TABLE R75. Incidence rates1 for nonfatal occupational injuries and illnesses involving days away from work2 per 10,000 full-time workers by event or exposure leading to injury or illness and industry division, 2002 - Continued

Event	Event code ³	Private industry ⁴		Goods	producing		Service producing					
			Agricul- ture, forestry, and fishing ⁴	Mining ⁵	Con- struction	Manufac- turing	Transpor- tation and public utilities ⁶	Whole- sale trade	Retail trade	Finance, insur- ance, and real estate	Ser- vices	
Other events or exposures	9	_	0.2	_	0.1	_	0.1	-	-	_	-	
Nonclassifiable	9999	1.7	4.8	3.6	2.8	1.9	3.8	1.2	1.2	0.5	1.3	

¹ Incidence rates represent the number of injuries and illnesses per 10,000 full-time workers and were calculated as: (N/EH) x 20,000,000 where

= number of injuries and illnesses

EΗ = total hours worked by all employees

during the calendar year 20,000,000 = base for 10,000 equivalent full-time workers (working 40 hours per week, 50 weeks per year) Data for mining operators in coal, metal, and nonmetal mining are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor. Independent mining contractors are excluded from the coal, metal, and nonmetal mining industries. These data do not reflect the changes OSHA made to its recordkeeping requirements effective January 1, 2002; therefore estimates for

these industries are not comparable with estimates for other industries.

⁶ Data for employers in railroad transportation are provided to BLS by the Federal Railroad Administration, U.S. Department of Transportation. These data do not reflect the changes OSHA made to its recordkeeping requirements effective January 1, 2002; therefore estimates for these industries are not comparable with estimates for other industries.

Less than 0.1 case per 10,000 full-time workers.

NOTE: Dashes indicate data that are not available. Because of rounding, data may not sum to totals.

n.e.c. = not elsewhere classified.

SOURCE: Bureau of Labor Statistics, U.S. Department of Labor

² Days-away-from-work cases include those that result in days away from work with or without job transfer or restriction.

Based on the 1992 Occupational Injury and Illness Classification System developed by the Bureau of Labor Statistics.

Excludes farms with fewer than 11 employees.

⁵ Data for mining (Division B in the Standard Industrial Classification Manual, 1987 edition) include establishments not governed by the Mine Safety and Health Administration (MSHA) rules and reporting, such as those in oil and gas extraction.
