

**REPORT ON UNAUTHORIZED APPROPRIATIONS
AND EXPIRING AUTHORIZATIONS**

JANUARY 15, 1991

**The Congress of the United States
Congressional Budget Office**

OVERVIEW

The Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) requires the Congressional Budget Office (CBO) to report to the Congress on unauthorized appropriations and expiring authorizations. Section 221(b) of the act added this requirement to Section 202(f) of the Congressional Budget and Impoundment Control Act of 1974, as amended:

(3) On or before January 15 of each year, the Director, after consultation with the appropriate committees of the House and the Senate, shall submit to the Congress a report listing (A) all programs and activities funded during the fiscal year ending September 30 of that calendar year for which authorizations for appropriations have not been enacted for that fiscal year, and (B) all programs and activities for which no authorizations for appropriations have been enacted for the fiscal year beginning October 1 of that calendar year.

The conference report on the Balanced Budget Act states that the purpose of the requirement is "to help Congress use the early months of the year to adopt authorizing legislation that must be in place before the thirteen regular appropriation bills can be considered."

The content of this report consists of two appendixes. Appendix A summarizes programs that have received fiscal year 1991 appropriations, but which lack specific authorizations of appropriations for that year. Appendix B lists programs whose specific authorizations of appropriations will expire by the end of fiscal year 1991. The listings include data on all public laws enacted during the Second Session of the 101st Congress. The information on authorizations is contained in CBO's Legislative Classification System (LCS). The information on amounts appropriated for fiscal year 1991 is from CBO's estimates of the current level of federal spending.

PROGRAMS FUNDED IN FISCAL YEAR 1991
WITHOUT AUTHORIZATIONS OF APPROPRIATIONS

Appendix A summarizes programs and activities that have received fiscal year 1991 appropriations, but which lack authorizations of appropriations for that year.

The Congress at one time provided explicit authorizations of appropriations for the programs listed, but the authorizations expired and have not been renewed. Appendix A shows the last funding level authorized for each of these programs.

Where the appropriate fiscal year 1991 appropriation bills or the legislative history provided explicit funding levels for programs listed in Appendix A, the amounts are shown. When no explicit amounts were provided (as when a small program was funded at an unidentified level in a large appropriation account), the Appendix notes that no amounts are available, and no dollar figures are shown.

Two characteristics of the information in Appendix A should be noted. First, even if the fiscal year 1991 appropriation for a program or activity was not authorized, the agency normally may obligate and spend the funds. Second, Appendix A may not list every program and activity funded in fiscal year 1991 without an authorization. CBO does not track expiring authorizations that do not explicitly authorize appropriations, such as the Veterans Administration's authority to provide respite care. CBO also does not track unauthorized earmarks--that is, set asides--in appropriation acts.

Tables 1 and 2 summarize the amounts appropriated in FY 1991 for programs and activities without authorizations by House and Senate authorizing committees, respectively. Table 3 summarizes the funding levels for programs that once had explicit authorizations of appropriations, listing the amounts by public law.

Major Unauthorized Programs

The total amount of unauthorized appropriations decreased from \$55.5 billion in FY 1990 to \$34.1 billion in FY 1991. This resulted from the reauthorization of several programs included among the FY 1990 unauthorized appropriations. The two largest are the Department of Housing and Urban Development's housing and community development programs and the activities of the National Aeronautics and Space Administration. In addition, the majority of the two laws with the largest authorizations expiring in 1990 were reauthorized. The reauthorizations for the Department of Defense and a majority of the food and agriculture programs accounted for \$313.4 billion of the \$324.5 billion which had been scheduled to expire in 1990.

Only \$1.7 billion of the \$34.1 billion in fiscal year 1991 appropriations summarized in Appendix A are for programs whose most recent authorizations of appropriations expired at the end of fiscal year 1990. The largest of these programs is the Department of Agriculture Puerto Rico block grant (\$974 million). Other programs in this category included activities of the Intelligence Community

and the CIA retirement and disability fund (\$194 million).

The other \$32.4 billion in unauthorized fiscal year 1991 appropriations are for programs whose authorizations expired before the Second Session of the 101st Congress. In this category, unauthorized funds for international security and development and foreign assistance programs totalled \$11.4 billion. The 99th Congress authorized funding for those programs through fiscal year 1987. Over \$7.3 billion are for the Department of Justice. The annual authorization for most of the Department's programs has not been enacted since 1979.

Over \$5.0 billion of the unauthorized funds are for civilian Department of Energy (DOE) programs. Annual authorizations for these programs are required by law, but funding for most of them was last authorized, through fiscal year 1984, by the Omnibus Budget Reconciliation Act of 1981. The Renewable Energy and Energy Efficiency Competitiveness Act of 1989 reauthorized DOE renewable energy programs for fiscal years 1991 through 1993.

**SUMMARY OF AUTHORIZATIONS OF APPROPRIATIONS EXPIRING
BETWEEN JANUARY 15, 1991 AND SEPTEMBER 30, 1991**

Appendix B summarizes the authorizations of appropriations that will expire between January 15 and September 30, 1991. The listing indicates by public law the amounts authorized to be appropriated for expiring programs and activities.

Tables 4 through 7 provide aggregate information on the expiring authorizations of appropriations listed in Appendix B. Table 4 shows the number of laws that will expire before fiscal year 1992, classified by the amounts they authorize to be appropriated for fiscal year 1991. Tables 5 and 6 summarize the expiring laws by House and Senate authorizing committees, respectively. Shown for each committee is the number of expiring laws under its jurisdiction and the total authorizations for fiscal year 1991. Table 7 lists the expiring laws that authorize fiscal year 1991 appropriations greater than \$50 million.

Major Expiring Authorizations

The laws with the largest expiring authorizations are annual ones and are included in Appendix B. The largest of these include statutes that authorized fiscal year 1991 funding for the Department of Defense, the National Aeronautics and Space Administration, and Department of State narcotics control activities.

Also expiring before fiscal year 1992 are two-year authorizations for foreign relations activities of the State Department and the Department of Transportation Coast Guard activities. The largest expiring three-year authorization is for the Department of Health and Human Services assistance to older Americans.
