

Terrorism Deaths, Injuries, Kidnappings of Private U.S. Citizens, 2005*

Provided by the Bureau of Consular Affairs, U.S. Department of State

The term "Private U.S. Citizen" refers to any U.S. citizen not acting in an official capacity on behalf of the U.S. Government; therefore these figures do not include, for example, U.S. military personnel killed or injured in a terrorism-related incident while on active duty or employees of the Department of State and other federal agencies. Members of U.S. Government employees' households are considered private U.S. citizens.

Although every effort was made to include all terrorism-related deaths and injuries involving private U.S. citizens, the figures below reflect only those cases reported to, or known by, the U.S. Department of State, and may not reflect actual numbers of injured, which may not always be reported depending on their severity. As NCTC also notes, in the cases of Iraq and Afghanistan, it is particularly difficult to gather comprehensive information about all incidents and to distinguish terrorism from the numerous other forms of violence.

U.S. citizens worldwide killed as a result of incidents of terrorism	56
U.S. citizens worldwide injured as a result of incidents of terrorism	17
U.S. citizens worldwide kidnapped as a result of incidents of terrorism	11

*In all cases limited to incidents targeting noncombatants.

Terrorism Deaths of Private U.S. Citizens in 2005 (by country)
