**NEW RESIDENTIAL CONSTRUCTION IN OCTOBER 2005**

The U.S. Census Bureau and the Department of Housing and Urban Development jointly announced the following new residential construction statistics for October 2005:

**BUILDING PERMITS**

Privately-owned housing units authorized by building permits in October were at a seasonally adjusted annual rate of 2,071,000. This is 6.7 percent ( $\pm 1.0\%$ ) below the revised September rate of 2,219,000 and is 1.1 percent ( $\pm 1.2\%$ )<sup>\*</sup> below the October 2004 estimate of 2,093,000.

Single-family authorizations in October were at a rate of 1,681,000; this is 4.9 percent ( $\pm 1.1\%$ ) below the September figure of 1,767,000. Authorizations of units in buildings with five units or more were at a rate of 306,000 in October.

**HOUSING STARTS**

Privately-owned housing starts in October were at a seasonally adjusted annual rate of 2,014,000. This is 5.6 percent ( $\pm 7.7\%$ )<sup>\*</sup> below the revised September estimate of 2,134,000 and is 2.3 percent ( $\pm 6.8\%$ )<sup>\*</sup> below the October 2004 rate of 2,062,000.

Single-family housing starts in October 2005 were at a rate of 1,704,000; this is 3.7 percent ( $\pm 8.8\%$ )<sup>\*</sup> below the September figure of 1,770,000. The October rate for units in buildings with five units or more was 271,000.

**HOUSING COMPLETIONS**

Privately-owned housing completions in October were at a seasonally adjusted annual rate of 1,964,000. This is unchanged ( $\pm 7.0\%$ )<sup>\*</sup> from the revised September estimate and is 6.7 percent ( $\pm 9.3\%$ )<sup>\*</sup> above the October 2004 rate of 1,841,000.

Single-family housing completions in October 2005 were at a rate of 1,612,000; this is 3.6 percent ( $\pm 7.5\%$ )<sup>\*</sup> below the September figure of 1,672,000. The October rate for units in buildings with five units or more was 330,000.

*New Residential Construction data for November 2005 will be released on Tuesday, December 20, 2005, at 8:30 A.M. EST.*

**EXPLANATORY NOTES**

In interpreting changes in the statistics in this release, note that month-to-month changes in seasonally adjusted statistics often show movements which may be irregular. It may take 4 months to establish an underlying trend for building permit authorizations, 6 months for total starts, and 6 months for total completions. The statistics in this release are estimated from sample surveys and are subject to sampling variability as well as nonsampling error including bias and variance from response, nonreporting, and undercoverage. Estimated relative standard errors of the most recent data are shown in the tables. Whenever a statement such as "2.5 percent ( $\pm 3.2\%$ ) above" appears in the text, this indicates the range (-0.7 to +5.7 percent) in which the actual percent change is likely to have occurred. All ranges given for percent changes are 90-percent confidence intervals and account only for sampling variability. If a range does not contain zero, the change is statistically significant. If it does contain zero, the change is not statistically significant; that is, it is uncertain whether there was an increase or decrease. The same policies apply to the confidence intervals for percent changes shown in the tables. On average, the preliminary seasonally adjusted estimates of total building permits, housing starts and housing completions are revised about one percent. Explanations of confidence intervals and sampling variability can be found on our web site listed above.

<sup>\*</sup>90% confidence interval includes zero. The Census Bureau does not have sufficient statistical evidence to conclude that the actual change is different from zero.

**Table 1. New Privately-Owned Housing Units Authorized in Permit-Issuing Places**

Note: These data represent the number of housing units authorized in all months up to and including the last day of the reporting period and not started as of that date without regard to the months of original permit issuance. Cancelled, abandoned, expired, and revoked permits are excluded.
