

**Table 803. Farm Income—Cash Receipts From Farm Marketings: 2000 to 2006**

[In millions of dollars (192,066 represents \$192,066,000,000). Represents gross receipts from commercial market sales as well as net Commodity Credit Corporation loans. The source estimates and publishes individual cash receipt values only for major commodities and major producing states. The U.S. receipts for individual commodities, computed as the sum of the reported states, may understate the value of sales for some commodities. The degree of underestimation in some of the minor commodities can be substantial]
