<sup>1</sup>Includes data for educational service agencies. Educational service agencies are not classified as independent governments for Census Bureau statistics on state and local governments.

<sup>2</sup>Includes data for public libraries operated by public school systems.

<sup>3</sup>Includes data for state operated school districts.

Note: The data in this table might show minor differences from other tables in this report. The discrepancies occur principally in the counts of dependent schools and their related data for the following states: Alaska, Arizona, California, District of Columbia, Massachusetts, Maine, New York, Tennessee, Virginia, and Wisconsin. The results, which occurred because of timing differences in processing, do not substantially affect the relationships among the categories in this table.

## Definition of Selected Terms

---

*An understanding of the terms used in this report is necessary to interpret the statistical findings properly. These terms are grouped in the following categories: Government Units, Employees, and Government Functions.*

### GOVERNMENT UNITS

**Government units.** A government is an organized entity whose governmental character is evidenced by popular election of the officials or their appointment by public officials, a high degree of public accountability, and the power to raise revenue to provide authorized services. In addition, a governmental unit must have sufficient discretion in the management of its own affairs to distinguish it from the administrative structure of any other government unit.<sup>1</sup>

**State governments.** Refers to the governments of the 50 states that constitute the United States.

### Types of Local Governments

The U.S. Census Bureau recognizes five basic types of local governments. Of these five types, three are general purpose governments—county and subcounty general purpose (municipal and township) governments. The other two types are special purpose governments—school district governments and special district governments. These types of governments are briefly described as follows:

1. **County governments.** Organized local governments authorized in state constitutions and statutes and established to provide general government; includes those governments designated as boroughs in Alaska, as parishes in Louisiana, and as counties in other states.
2. **Subcounty general purpose governments.** This category includes municipal and township governments. Municipal and township governments are distinguished primarily by the historical circumstances surrounding their incorporation.
  - a. **Municipal governments.** Organized local governments authorized in state constitutions and statutes and established to provide general government for a defined area; includes those

governments designated as cities, boroughs (except in Alaska), towns (except in the six New England states, Minnesota, New York, and Wisconsin), and villages. This concept corresponds generally to the “incorporated places” that are recognized in Census Bureau reporting of population and housing statistics, subject to an important qualification—the count of municipal governments in this report excludes places that are currently governmentally inactive.

- b. **Township governments.** Organized local governments authorized in state constitutions and statutes and established to provide general government for a defined area; includes those governments designated as towns in Connecticut, Maine (including organized plantations), Massachusetts, Minnesota, New Hampshire (including organized locations), New York, Rhode Island, Vermont, and Wisconsin, and townships in other states.
3. **School district governments.** Organized local entities providing public elementary, secondary, and/or higher education which, under state law, have sufficient administrative and fiscal autonomy to qualify as separate governments. Excludes “dependent public school systems” of county, municipal, township, or state governments.
4. **Special district governments.** All organized local entities other than the four categories listed above, authorized by state law to provide only one or a limited number of designated functions, and with sufficient administrative and fiscal autonomy to qualify as separate governments; known by a variety of titles, including districts, authorities, boards, commissions, etc., as specified in the enabling state legislation.

### EMPLOYEES

Employees include all persons paid for services performed in the indicated pay period, including any persons in a paid leave status. Employees who have multiple responsibilities are reported once at the functional classification which is their primary responsibility. Contractors and their employees are excluded.

**Full-time employees.** Persons employed during the pay period to work the number of hours per week that represents regular full-time employment. Included are full-time temporary or seasonal employees who are working the number of hours that represent full-time employment.

---

<sup>1</sup>For more detailed information concerning the identification and classification of governments, see Volume 1, No. 2, *State Descriptions*, of the 2002 Census of Governments.

---

**Part-time employees.** Persons paid on a part-time basis during the designated pay period. Included are those daily or hourly employees usually engaged for less than the regular full-time workweek, as well as any part-time paid officials.

**Full-time equivalent employees.** Full-time equivalent is a computed statistic representing the number of full-time employees that could have been employed if the reported number of hours worked by part-time employees had been worked by full-time employees. This statistic is calculated separately for each function of a government by dividing the “part-time hours paid” by the standard number of hours for full-time employees in the particular government and then adding the resulting quotient to the number of full-time employees.

## GOVERNMENT FUNCTIONS

Employment and payrolls of governments are classified according to the major function or activity of the agency, office, or other organizational entity in which the individual is employed. Following is a brief description of each functional category used in this report:

**Air transportation.** Operation and support of publicly operated airport facilities.

**Correction.** Activities pertaining to the confinement and correction of adults and minors convicted of criminal offenses. Pardon, probation, and parole activities are also included here.

**Electric power.** Activities associated with the production or acquisition and distribution of electric power.

**Elementary and secondary education.** All activities associated with the operation of public elementary and secondary schools and locally operated vocational-technical schools. Special education programs operated by elementary and secondary school systems are also included as are all ancillary services associated with the operation of schools, such as pupil transportation and food service. Instructional employees includes not only classroom teachers, but also principals, supervisors of instruction, librarians, teacher aides, library aides, and guidance and psychological personnel. Other employees includes all persons not included as instructional employees (e.g., school superintendents and other administrative personnel, clerical and secretarial staffs, plant operation and maintenance personnel, health and recreation employees, transportation and food service personnel, and any student employees).

**Financial administration.** Includes activities concerned with tax assessment and collection, custody and disbursement of funds, debt management, administration of trust

funds, budgeting, and other government-wide financial management activities. This function is not applied to school district or special district governments.

**Fire protection.** Applies to local government fire protection and prevention activities plus any ambulance, rescue, or other auxiliary services provided by a fire protection agency. Volunteer firefighters, if remunerated for their services on a “per fire” or some other basis, are included as part-time employees. The subcategory of firefighters shown in this report includes personnel trained and/or engaged in fire suppression and prevention.

**Gas supply.** Local government activities associated with the acquisition of gas supplies and distribution to individual consumers.

**Health.** Administration of public health programs, community and visiting nurse services, immunization programs, drug abuse rehabilitation programs, health and food inspection activities, operation of outpatient clinics, and environmental pollution control activities are included in this classification.

**Higher education.** Includes local government degree granting institutions that provide academic training above grade 12. Instructional employees includes persons engaged in teaching and related academic research. Other employees includes all persons not included as instructional employees (e.g., administrative, clerical, custodial, cafeteria, health personnel, noninstructional employees engaged in organized research, law enforcement personnel, and paid student employees).

**Highways.** Activities associated with the maintenance and operation of streets, roads, sidewalks, bridges, tunnels, toll roads, and ferries are included at this function. Snow and ice removal, street lighting, and highway and traffic engineering activities are also included here.

**Hospitals.** Includes only government operated medical care facilities that provide inpatient care. Employees and payrolls of private corporations which lease and operate government-owned hospital facilities are excluded.

**Housing and community development.** The operation of housing and redevelopment projects and other activities to promote or aid housing and community development.

**Judicial and legal.** Includes all court and court related activities (except probation and parole activities that are included at the “Correction” function), court activities of sheriff’s offices, prosecuting attorneys’ and public defender’s offices, legal departments, and attorneys providing government-wide legal service.

**Libraries.** Applies only to libraries operated by local governments for use by the general public. School and law libraries are included in the “Elementary and secondary education” or “Higher education,” and “Judicial and legal” categories respectively.

---

**Natural resources.** Activities primarily concerned with the conservation and development of natural resources—forest fire prevention and control, flood control, irrigation, drainage, land and forest reclamation, fish and game preservation and control, soil conservation, forestry, agricultural aids and research, agricultural development and inspection, and mineral resources activities.

**Other government administration.** Applies to the legislative and government-wide administrative agencies of governments. Included here are overall planning and zoning activities, and central personnel and administrative activities. This function is not applied to school district or special district governments.

**Parks and recreation.** Government activities that include the operation and maintenance of parks, playgrounds, swimming pools, public beaches, auditoriums, public golf courses, museums, marinas, botanical gardens, and zoological parks.

**Police protection.** All activities concerned, with the enforcement of law and order, including coroner's offices, police training academies, investigation bureaus, and local jails, "lockups," or other detention facilities not intended to serve as correctional facilities. The subcategory of police officers includes only persons with the power of arrest.

**Public welfare.** Included in this category are such activities as the administration of various public assistance programs for the needy, operation of homes for the elderly, indigent care institutions, and programs that provide payments for medical care, handicap transportation, and other services for the needy. Health care and hospital services provided directly by a government, however, are included in the "Health" and "Hospital" functions rather than here.

**Sewerage.** The provision, maintenance, and operation of sanitary and storm sewer systems and sewage disposal and treatment facilities.

**Social insurance administration.** The administration and conduct of social insurance programs. For state governments, these activities include unemployment compensation and worker compensation programs, work/study programs, and determination of eligibility for Federal Old Age, Survivors, Disability, and Health Insurance (Social Security). Federal activities in this category are primarily those performed by the Social Security Administration and the Pension Benefit Guarantee Corporation.

**Solid waste management.** Refuse collection and disposal, operation of sanitary landfills, and street cleaning activities.

**Space research and technology.** Federal space activities are primarily programs of the National Aeronautics and Space Administration.

**State liquor stores.** The administration and operation of liquor stores by state governments.

**Transit.** Activities relating to the operation and maintenance of public mass transit systems (e.g., bus, subway, surface rail, and street railroad systems). Elementary and secondary school transportation systems are included in the "Elementary and secondary education" function.

**Water supply.** Local government activities associated with the production or acquisition of water and distribution to the public.

**Water transport and terminals.** Activities that are connected with the operation and support of canals and other waterways, harbors, docks, wharves, and other related marine terminal facilities.

FROM THE ACTING DIRECTOR  
U.S. CENSUS BUREAU

We are requesting your help with the 2002 Census of Governments, Survey of Government Employment. Through this voluntary survey, authorized by Title 13, United States Code, Section 182, we collect data on state and local government employment and payrolls for one pay period in March of each year.

Results of this survey provide the only source of nationwide comprehensive information on this subject. The U.S. Congress, federal agencies, state and local governments, educational and research organizations, and the general public use these results. Some major uses include:

1. Development of the government purchases of goods and services component of the gross domestic product.
2. Development of the national income accounts.
3. Development of personal income figures for states and county areas.
4. Allocation of certain federal grant funds.
5. Legislative research.
6. Wage and salary negotiations by state and local governments.
7. Comparative studies of employment by function and by state and local governments.

Please help us by completing this form with information from your agency's payroll record(s) and returning the addressed copy in the enclosed envelope (within three weeks, if possible). **We request that you retain a photocopy of the completed reply for your records.** Prompt and accurate completion of this form will save further effort and correspondence.

If you have any questions, please call the U.S. Census Bureau's Governments Division on 1-800-642-4901. Thank you for your cooperation in this voluntary survey. The Census Bureau appreciates your help.

Sincerely,

William G. Barron, Jr.

4. Allocation of certain federal grant funds.
5. Legislative research.
6. Wage and salary negotiations by state and local governments.
7. Comparative studies of employment by function and by state and local governments.

Please help us by completing this form with information from your agency's payroll record(s) and returning the addressed copy in the enclosed envelope (within three weeks, if possible). **We request that you retain a photocopy of the completed reply for your records.** Prompt and accurate completion of this form will save further effort and correspondence.

FROM THE ACTING DIRECTOR  
U.S. CENSUS BUREAU

We are requesting your help with the 2002 Census of Governments, Survey of Government Employment. Through this voluntary survey, authorized by Title 13, United States Code, Section 182, we collect data on state and local government employment and payrolls for one pay period in March of each year.

Results of this survey provide the only source of nationwide comprehensive information on this subject. The U.S. Congress, federal agencies, state and local governments, educational and research organizations, and the general public use these results. Some major uses include:

1. Development of the government purchases of goods and services component of the gross domestic product.
2. Development of the national income accounts.
3. Development of personal income figures for states and county areas.
4. Allocation of certain federal grant funds.
5. Legislative research.
6. Wage and salary negotiations by state and local governments.
7. Comparative studies of employment by function and by state and local governments.

Please help us by completing this form with information from your agency's payroll record(s) and returning the addressed copy in the enclosed envelope (within three weeks, if possible). **We request that you retain a photocopy of the completed reply for your records.** Prompt and accurate completion of this form will save further effort and correspondence.

If you have any questions, please call the U.S. Census Bureau's Governments Division on 1-800-832-2839. Thank you for your cooperation in this voluntary survey. The Census Bureau appreciates your help.

Sincerely,

William G. Barron, Jr.

Under the Paperwork Reduction Act, we cannot ask you to respond to a collection of information unless it displays a currently valid OMB control number. FROM THE ACTING DIRECTOR  
U.S. CENSUS BUREAU

We are requesting your help with the 2002 Census of Governments, Survey of Government Employment. Through this voluntary survey, authorized by Title 13, United States Code, Section 182, we collect data on state and local government employment and payrolls for one pay period in March of each year.

Results of this survey provide the only source of nationwide comprehensive information on this subject. The U.S. Congress, federal agencies, state and local governments, educational and research organizations, and the general public use these results. Some major uses include:

1. Development of the government purchases of goods and services component of the gross domestic product.
2. Development of the national income accounts.
3. Development of personal income figures for states and county areas.
4. Allocation of certain federal grant funds.
5. Legislative research.
6. Wage and salary negotiations by state and local governments.
7. Comparative studies of employment by function and by state and local governments.

Please help us by completing this form with information from your agency's payroll record(s) and returning the addressed copy in the enclosed envelope (within three weeks, if possible). **We request that you retain a photocopy of the completed reply for your records.** Prompt and accurate completion of this form will save further effort and correspondence.

If you have any questions, please call the U.S. Census Bureau's Governments Division on 1-800-832-2839. Thank you for your cooperation in this voluntary survey. The Census Bureau appreciates your help.

Sincerely,

William G. Barron, Jr.

FROM THE ACTING DIRECTOR  
U.S. CENSUS BUREAU

We are requesting your help with the 2002 Census of Governments, Survey of Government Employment. Through this voluntary survey, authorized by Title 13, United States Code, Section 182, we collect data on state and local government employment and payrolls for one pay period in March of each year.

Results of this survey provide the only source of nationwide comprehensive information on this subject. The U.S. Congress, federal agencies, state and local governments, educational and research organizations, and the general public use these results. Some major uses include:

1. Development of the government purchases of goods and services component of the gross domestic product.
2. Development of the national income accounts.
3. Development of personal income figures for states and county areas.
4. Allocation of certain federal grant funds.
5. Legislative research.
6. Wage and salary negotiations by state and local governments.
7. Comparative studies of employment by function and by state and local governments.

Please help us by completing this form with the information from your agency's payroll record(s) and returning the addressed copy in the enclosed envelope (within three weeks, if possible). **We request that you retain a photocopy of the completed reply for your records.** Prompt and accurate completion of this form will save further effort and correspondence.

If you have any questions, please call the U.S. Census Bureau's Governments Division on 1-800-832-2839. Thank you for your cooperation in this voluntary survey. The Census Bureau appreciates your help.

3. Development of personal income figures for states and county areas.
4. Allocation of certain federal grant funds.
5. Legislative research.
6. Wage and salary negotiations by state and local governments.
7. Comparative studies of employment by function and by state and local governments.

Please help us by completing this form with information from your agency's payroll record(s) and returning the addressed copy in the enclosed envelope (within three weeks, if possible). **We request that you retain a photocopy of the completed reply for your records.** Prompt and accurate completion of this form will save further effort and correspondence.
