CEMENT IN NOVEMBER 2008

This report provides monthly data on the shipments of cement to final customers, and the production of clinker, in the United States from January 2007 through the current month.¹ Data on the imports of cement and clinker for the current month are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico for November 2008 were about 6.6 million metric tons (Mt). This was about 30% lower than shipments in November 2007 (tables 2A and 2B); sales declined in all States and districts. Year-to-date shipments were about 90.6 Mt, down by about 15% from those of the same period in 2007. The leading producing States (Texas, California, Missouri, Pennsylvania, and Florida, in descending order) shipped about 37% of the November total (table 1A). The leading consuming States (Texas, California, Florida, Illinois, and New York, in descending order) received about 37% of November's total shipments (tables 2A and 2B).

Clinker production totaled about 6.6 Mt, about 9% lower than the production in November 2007 (table 4). Year-to-date

production was 74.4 Mt, down by about 7% compared with that of the same period in 2007. The leading clinker-producing States (California, Texas, Alabama, Missouri, and Pennsylvania, in descending order) produced about 43% of the November total.

Masonry cement shipments in November of about 191,000 metric tons were about 38% lower than shipments for November 2007 (table 2C). Year-to-date shipments were 2.89 Mt, down by about 29% from those of the same period in 2007. The leading consuming States in November, in descending order, were Florida, Texas, California, Georgia, and North Carolina, and these States received about 47% of November's total shipments.

Tables 5, 6, and 7 contain import data from the U.S. Census Bureau. Data for clinker imports into the Seattle and possibly the Detroit customs districts are likely incomplete owing to some shipments arriving overland from Canada on an informal entry basis. November 2008 imports of cement and clinker were about 0.8 Mt, down by about 46% from imports in November 2007. Year-to-date imports were 10.8 Mt, down by about 49%.

An e-mail notification will be sent to MI-CEMENT list service subscribers when new publications or data releases become available. For more information, refer to USGS Minerals Information Publication List Services at: <http://minerals.usgs.gov/minerals/pubs/listservices.html>.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report. Data for the current month may contain revisions (not indicated by footnotes) received since the publication of the preliminary edition of the current month's report.

-- Zero.

¹Data are unrounded but are believed to be accurate to no more than three significant digits.

²Includes imported cement and cement manufactured from imported clinker.

³Blended cement defined per ASTM standard C595.

⁴Includes U.S. possessions and territories.

⁵Data may not add to totals shown because of independent rounding.

^pPreliminary.

¹Data are unrounded but are believed to be accurate to no more than three significant digits.

²Includes imported cement manufactured from imported clinker.

³Revised compared with last year's version of this table.

⁴Includes U.S. possessions and territories.

⁵Data may not add to totals shown because of independent rounding.

Total:					
Quantity	754,124	10,787,487			
Value ⁵	\$66,724,708	\$945,613,952			

-- Zero.

¹Includes white cement and clinker.

²Includes Puerto Rico.

³Value = c.i.f. (cost, insurance, and freight).

⁴Data for the Seattle and Detroit districts for imports from Canada are believed to be underrepresented with respect to clinker.

⁵The year-to-date data for Japan include 4,669 tons (into Anchorage in June) that is believed to be material from the Republic of Korea but which remains uncorrected in the official data.

Source: U.S. Census Bureau.
