CEMENT IN JANUARY 2009

This report provides monthly data on the shipments of cement to final customers, and the production of clinker, in the United States from January 2008 through the current month.¹ Data on the imports of cement and clinker for the current month are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico for January 2009 were about 4.4 million metric tons (Mt). This was almost 31% lower than shipments in January 2008 (tables 2A and 2B). The leading producing States (Texas, California, Alabama, Florida, and Missouri, in descending order) shipped nearly 47% of the January total (table 1A). The leading consuming States (Texas, California, Florida, Louisiana, and Arizona, in descending order) received about 48% of January's total shipments (tables 2A and 2B).

Clinker production totaled about 4.6 Mt, nearly 27% lower than the production in January 2008 (table 4). The leading clinker-producing States (Texas, California, Missouri,

Pennsylvania, and Florida, in descending order) produced almost 49% of the January total.

Masonry cement shipments in January of about 145,000 metric tons (t) were about 40% lower than shipments for January 2008 (table 2C). The leading consuming States in January, in descending order, were Florida, Texas, California, Georgia, and North Carolina, and these States received about 54% of January's total shipments.

Tables 5, 6, and 7 contain import data from the U.S. Census Bureau. Data for clinker imports into the Seattle and possibly the Detroit customs districts are likely incomplete owing to some shipments arriving overland from Canada on an informal entry basis. January 2009 imports of cement and clinker were about 393,000 t, down by nearly 62% from imports in January 2008.

An e-mail notification will be sent to MI-CEMENT list service subscribers when new publications or data releases become available. For more information, refer to USGS Minerals Information Publication List Services at: <http://minerals.usgs.gov/minerals/pubs/listservices.html>.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report. Data for the current month may contain revisions (not indicated by footnotes) received since the publication of the preliminary edition of the current month's report.

^rRevised.

¹Data are unrounded but are believed to be accurate to no more than three significant digits.

²Includes cement manufactured from imported clinker.

³Data may not add to totals shown because of independent rounding.

⁴Beginning January 2009, California, northern, is included in California, southern.

⁵As reported by domestic and Canadian cement manufacturers and other importers.
