DATE: August 19, 1991
FROM: Chief, HMD
SUBJECT: Invitations to RMP Conference - Foundations
TO: Director, NLM

In response to your query about inviting heads of major medical foundations to the RMP conference, I have gone through the medical education and the health sections of the Foundation Reporter and selected a number of foundations to whom you may wish to consider sending special letters of invitation. Information about these foundations, including their philosophy, directors, addresses, etc., may be found in the attached photocopied excerpts from the Foundation Reporter.

John Parascandola
John Parascandola

P.S. In most cases the listing gives the Chairman of the Board of Trustees, and not the President or Executive Director, in a few cases both are listed. Of course Pat could call these other foundations and get the President or Director's name if you wish.
