

Ideal opportunity to enter India's Renewable Energy market

Renewable Energy Expo 2009

August 10-12, 2009 New Delhi, India

Be part of India's rush towards renewable energy – break new ground in the **first-ever official USA Pavilion** at India's largest Renewable Energy Expo!

Space is Limited. Only 12 booths available – join now!

Why you should join the USA Pavilion:

- The largest Renewable Energy Expo in India
- Your opportunity to meet 15,000 trade visitors, 325 exhibitors and 2500 delegates from 20 countries
- Your chance to showcase your company and products before an audience of key government and industry buyers
- A listing of your company in the show guide
- Located in a highly visible location
- Thousands of high quality visitors
- Experienced U.S. Commercial Service India staff to support you for on-site meetings
- Customized matchmaking opportunities available

Why India is a great market for you:

- The Indian market for clean energy products is estimated at \$600 million; the market for energy efficiency is estimated at \$3 billion.
- India is currently experiencing annual growth of energy demand of 9 percent a year.
- India has the potential to generate over 85,000 (estimated) MW in renewable energy. The current installed capacity of 10,000 MW is expected to reach 15,000 MW by 2012.
- India has recorded renewable energy investment deals worth \$134 million in 2008
- The Indian government has extended fiscal and financial assistance to the renewable energy sector including waste-to-energy and bio fuels projects.
