based on the human rights record in the destination country with some exceptions to the license requirements available in appropriate circumstances) and our policies regarding specially designed implements of torture (a general policy of denial of license applications and no license exceptions available). In addition to these changes, BIS is continuing to review the list of items restricted for crime control reasons to ensure that such controls keep pace with the technologies currently used by law enforcement. The specific changes made by this rule are described more fully below.

Specific Changes Made by This Rule

Clarification of the Application of the Restrictions in § 740.2(a)(4) to Software and Technology

This rule replaces the word “commodities” in paragraph (a)(4) of § 740.2 with the word “items” to make clear that the restrictions of paragraph (a)(4) on the use of License Exceptions to export or reexport crime control items

apply to software and technology, as well as commodities.

Exemption of Exports and Reexports to and for the Official Use of the United States Government From the Restrictions of § 740.2(a)(4)

This rule revises paragraph (a)(4) of § 740.2 to permit the use of License Exception GOV for the export of items subject to § 742.7 of the EAR if consigned to and for the official use of any U.S. government agency, worldwide. Although this change applies to any U.S. Government agency, BIS is making it at this time because of the need to supply U.S. armed forces in locations that, prior to publication of this rule, would be subject to the geographic restriction on use of License Exceptions for crime control items. This rule does not expand the scope of eligible recipients under License Exception GOV. In particular, this rule does not make shipments consigned to contractors employed by the U.S. government eligible for License Exception GOV. This rule also reformats paragraph (a)(4) while retaining its pre-existing exemptions for shipments to NATO countries, Australia, New Zealand and Japan as well as certain shipments of shotguns for personal use.

Clarification of Policy Regarding Specially Designed Implements of Torture

This rule creates a new paragraph (a)(10) in § 740.2. The new paragraph (a)(10) expressly prohibits the use of License Exceptions for all commodities subject to the license requirements of § 742.11 of the EAR (specially designed implements of torture and some related commodities).

Clarification of the Applicability of § 742.11 to All Commodities in ECCN 0A983

This rule revises the heading and paragraph (a) of § 742.11 of the EAR to make clear that the license requirements and licensing policy of that section apply to all commodities that are controlled by Export Control Classification Number (ECCN) 0A983. Such was BIS’s interpretation prior to publication of this rule and BIS does not view this as a substantive change. However, prior to publication of this rule, ECCN 0A983 referred to “specially designed implements of torture and thumbscrews; and parts and accessories, n.e.s.,” whereas § 742.11 referred to “specially designed implements of torture controlled by ECCN 0A983.” This rule makes the wording of the headings of § 742.11 and ECCN 0A983 identical and revises the license

requirements section of § 742.11 to refer to “any commodity controlled by ECCN 0A983.”

Placement of Thumbcuffs in ECCN 0A983 To Reflect Licensing Policy

This rule removes thumbcuffs from ECCN 0A982 and adds them to ECCN 0A983. BIS’s licensing policy is generally to deny applications to export or reexport thumbcuffs. Controlling them under ECCN 0A983, for which § 742.11 of the EAR provides a general policy of denial, more accurately states BIS’s licensing policy than does controlling them under ECCN 0A982, for which § 742.7 provides for favorable case-by-case consideration “unless there is civil disorder in the country or region or unless there is evidence that the government of the importing country may have violated internationally recognized human rights.” In addition, this change will make thumbcuffs ineligible for any License Exception under any circumstances. This rule also adds a “related controls” note to ECCN 0A982 to guide readers to ECCN 0A983 for controls on thumbcuffs.

Although the Export Administration Act of 1979 (EAA), as amended, expired on August 20, 2001, Executive Order 13222 of August 17, 2001 (3 CFR, 2001 Comp., p. 783 (2002)) as extended by the Notice of August 3, 2006, 71 FR 44551 (August 7, 2006), continues the EAR in effect under the International Emergency Economic Powers Act (IEEPA).

Rulemaking Requirements

1. This rule has been determined to be not significant for purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to nor be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously approved by the OMB under control numbers 0694-0088, “Multi-Purpose Application,” which carries a burden hour estimate of 58 minutes to prepare and submit form BIS-748. Miscellaneous and recordkeeping activities account for 12 minutes per submission. BIS estimates that this rule will reduce the number of multi-purpose application forms that must be filed by about 100 per year.

3. This rule does not contain policies with Federalism implications as that

term is defined in Executive Order 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military or foreign affairs function of the United States (see 5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are not applicable.

Dandruff, Seborrheic Dermatitis, and Psoriasis Drug Products Containing Coal Tar and Menthol for Over-the-Counter Human Use; Amendment to the Monograph

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is issuing a final rule amending the final monograph (FM) for over-the-counter (OTC) dandruff, seborrheic dermatitis, and psoriasis drug products to include the combination of 1.8 percent coal tar solution and 1.5 percent menthol in a shampoo drug product to control dandruff. FDA did not receive any comments or data in response to its previously proposed rule to include this combination. This final rule is part of FDA’s ongoing review of OTC drug products.
