18 - Month Calendar of National Meetings

April 1, 1971 thru September 30, 1972

This Calendar consists of "Part A.--Alphabetical Listing" and "Part B.-Chronological Listing" of national meetings and conferences (many are international) in which persons engaged in health activities may have an interest. State and local meetings are not included.

The purpose of the Calendar is to serve as an informational guide, and is based on information selected from scientific publications and other sources. Issued quarterly, it shows a forecast of meetings for the succeeding 18 months. Because dates and places of some meetings are subject to change, anyone planning to attend a given meeting should first confirm the information.

One asterisk(*) indicates a change from the previous issue of the Calendar. Two asterisks (**) indicate that the meeting receives support from an agency of the Department of Health, Education, and Welfare.

This 18-Month Calendar is prepared in the Office of Grants Management, Office of the Administrator, Health Services and Mental Health Administration. Additional copies may be obtained by calling Area Code 301 - 443-1884
