Acquisition

7. What was the first budget year this investment was submitted to OMB?

FY2003

8. Provide a brief summary and justification for this investment, including a brief description of how this closes in part or in whole an identified agency performance gap.

The mission of the National Biodefense Analysis and Countermeasures Center (NBACC) is to provide the nation with the scientific basis for awareness of biological threats and attribution of their use against the American public by: "Understanding current and future biological threats, assessing vulnerabilities, and determining potential impacts to guide the development of biodefense countermeasures" (this functionality is associated with the Bio-Threat Characterization Center (BTCC)); and "Providing national capability to conduct forensic analysis of evidence from bio-crimes and terrorism to attain a biological fingerprint to identify perpetrators and determine the origin and method of attack" (this functionality is associated with the National Bio-Forensics Analysis Center (NBFAC)).

NBACC is part of the Biological Countermeasures program, which provides the technologies and systems needed to anticipate, deter, detect, mitigate, and recover from possible biological attacks on this nation's population, agriculture or infrastructure. The program operates laboratories and biological detection systems and conducts research. In 2004, this program (Code 10002394) received a PART rating of "Effective": "This program is highly effective at providing countermeasures and protective technologies to mitigate the effects of biological agents."

9. Did the Agency's Executive/Investment Committee approve this request?

SUMMARY OF FUNDING

SUMMARY OF SPENDING FOR PROJECT PHASES (In Millions)

1. Provide the total estimated life-cycle cost for this investment by completing the following table. All amounts represent budget authority in millions, and are rounded to three decimal places. Federal personnel costs should be included only in the row designated "Government FTE Cost," and should be excluded from the amounts shown for "Planning," "Full Acquisition," and "Operation/Maintenance." The total estimated annual cost of the investment is the sum of costs for "Planning," "Full Acquisition," and "Operation/Maintenance." For Federal buildings and facilities, life-cycle costs should include long term energy, environmental, decommissioning, and/or restoration costs. The costs associated with the entire life-cycle of the investment should be included in this report.

All amounts represent Budget Authority
