The Department assigns separate rates in non-market economy (“NME”) cases only if the applicant can demonstrate an absence of both *de jure* and *de facto* governmental control over its export activities in accordance with the separate-rates test criteria. In determining whether companies should receive separate rates, we focus our attention on the exporter rather than the manufacturer. See Notice of Final Determination of Sales at Less Than Fair Value: Manganese Metal from the People’s Republic of China, 60 FR 56045 (November 6, 1995). Consequently, in this proceeding, the Department will limit its consideration of separate-rate applications to firms that exported subject merchandise to the United States during the period of investigation (“POI”), July 1, 2006 through December 31, 2006. To be considered for separate-rate treatment, an applying firm must have exported subject merchandise to the United States during the POR in a commercial transaction.

To establish whether a company’s export activities are sufficiently independent of the government to be eligible for separate rate status, the Department analyzes each exporting entity under the test established in the Final Determination of Sales at Less Than Fair Value: Sparklers from the People’s Republic of China, 56 FR 20588 (May 6, 1991) (“Sparklers”), and later expanded upon in Final Determination of Sales at Less Than Fair Value: Silicon Carbide from the People’s Republic of China, 59 FR 22585 (May 2, 1994) (“Silicon Carbide”). Under this analysis, exporters of subject merchandise are accorded separate, company-specific margins if they can provide sufficient proof of an absence of government control, both in law and in fact, with respect to export activities. Evidence supporting, though not requiring, a finding of *de jure* absence of government control over export activities includes: 1) an absence of restrictive stipulations associated with an individual exporter’s business and export licenses; 2) any legislative enactments decentralizing control of companies; and 3) any other formal measures by the central and/or local government decentralizing control of companies. See Sparklers, 56 FR at 20588.

Our analysis of absence of *de facto* government control over exports is typically based on the following four factors: 1) whether each exporter sets its own export prices independent of the government and without the approval of a government authority; 2) whether each exporter retains the proceeds from its sales and makes independent decisions regarding disposition of profits or financing of losses; 3) whether each exporter has the authority to negotiate and sign contracts and other agreements; and 4) whether each exporter has autonomy from the government regarding the selection of management. See Silicon Carbide, 59 FR at 22586-87.

Following the test outlined above, this form is an application for separate-rate treatment and is intended for firms not selected as mandatory respondents by the Department, but which nonetheless seek a separate rate. Firms that the Department selects to be mandatory respondents will be required to respond to the Department’s antidumping questionnaire. Because firms will have the opportunity to respond to the separate rates application immediately upon initiation of the investigation and before the Department selects mandatory respondents, it is possible that an entity the Department selects to be a mandatory respondent will have already submitted an application for a separate rate. In such cases, the firm may refer to its already submitted separate rate application for the section of the questionnaire that deals with separate rates.

- Applicants must individually complete and submit this form with all the required supporting documentation by **May 4, 2007**. The deadline appears on the coversheet of this application, and applies equally to NME-owned and wholly market-economy owned firms. Firms whose applications are incomplete or otherwise deficient may be denied a separate rate.
- In addition to submitting a complete application, your firm must also respond to the Department's Q&V questionnaire as discussed in the initiation notice to receive consideration for a separate rate. Responses to the Q&V questionnaire from all participating respondents are necessary to ensure that the Department has the requisite information to appropriately select mandatory respondents.
- NME firms owned wholly by entities located in market-economy countries, provided that the ultimate owners are also located in market-economy countries ("wholly market-economy owned firms"), need only fill out the certifications contained in this application and provide supporting documentation for the fields in the application that are marked with an asterisk, "\*". These marked fields pertain to the firm's eligibility for separate rates consideration based on having sold subject merchandise to the United States during the POI and support the firm's claim that it is in fact wholly owned by a market-economy entity. This information is also necessary for administration once a separate rate has been issued.
- There are two sets of requirements for reporting any affiliations with other firms involved in the production or sale of the subject merchandise, one for wholly market-economy owned firms and another for NME-owned firms.
  - Wholly market-economy owned firms are required to report *all* of their affiliations with other firms involved in the production or sale of the subject merchandise.
  - Firms that are not owned wholly by market-economy entities, however, must only identify any affiliates that exported subject merchandise to the United States during the period of investigation and any U.S. affiliates involved in the sale of the subject merchandise.
- Each applicant seeking separate rate status must submit a separate and complete individual application regardless of any common ownership or affiliation between firms and regardless of foreign ownership.
- The name that is provided to the Department in the application must be the name that appears on the exporter's business license/registration documents. All shipments to the United States declared to U.S. Customs and Border Protection must identify the exporter by its legal business name, and this name must match the name that appears on the exporter's business/registration documents. If your firm is assigned separate rate status,

your firm will only be able to ship under your separate rate names that are included on your business license/registration documents.

- All documents submitted in response to a specific question must pertain to the same sale. If volumes or values do not exactly match from one document to the next, the applicant must provide a clear narrative explanation as to why they do not and what the appropriate links are among the documents. The applicant must also provide and explain additional documentation necessary to corroborate its explanation in this regard. For example, if an invoice shows a sales value of \$10,000, but the payment amount is \$15,000, the applicant must explain the difference and provide documentary support for the explanation.
- **All** documents submitted with the application must be, to the extent possible, direct unaltered photocopies of the original documents (*i.e.*, no copies of copies, and the documents must not be altered in any way, including tracing). All documents submitted with the application must be legible to the maximum extent possible. In case the direct photocopy is not legible, or if submitting a direct photocopy is not possible, you must supply the most legible unaltered photocopy available. Firms that are not able to submit completely legible copies of all the documents required in the application, or are unable to submit a required document, must complete the additional certification in Appendix B and include an explanation of why the submission of completely legible documents is not possible. In addition, you must provide supplemental information explaining the contents of any documents that are not fully legible. Illegible or altered documents cannot be considered evidence of the points for which they are required if not accompanied by the requisite certifications and explanations in Appendix B.
- All documents generated in a language other than English must be translated into English. The original language document must also be included with all translations. If all documentation is not complete or if documents are not fully translated, the Department will consider these documents missing for purposes of the separate rate analysis.
- Please label all documents submitted in response to the application with sequential page numbers, so the Department may refer to each document by its respective page number.

The application is divided into five sections. Section I contains the required certifications that an officer of the company must make to the Department, indicating that the information provided in the application is correct. Section II identifies the firm that is applying for separate rate status and demonstrates that this firm is eligible for a separate rate by confirming that it exported or sold subject merchandise to the United States during the period of investigation. Section III certifies that the firm meets the *de jure* requirements, *i.e.*, that there are no legal barriers to a firm's independent control over its export activities at either the national or any sub-national level. Section IV attests to *de facto* independence, *i.e.*, that this *de jure* independence also exists in practice. Section V deals with filing requirements and gives applicants an opportunity to request business proprietary treatment for information that they submit. Appendix A provides a sample chart of corporate affiliations that firms may wish to reference. Appendix B contains an

additional certification for firms that are unable to submit completely legible copies of all the documents required in the application must complete.

Firms completing this form are certifying that their responses contained in this form are true and accurate and that the supporting documentation support the answers they provide in the application. The Department only accepts applications that are completed in full (except for wholly market-economy owned enterprises<sup>1</sup>) and submitted with all the required supporting documentation filed timely and in proper form. Sections II, III, and IV require supporting documentation, and the fields in these sections that require supporting documentation are identified in the application and list the specific types of documents that the Department accepts for each certification. As noted above, all supporting documentation pertaining to a U.S. sale must pertain to the same sale and be legible to the maximum extent possible. Moreover, the information contained in these documents must be consistent. If there are any discrepancies between information contained in a series of documents pertaining to the same sale, all such discrepancies must be clearly identified and explained. This is necessary to substantiate the claim for separate rates eligibility. Submission of alternate documents in lieu of documents that are not available and/or clarification of documents that are not completely legible may be acceptable, depending on the facts of each individual case, but may result in the Department's issuance of additional supplemental questions and the conduct of an on-site verification to establish the integrity, reliability, relevance and suitability of the alternative documentation for separate-rate purposes. All firms that do not provide completely legible photocopies of all of the documents that are required in the application must make the additional certification in Appendix B and include an explanation of why the submission of completely legible photocopies of all the documents required in the application is not possible.

Since firms have clear notice of what is required to document a separate-rate claim, incomplete applications may be rejected without supplementary questionnaires. Completing the application and submitting the supporting documentation does not guarantee receipt of separate rate status. The Department will review each completed application. If the Department finds that the certifications are not supported by the attached documents or are incomplete, the applicant will not have demonstrated to the Department that it qualifies for a separate rate and may receive a rate based on adverse facts available. If the applicant does not provide the required documentation in the appropriately required form or is unable or unwilling to make the requested certifications, the applicant will not have demonstrated its eligibility for a separate rate. If necessary, the Department will issue questionnaires for the purpose of clarifying fully responsive answers. The Department retains the right to require additional information concerning the representations made in your firm's application. All information submitted and representations made by applicants are subject to verification. If the Department selects your firm for an on-site verification, the Department will provide your firm with additional instructions at a time preceding the verification.

<sup>11</sup> It is the Department's understanding that an export certificate of approval or foreign trade operator registration form issued by the appropriate licensing authorities is required for all export activity. Therefore, the Department will not consider a separate rate for any applicant not providing such a certificate/form.

4. In order to conduct export activities, is the applicant required by any national, provincial, or local government law or regulation to possess additional certificates or other documents related to the legal status and/or operation of its business beyond those discussed above?<sup>12</sup>

<sup>18</sup> Applicants must provide documents showing price negotiation, not documents merely confirming that a sale will take place at a given price. If your firm conducts its price negotiation by phone, does not keep phone logs of meetings conducted over the phone, and therefore has no records of price negotiation, you are required to attach 1) a certification that there are no records of price negotiation, and 2) an affidavit signed and dated by the unaffiliated U.S. customer attesting that it conducts independent price negotiation with the applying firm. - appointment letters
- director meeting minutes
- company-issued resolutions/notifications (besides appointment letters)

11. Provide the name of each manager and board member in the applicant's company who held a management position during the period of investigation and the date (month, day, year) that each of the managers obtained his or her position at your company. Also provide the names of each manager and his or her employment (i.e., position, name of company) for the three years prior to working at your company if they have been working at your company for less than three years.

12. Have any of the applying firm's managers or board members worked for the government, at any level (national, provincial, local), or any government entities, in the past three years?

\_\_\_ Yes

\_\_\_ No

---

18.  The applicant certifies that it is submitting with the application audited year-end financial statements covering all months of the POI as well as any other information which supports the applicant's response to question 17 above.<sup>19</sup> If the applicant does not have audited year-end financial statements for the period in question, it must affirmatively state so and submit with the application un-audited year-end financial statements covering all months of the POI.

---

<sup>19</sup> If financial statements covering the POR are not available at the time this application is filed, please indicate when these statements would be available and submitted to the Department, and provide the Department with monthly financial statements, if available.

## **SECTION V**

### **Instructions for Filing the Application**

1. File your application in Washington, D.C., at the address listed on the coversheet of the application.
2. Proprietary versions of the application must be submitted by the day specified on the coversheet of the application. The public version of the application may be filed one business day after the proprietary version. As per section 351.204(c)(2) of the Department's regulations, you will also have one day after submission of the proprietary version to correct any errors in the bracketing. If you make any changes, you will be required to resubmit the entire application.
3. File the original and six copies of the proprietary version. However, if you file an electronic copy of the proprietary version in either Word Perfect or Microsoft Word format, you need file only the original version and four copies. In case of any difference between the paper response and the content of the electronic media, the paper response is the controlling version.

File the original and three copies of the public version of your narrative response and attachments.

4. Submit the required certification of accuracy. Providers of information and the person(s) submitting it, if different (e.g., a legal representative), must certify that they have read the submission and that the information submitted is accurate and complete. The Department cannot accept questionnaire responses that do not contain the certification statements.
5. Provide the required certificate of service with each proprietary version and public version submitted to the Department.
6. Request proprietary treatment for information submitted that you do not wish to be made publicly available. As a general rule, the Department places all correspondence and submissions received in the course of an antidumping proceeding in a public reading file. However, information deemed to be proprietary information will not be made available to the public.<sup>20</sup>

If you wish to make a request for proprietary treatment for particular information, refer to sections 351.304, 351.305, and 351.306 of the Department's regulations. Submit the request for proprietary treatment with the submission of the proprietary version of the questionnaire response accompanied by:

- (A) a non-proprietary (public) version of your response that is in sufficient detail to permit a reasonable understanding of the information submitted in confidence, and/or
- (B) an itemization of particular information that you believe you are unable to summarize. State the reasons why you cannot summarize each piece of information.<sup>21</sup>

Responses, or portions thereof, that are not adequately summarized may be returned to you and not used.

7. Submit the statements required regarding limited release of proprietary information under the provisions of an administrative protective order ("APO"). U.S. law permits limited disclosure to representatives of parties (e.g., legal counsel) of certain business proprietary information, including electronic business proprietary information, under an APO. (Note that data received under an APO cannot be shared with others who are not covered by the APO.) Under the provisions governing APO disclosure, you must submit either:
  - (A) a statement agreeing to permit the release under APO of information submitted by you in confidence during the course of the proceeding, or
  - (B) a statement itemizing those portions of the information which you believe should not be released under APO, together with arguments supporting your objections to that

---

<sup>20</sup> Supplier names will not be considered proprietary information where the Department has excluded the exporter from the antidumping duty order. Exclusions of non-producing exporters will be granted only to exporter-supplier combinations.

<sup>21</sup> Generally, numerical data are adequately summarized if grouped or presented in terms of indices or figures ranged within then percent of the actual figure. If a particular portion of the data is voluminous, use ranged figures for at least one percent of the voluminous portion.

release.<sup>22</sup> As per section 351.304(b)(2)(i) of the Department's regulations, you must provide a clear and compelling need not to disclose the information under APO

We are required by our regulations to reject, at the time of filing, submissions of business proprietary information that do not contain one of these statements. You must state in the upper right-hand corner of the cover letter accompanying your questionnaire response whether you agree or object to release of the submitted information under APO. (See section 351.304 of our regulations for specific instructions.)<sup>23</sup>

8. Place brackets (" [ ]") around information for which you request business proprietary treatment. Place double brackets ("[[ ]]") around information for which you request proprietary treatment and which you do not agree to release under APO.
9. Provide to all parties whose representatives have been granted APO access (as listed in the cover letter to the questionnaire or as listed on the most recent APO and public service lists posted on the Department's website at: <http://ia.ita.doc.gov/apo/apo-svc-lists.html>.) a complete copy of the submission, proprietary and public versions, except for that information which you do not agree to release under APO. If you exclude information because you do not agree to release it under APO, submit with your response to the Department a certificate of service and a copy of the APO version of the document containing the information that you agree may be released under APO. For parties that do not have access to information under APO, you are required to provide a public version only.
10. Please prepare your response in typed form and in English.

---

<sup>22</sup> The Department will not disclose proprietary customer names under APO during an antidumping investigation until either an order is published or the investigation is suspended. To insure that proprietary customer names are properly treated in this case, place double brackets ("[[ ]]") around all proprietary customer names in your submissions to the Department during the course of this investigation.

<sup>23</sup> If you do not agree to release under APO all or part of the proprietary information, but we determine that the information should be released, you will have the opportunity to withdraw the information (see section 351.304(d) of our regulations). However, any information which you withdraw will be taken out of the official record and will not be used in our determination.
