

Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a). Bars and rods

Rolled, extruded, drawn or forged products, not in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles," of which two opposite sides are convex arcs, the other two sides being straight of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width. The expression also covers cast or sintered products, of the same forms and dimensions, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(b). Profiles

Rolled, extruded, drawn, forged or formed products, coiled or not, of a uniform cross section along their whole length, which do not conform to any of the definitions of bars, rods, wire, plates, sheets, strip, foil, tubes or pipes. The expression also covers cast or sintered products, of the same forms, which have been subsequently worked after production (otherwise than by simple trimming or descaling), provided that they have not thereby assumed the character of articles or products of other headings.

(c). Wire

Rolled, extruded or drawn products, in coils, which have a uniform solid cross section along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons (including "flattened circles" and "modified rectangles," of which two opposite sides are convex arcs, the other two sides being straight of equal length and parallel). Products with a rectangular (including square), triangular or polygonal cross section may have corners rounded along their whole length. The thickness of such products which have a rectangular (including "modified rectangular") cross section exceeds one-tenth of the width.

(d). Plates, sheets, strip and foil

Flat-surfaced products (other than the unwrought products of heading 7502), coiled or not, of solid rectangular (other than square) cross section with or without rounded corners (including "modified rectangles" of which two opposite sides are convex arcs, the other two sides being straight, of equal length and parallel) of a uniform thickness, which are:

- of rectangular (including square) shape with a thickness not exceeding one-tenth of the width,
- of a shape other than rectangular or square, of any size, provided that they do not assume the character of articles or of products of other headings.

Heading 7506 applies, *inter alia*, to plates, sheets, strip and foil with patterns (for example, grooves, ribs, checkers, tears, buttons, lozenges) and to such products which have been perforated, corrugated, polished or coated, provided that they do not thereby assume the character of articles or products of other headings.

(e). Tubes and pipes

Hollow products, coiled or not, which have a uniform cross section with only one enclosed void along their whole length in the shape of circles, ovals, rectangles (including squares), equilateral triangles or regular convex polygons, and which have a uniform wall thickness. Products with a rectangular (including square), equilateral triangular, or regular convex polygonal cross section, which may have corners rounded along their whole length, are also to be taken to be tubes and pipes provided the inner and outer cross sections are concentric and have the same form and orientation. Tubes and pipes of the foregoing cross sections may be polished, coated, bent, threaded, drilled, wasted, expanded, cone-shaped or fitted with flanges, collars or rings.

Subheading Note

1. In this chapter the following expressions have the meanings hereby assigned to them:

(a). Nickel, not alloyed

Metal containing by weight at least 99 percent of nickel plus cobalt, provided that:

- (i). The cobalt content by weight does not exceed 1.5 percent, and
- (ii). The content by weight of any other element does not exceed the limit specified in the following table:

Table – Other elements

Element	Limiting content percent by weight
Fe iron	0.5
O oxygen	0.4
Other elements, each	0.3

(b). Nickel alloys

Metallic substances in which nickel predominates by weight over each of the other elements provided that:

- (i). The content by weight of cobalt exceeds 1.5 percent,
- (ii). The content by weight of at least one of the other elements is greater than the limit specified in the foregoing table, or
- (iii). The total content by weight of elements other than nickel plus cobalt exceeds 1 percent.

2. Notwithstanding the provisions of note 1 (c), for the purpose of subheading 7508.10 the term "wire" applies only to products, whether or not in coils, of any cross-sectional shape, of which no cross-sectional dimension exceeds 6mm.

Section XV – Chapter 75

Schedule B No. and Headings	Commodity Description	Unit of Quantity
7501	Nickel mattes, nickel oxide sinters and other intermediate products of nickel metallurgy:	
7501.10.0000	Nickel mattes	kg
7501.20.0000	Nickel oxide sinters and other intermediate products of nickel metallurgy	kg
7502	Unwrought nickel:	
7502.10.0000	Nickel, not alloyed	kg
7502.20.0000	Nickel alloys	kg
7503.00.0000	Nickel waste and scrap	kg
7504	Nickel powders and flakes:	
7504.00.0010	Powders	kg
7504.00.0050	Flakes	kg
7505	Nickel bars, rods, profiles and wire:	
	Bars, rods and profiles:	
7505.11.0000	Of nickel, not alloyed	kg
7505.12.0000	Of nickel alloys	kg
	Wire:	
7505.21.0000	Of nickel, not alloyed	kg
7505.22.0000	Of nickel alloys	kg
7506	Nickel plates, sheets, strip and foil:	
7506.10	Of nickel, not alloyed:	
7506.10.1500	Plates, sheets, and strip	kg
7506.10.5000	Foil	kg
7506.20	Of nickel alloys:	
7506.20.1500	Plates, sheets and strip	kg
7506.20.5000	Foil	kg

Section XV – Chapter 75

Schedule B No. and Headings	Commodity Description	Unit of Quantity
7507	Nickel tubes, pipes and tube or pipe fittings (for example, couplings, elbows, sleeves):	
	Tubes and pipes:	
7507.11.0000	Of nickel, not alloyed	kg
7507.12.0000	Of nickel alloys	kg
7507.20.0000	Tube or pipe fittings	kg
7508	Other articles of nickel:	
7508.10.0000	Cloth, grill and netting of nickel wire	kg
7508.90.0000	Other	kg
