

USGS Repeat Photography Usage Form

The USGS Global Change Research Program is interested in the diverse ways these repeat images are used around the globe. While a release form is not necessary, we would greatly appreciate information about your intended use. Please take time to complete the following form as an outline for providing details of your project. **Additionally, if possible, we'd also appreciate a copy, link, cd, or sample of the finished product that includes our photos.**

THANK YOU!

Name:

Phone Number:

Email:

Intended Use:
(eg Publication and date)

Photos Downloaded (general description -eg. Agassiz pair, Grinnell from Gould):

Comments/suggestions (optional):

Send completed form to: Lisa_McKeon@usgs.gov
