

Legend of Federal Agency's Relocation Funding

1. Frequency assignments highlighted in **BLUE** are relocating to other **fixed microwave bands or technologies** using relocation funding.

2. Frequency assignments highlighted in **YELLOW** are relocating to other **fixed** microwave bands **or technologies** using agency appropriated funds.

3. Frequency assignments highlighted in **RED** are classified. Data listed by an "***" will not **be** provided.

4. Frequency assignments highlighted in **ORANGE** are experimental and are not required to relocate to other frequency bands **or technologies**. These frequency assignments **are temporary and must operate on a non-interference basis to private sector operations**.

5. Frequency assignments highlighted in **GRAY** are those that have been deleted.

6. Frequency assignments that contain "zeros" in the serial number are new frequency assignments that are required **for repeaters** due to a system relocating to a higher frequency band.

7. Frequency assignments that have a serial number ending with an "R" denote repeaters/reflectors and are associated with the assignment of the same serial number (less the "R").

*** Note: BOLD indicates a revision and GRAY indicates a deletion from the original submitted 1710-1755 MHz relocation data provided to the FCC and Congress on December 27, 2005.**
