GEOGRAPHICAL LOCATION CODES FOR FOREIGN COUNTRIES

(TL:FMH-1;   04-15-1994)

4 FAH-1 H-811 SCOPE

(TL:FMH-1;   04-15-1994)

This section provides lists of geographical locations to identify foreign countries and cities within the countries. The countries are listed in alphabetical sequence by Geographic Area (ARA—Bureau of Inter-American Affairs; EUR—Bureau of European and Canadian Affairs; EAP—Bureau of East Asian and Pacific Affairs; NEA—Bureau of Near Eastern and South Asian Affairs; and AF—Bureau of African Affairs) in 4 FAH-1 H-820, with the two character alpha codes. The cities within the country are listed alphabetically under the country name with the appropriate city numerical codes. These lists relate to and supplement 4 FAH-1 H-431 and 4 FAH-1 H-435.

Table 2 of FIPS PUB 10-3, dated February 9, 1984 as updated, is reprinted in 4 FAH-1 H-830. It provides a list of alpha codes and countries sequenced by code.

The two character country alpha codes are derived from the National Bureau of Standards Publication, FIPS PUB l0, as indicated above and in accordance with Pub. L. 89-306 (79 Stat. 1127), as implemented by Executive Order 11717 (38 FR 12315, dated May 11, 1973). The numeric city codes are provided by the General Service Administration, as published in WORLDWIDE GEOGRAPHICAL LOCATION CODES.

4 FAH-1 H-812 APPLICABILITY

(TL:FMH-1;   04-15-1994)

The standard two character country alpha codes are prescribed for the interchange of formatted machine sensible coded data between and among agencies and between agencies and the public. Specifically, these codes are required in the Department of State's Real Property and Personnel records and GSA Real Property Owned and Leased Inventory reporting.

The country code is shown in parenthesis following the country name. For example: Argentina (AR). The four digit numeric city codes are required in Personnel Reporting to the Office of Personnel Management (OPM) and in the GSA Real Property Owned and Leased Inventory reporting.
