JULY/AUGUST 1974 REVIEW CYCLE

Application: This application requests \$363,545 for support of 9 new project activities. June Council recommended \$1,633,380 for the May application. Five projects relate to Health Care Delivery, one project to the More Effective Use of Health Manpower, and three projects to Disease Control. All projects relate to categories of Health Services outlined within the major program thrust. The application includes CHP comments.

MAY/JUNE 1974 REVIEWRequest: \$1,733,380Committee Recommendation: \$1,633,380Overall assessment by individual reviewers: Above Average - Average

Critique:

The Review Committee felt that the recommended amount would allow the Program sufficient financial latitude and require them to take a more careful look at the overambitious project #91, Regionalization of Perinatal Care (\$325,808).

The Committee felt that the Kansas RMP has received good leadership from Dr. Robert Brown. He has received support from a talented staff which has been reduced considerably in size since the planned phase-out (February 1973). Concern was expressed regarding the absence on the staff of minority representation. With the phase-out, an outstanding black professional staff member found other employment. The staff is well populated with female professionals.

Another concern centered on the lack of documentation regarding the anticipated funding for the continuation of new activities beyond June 30, 1975.

Project #91, Regionalization of Perinatal Care (\$325,808) was a very ambitious project and reviewers felt that some issues were not adequately addressed. Dr. Brown is enthusiastic regarding the future of the project and the prospects for continued funding of it.

JULY/AUGUST REVIEWEstimated request as of May 1974: \$300,000

MCO 6/4/74

NATIONAL ADVISORY COUNCIL - June 13-14, 1974

Council concurred with Committee recommendation.

DRMP funding decision - \$1,551,988
